BURGLARY.—The Emmet House was entered by some burglars on Saturday night, and robbed of about one hundred and fifty dollars worth of clothes, belonging to the boarders. Two of the cars were somewhat injured, but no damage was done to their contents. The express and passenger trains made their regular trips.

LOST.—Cupid, who seems to entertain a special regard for the legal fraternity, since he is perpetually inducing mortals to commit offences which must come under the cognizance of the blind goddess, yesterday caused Minerva John son to lay a complaint before the Mayor, against Miss Kaler who was held to bail to keep the peace.

ASSAULT AND BATTERY.—Edward Lodey was committed to prison yesterday by Alderman Wiggins, charged on oath of John Laes with assault and battery with intent to kill.

La Patrie announces officially that the President has no intention of proclaiming an Empire.

A remarkable statement appears in the London Times respecting the course to be pursued by Austria, Prussia, and Russia, in the event of Louis Napoleon assuming the title of Emperor. The substance is that Prince Schwarzenburg had addressed a circular to the European Courts, expressing the conviction that Napoleon was about to erect an Imperial throne, adding that Austria felt no alarm in advocating the claims of the President to the friendship and alliance of the conservative governments. Prussia answered this circular on the 18th, and Russia on the 20th of February.

The tenor of both replies is that the two powers looked upon the design with neither favor nor hostility; that they believe he is disposed to adopt the foreign policy of his uncle and is now aiming to separate the powers in order to profit hereafter by that separation, but that these powers, acting in concert could keep him in check. Russia and Prussia, however, would recognize him as Emperor, if elected to that office, but merely as an elective monarch and not as the founder of a Napoleonic dynasty.

It is stated that a Camp of Exercise of 60,000 men is to be formed at Campeigne to be commanded by the President.

CONGRESSIONAL.

WASHINGTON, May 5.

HOUSE.—The Speaker announced that the business first in order, was the joint resolution proposing to print 1000 copies of the mechanical portion of the Patent Office Report.

The House then proceeded to consider the resolution.

Mr. Clingman moved to recommit with instructions to report to the House, what, if any, arrangements have been made to have the public printing executed.

A long and protracted debate on the resolution followed, and without coming to any action, the House adjourned.

SENATE.—Previous to adjournment, Mr. Hunter spoke in opposition to the amendment for additional aid to the Collins' line, and in reply to those who had advocated the measure. When he concluded, the Senate adjourned.

WASHINGTON, April 6.

HOUSE.—Mr. Freeman, from the committee on Public Lands, reported several bills granting the Right of Way of lands to Mississippi, Louisiana, Illinois, Indiana and Arkansas for railroad purposes. Referred to committee of the whole.

The House resumed the consideration of the resolution to print the Patent Office Report.—The proposition of Mr. Clingman made yesterday to recommit with instructions to report to the House what, if any, arrangement had been made to have the public printing executed was adopted.

The Homestead Bill was then taken up in committee of the whole. The first section of the bill as originally reported provided that every man or widow who is head of a family and citizen of the United States, shall, from and after the passage of the act, be entitled to enter, free of cost, one quarter section of vacant and unappropriated land, to be located in a body, in conformity with legal subdivisions of public lands. The committee on Agriculture to which the bill was referred, reported an amendment to this section confining the provision to those who were citizens January 1st, 1852 not the owners of any lands nor worth the sum of five hundred dollars and who had not disposed of his or her land for the purpose of obtaining the benefit of the privileges of this act to strike out the words "nor worth the sum of five hundred dollars," Mr. Moore's amendment was adopted.

Mr. Beall spoke against the bill.

Mr. Stevens, of Pennsylvania, moved to strike out the words "who has not disposed of his or her lands for the purpose of obtaining the benefit of this provision," which motion was adopted. Another portion was stricken out destroying entirely the amendment of the committee of Agriculture. Various other amendments were proposed for the purpose of killing the bill which were rejected.

The committee rose without acting on the first section.

A resolution was introduced to adjourn from the 1st to the 4th of June in order to put the hall in summer trim and to allow the members to attend the convention. A motion was made to amend by substituting from the 13th to the 17th of May. The House adjourned.

