PITTSBURGH GAZETTE.

TUESDAY MORNING, MAY 3, 1853.

THE ARCTIC EXPEDITIONS.—Few, besides Lady Franklin, cherish a hope of Sir John's return to England. He has been absent nearly eight years—a period sufficient of itself to ensure the destruction of a majority of his crew, from the effects of the climate alone. The monks of St. Bernard, though sheltered from the cold, and as liberally provided for as men can be who pass their lives in such a region, are not required to endure the climate of the Alps for more than fifteen years, and many do not survive the prescribed period. Sir John Franklin has had to encounter more than cold. He has had to contend with the dangers of the sea, with ice, icebergs, snows, storms, probably with hunger and disease. He has had to traverse boundless wastes, and to linger out the darkness of seven Arctic winters. If his supply of food has not given out, and if the birds and beasts of the Frigid zone are as available for food as some travellers assert, yet that precious part of his stores, indispensable to preserve health in so unnatural a climate—the antidote to prevent scurvy, liquors, etc., must have been exhausted long ago. Still there is a possibility—though more than a possibility that Sir John Franklin is at this moment alive and looking with the heartsickness of hope deferred for the day of deliverance.

AN INCIDENT.—A boy, only twelve years old, who had walked all the way from Ohio to Washington, called (a Washington correspondent says) on the President on Tuesday. He said he was an orphan, supported and educated by a poor aunt and had come to ask a place in the Navy. The President was deeply affected by his story and the evidence of his perseverance, and gave him several pieces of gold, and invited him to call again. The boy left, but was followed by a gentleman who witnessed the interview, and who saw him exchange the gold he had received for bank notes, which he mailed in a letter to his poor relative. His enterprise is likely to be rewarded by the place he seeks.

MISCELLANEOUS.

IMPORTANT TO THE AFFLICTED.

DR. ROSE'S CELEBRATED REMEDIES.

—Dr. Jacob Rose, the discoverer and sole proprietor of these most popular and beneficial medicines, and also the inventor of the celebrated Instrument for Inhaling the Lungs, in effecting a cure of Consumption, Asthma, etc., is the direct of that eminent physician, Doctor Physic, and is a graduate of the University of Pennsylvania, and for thirty years since has been engaged in the investigation of disease, and has supplied remedies therefor.

Through the use of his inhaling tube, in connection with his Prophylactic, or Preventive and Curative Medicines, he has gained an unparalleled eminence in curing those dreadful and fatal maladies, Tubercular Consumption, Cancers Scrofula, Rheumatism, Asthma, Fever and Ague, Fevers of all kinds, Chronic Erysipelas, and all those obstinate diseases peculiar to females. Indeed, every form of disease vacillates under the use of his remedies, to which human life is subject—not by the use of one compound only, for that is incompatible with Physiological laws, but by the use of his remedies, adapted to, and prescribed for, each peculiar form of disease.

Dr. Rose's Tonic Alterative Pills, when used, are invariably acknowledged to be superior to all others, as a purgative or liver pill, inasmuch as they leave the bowels in a healthy state, and do not require to be taken to keep the bowels regulated, by the family, to possess peculiar properties, adapted to female diseases, and for a family medicine, they are unsurpassed, as they are so mild, and yet so efficacious, that a dose is sufficient to establish what has been called, in the minds of the afflicted.

The affected are invited to call upon the agent, and procure (gratis) one of the Doctor's pamphlets, giving a detail of his success, for twenty-seven years.

For sale by the following agents, as well as by most drug stores throughout the Union:

TESTIMONY FROM TENNESSEE IN FAVOR OF B. A. FAHNESTOCK'S VERMIFUGE—The Subscriber, being in the city of Nashville, Tenn., feels a desire to call the attention of our friends to the excellent qualities of Mr. John D. Fontaine's Worm Vermifuge. The gentleman is well known in this community, and his word for what he says can be relied on.

Messrs. B. A. FAHNESTOCK & Co.—Gentlemen: For the benefit of others, I take pleasure in testifying to the valuable qualities of your Vermifuge. About ten years ago my attention was first called to it in Nashville, Tenn., where it was then a standard article, having sustained itself in high repute with very satisfactory results. By his advice I took a vial home for use of my family, but did not use it until then been four years, and subject to frequent sickness. The vial remained in the house for a year, when it was used by three different wards gradually recovered good health. I have since been very feeble and subject to frequent sickness. The vial remained in the house for a year, when it was used by three different wards gradually recovered good health. I have since been very feeble and subject to frequent sickness. The Vermifuge is in high repute in my neighborhood, and I have a variety of inconvenient implements: Axes, Spades and Shovels, Hoes, Rakes, etc.

