THURSDAY MORNING, JUNE 9, 1853.

PUBLIC SCHOOLS IN MARYLAND.—The Catholic agitation against the Public Schools in Maryland, has resulted in the passage of a Bill, to a third reading, prohibiting the use of *sectarian books* in Public Schools, after amending by adding a proviso that this prohibition shall not extend to the Bible.

A similar law will be asked of our Legislature next winter. In the present School Law of the State, the books are under the control of the Directors; and the Protestant Directors have never, to our knowledge, introduced a single sectarian book into the Schools, unless the Bible is called a sectarian book; but in almost every instance where there is a preponderance of Roman Catholic Directors, the books of the Church, particularly the Catechism, are introduced into the Public Schools. We know of one instance in this county, where a Catholic teacher was employed, who threw all the books out of the school introduced by the Directors, and refused to use any other kind than those approved by the Catholic Church, until the Directors notified him that unless the books were removed from the School in one week, he would be instantly dismissed. The books were removed, but the teacher succeeded in exciting the odium of the Catholic population against the Board of Directors. In many districts, timid directors would have overlooked such movements sooner than encounter the opposition of the Catholic population. As far as we can learn, there are at least eight or ten Schools—Public Schools—in Schuylkill county where the Catholic catechism is used by permission of the Directors.—*Pottsville Journal.*

The present area of the city of New Orleans will hardly fall short of forty square miles, being double the area of the incorporated limits of New-York city, which embrace the whole of Manhattan Island and presenting a surface larger than that of the present area of London. The present area of New Orleans may without difficulty, and in the ordinary course of human affairs, comfortably contain a population of 2,000,000 inhabitants. The present population during the business season may safely be estimated at not less than 175,000.—*Picayune.*

MISCELLANEOUS.

IMPORTANT TO HOUSEKEEPERS.

SOMETHING better and more economical than Soda, Cream Tartar, or any other preparation for raising Bread, is DURKEE'S GERMAN YEAST, or BAKING POWDER, for raising Bread, Biscuit, Bread, Griddle and Johnny Cake, Pastries, Puddings, Pies, &c. This article is one that *every* Family, Hotel, Boarding House, Eating Saloon, Ship, Steamboat, Tents, Camp Hunter, &c., will find, upon a careful trial, to be the very Wholesale *every* day of their existence.

1st. It must important advantage over the old system, are the saving of the expense of milk, rare, shortening, spoiling bread, and the trouble and expense of procuring good yeast—water only being necessary.

2. No time lost by the housewife or cook to rise before baking; consequently bread may be made in a few minutes. A cook can at any time get up from her light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

3. Bread made by the process is much more nutritious, easier of digestion, better for the stomach, sweeter, whiter and lighter, than when made with yeast.

4. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with the compound; because the vegetable acid combined in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a portion of it goes to waste, and the vegetable acids tend to produce dyspepsia and its attendant evils.

This article has been thoroughly tested, and is now, and has been for the last 18 months, in constant use, and is warranted to suit.

We therefore ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Put up in 1 lb. and half lb. tin canisters. Sold by the best grocers and druggists generally.

Prescribed by Physicians.

PHYSICIANS everywhere prescribe B. A. FAHNESTOCK'S VERMITUGE, for the reason that it is the best Vermifuge in use. Read the following statement, from a gentleman whom we have known many years:

BEDFORD, Ind., Sept. 21, 1852.

Messrs. B. A. Fahnestock & Co.—Gentlemen: It gives me pleasure to inform you that I have been selling your Vermifuge for nearly or twelve years, and during that time I have also sold other Vermifuges and preparations, and I can conscientiously say that yours has universally given satisfaction to all who have used it, and was generally used and prescribed by practising physicians in the town of Washington, Ky., and its vicinity, where I did business up to 1850. I feel no hesitation in recommending it to my own family with entire satisfaction, when other preparations have failed of their desired effect.

Yours, truly, THOMAS FOX, JR.

N.B. It sells well here, and gives good satisfaction.

Sold wholesale and retail by all the principal druggists and country merchants throughout the U. States.—1m19

PROFESSOR ALEX. C. BARRY'S TRICOPHEROUS, or Medicated Compound, for beautifying, improving and preserving the hair, curing curb, ecze-ma, eurns, stings, rheumatism, and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement but as the thousands who purchase, we and approve of it having probably no idea of the enormous amount of its business done by Professor Barry, he gives herewith a plain statement of the facts derived from his books, and with its vendors has earned and gratefully thanks to his numerous patrons.

