GODEY'S LADY'S BOOK FOR 1854,
24th YEAR.

ONE HUNDRED PAGES of reading each month, by the best American authors.

A New and Thrilling Story.—Certainly the most intensely interesting one ever written, entitled

"The Trials of a Needlewoman;"

By T. S. Arthur; will commence with the January No.

The only Colored Fashions upon which any reliance can be placed, received direct from Paris, and adapted to the taste of American ladies by our own "Fashion Editor," with full directions.

Embroidery.—An infinite variety in every number.

Dress Patterns.—Infant's and children's dresses, with descriptions how to make them. All kinds of Crochet and Netting work. New patterns for Cloaks, Mantelets, Talmas, Collars, Chemisetts and Undersleeves—with full directions. Every new pattern of any portion of a lady's dress, appears first in the Lady's Book, as we receive consignments from Paris every two weeks.

The Nursery.—This subject is treated upon frequently.

Godey's Invaluable RECEIPTS upon every subject.—Indispensable to every family, worth more than the whole cost of the Book.

Music.—Three dollars worth is given every year.

Drawing.—This art can be taught to any child—by a series of drawings in every number for 1854.

Model Cottages.—Cottage plans and cottage furniture will be continued as usual.

Splendid Steel Line and Mezzotint Engravings in every No. They are always to be found in GODEY.

GRAHAM'S MAGAZINE.
NEW VOLUME—1854.

IN announcing his readiness to receive orders for the New Volume, the editor does not know that he has any very brilliant ideas to hold out in large capitals to dazzle people's eyes—"GRAHAM" will be pretty much what it has been the last volume, with some improvements which experience suggests. No number will contain less than 100 pages of matter, and the readers of "Graham" may rely with great confidence upon *this*—the volume shall contain

OVER TWELVE HUNDRED PAGES!

Of the very best reading matter that capital can command from original sources, or taste select from the vast mass of available material.

The aim of the editor will be to produce a publication which shall be valuable in matter, and choice in taste and style, and he flatters himself, from the known talents of his contributors, that he will be able to present as many *good original* articles to his reader as any publication of the day. He shall not, however, hesitate to publish, from time to time, articles from English authors, and translations from the best German and French writers, provided the pieces have never before appeared in print in this country. Essays on important Political subjects will likewise be inserted, and criticisms on the Literature of America and the movements of the Age. In the Review Department, a large and liberal spirit of criticism will always be maintained; for the maintenance of a correct tone in the Magazine, he will, if possible, be still more watchful.

Each Number will contain an Engraving from a Fine Steel Plate in addition to the *Choice Designs and Engravings* Of Devereux, who will supply illustrations for the text in the body of the book.

Of the January number the FIRST EDITION will be 30,000 copies, and the editor trust his old friends will be so prompt in *renewing old clubs*, and extending the list among *new ones*, that the first edition shall be but half of what the year will ultimately establish, as the permanent circulation of "GRAHAM."

POSTAGE.—Subscribers in any part of the United States may now receive the Magazine, by mail, at three cents a number, or thirty-six cents a year postage, payable at the office where it is received.

Postmasters and Editors all over the Union, are respectfully requested to act as Agents for the New Volume.

TERMS.

The Terms of "Graham" are Three Dollars for single subscribers. For Six Dollars in advance, one copy is sent three years. Two copies, one year, Five Dollars

5 copies, (and 1 to getter up of the club,)		$10
8 "	" "	15

☞ N. B.—Any person desirous of receiving a copy of GRAHAM, as a sample, can be accommodated by notifying the Editor by letter, (post-paid.)

STATEMENT OF REV. E. R. WARREN,

Pastor of the 2d Baptist Church, New London Ct.) relative to Myers Extract of Rock Rose.

To the American Public.—As my name has been used in connexion with recommendations of Mr. Myers' Rock Rose Syrup, in various advertisements, by the manufacturer, I beg leave to make the following statement with reference to my acquaintance with the remedy and tests of which I have subjected it, and the reasons for having introduced it to the notice of private friends in the community in which I reside, long before the medicine was advertised. I make this statement freely, because I have, as a principle, withheld my name from all patent medicines, and sedulously abstained from recommending them to the public, believing them frequently the spawn of quackery and humbug, and as tending to increase, instead of lessening human disease and suffering. Such, I fear, is the character of a large portion of the patent panaceas of this medicine-making age. "Their name is legion," and from their influence, as from the demoniac spirits, we have reason to pray for a safe deliverance.

The First Test.—I had myself suffered occasionally with sudden attacks of Sick Headache and Bilious Diarrhea, and I had sought a great variety of curative agents to but little purpose; and suffering from this disease (diarrhea) at this time I determined to test the new Syrup first upon myself. The results were beyond my expectation. It was a powerful alterative, and the morbid action of the system was changed, and the functions of secretion were restored to a healthy state. It gave tone and elasticity to my system, and corrected the derangement of the digestive organs and gave me that inestimable blessing—HEALTH. The test was not determined in a week, or a month; but I took four or five bottles in perhaps as many months. Since that time I have suffered but slightly from these derangements. MY SICK HEADACHE IS ENTIRELY CURED.

