AGRICULTURAL.

WORK FOR THE FARM, BARN AND STOCK YARD.

At this season, work accumulates faster that it can be done, as a general rule. A week of rain puts every thing back, and then, the sun and wind dry the soil and push forward vegesation so that many a farmer gets nervous and half sick, worrying over unavoidable delays. Any man who has two or three teams, and as many as four or five hands to keep employed, may well spare himself much physical labor while he plans for the constant and diligent employment of his men and teams. If every laborer knows exactly what is expected of him, that an account of his time is kept, and that his wasted hours and minutes count to his discredit, if not to the decrease of his wages, he will be very likely to be a better and more faithful servant. The amout of labor accomplished under a systematic plan, (according to which the work not only of each day but each man and team is laid out in general a week ahead, we know to be the case on some farms,) it is much greater than when the farmer plans his day's work during the evening before, or perhaps defers it until after sunrise in the morning.

Barn yards ought to be so drained that all the wash may be savnd, not by leading it out upon some piece of grass, but so that the liquid may be used for wetting the vegetables of the garden, or for distribution by means of some sort of watering cask, over grass, grain or root craps in the field. Strong fences, clean sheds, and tidy tool houses ought to surround the barn-yard, and every preparation should be made for making and saving manure in the very best condition for use.

WATERING HORSES.

The quantity as well as quality of water given a horse will greatly affect his condition. Perhaps no animal is more distressed by thirst than the horse, a fact not generally known or if known, not fully appreciated. Horses should be watered regularly, when not at work, provided in the latter case, that care is taken not to let him have it when overheated by work. Irregularity in the supply of water is often followed by a refusal to partake of solid food, and more frequently by colic and founder, in consequence of his drinking inordinately when an oppertunity offers. For horses, when they are not at work, it is perfectly safe to keep a supply of pure water always within their reach; but, as before remarked, there is some danger in this plan when they are worked or driven, and are likely to be overheated.

There is a very certain way of determining when a horse has been neglected. If the master, on entering the stable and lifting the water bucket, finds the animal placing himself in an attitupe of expectation, and eagerly gazing upon the vessel, it is point blank evidence that his usual supply of water has been withheld — Whenever it is possible, let the horse have water from a running stream.

CULTURE OF TOMATOES.

The following, which we copy from the Culturist, will possess an interest to agriculturist and gardeners who peruse our paper:

"There is a diversity of opinion in regard to tee culture of tomatoes. Some prefer to allow the vines to cover the ground at will, others prefer trellises or frames. The French method is as follows: As soon as a cluster of flowers is visible, they top the stem down to the cluster, so that the flowers termtnate the stem. The effect is, that the sap is immediately impelled into the two buds next below the cluster, of flowers each. When these are visible, the branch to which tuey belong is also topped down to their level, and this is done five times successively. By this means the plants become stout, dwarf bushes, not above eighteen inches high.—In addition to this, all the latterals that have no flowers, and, after the fity topping, all the latterals whatsoever are nipped off. In this way the ripe sap is directed into the fruit which acquires a beauty, size and excellence unattainable by any other means."

FEARFUL ENCOUNTER WITH A MAD BULL.

Mr. John Warner, a man sixty-four years of age; living in the town of Serena, Ohio, last week, had a narrow escape from being gored to death by a young bull. Going into his c wyard, the bull made a rush at him and threw him down with his horns two or three times, when Mr. W. managed to grasp him by one of the fore legs, and by a desperate exertion threw him down. He then caught him by the nose and by main strength held him flat on the face. He then drew a jack-knife from his pocket but dared not release his hold upon the bull while he opened it. A young lady living in the family having heard him call, came just then and opened the knife, and with this, although it was quite dull, Mr. W. cut the animal's throat. It was a narrow escape, and but few men would have had the nerve and good management to get out of a bad scrape so easily.

DR. WISHART'S PINE TREE TAR CORDIAL

Is the Vital Principle of the Pine Tree Obtained by a peculiar process in the distillation of the tar, by which its highest medicinal properties are retained.

It is the medicine that cures when all others have failed.

A Great Remedy for Consumption.

I am constantly receiving such certificates as the following. READ IT!

Have you a Cough? Have you Sore Throat? Have you any of the premonitory symptoms of that most fatal disease, Consumption?