Professor Barry's accounts of sales for the year 1852, show that during that year about 240,000 bottles of his Tricopherous were disposed of, and that the cash product of this immense sale was nearly $30,000.

This plain, unvarnished sale is a better commentary on the merits of the article than anything the inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a home body remedy for cleansing, brilliancy, and beauty of the hair—it would not, of course, be so universally in demand. The wealthy portion of the public would buy it as a luxury, but Professor Barry has reduced it to a figure so low that the poorest can avail themselves of its benefits.

Sold in large bottles (price 25 cents) at wholesale and retail by Professor Barry, No. 347 Broadway, New-York, and by the principal Merchants and Druggists throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c.

TESTIMONY FROM TENNESSEE IN favor of B. A. FAHNESTOCK'S VERMIFUGE—The Nashville Union says: "We call the attention of our readers to the perfectly safe and efficacious Vermifuge of B. A. Fahnestock's Vermifuge. The gentleman is well known in this community, and anything he says can be relied on."

Sold by B. A. Fahnestock & Co.—Gentlemen: For the benefit of others, I take pleasure in testifying to the valuable qualities of your Vermifuge. About ten years ago my little daughter got it in my absence, and gave it to her, on one of the masks in Nashville, in whose estimation it was thought a wonderful article, having sent it in his family with very satisfactory results. My little girl took a wal dose for one of my children, who had until then been in poor health and subject to frequent sickness. The Vermifuge expelled a great number of worms, and the child started a decided improvement in good health. I have since used it regularly in my family for most of the ailments of children, and generally with good effect.

One remark, in one case, in the family for a near relation, I will mention, as experimental. The child was about four years of age, had always been puny, often attacked with convulsions, and was pronounced by physicians to be in a decided state of worms. Its mother was in great anxiety. I recommended the use of your Vermifuge in the case, and for the half of a vial which I was taking home with different doses for its use, I learned afterwards that the child passed an enormous mass of worms and was from that time forward cured. In a short time, by the use of the Vermifuge, the child, and, in fact, the whole family, improved in health and strength. The child was *walking* and acquiring perfect health! This recovery, from very low ebb of health, the friends attribute to the use of your Vermifuge. JOHN HARRISON.

HOUSES, FARMS, &c.

A Tract of Valuable Iron, Coal, and Timber Land for Sale.

THE subscriber, as attorney for the owners, offers for sale a TRACT OF LAND, of fifteen hundred and twenty acres, adjoining on a spur of the Alleghenies, in Monongalia county, Virginia, about one or six miles south east from Morgantown. The land is thickly strewn with the largest of the most valuable species of timber, such as white, red, and black Oak, Chestnut, Cherry, &c., and is bordered to be very rich in Iron and Coal. It is sufficiently watered by Dorsey's Creek, (both forks of which it crosses, and which empties into Decker's Creek, leading to the Monongahela river,) for the turns of a Saw mill and furnaces, and from its proximity to the Fairmont branch of the Baltimore and Ohio Railroad and the contemplated railroad from Fairmont to Brownsville, Pa., as well as navigation by the Monongahela river to Pittsburgh and thence down the Ohio, it is thought to be most advantageously adapted to the manufacture of Lumber and Iron, in great quantities, at the lowest cost. On the Tract is a Medicinal Spring, fifty feet deep, of chalybeate and sulphur ingredients, of such a volume of water and never-failing purity, which it is believed can be most profitably improved into a Watering Place of great attraction, both to Eastern and Western patronage. Its locality and remoteness from all other watering places would give it from competition. The attention of capitalists is invited to the varied resources of the Land, which is known as the "Robert Miller Tract." Apply to

J. HOWARD GRIFFITH, 1 Marshall Building, Baltimore, or—R. H. SKIPPON, No. 24 Spear's Wharf, Baltimore.

SELLERS' FAMILY MEDICINES.

GRANNIS'S STATION, Ohio, May 25, 1849.

Mr. R. E. Sellers:—I think it right, for the benefit of others, to state some facts in relation to your excellent family Medicines. I have used your Vermifuge largely in my own family, and have found it invariably an expelling large quantities (say 10 to 200) of Worms in two children. I have also used your Liver Pills and Cough Syrup in my family, and they have, in every instance, produced the
