PROFESSOR ALEX. C. BARRY'S TRINITY OINTMENT, or Medicated Compound, for healing, curing and preserving the human flesh, cures tetter, burns, slings, rheumatism, and all irritations of the skin. A preparation for the sale of which subscribers in one million of bottles annually, would seem to need no advertising puff but as the thousands who have used, and approve of it having probably no idea of the enormous extent of its business done by Professor Barry, he gives herewith a plain statement of the Sales of the Ointment from his books, and with them tenders his earnest and heartfelt thanks for his unmerited patronage.
Professor Barry's accounts of sales for the year 1852, show that the number of pots of this Ointment sold, and Tricophorous were disposed of, and that the cash product of this Ointment sale was nearly $100,000.
This plain statement has neither a letter or commentary on the value of the article that anything its inventor could say. If it were not precious it is evident from its sales, if it were not invaluable as a household remedy for cuts, bruises, sores, skin diseases, &c. &c. it would not, of course, be so universally in demand. The wealthy and the poor, the high and the low, pay it any price, but Professor Barry has reduced it to a figure at which it is within reach of themselves of its benefits.
Sold in large quantities (price 25 cents,) at wholesale and retail, at the Manufactory and Depot, No. 137 Broadway, New York, and by the principal Druggists, Merchants and Druggists throughout the United States and Canada, Texas, West Indies, Great Britain, France, &c., and by