Those who should be warned by these symptoms generally think lightly of them until it is too late. From this fact, perhaps more than any other, arises the sad prevalence and fatality of disease which sweeps to the grave at least one-sixth of Death's victims.

What are its symptoms?

It usually begins with a short, dry cough, which soon becomes habitual, but for soma time nothing is raised except a frothy mucus. The breathing is somewhat difficult, and upon slight exercise much hurried. A sense of tightness and oppression as the chest is often felt. As the disease advances the patient becomes thin in flesh is afflicted with loss of appetite, great languor, indolence, and dejection of spirits; and may continue in this state for a considerable length of time, that it is very readily affected by slight exposure or fatigue. If these occur, the cough becomes more troublesome, and is attended with expectoration, which is most copious and free very early in the morning. It is sometimes streaked with blood. At this stage night-sweats usually set in, and in some cases a profuse bleeding of the lungs may also occur. Pain in some part of the chest is felt, and often a difficulty of lying upon one or the other side, without severe fits of coughing or a sence of fullness or suffocation, is experienced. The pulse becomes full, hard, and frequent the hectic flush tinges the cheeks, and the dire malady is fast hastening to its close.

You now ask. "Is there a cure?"

Consumption has been and can be cured by the use of my TAR CORDIAL, even in apparantly hopeless cases.—This assertion I make with the ability to present the most complete evidence of the truth. Space will not admit of my giving the contents of the many thousands of testimonials to its value, which I have been and am receiving from men and women of unquestionable worth and reputation. I have had a number of these certificates printed in circular form which I will send you free on application. Whether you now determine to try the medicine or not, send for the circular. After years of study and experiment, I offer this medicine, believing it to be the best remedy for all pulmonary and bronchial diseases. If you cannot be benefitted by the use of the Tar Cordial, I believe you are beyond all earthy aid. Yet if there are better curate agents, I earnestly advise their use. The best remedies, the best care, are needed by those afflicted with this disease. Beleving this to be the best, I ask you to try it.

Many, not only of the people, but physicians of every school and practice, are daily asking me, "What is the principle or cause of your success in the treatment of Pulmonary Consumption?" My answer is this:

The invigoration of the digestive organs—the strengthening of the debilitated system—the purification and enrichment of the blood, must expel from the system the corruption which scrofula breeds. While this is effected by the powerful alterative (changing from disease to health) properties of the Tar Cordial, its healing and renovating principle is also acting upon the irritated surfaces of the lungs and throat, penetrating to each diseased part, relieving, subduing inflamation and restoring a healthful tendency. Let this two-fold power, the healing and the strengthening, continue to act in conjunction with Nature's constant recuperative tendency, and the patient is saved, if he has not too long delayed a resort to the means of cure.

PROSPECTUS OF THE GREAT NATIONAL WORK.

HISTORY
(CIVIL, POLITICAL & MILITARY,)
OF THE
Southern Rebellion

Comprehending, also, All Important State Papers (Confederate and Federal.) All Ordinances of Secession, Proceedings of Congress (Rebel and Federal,) Remarkable Speeches, &c., together with official Reports of Commanders, Army and Navy Statistics, Maps, &c.,

BY ORVILLE J VICTOR,

To be Completed in 3 Volumes, Super Royal Octavo.

Beautifully Illustrated with Steel Engravings, Maps, &c.

Prepared expressly for this work, by JOHN ROGERS, and other first-class artists

Volumes I and II Now Ready.

This truly National Work characterized by a leading journal as the "Paragon of Histories," has now taken its place in literature as the *History* par excellence, of the Great Rebellion. It has received (as will be seen by reference to the letters and notices subjoined) the endorsement of the leading men and the leading journals of the country. It is commended by those most qualified to judge, as such a Record of the Rise, Progress and Results of the War for the Union as every Intelligent citizen should possess.

As title indicates, its covers the ground of the Rebellion, as well in its Political and Social as in its Military aspects. It deals, in chronologic order, with the open and the secret movements for Secession in the several States; it comprehends the proceedings of the proceeds of the Montgomery Convention and of the Confederate States' Congress; all proceedings in the Federal Congress relating to the questions of Secession and Rebellion, giving full reports of the great Debates, Resolutions, Reports &c. all the Messages, Proclamations, &c. of the President; thus proving a Complete compendium of the political phases of the attempted revolution.