To the Readers of the Pittsburgh Gazette

PUBLIC ATTENTION is respectfully invited to the following truths, set forth in relation to one of the most important remedies of modern times:

PETROLEUM OR ROCK OIL, it is not more than one year ago since this great remedy was brought before the public, for the relief and cure of disease. Its great powers in healing, since then, become fully appreciated by the community, and we allege that the longer it is tried the more certain will its great fame spread. It is not the remedy of a day, got up for the sole purpose of making money all other nostrums only been forgotten. The Petroleum is a Natural Remedy, elaborated in the laboratory of the Creator by a power and agency that laughs to scorn all human compellation. It is our duty, then we think, as men, and as Christians, that we write the truth—that we say nothing calculated to deceive those who may trust our word or put confidence in our statements. The sick are very apt to catch at anything that promises relief from disease. A story can hardly be too highly wrought to answer the object of guilty or humbugging minds of the men. Now, we do not desire to do this; we are anxious only that the truth in relation to our remedy should be told, in order to secure for it a reputation for exceeding any single article in the materia medica. Plain unvarnished facts—facts that may be ascertained in our city and neighborhood, bear ample testimony in favor of the Petroleum.

Within the past two months, two of our own citizens, who were totally blind, have been restored to sight. Several cases of blindness, in the State of Ohio, have been cured. And also, the case of a gentleman in Beaver county, who was deaf, but these are cases near home, and may be verified to by any persons who have doubts on the subject. These cases were cured after they had been abandoned by physicians as hopeless. The Petroleum will cure when used according to directions—Diarrhea, Dysentery Colic, Rheumatism, Sore Throat, Ringworm, Tetter Pimples on the face, Chronic Sore Eyes, Ringworm, Tetter Sore Head, pains in the bones and joints, old sores, ulcers, Wens, Acute Chronic Coughs, Affections of the Lungs, and all Pulmonary affections of a chronic nature, tending to produce Consumption.

Burns and Scalds, diseases of the Bladder and Kidneys, Chapped Hands, Excoriated Nipples, Corns and Bunions in fact, it is a GREAT UNIVERSAL REMEDY, and has been used in most of the above diseases within the past year with the most perfect success. Certificates that will astonish, are in the hands of the proprietor, who will take pleasure in showing them to the afflicted or their friends.

Whatever others may say about their medicines, the Petroleum is the greatest Remedy of the age. Physicians of high standing in the profession are beginning to avail in their practice. Those who at first looked on with doubt and uncertainty, are willing to award it due praise and consideration. Before another year rolls round, all will be compelled to acknowledge that the Petroleum is the great est medicine ever discovered. For sale wholesale and retail by

MEDICAL.

DR. MORSE'S INVIGORATING CORDIAL.

A PHENOMENON IN MEDICINE.

PROFESSOR MORSE'S

INVIGORATING ELIXIR, OR CORDIAL.

THE EIGHTH

WONDER OF THE BOTANIC WORLD!

The Invigorating Elixir and Cordial, introduced into the medical practice by the great chemist, physician and traveller, Dr. M. Morse, has for its basis an Oriental Herb, first brought from the stony deserts of Arabia Petrea, by the eminent philosopher. The natives of that region are remarkable for their longevity, exemption from sickness and power of sustaining fatigue, all of which they attribute in a great degree to the use of the herb or plant referred to, which they universally chew, and sometimes smoke. On his return to Europe, after a long residence in the East, Professor Morse commenced experimenting with the wonderful healing properties, and the result of his labors is the Invigorating Elixir, which he offers to the public, and which he believes will do the great cities of Europe, as the best preparation extant for the

CURE OF NERVOUS DISEASES.

No language can convey an idea of the immediate and almost miraculous change well it occasions in the debilitated and nervous system. Weakness, which has long been broken down by excess, weak by nature, or impaired by sickness, and all those whose nervous and mental organization has been weakened, and the powers of life reduced, should give the Invigorating Elixir a fair trial. The mental faculties are often so much impaired, as to render life almost a burden to the individual, and his friends and relatives tenfold more so. The mental faculties are given unto man to be his greatest comfort, and when they become deranged, or impaired, life becomes a burden, and the person is a nuisance to himself and others. The stoopings, trembling, weakness, depression and debility become a new man. He stands erect, he can look you with a firm eye, he feels what was previously sunk in gloom, or an alien. Idiotic speech, hesitancy, and a want of ideas, give place to a fluent, fresh and regenerated, and conscious of new vigor, to his accustomed energy of mind and body. Such is the effect of the Elixir, when used according to directions. On the contrary, the relief is permanent, for the Elixir does not, like other medicines reach the constitution itself, and restore it to its original vigor. Nature is left to herself. Well may the question be called the

MEDICINAL WONDER

of the Nineteenth Century. It is, as the first scientific men in the world have admitted, the miracle of medicine heretofore supposed to have no existence.

A STIMULANT THAT ENTAILS NO RE-ACTION. Unlike all other stimulants, it does not leave the system in a worse condition than before taking the medicine, but it makes the weak strong, the nervous calm, the timid bold, the sleepless sound sleepers, and the melancholy happy in life. It is the great Restorative, and the entire organization, whether it be the result of dissipation, or the effect of long continued sickness, or the result of a hereditary disease, it mak
