HOME MATTERS.

ALLEGHENY TEMPERANCE ASSOCIATION.—The Temperance Association of Allegheny met on the 12th inst., in Rev Dr. Black's Church. President in the Chair. The meeting was opened with prayer by Dr. Black. In absence of the Secretary A. Cameron was appointed Secretary.

Minutes of the last meeting read and adopted. By this time the House was filled with people who seemed to manifest a deep interest in the cause.

The Ward Committees were called to report. Mr. Kelly's Ward reported, to have got subscribed $67 89; $62 of the amount paid and handed over to the Treasurer. 23. Ward, no report. 31. Ward Mr. Rey paid over to the Treasurer $30. 4th Ward, Mr. Marshall reported to have $60 collected, and A. Cameron $10; also $1 75 paid at the meeting.

On Motion of Dr. Pressly:

Resolved, That this Society donate to the State Society one hundred dollars towards the ten thousand dollars that is to be made up.

In the absence of Mr. Burleigh, the Rev. Dr. McLaran was requested to address the meeting, which he did; and Mr. Burleigh having arrived, came forward and addressed the meeting in a most impressive and eloquent manner, taking for his text entire Prohibition. When he sat down Col. S. W. Black was called on, and he responded by giving one of his best efforts. The Colonel stated that he planted himself on the temperance platform, and that entire, absolute and perpetual prohibition is the only thing to save our country.

Dr. Pressly offered the following resolution, which was carried without a dissenting voice.

Resolved, That in our opinion the great question of Prohibition, now before the people of Pennsylvania, is of more importance than any, or *all* questions of State policy.

Resolved, That we call upon the organized political parties to nominate candidates for office worthy of our confidence, as none other than reliable temperance men, no matter to what political party they belong, shall obtain our support.

Mr. Marshall offered the following resolution:

Resolved, That every voter here present, pledge himself to attend the primary meetings and endeavor to elect such men as will carry out our wishes.

Col. S. W. Black offered the following:

Resolved, That our object is to procure by legislation, or otherwise, the entire, absolute and perpetual prohibition of the traffic in drinks which intoxicate. That this being our single purpose, we disclaim any intention to interfere with the organization of any political party, or with this movement, to advance any one at the expense of another.

Resolved, That we hold our next meeting in Rev. Dr. Rodgers' Church.

A CAMERON, Sec., *pro tem*

RAILROAD CONVENTION AT ENON VALLEY.—Agreeable to a previous call, a number of persons convened at Enon Valley on Friday the 8th inst., to take into consideration the propriety of aiding in the construction of the Mercer and New Castle Railroad, and the New Lisbon Union Railroad, which design to connect at this point; making a part of the great chain of Railroads between the South and West and the city of New York, and other Eastern cities; and to hear reports of the examination of the engineers who have been examining the different routes.

The Convention was organized by calling R. B. M'Combs, Esq of New Castle, Pa., to the chair, and appointing R. D. Hartshorn, of New Lisbon, Ohio, Secretary.

Mr. Mubeler, of Pittsburgh, being called upon, stated the object of the meeting in a brief and comprehensive manner.

Hon. C. T. Whipps, being then called upon, gave a satisfactory statement of his surveys and explorations, and surveys to the Sunbury and Erie Road; beginning at Enon Valley, which he found to be a very favorable route, and of easy grades.

Mr. Bowman, Chief Engineer of the New Lisbon Union Railroad, was called upon, and addressed the meeting upon the nature of the route from this point to the south west, presenting light grades and easy curvatures.

The convention was afterwards addressed by Dr. McCook, Rev. Dr. Stephenson, Professor Day, of Hudson, Ohio, and others.

On motion,

Resolved, That this Convention have the utmost confidence in the feasibility of the contemplated Railroad projected from New York, by way of Mercer, New Castle and Enon Valley; Pa., and New Lisbon, Cambridge, O., to Cincinnati, O; and Maysville, Ky., connecting with the great system of Railroads to the West and Southwest, and that its early construction is essential to the early and full development of the resources of the country; and that we will, therefore, use all honorable efforts to accomplish and aid in accomplishing the completion of so great an enterprise.