SENATE.—A bill was ordered to be engrossed which declares void all transfers and assignments hereafter made, and all agreements for allowing compensation for procuring testimony, and imposes a penalty of $1000 fine and six months imprisonment against any officer of the United States or member of Congress acting as agent for such claims.

The Michigan railroad bill was taken up and passed.

The Deficiency bill was then resumed. Mr. James read a speech in support of the Collins line of steamers.

SOUTHERN INTELLIGENCE.

PHILADELPHIA, May 6.

Two southern mails were received this morning.

Col. Mejid, bearer of dispatches to the Mexican Minister at Washigton, had arrived at New Orleans. The Picayune says he has under charge important papers relating to the Tehuantepec question, which we trust will aid in bringing about a speedy and favorable issue. He has also contracted in New York for the building of five steamers for the Mexican Government. We learn from him that the grant of right of way privileges of transit across the Isthmus via Vera Cruz, had all been fulfilled by the States and approved by the General Government, and that arrangements are of foot for putting steamers at once upon the route between New Orleans and Vera Cruz. The New Orleans Picayune doubts the truth of the report that the Tehuantepec Treaty had been rejected by the Mexican Congress. No paper but the Provendia, the bitter enemy of the treaty, announces it.

Having increased our facilities, and otherwise improved our arrangements for transportation, we are now prepared to receive a large amount of Produce and Merchandise, shipping (on the opening of the canal) with promptness and despatch.

The Section Boat system of Transportation over our State Improvements has been in use about ten years, and the great success and favor it has met with, is a sufficient guarantee that it is now considered a doubtful experiment, but is being adopted by all, as vastly superior to any mode of transportation used on canals when intersected by railroads.

Goods loaded into our Boats at Pittsburgh remain undisturbed until unloaded at our warehouse in Market street Philadelphia, thereby entirely avoiding the delay consequent on three different transhipments, and securing the delivery of goods in entire lots, the packages clean and in as good order as when shipped.

Produce, &c., consigned to our House at Pittsburgh, will be received and forwarded without delay, in strict accordance with instructions, without any extra charge for commission, Storage, or advancing Charges, &c.

CHERRY PECTORAL

FOR THE CURE OF

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, CONSUMPTION.

THIS invaluable remedy for all diseases of the Throat and Lungs, has attained a celebrity from its remarkable cures, never equalled by any other medicine before. Other preparations have shown their selves palliatives, and sometimes effected notable cures, but none has ever so fully won the confidence of every community where it is known. After years of trial in every climate, the results have indisputably shown it to possess a mastery over this dangerous class of diseases, which could not fail to attract the attention of Physicians, Patients, and the public at large.

See the statement, not of obscure individuals, and from far distant places, but of men who are known and respected throughout the country.

The widely celebrated Surgeon, Doctor VALENTINE MOTT, of New York city, says:

"It gives me pleasure to certify the value and efficacy of "AYER'S CHERRY PECTORAL," which I consider peculiarly adapted to cure diseases of the throat lungs."

DR. PERKINS, the venerable President of the Vermont Medical College, one of the eminently learned physicians of this country, writes, the CHERRY PECTORAL is extensively used in this section, where it has shown unmistakable evidence of its happy effect upon pulmonary disease.

The Rev. JOHN D. COCHRANE, a distinguished clergyman of the English Church, writes to the proprietor from Montreal, that "he has been cured of a severe Asthmatic affection, by CHERRY PECTORAL." His letter at full length, may be found in our Circular, to be had of the Agent; and is worth the attention of Asthmatic patients.

This letter is from the well known Druggist at Hillsdale, Michigan, one of the largest dealers in the State, and this case is from his own observation.

HILLSDALE, MICH., Dec. 16, 1849.

Dear Sir—Immediately on receipt of your CHERRY PECTORAL, I carried a bottle to an acquaintance of mine who was thought to be near his end with quick consumption. He was then unable to rise from his bed, and was extremely feeble. His friends believed he must soon die unless relief could be obtained for him, and I induced them to give your excellent medicine a trial. I immediately left town, for three weeks, and you may judge of my surprise on my return, to meet him in the street on his way home from the cars, and find he had entirely recovered. Four weeks from the day he commenced taking your medicine, he was at work at his arduous trade of a blacksmith.

