IN this preparation all the restorative properties of the root are concentrated in the highest strength and efficacy, but while Sarsaparilla Root forms its important part of its combination, it is at the same time, compounded with other vegetable remedies of great power, and by a peculiar combination and so skillful manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the blood, the digestive and secretive and thus three processes, which are ordinarily the result of three different agents or medicines, are all acted upon at the same time, through the instrumentality of *One* compound agent which gently stimulates while it dissolves and expels from the system all that should not be there, and at the same time restores their vigor and tone. Many diseases include in their nature the name of Sarsaparilla, and in that their resemblance ends, being of a peculiar character peculiar to themselves, and concentrates so healing or curative properties, and effects in such a choice of which they will use should take no other, but that concentrated, for their complaint, from the long list of cures it has effected on living witnesses, whose testimonials have been published, and who are still bearing daily testimony to its worth.

ASTON, HINGE CURE.
PATTERSON, N. Y. Sept 20th, 1851.
MESSRS. A. B. & D. SANDS: Gentlemen—Having witnessed the most beneficial effects from your Compound Sarsaparilla, it gives me pleasure to send you the following statement in regard to my case. For upwards of 18 months I took a severe cold, and after 8 weeks of severe suffering in the direction of the left lung and breast, the latter became swelled to the utmost. The swelling was lanced by the physicians, but discharged most profusely; after that no less than eleven ulcers formed, which broke and healed at the same time. We had five different Physicians, but none relieved me of the pain in the breast or the swelling in the breast and low that he was unable to leave his bed, suffering the most excruciating pain. During this time, I had grown so much affected that place after place came out, and I should have mentioned that twenty-five preserved in a bottle, varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try Sands' Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rapid was the change that less than a dozen bottles effected a perfect cure.

With gratitude, I remain, &c.
DARIUS HARTLEY.

We the undersigned, neighbors of Mr. Hartley, cheerfully subscribe to the facts of the above statement.