As a record of the stupendous Military and Naval Features of the Rebellion, it will be all that could be desired—full, authentic and graphic—leaving nothing unsaid which is necessary to render it the best and most satisfactory History of the War for the Union which will be presented for the patronage of the American People. Most of two volumes will be devoted to the Operations of the army and Navy. As each volume contains more letter press than any two volumes of other professed "Histories" now offered to the public, it will be perceived that this Great Work on the score of fulness and completness will challenge all comparison.

The Entire History will be comprised in three Super-Royal octavo volumes, of about 6000 pages each beautifully printed, in double columns, from specially prepared type. The amount of matter in each volume is equivalent to the contents of six ordinary dollar books. Thus in three volumes the author will have ample space to consider every event fully and satisfactorily, should the war drag its slow length along through the year.

The work can only be had of the canvasser. It is not sold by "the trade." All who wish to become possessed of it should avail themselves of the First proposition of the agent.

Each volume is guaranted to be equal, in all respects to the specimen copy exhibited by the agent.

IMPORTANT
TO ALL
INVALIDS.
IRON IN THE BLOOD.

It is well known to the medical profession that IRON is the Vital Principle or Life Element of the blood.—This is derived chiefly from the food we eat; but if the food is not properly digested, or if from any cause whatever, the necessary quantity of iron is not taken into the circulation, or becomes reduced, the whole system suffers. The bad blood will irritate the heart, will clog up the lungs, will obstruct the liver and will send its disease-producing elements to all parts of the system, and every one will suffer in whatever organ may be predisposed to disease.

The great value of

IRON AS A MEDICINE

is well known and acknowledged by all medical men The difficulty has been to obtain such a preparation o it as will enter the circulation and assimilate at once with the Blood. This point, says Dr. Hayes, Massachusetts State Chemist, has been attained in the Peruvian Syrup; by combination in a way before unknown.

THE PERUVIAN SYRUP

is a Protected solution of the Protoxide of Iron a New Discovery in Medicine that Strikes at the Root of Disease by supplying the blood with its Vital Principle or Life Element—Iron.

THE PERUVIAN SYRUP

Cures Dyspepsia, Liver Complaint, Dropsy Fever and Ague, Loss of Energy, Low Spirits.

THE PERUVIAN SYRUP

Infuses strength, vigor and new life into the system, and builds up an "Iron Constitution.

THE PERUVIAN SYRUP

Cures Chronic Diarrhœa, Scrofula, Boils, Scurvy, Loss of Constitutional Vigor.

THE PERUVIAN SYRUP

Cures Nervous Affections, Female Complaints, and all diseases of the Kidneys and Bladder.

THE PERUVIAN SYRUP

Is a specific for all diseases originating in a bad state of the blood, or accompanied by Debility or a Low State of the System.

Dr WISHART

Of this City, has undoubtedly discovered in his combination for the treatment of Dyspepsia one of the greatest remedies that has ever been given to suffering humanity: He has treated within the past two years something over nine thousand cases in his private practice, many of which had defied the skill of eminent physicians in Europe and America, and in every case where the medicines were taken according to directions, they have made a perfect cure. Many of the above cases were of over twenty years standing.—Those who are troubled with Dyspepsia would do well to call at the Doctor's office. He gives you advice free. Persons at a distance can consult by letter describing the symptoms. Dr. Wishart's treatment put up in a secure package, with full directions, is sent by express on the receipt of Six Dollars.

N. B.—In all cases where the disease has not become chronic. Dr. Wishart's Dyspepsia Pills are all that is required. Sent by mail on the receipt of One Dollar Address Dr. L. Q. C. Wishart, Philadelphia.—*Philadelphia Ledger.* [Dec. 19, 1863—6m.

FRIENDS & RELATIVES
OF THE
Brave Soldiers and Sailors.

HOLLOWAY'S PILLS,
AND OINTMENT.

All who have Friends and Relatives in the Army or Navy should take especial care that they be amply supplied with these Pills and Ointment; and where the brave Soldiers and Sailors have neglected to provide themselves with them, no better present can be sent them by their Friends. They have been proved to be the Soldier's never failing friend in the hour of need.

COUGHS AND COLDS AFFECTING TROOPS,

Will be speedly relieved and effectually cured by using these admirable medicines, and by paying proper attention to the Directions which are attached to each Pot or Box.