On motion, the Convention adjourned *sine die*.

R. D. HARTSHORN, Sec'y.

STRANGE CONDUCT.—A man named Booth took a motion, the day before yesterday, while under the influence of liquor, to stop every train on the Pennsylvania Railroad. So whenever a train approached the canal bridge on Liberty street, Mr. Booth would coolly drive his horse and drey fairly on the track, and await its arrival; the engineer of course, was obliged to reverse the engine, until the man could be forcibly removed. This he did several times, until their patience becoming exhausted, an attacne of the company, Matthew Freeman, instituted a suit against him before Alderman Parkinson, who imposed a fine of ten dollars upon him for the sport. We do not know whether the payment of the fine will cool his desire to interfere with the time table of the railroad cars or not.

PROHIBITORY LIQUOR LAW MEETING.—A meeting of that portion of the Whigs of the-First Ward, Allegheny, favorable to the Maine Law, was held on Thursday evening, at which Moses Borland, Esq. presided, and Geo. E. McLean acted as Secretary. The object of the meeting was to recommend temperance men for nomination for delegates at the regular primary meetings.

At adjournment, it was resolved that another meeting should be held on Thursday, in the First Ward School House, and a committee was appointed to make the necessary arrangements.

INVENTION.—Mr. McLain, late inventor of a patent car wheel flanger, the object of which is to enable the car more safely to pass over the greatest curves, laid a small track (forming a complete circle) at the Allegheny depot yesterday, in order to test the merits of the invention. The operation of the miniature car were watched with interest by a large number of people during the day.

CAPIAS.—Prothonotary Campbell issued a warrant yesterday for the arrest of R. J. Haggerty, on oath of H. H. Ryan. It appears that Haggerty had made no return of money collected on bills given him for collection.

ATTEMPT AT ARSON.—Some villain set fire to the fence adjoining the house of Mr. Shaffer, of Findlay Township, a day or two since, with the intention of burning the house. The design was fortunately frustrated, but the fence was much injured. There is no clue to the villain.

A discourse on Temperance will be delivered by Rev. J. M. Bryan, in the Scotch Hill Market House, on to-morrow (Sunday) afternoon, at 3 o'clock. The friends of the cause are respectfully and earnestly invited to attend.

BRUTAL CONDUCT.—Theodore Measick was arrested yesterday and taken before Alderman Hays, Allegheny, charged on oath of his wife with assault and battery. He had been in the habit of beating her brutally, and on the day previously had burnt all her clothing. Through fear, she was induced to settle the case at the Alderman's office.

JEWEL.—At the request of this unfortunate man, the Rev. Mr. McGowin, of the M. E. Church, visited his cell yesterday, in company with the Rev. Mr. Douglass, of the Associate Reformed Church. They spent some time in devotional exercises with much effect.

A collection will be taken up in the Rev. Dr. Quick's Church to-morrow, for the relief of the widow and family of Mr. Chambers, who was killed on the Central Road last Saturday night.

BUILDING ASSOCIATION.—A meeting was held by some gentlemen of this and Allegheny city last night to organize a "Building and Loan Association."

ARRESTED.—A number of boys who have been in the habit of acting disorderly in the Allegheny market house, stealing eatables from the hucksters, &c. &c., were arrested yesterday and taken to the Allegheny Mayor's office. After a lecture, they were fined and discharged.

ARRIVED.—The father of the boy arrested by the Allegheny police several days ago, arrived here from Philadelphia yesterday evening. The father and son will leave to-day, we understand.

There were three cases of disorderly conduct and drunkenness at the Allegheny Mayor's office yesterday. They all paid fines and were discharged.

TO TURTLE CREEK.—The large Excelsior Omnibus, '76, will make a trip to Turtle Creek, on Sunday, and back. The fare for the round trip will be fifty cents.

