...SBURGH GAZETTE.

...URSDAY MORNING, JUNE 30, 1853.

...census of Great Britain, in 1851, has just ...published in two thick volumes. The number of people returned were 21,121,967, of whom 0,386,048 were males, and 10,735,919 females, ...giving the ladies the advantage. On the ...of the census 12,924 were sleeping on ...barges, (vessels,) 9,972 in barns, and 6,227 in the open air or under tents. The number of families in Great Britain were 4,812,888; inhabited houses 3,618,347. The towns, villages, &c., in Great Britain, 17,150. The British isles, 500; ...inhabited, 176. Great Britain has upwards of 21 millions, and Ireland upwards of 6 millions of souls. Anglesey, Jersey and the Isle of Man have 50,000, and Guernsey, Lewis, Skye and Shetland over 20,000. These numbers, however, rapidly descend in the remaining islands from 10,000, to 1,000, 500, 400, 100, 40, 30, 20, 10; and, finally, at Inchmalin, an appanage of Fife, there is an island with one man only on it.

The late Judge Thompson, while presiding in the United States Circuit in the city of New York, on the trial of a criminal case, was requested by one of the counsel to charge the jury that they were judges both of the law and the fact. The judge replied: "I than'; they ain't." This is the cleverest specimen of laconics, save one, which we remember to have heard of since Cæsar's famous despatch to the Roman Senate: and what's more to the point, it is good law. —*Evening Post.*

A NOBLE MONUMENT.—To honor the memory of the late Duke of Wellington, a magnificent school is to be established in England, at which children of Army officers are to be admitted free of charge. The Queen heads the subscription with $5,000; Prince Albert and the Duke of Cambridge (the Queen's uncle) follow with $2,500 each; and there are several subscriptions ranging from $600 to $1,000. The entire subscription already amounts to $400 000, and will probably be increased to $500,000.

THE PEACE OF EUROPE.—Advices from Constantinople announce that firmans securing complete emancipations to the clergy of all the non-Mahometan confessions, have been drawn up by the Ministry, and submitted to the Sultan's inspection. New firmans concerning the civil rights of Christian laymen, of all names, were also preparing.

MISCELLANEOUS.

IMPORTANT TO HOUSEKEEPERS.

SOMETHING better and more economical than Soda, Cream Tartar, or any other preparation of existing for Baking—Dr. PARKER'S CHEMICAL BAKING POWDER, for raising Bread, Biscuit, Fried, Broiled and Johnny Cakes, Puddings, Pot-pies, Corn Bread, Wafers, Apple Dumplings, Pastry, &c. &c. This article is one that every Family, Hotel, Boarding House, Saloon, Steamboat, Packet, Vessel, Canal Boat, &c., will find, upon a careful trial, to be the very article needed to render life easy and pleasant. It is the most important advantage over the old system, since it saves one-fourth of milk, eggs, shortening, spoiled bread, and the trouble and expense of procuring good yeast—yeast only being necessary.

N. B. Not to be used for the Relish to stay before baking; making only bread that may be made in a few minutes. Yeast, or any other ferment, is not needed, but, when used, it gives a better flavor to bread and biscuit, whether the flour be of the best quality or not.

Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter and more palatable than bread made with yeast.

N. B. The bread made by fermentation, does not afford the same nourishment to the system, that it does when made with this compound; because the vegetable fibre, which is the nutritious part of bread, prevents the proper action of the gastric fluid upon the starch contained in part only, prior to its passage into the body, while the acids and salts in this compound are all dissolved while.

This article has been thoroughly tested, and is universally liked. When used according to the directions, it is warranted, to sell.

Ask for and take no other but DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Prices as other Baking Powder. Water street, New York. Sold by the grocers, druggists and dealers generally.

Preferred by Physicians.

PHYSICIANS everywhere prescribe B. A. FAHNESTOCK'S VERMIFUGE, for the reason that they can place implicit confidence in it. Read the following testimonial from a gentleman whom we have known many years:

BEDFORD, Ind., Sept. 21, 1852.