There are other cases within my knowledge, where the CHERRY PECTORAL has been singularly successful, but none so marked as this. Very truly yours,

G. W. UNDERWOOD.

Hear the Patient.

Dr. J. C. AYER, Lowell—Dear Sir—Feeling under obligations to you for the restoration of my health, I send you a report of my case, which you are at liberty to publish for the benefit of others. Last autumn I took a bad cold, accompanied by a severe cough, and made use of many medicines, without obtaining relief. I was obliged to give up business, frequently raised blood, and could get no sleep at night. A friend gave me a bottle of your CHERRY PECTORAL, the use of which I immediately commenced, according to directions. I have just purchased the fifth bottle, and am nearly recovered. I now sleep well, my cough has ceased, and all by the use of your valuable medicine. E. S. STONE, A. M., Principal Mt. Hope Seminary.

HANOVER, Ohio, April 3, 1850.

Dear Sir: I wish I could tell all that suffer with a cough what your CHERRY PECTORAL has done for me. It does seem they might be benefited by the information. I had a lung fever, which left my lungs weak and inflamed. Being very feeble and unable to gain strength at all, my friends thought I must soon sink in consumption. I had no appetite, and a dreadful cough was fast wearing me away. I began to take your beautiful medicine, by the advice of a clergyman, who had seen its effects before. It eased my cough at first, and gave me rest at night. In less than a fortnight I could eat well, and my cough had ceased to be troublesome, my appetite returned, and my food nourished me, which soon restored my strength. Now, after five weeks, I am well and strong, with no other help than your Cherry Pectoral.

Yours with respect, JULIA DEAN.

I hereby certify that the above statement of my wife is in conformity with my own views of her case, and her cure by Ayer's Cherry Pectoral. JOSEPH DEAN.

The above named Joseph Dean, and Julia, his wife, are personally known to me, and implicit confidence may be placed in their statement. SAMUEL G. VAN DERWENT, Pastor of the Baptist Church.

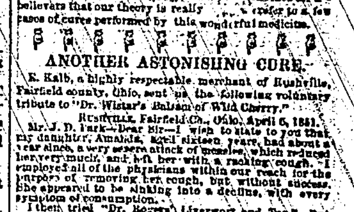
The Safest and Most Efficacious Remedy for Worms that has ever been discovered!

THIS PREPARATION has now stood the test of twenty-two years' trial, and is confidently recommended as a safe and effectual medicine for expelling worms from the system. The unexampled success which has attended its administration in every case where the patient was really afflicted with worms, certainly renders it worthy the attention of physicians.

The proprietor has made it a point to ascertain the result of its use in such cases as came within his knowledge and observation, and he invariably found it to produce the most salutary effect, not unfrequently, after nearly all the ordinary preparations recommended for worms had been previously resorted to without any permanent advantage. This fact is attested by the certificates and statements of hundreds of respectable persons in different parts of the country, and should induce families always to keep a vial of the preparation in their possession. It is mild in its operation, and may be administered with perfect safety to the most delicate infant.



The best Remedy ever known to Man.

Coughs, Asthma, Colds, Croup, Bronchitis, Influenza, Bleeding of the Lungs, Difficulty of Breathing, Liver affection, Pain or weakness in the breast or side, First stages of Consumption, &c.

In short, this Balsam is peculiarly adapted to every disease of the Lungs and Liver, which is produced in our ever varying climate.

WILD CHERRY HAS LONG BEEN known to possess important medicinal properties. This fact is familiar to every matron in our land, and physicians often prescribe it in a variety of forms for different complaints. Tar, also, has been equally noted for its virtues, and some physicians, whose names are familiar to the country, have gone so far as to declare that even CONSUMPTION could be cured by that alone. On other hands, again, it was nearly valueless, owing no doubt, to their ignorance in preparing and administering it—a difficulty now entirely obviated by patient experiment and long experience.

The extraordinary medicinal qualities of these two substances are now, for the first time, combined and embodied in Dr. Wistar's Balsam of Wild Cherry. By a nice chemical process, every [illegible] or useless is rejected, so that what remains is the most extraordinary and truly efficacious remedy, [illegible] for all kinds of pulmonary and liver diseases ever known to man. It continues all a believers that our theory is really [illegible] a few cases of cures performed by this wonderful medicine.

