Rosse's Patent Coupling and Foreplate,
FOR MAIL-PLATE AND SHEET-ROLLS,
CAN NOW BE SEEN IN OPERATION
At Messrs Reilly, Brown & Co.'s Rolling Mill, Pittsburgh, or the "Shuron Works," Mercer county, Pa. The advantages of my improvement are, that it obviates the necessity of stopping the engine or throwing off the crab to connect the top roll when forcing, as the top roll is connected and disconnected in an instant without repeat connection; and also, the FOREPLATE is so simple and complete that it is not liable to be displaced in half a minute, without removing a screw, bolt, or nut. The last, though not least advantage of my improvement is, that by it you are enabled to force the Rolls between back the same as forward, so that if Rolls or Iron should jam, or get broken, you can have the roll before. Further information, or a right to use the same, can be obtained of the undersigned.
WILSON SPEER,
Manager of "Shuron Works," Pittsburgh
