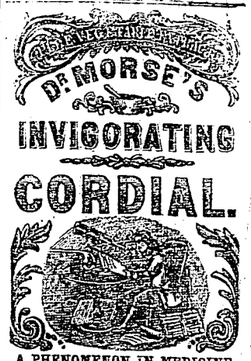
MEDICAL.



A PHENOMENON IN MEDICINE.

PROFESSOR MORSE'S INVIGORATING ELIXIR, OR CORDIAL.

THE EIGHTH WONDER OF THE BOTANIC WORLD.

The Invigorating Elixir and Cordial introduced into medical practice by the great chemist, physician and traveller, Dr. M. Morse, has for its basis an Oriental Herb, first brought from the stony deserts of Arabia Petrea, by that enlightened philosopher. The natives of that region are remarkable for their longevity, exemption from sickness, and power of sustaining fatigue, all of which they attribute in a great degree to the use of the herb he has planted, and which they universally chew, and sometimes smoke. On his return to Europe, after a long residence in the East, Professor Morse commenced experimenting with this wonderful natural production, and the result of his labors is the Invigorating Elixir, which has been endorsed by the medical colleges of all the great cities of Europe, as the best preparation extant for the

CURE OF CONSUMPTION, AND ALL DISEASES

No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the system. Whether broken down by excess, weak by nature, or languishing under the consumptive influence of climate, it is at once invigorated, revivified, and built up. The manifest improvement in the nervous system of nervous disease vanishes together under its influence. The sleeping, trembling victim of depression and debility, becomes a new man—the nervous dyspeptic, the moper with a fitful appetite, which was previously sunk, gloom, or an almost idiotic apathy, converted into a bright, active, cheerful being, fresh refreshed, regenerated, and conscious of new vigor, to his avocation or occupation. Nor is the effect temporary. On the contrary, the relief is permanent, for the medical properties of the medicine reach the constitution itself, and restore it to its normal condition. Well may the preparation be called the

MEDICINAL WONDER.

of the nineteenth century. It is, as the first scientific men in the old world have admitted, that miracle of medicine for which so many have sought in vain.

A STIMULANT THAT ENTAILS NO RE-ACTION.

Its force is never expended, as is the case with opium, alcoholic preparations, and all other exciting, but the effect of these is brief, and it may well be said of him who takes them, "the last state of that man is worse than the first." But the Elixir is an exhilirant without a reaction, and the effect wears in its operation, perpetual in its happy influence upon the nervous, the bilious, and the entire circulation. In cases of pneumonia, headache, loss of memory, hypochondria, nervous debility, general prostration, inability, nervousness, inability to sleep, liver complaint, and all diseases incident to females, decay of the propagating functions, hysteria, consumption, vague terrors, palpitation of the heart, impotency, hurried respiration, pain in the side, back, and extremities, it is, if there is any reliance to be placed on human testimony, the greatest remedy ever drawn from the vegetable kingdom.

It is the only healthful remedy yet discovered for nervous debility and diseases of the urinary organs. Thousands long sought for, and never before found, the only natural remedy for those afflictions which so many dishonest pretenders have made their diseases.