MESSR. B. A. FAHNESTOCK & CO.—Gentlemen: It gives me pleasure to inform you that I have been using your Vermifuge for some time or twelve years, and during that time I have also sold other Vermifuges and preparations, and I was induced to try your Vermifuge because it gives satisfaction to all who have used it, and was generally recommended by those who had used it in the town of Washington, Ky., and its vicinity, where I did business up to that time. I have sold it ever since, and, in my own family, with entire satisfaction, when other preparations failed to do the desired effect.

Yours, truly,

J. H. WEAVER, Druggist.

BOGLE'S HYPERION FLUID is the best article for the HAIR in use. The following speaks itself:—Mr. Bogle—Sir: I consider it a duty I owe to society to inform you that your Hyperion Fluid, for the use of which I have derived so much benefit, is the best article for the hair, and for diseases on the head, the skin, which are covered with a thick coat of scaly humor, (or dandruff in its worst form) when auxiliated by the use of the Fluid, I have seen treatise, and actively outlined me (or said) my hair was grey and very dry, and I was fast becoming bald and grey; to cure which I tried all the advertised articles of the day, but found no benefit whatever, and certainly any benefit I heard of your Hyperion Fluid, and as a last hope I tried it, and I am happy to say that it has done me good. I have used it, yet I was afraid to use it for fear of soiling the hair, but was induced by you to give it a trial upon my own, and I have not been disappointed, it has succeeded entirely succeeded. The skin of my head is now clear from scurf or dandruff, my hair is daily growing thicker and it is to a fine healthy state. It is therefore with the greatest confidence I recommend your Hyperion Fluid to be all you represent it.

Yours, truly, SAMUEL CHAPMAN.

Messrs. B. A. Fahnestock—Gentlemen: I have a great sale for your Vermifuge. Besides what you sent me, I bought, with Birchard & Co.'s stock of drugs, one five dozen, nearly the whole of which is sold. It does great execution among the worms. Mr. Jos. Parker gave him son (nine years old) three bottles of your Vermifuge, and it brought away nearly thirty feet of Tape-Worm! Dr. Dell gave two bottles to a child four years old, and it passed about one hundred worms nearly a foot long, and many smaller ones came away, and the child is well. As soon as navigation opens I shall order an additional supply.

Respectfully, yours, &c., WM. W. BOOTH.

Prepared and sold by B. A. FAHNESTOCK & CO., cor. Wood and First streets.

SAVE YOUR ICE.

Burnet's Patent Water Cooler.

WE are now prepared to offer our friends and customers a superior article of WATER COOLERS of entire new style and greatly reduced prices. These kits is the result of the application of scientific principles to the purpose intended, viz: to keep water as cool as possible, for long a period, and with the least reliable quantity of ice.

The previously has long devoted much attention to this particular branch of domestic economy, and passing from one improvement to another, has, at length, arrived at near perfection; it is possible to reach. A proof of this is found in the very general use of these Coolers in all parts of the country.

The undersigned feels in regard to these Coolers, will satisfy every one of their superiority. First, they are the only article of the kind ever placed. They are furnished with two distinct non-conducting chambers, by means of which, with two pounds of ice in the cooler, water is kept at a temperature of 60° above zero, or 32° from freezing (all day). Thus, at a cost of some three cents per day, a family or ordinary size can be constantly supplied with water as cold as ice fresh; larger numbers in the same proportion. This has been found by actual experiment to be a saving of at least seventy-five per cent. over the earthen jars formerly used for the purpose.

Again, these Coolers never sweat, and, consequently, much unnecessary waste and trouble.

Being manufactured in the most workmanlike style, and handsomely finished in every respect, they make a beautiful ornament if placed in view. The Coolers are now in use in the Treasury, the fourth instalment of five dollars per share, on or before the 1st December next, and five dollars per share on or before the 1st day of each month thereafter, until the whole amount of stock subscribed for has been paid.

By order of the Board of Directors.