Other Tests.—Finding this medicine so useful to myself, I at once gave it to several invalid friends. About this time, I was earnestly solicited to give advice in reference to a child, some eight years of age. The child was severely afflicted with a Scrofulous humor, of a very severe type, the humor showing itself on all parts of the surface, and then suddenly disappearing. The child was very sick, and it was thought doubtful whether she would live. The humor removed black specks of mortified flesh. In addition to some other remedies, I gave the child this Syrup for a about six weeks, when she had sufficient strength to go out to school occasionally. The swelling of her limbs ceased, and she was restored to health. The family feel that they owe her life, with God's blessing, to my remedies.

This test satisfied me that the Rock Rose possessed specific powers for scrofulous humors. I then tested it in cases of Cutaneous Eruptions, as Measles, Chicken Pox, Canker, Sore Mouth, Erysipelas, Salt Rheum, Piles, &c. In all these cases with perfect success. After testing this syrup for more than a year, I wrote Mr. Myers (Oct. 7th, 1851,) entirely unsolicited, not expecting my letter would be published, that his Syrup was a Panacea, all healing, and I gave him the result of its operations in several instances. I stated in that letter that it was invaluable as a remedy in Cutaneous Eruptions, Erysipelas, Salt Rheum, and other disorders, included in the varied family of diseases known as Scrofula, &c. that in Dyspepsia, it acted with wonderful efficacy." My opinion of its value for the above named diseases, remains unchanged, and the same as when I wrote Mr. Myers in Oct. 1851. I do not recommend it for all the ills of our suffering humanity; but I unhesitatingly say, that as a remedy in Scrofulous affections, I believe it superior to any known curative agent.

It has been sufficiently tested by domestic practice to establish its adoption to extensive usefulness in mitigating human suffering and removing disease.

BUT WHAT IS THE ROCK ROSE?

The following history of the Rock Rose plant and its medicinal properties, we take from the New Haven Palladium, March, 1852.

"The increased interest manifested in the Rock Rose plant, in consequence of the many wonderful cures effected by "Myers' Compound Extract of Rock Rose," calls for a brief history of it in order to correct any erroneous opinion that may have been entertained concerning it; and also to act in a true light the nature of a plant which promises to be universally beneficial.

We are indebted to the United States Dispensatory of 1847, for the following description of it:

It is entirely different from the common Rose. It is a non-descript, oblong leaf plant, having a bitter taste. In addition to a remarkable peculiarity of the plant, of bearing two crops of flowers in one season, it also has another interesting and beautiful property.

Dr. Eaton says that in the months of November and December, he has seen hundreds of these plants, sending out, near their roots, broad, thin, curved ice crystals, about an inch in breadth, which melted during the day, and were renewed in the morning. For a more minute and analytical description of it the reader is referred to Torrey & Gray's botanical works.

Its Medical History and Properties are far the most important, since upon these depend its value to the community. Dr. Loudon says that in 1790 it was so valuable, that it was cultivated from seeds. Ever since 1806,

Prof. Ives, of Yale College, has habitually used it with great success in Scrofula and Chronic Disease, and through him its virtues were made known to us, as Dr. Tyler says, "it is now (this section [New Haven]) a common article in domestic practice for the cure of scrofula and cutaneous diseases."

Dr. Winslow, A Scotch Botanist, of notoriety, while traveling in America, in 1824, learned its use in Canada. Returning to England, he employed it in medicating his baths, which became greatly celebrated for the cure of similar diseases.

Dr. Isaac Parrish, of Philadelphia, remarks that it has been successfully used in bad cases of Scrofulous diseases.

Dr. J. H. Thompson, of the same place, prescribed it in bad cases of Scrofulous patients at Willis' Hotel. His success attracted the attention of senior physicians. He reports the following remarkable case of White Swelling of the hip, in February, 1844: The lad was seven years old, and had the disease for three years. The bone was dislocated upward and outward. There was a large opening on the hip leading to the bone, into which I could thrust my finger. I counted three ulcers. He had been under several physicians, who had given him up. I ordered a decoction of Rock Rose. In two days his Night sweats ceased; I then ordered a tea spoonful of Rock Rose three times a day. THIRTY-NINE DAYS after he was ENTIRELY WELL.

Dr. Webb, of Madison, Ct. testifies to the value of Rock Rose, as evinced in the cure of numerous cases of the Scrofula, especially in children.

Dr. S. Fuller, of Hartford, Ct. administered the Rock Rose to a Scrofulous female, in which the anti-scrofulous remedies had been applied without success. The disease was fully arrested by it.

The Rock Rose is a plant of rare medicinal virtues, and unrivalled as a curative agent in Scrofulous diseases. I cannot but express the desire, in closing this statement, that it may be found to lessen the sufferings of our diseased and dying humanity.
