PITTSBURGH GAZETTE.

Prayer is the key to open the day and the bolt to shut in the night. But as the skies drop the early dews upon the grass, yet it would not spring and grow green by that constant and double falling of dew, unless it were a great shower, at certain seasons, did not supply the rest; so the custom of the duties of prayer twice a day, is the falling of the early and later dew; but if you will flourish and flourish in the works of grace, keep the great dinner-time, and let that fall in a full shower of prayer; choose out the seasons when prayer overflows, like Jordon, in time of harvest.—*Bishop Taylor.*

Pascal's definition of the universe is, that the centre of the universe is everywhere, and the circumference nowhere. This is at once astronomically correct, and unimprovably concise and elegant.

A boy from the country was recently taken into a gentleman's family. One evening, after having been called up in the drawing room, he came down into the kitchen, laughing immoderately.

"What is the matter?" cried the cook.

"Why," said he, "there's twelve of them up there who couldn't snuff the candle, and they had to ring for me to do it."

"No enjoyment," says Sidney Smith, "however inconsiderable, is confined to the present moment. A man is happier for life, from having made once an agreeable tour, or lived for any length of time with pleasant people, or enjoyed any considerable interval of innocent pleasure."

25,000 Copies Sold in Five Weeks!

THE GREAT AMERICAN TALE, UNCLE TOM'S CABIN; OR, LIFE AMONG THE LOWLY. By Mrs. HARRIET BEECHER STOWE. For thrilling delineation of character, and depth of description, this work is unrivalled. It has been dramatized and with truth, *THE SONG OF THE SOUL.* The fact that twenty-five thousand copies have been sold in three weeks is evidence sufficient of its unbounded popularity. Three paper mills are constantly at work, manufacturing the paper, and three power presses are working twenty-four hours per day, in order to supply the demand. Over one hundred binders are incessantly piecing their trade, to bind them, and still it has been impossible as yet, to supply the demand. Testimonials of the strongest kind, numerous enough to fill a volume, have been offered in support to the public journals. Received and for sale at Fourth street by J. L. REED.

HENRY WATERMAN'S PATENT HAMMERED SAWS—The attention of dealers and others, to this superior article. By the patent process the saw is hammered while in a comparatively tempered state that it can be by any other method. It will well repay to examine into the hammered tempered steel in the smallest part. Where other saws are ruined by the ordinary method and hammered by hand, it is necessary to polish them, thereby rendering the most serviceable part of the saw. These saws are not polished, but are left with a fine finish, and warranted to have already been put to the severest test in some of the largest Saw Mills in this vicinity, and pronounced unequalled. We are now prepared to execute orders for all sizes of Mill, Pit and Circular Saws.

THE subscribers would respectfully invite the attention of those who are about furnishing, to their new and beautiful styles of ENAMELED COTTAGE and CHAMBER FURNITURE, as admirably adapted to the Southern climate, as the peculiarly adapted to this purpose, as the peculiar manner of finish. This work is not only beautiful, but very substantial, and durable; finished in a great variety of shades and colors, highly ornamented with gold and rich delicate tints; executed in a style and manner throughout superior to any thing of the kind that can be obtained at any other establishment in this city.
Also, their large and elegant assortment of ROSEWOOD, and MAHOGANY FURNITURE, together with their popular Soda Bedsteads, which have been long appreciated as superior to all others in use.
Those who are about furnishing either *Steamboats, Public or Private Houses*, will find it an object to call and examine the above before purchasing elsewhere.

HENRY WATERMAN'S PATENT HAMMERED SAWS—The attention of dealers and others, to this superior article. By the patent process the saw is hammered while in a comparatively tempered state that it can be by any other method. It will well repay to examine into the hammered tempered steel in the smallest part. Where other saws are ruined by the ordinary method and hammered by hand, it is necessary to polish them, thereby rendering the most serviceable part of the saw. These saws are not polished, but are left with a fine finish, and warranted to have already been put to the severest test in some of the largest Saw Mills in this vicinity, and pronounced unequalled. We are now prepared to execute orders for all sizes of Mill, Pit and Circular Saws.
