PITTSBURGH GAZETTE.

FRIDAY MORNING, JULY 29, 1853.

PARSON BROWLOW ON MRS. STOWE.—We observe that respectable Southern papers are publishing, without a word of rebuke, the following specimen of most disgusting blackguardism.—The man who, young, has long been regarded as the chief of all those who have known anything of his career; but we presume few thought him quite as detestable and infamous a creature as this article shows him to be. He may be insane—we hope for the sake of human nature he is—for if he is not, his manners and modes of thought must be much beneath those of the lowest and most degraded creature which Mrs. Brown has described. Here is this last specimen of Southern chivalry.—*Cin. Gaz.*

This long-tongued visionary woman, and caluminator of the South, is now in Europe, where she is being fêted by the haters of American institutions and Republican liberties. She is the daughter of old Lyman Beecher, a Presbyterian Minister, and has two brothers who are Ministers of the same church. Her husband is also a Minister, and at present, we believe, is a Professor in Andover College. They are all Abolitionists, both male and female, and the lying book styled Uncle Tom's Cabin, is believed to be the joint production of the entire family, manufactured for the occasion, and as a means of raising the wind. Her Layship, it is well understood, is the most talented member of old Tyrannus's family. But merciful God! she presents to the world the most hideous physiognomy ever gazed upon by the eye of man! She is as ugly as Original Sin—an abomination in the eyes of civilized people! A tall, coarse, vulgar-looking woman—stoop-shouldered, with a long yellow neck and a long peaked nose—through which she speaks—an abomination in the ears of Southern negroes, who instinctively turn up their flat noses at the idea of using the nasal organ to aid the organ of speech. A daguerreotype of her Ladyship, from her wig, hangs seen, sours the stomach of a Southern gentleman; but lay aside art and present the reality, and is the black negroe affected with the intensest horror! Pigeon-toed, knock-kneed, with a big foot and ankle, added to her long broad side and flat chest, and other charms of symmetry, she may pass through the Southern negro kitchens at all times, without impressing a rude negro man that he will offer the indignity sometimes offered to white women, who travel beyond their proper limits!!

MISCELLANEOUS.

IMPORTANT TO HOUSEKEEPERS.

SOMETHING better and more economical than Saleratus, Cream Tartar, or any preparation in existence, for Baking.—DURKEE'S CHEMICAL BAKING POWDER is perfecting Sweet, Biscuit, Fried, Griddle-and Johny Cakes, Puddings, Pastry, Corn Bread, Dumplings, Apple Dumplings, Pastry, &c. This article is one of the very finest Family Flour, Boarding House, Baking Saloon, Ship, Steamboat, Vessel, Canal Boat and Hotel Use, upon a perfect plan, and is being needed every single day of their existence.

It is a great saving of time over the old system, since it dispenses with the expense of milk, eggs, shortening, spoiled saleratus, and the time and expense of procuring good water—water only being necessary.

It is perfectly wholesome, and healthy, and consequently bread may be made in a few minutes, sweeter and palatable bread and biscuit from having light, sweet, and wholesome food, and from their being made of the best ingredients.

Bread made by this process is much more nutritious, easier of digestion, better fitted for a weak stomach sweeter, lighter, and more healthy than when made with Yeast.

As the bread made by fermentation, does not afford the nourishment to the constitution of the system that it does when made with this compound; because the vegetable acid contained in fermented bread, prevents the proper action of the gastric fluid upon it, and consequently, a part only reaches the blood, but the body pulls the acids to work to produce dyspepsia and its attendant evils.

Bread made with this powder is thoroughly tested, and is universally liked. When used according to the directions, it is perfectly free from acid.

We do intend to ask for DURKEE'S BAKING POWDER, and take no other, and you will not be deceived. Prepared only by the proprietor, New York. Sold by the best grocers and druggists generally.

ATTAINING FAVOR DAILY—There is no humbug about it, but it is a certain cure of disease, as testimonials in A. FAHNESTOCK'S VERMIFUGE.

Mobile, Ala., Feb. 2, 1852.

Dear Sir: I have to inform you that your Vermifuge continues to sell well in this place, and I find it gaining favor daily amongst our planters. Many of my customers, who were in the habit of using other medicines, are now determined to use it. A. FAHNESTOCK'S Vermifuge only, owing to its rarity, is not sufficient; however, I have sent Vermifuge sold in this city which stands so high in the estimation of the people, I think that the BEST gross more of your Vermifuge, I shall be able to supply the demand.