VALUABLE COAL LAND FOR SALE.—Situated in the THIRD POOL, adjoining the town of WEBSTER, on the Monongahela River, containing ONE HUNDRED ACRES, with good improvements, 40 acres put equally of OHAL (7 feet vein) with down water and rail incline. From the last a speedy view can be had of the river for some miles. To persons which is to be sold in the coal business, the above lands present a good opportunity. Apply to [illegible]

MONETARY AND COMMERCIAL.

Erastus Hopkins, of Northampton, has been chosen President of the new Railroad Corporation in Ohio and Indiana, which is about to construct an air line road from Cleveland to Fort Wayne, Ind., connecting with a line straight thence to Alton, Ill. The one first mentioned is to extend 573 miles.

Freights are higher since the foreign news was received. To Liverpool, 3,000 of Cotton, 3 cents; Flour, 2c; Bulk Bacon, 3½c. To London, 1,000 bbls. at 3c, and showing a strong tone. The Boston Post says a considerable amount of produce offering for shipment.—N. Y. Tri.

The reports of 51 Banks have now been published. The only one of importance is that of the Continental. The aggregates of the above 51 Banks are:

Discounts	$91,527,114	Specie	$12,925,524
Deposits	56,995,114	Circulation	9,667,365

A comparison of the above Banks with the reports of February and July last shows the new Banks not taken in existence gives the following results:

	Feb.	June	July	Inc.	Dec.
Discounts	$91,527,114	$91,271,417		$255,697	
Deposits	56,995,114	55,904,733		90,381	
Specie	12,925,524	12,834,182		$2,538,889	
Circulation	9,667,365	9,522,193		927,926	

It is to be seen that the Banks are in much stronger position than in February, in addition to the Sub-Treasury in two millions more specie, and in the Banks nine millions more than in February.—N. Y. Tri.

BUFFALO, Saturday, July 20—10 m.—The news by the Europa tends to stiffen the market here, and there is a better feeling today in relatively easier. NOTICE

MR. SOLOMON'S stay in Pittsburgh, now being limited to a few days longer, and as he will not visit the city for a year, every person, immediate application is absolutely necessary.

NEW DISCOVERY FOR THE EYES.—SPECTACLES, &c., GROUND ON THE newest principle of spherical scourer, by S. SOLOMONS, the celebrated Optician, from the Improved Pebble Manufactory and London Optical Establishment, No. 104 Mud Island street, London—established more than 1 of the Most Eminent Physicians and Oculists in Europe.

SOLOMONS the sole inventor of the Improved Spectacles, and perfecter Improved Glasses, is now on a visit to his agents in this place, and may be consulted at his Fourth street, first door on Fourth street.

Persons who have been accustomed to use Glasses, and have tried in vain for years to find one that would assist their failing sight, or relieve the painful sensations they have experienced, may now be fitted with a pair of Spectacles, which will enable them to read or pursue their occupations with ease and pleasure, and without the fatigue and pain which they have hitherto been subjected to, by using improper glasses, which have been recommended to them by ignorant or unprincipled persons.

Also, the Patent Improved Glasses, which are so much celebrated for their extraordinary power, and which have been extremely successful, and giving universal satisfaction, are now for sale by the undersigned, who is the only agent in this place, who is authorized to use the genuine Pebbles, which are ground and polished by the celebrated Mr. Solomons, and which are known to be the best and most durable Pebbles in the world.

Persons desirous of having their sight tested, can have it done free of charge, by calling at the Office of the undersigned, where they will find a large assortment of Spectacles, Gold, Silver, Steel, Plated and Common Frames, Opera Glasses, Spectacle Cases, Gold Pens, Pencils, Thermometers, Barometers, Compasses, Magnifying Glasses, Microscopes, Telescopes, Surveyors' Compasses, Drawing Instruments, Mathematical Instruments, Rules, Chemical Apparatus, Galvanic Batteries, Philosophical Apparatus, Electrical Machines, Magic Lanterns, Stereoscopes, Daguerreotype Materials, Daguerreotype Cases, Daguerreotype Plates, Daguerreotype Boxes, Daguerreotype Frames, Daguerreotype Lenses, Daguerreotype Mats, Daguerreotype Gilt Frames