SICK HEADACHES AND WANT OF APPETITE, INCIDENTAL TO SOLDIERS.

Those feeling which so sadden us usually arise from trouble or annoyances, obstructed perspiration, or eating and drinking whatever is unwholesome, thus disturbing the healthful action of the liver and stomach.—These organs must be relieved, if you desire to be well The Pills, taken according to the printed instructions, will quickly produce a healthy action in both liver and stomach, and, as a natural consequence, a clear head and good appetite.

WEAKNESS OR DEBILITY INDUCED BY OVER FATIGUE

Will soon disappear by the use of these invaluable Pills, and the Soldier will quickly acquire additional strength. Never let the Bowels be either confined or unduly acted upon. It may seem strange, that Holloway's Pills should be recommended for Dysentery and Flux, many persons supposing that they would increase the relaxation. This is a great mistake, for these Pills will correct the liver and stomach, and thus remove all the acrid humors from the system. This medicine will give tone and vigor to the whole organic system, however deranged, while health and strength follow as a matter of course. Nothing will stop the relaxation of the Bowels so sure as this famous medicine.

VOLUNTEERS, ATTENTION! INDISCRETIONS OF YOUTH.

Sores and Ulcers, Blotches and Swellings, can with certainty be radically cured, if the Pills are taken night and morning, and Ointment be freely used as stated in the printed instructions. If treated in any other manner, they differ in no one part to break out in another—Whereas this Ointment will remove the humors from the system, and leave the Patient a vigorous and healthy man. It will require a little perseverance in bad cases to insure a lasting cure.

FOR WOUNDS EITHER OCCASIONED BY THE BAYONET, SABRE, OR THE BULLET, OR BRUISES,

To which every Soldier and Sailor are liable, there are no medines so safe, sure, and convenient, as Holloway's Pills and Ointment. The wounded and almost dying sufferer might have his wounds dressed immediately, if he would only provide himself with this matchless Ointment, which should be thrust into the wound and smeared all round it, then covered with a piece of linen from his knapsack and compressed with a handkerchief. Talking, night and morning, 6 or 8 Pills, to cool the system and Prevent inflamation.

Every Soldier's Knapsack and Seaman's Chest should be provided with these valuable Remedies.

CAUTION!—None are genuine unless the words "Holloways, New York and London" are discernable as a Water-mark in every leaf of the book of directions around each pot or box; the same may plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

*** Sold at manufactory of Professor Holloway, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine, throughout the civilized world.

☞ Holloway's Pills and Ointment are now retailed owing to the high prices of Drugs, &c., at 38 cents, 70 cents, and $1.10 per Box or Pot.

☞ There is considerable saving by taken the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

☞ Dealers in my well known medicines can have Show Cards, Circulars, &c., sent free of expense, by addressing THOMAS HOLLOWAY,
80 MAIDEN LANE, NEW YORK.

BELL'S SPECIFIC PILLS—WARRANTED IN ALL CASES—Can be relied on! Never fail to cure! Do not nauseate! Are speedy in action! No change of diet required! Do not interfere with business pursuits! Can be used without detection! Upwards of 200 cures the past month—some of them very severe cases. Over one hundred physicians have used them in their practice, and all speak well of their efficacy and approve of their composition, which is entirely vegetable, and harmless on the system. Hundreds of certificates can be shown

Bell's Specific Pills are the original and only genuine Specific Pill. They are adapted for male and female, old or young, and the only reliable remedy for effecting a permanent and speedy cure in all cases of Spermatorrhœa, or Seminal Weakness, and all the train of evils, such as Urethral and Vaginal Discharges, Gleet, the Whites, Nightly or Involuntary Emissions, Incontinuance, Genital Debility and Irritability, Impotence, Weakness or Loss of Power, Nervious Debility, &c., all of which arises principally from Sexual Excesses or Self-abuse, or some constitutional derangement, and incapacitates the sufferer from fulfilling the duties of married life In all sexual diseases as Gonorrhœa, Gleet, and Strictures, and in Diseases of the Bladder and Kidneys, they act as a charm! Relief is experienced by taking a single box.

Sold by all the principal druggists. Price $1.

They will be sent by mail, securely sealed, and confidentially, on receipt of the money, by