Yours, respectfully, F. F. DOCOUR.

Prepared only by A. FAHNESTOCK & CO., corner of First and Wood streets.

BOGLE'S HYPERION FLUID is the best of antiques, the HAIR is one. The following speaks for itself:

Mt. Bethel, Pa., April 6, 1846.

Mr. Bogle—Sir: I consider it a duty I owe you as well as myself to state that I was troubled with their head and hair as I have for some time past, the efficacy of your Hyperion Fluid, by the use of which I have derived so much good, that I feel bound to give it a trial in my family, and have not been disappointed in the result, the skin of which was covered with a child's rash, is now free, (or standing fair in good form) which entirely covered the pores of the skin, caused severe headache, and generally unfitted me for study. I have also grew dry and dead, and at last began to turn white, and I was fearful I should lose all the hair upon articles of the do. (And their name is legion) without success, until I tried your Hyperion Fluid, and although it was a long period before the dead hair fell off, yet, by the persevering use of it, the hair has grown out and another growth of hair has sprung up in its place, and I am glad to say it has entirely succeeded, and a head of my head is now clear from scurf or dandruff, my hair is daily growing thicker, and of a dark color. It is therefore with the utmost confidence I recommend your Hyperion Fluid, to be all you represent it to be.

Yours, truly, SAMUEL CHAPMAN.

TESTIMONY FROM TENNESSEE IN FAVOR OF A. FAHNESTOCK'S VERMIFUGE—The Nashville Union says: "We call the attention of our readers to the article of Mr. John Herring, in favor of A. FAHNESTOCK'S VERMIFUGE. The gentleman is well known in this community, and anything he says can be relied on."

Sold by A. FAHNESTOCK & CO.—Gentlemen: For the benefit of others, I take pleasure in informing the public of the virtues of your Vermifuge. About ten years ago my child was taken with a fever, which left it in a state of decline on the banks in Nashville, in whom estimation it was one of the highest order. Having seen it in his family with very satisfactory results. My daughter I took a vial home for one of my children, who had until then been very feeble and subject to frequent sickness. The Vermifuge expelled a great number of Worms, and the child soon was gradually recovered good health. I have since kept it constantly in my family for one of the ailments of children, and governing with good effect.

Have recently to my in the family of a near relation. I will mention in particular, the child was about four years of age, had always been puny, often attacked with worms, when sick, at the age mentioned, nearly lost the use of the lower extremities. I recommended the use of your Vermifuge in the case, and left the half of a vial which I was taking home, with directions for its use. I learned afterwards that the child passed an enormous bulk of large Worms—the number not remembered—and, in a short time, by the use of the Vermifuge, the child grew and health began to improve. When I next saw the child, she was perfectly healthy. This I consider, from the very jaws of death, the friends attributed to your Vermifuge. JOHN HERRING.

PROFESSOR ALEX. C. BARRY'S TRICOPHEROUS, or Medicated Compound, for beautifying, improving and preserving the hair, curing brilliant, burns, stings, rheumatism, and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement but as the thousands who purchase, can and approve of it having probably no idea of the enormous extent of the business done by Professor Barry, he gives herewith a plain statement of the facts derived from his books, and with them another testimonial of the utility he has to his innumerable patrons.

From Mr. Barry's accounts of sales for the year 1852, show that during that year about 940,000 bottles of his Tricopherous were disposed of, and that the cash product of this immense sale was nearly $165,000.

This immense, unprecedented sale is a better commentary on the value of the article than anything its inventor could say. If it were not preferable in its effect upon the hair—if it were not invaluable as a beautifier, and a preventative of baldness, burns, skin diseases, &c.—it would not, of course, be so universally in demand. The wealthy purchaser, who pays a dollar for it, is at any price, but Professor Barry has reduced it to a figure low enough that the poorest can afford to purchase it.

Sold in large bottles (price 25 cents,) at wholesale and retail, at the Manufactory and Depot, No. 132 Broadway, New York, and by the following agents in Pittsburgh: Thomas Jones, Fifth street; Wm. Thomas, Sixth st.; Jos. Jones, Penna. Av.; Jos. Jones, Penna. Av.; Jos. Jones, Penna. Av