ANOTHER ASTONISHING CURE.

E. Kalb, a highly respectable merchant of Rushville, Fairfield county, Ohio, sent us the following voluntary tribute to "Dr. Wistar's Balsam of Wild Cherry."

RUSHVILLE, Fairfield Co., Ohio, April 6, 1851.

Mr. J. D. Park—Dear Sir—I wish to state to you that my daughter, Amanda, aged sixteen years, had about a year since, a very severe attack of measles, which reduced her very much, and left her with a racking cough. I employed all of the physicians within our reach for the purpose of removing her cough, but without success. She appeared to be sinking into a decline, with every symptom of consumption.

I then tried "Dr. Rogers' Liverwort and Tar." But this aggravated her cough, and gave her symptoms of a still more malignant character. I was now more seriously alarmed and I was with trembling fear that I from day to day, saw the progress of that insatiable disease, consumption. I really despaired of my daughter's recovery. But I providentially saw the certificate of Jonathan Coulson, whose daughter, Sarah Jane, was cured of consumption, by Wistar's Balsam of Wild Cherry. This created a faint hope that it might help my daughter, and I immediately commenced using it, and it almost instantly gave relief, her health was improved from the first bottle, and by the use of two bottles of Wistar's Balsam of Wild Cherry, she was restored to perfect health, and she is not now at all predisposed to a cough.

I will say to all that are afflicted with any disease tending to consumption, do not despair, for Dr. Wistar's Balsam of Wild Cherry will cure you, if you will but try it. E. KALB.

PLEASANT RIDGE, Ham. county, O., Sept. 20, 1850.

J. D. Park—Dear Sir—I take the liberty of advising you of the benefit I have derived from the use of Dr. Wistar's Balsam of Wild Cherry. I was [illegible] by that terrible scourge, consumption, in May last. The attack was truly horrifying to me, as five of our family (my brothers and sisters) had died of consumption. I was affected with nearly all the worst features of the disease. I had a distressing cough, and expectorated a great deal of blood, hectic fever, severe pains in the side and chest, cold chills, alternating with flushes of heat and copious night sweats.

I was under the care of a skilful physician, from the time I was taken sick, until about six weeks since, being then about helpless, and my friends thought my case hopeless, one of my friends [illegible] advised the use of Wistar's Balsam of Wild Cherry. Without my knowledge, my friend procured it, and recommended my using it to me, and immediately commenced taking it, my health improved, and in two weeks from that I was able to be out and can truly say I have taken four bottles of the medicine, and now I am older myself perfectly well. JERMIAH ISGRIGG.

IMPORTANT TO THOSE AFFLICTED WITH DISEASE OF THE LUNGS AND BREAST.

Will miracles never cease? More evidence of curing passing health restorative virtues.

[illegible] Lee co., Ia., June [illegible], 1849.

John D. Park—Dear Sir—As I have a deep interest for the afflicted, permit me to give you a full history of my affliction, and the benefits derived from the use of Wistar's Balsam of Wild Cherry.

In July, 1841, I was attacked by fever of a typhoid character, which left me in a very debilitated state, when in the following winter I was taken with severe cold, which reduced me to such an extent as to give me the appearance of a confirmed consumptive. A natural sudden severe coughing, which was treated with [illegible] cold feet and night sweats, which frequently gradually sinking under the disease until January, 1847, when I was again attacked with fever [illegible] by my physician I thought I could survive but a short time. My situation, especially my feet, were constantly cold, and at last [illegible] Under these circumstances I must truly add that I was induced to take, I finally determined to quit taking medicine prescribed by physicians, and try Dr. Wistar's Balsam of Wild Cherry—and from the first bottle I was induced taking it. I can date a radical recovery. I continued its use six months, at the end of which I was cured, and have enjoyed good health ever since, and no symptoms of consumption. I would say to all those afflicted with diseases of the lungs, [illegible] to commence its use, not be discouraged [illegible] bottles do not give relief. But persevere, as I have done, and I have no doubt but nine cases out of ten will be blessed with renewed health. Respectfully yours, JOSEPH JACKSON.
