PITTSBURGH GAZETTE.

For the Daily Pittsburgh Gazette.

MR. EDITOR: I shall deem it a favor if you will republish in the deservedly popular periodical under your control, which has uniformly and ably advocated the holy cause of civil and religious liberty, the accompanying appropriate and spirited lines, from the gifted pen of the wife of Rev. A. H. BASSETT, editor of "The Western Register."

Mrs. BASSETT has a sprightly imagination, a cultivated understanding, and a fine literary taste. She is the uncontestatious author of numerous compositions, in prose and verse, of decided merit, to which her feminine delicacy would not permit her to affix her name. By all who are honored with her acquaintance she is greatly beloved, and I regard it as no common privilege to be numbered among her friends.

Believe me, very sincerely, and respectfully yours, JOHN MECASKEY.

FREEDOM AND NEBRASKA.

BY MRS. A. H. BASSETT.

Respectfully dedicated to Hon. E. Ball, our Representative in the United States Congress, and his fellow Representatives from Ohio, who will soon be called upon to vote for or against the extension of Slavery.

Freemen, rouse in glorious might,
Rouse to battle for the right,
Save Nebraska from the blight
And the chains of Slavery.

Slay the aggressor from the field;
Never for a moment yield,
Till on Freedom's broad bright shield,
Shall be written—Victory.

Freemen, haste, the foe to face,
Every lover of his race,
Fearlessly stand in his place,
With his armor girded off.

Ye who wield a giant's spear,—
With your might do battle here,
And who lighter weapons bear,—
The unerring sling and stone.

Clad in might of moral power,
Ye shall make the tyrant cower,
If ye bravely meet the hour,
First and in united strength.

Onward then to victory lead,
Hearts shall bless you for the deed,
And Nebraska, noble freed,
Sing with grateful songs at length.

Frowns on trait'rous souls and base,
Who for power, gold or place,
Barter with unblushing face,
Freedom's sacred heritage.

Let them feel your stern rebuke,
Freemen, will you longer brook,
Trust betrayed, and deeds that look
Dark as night in this bright age?

Round the standard of the free,
Pledge your lives to liberty,
Say Nebraska shall not be
Now to slavery given.

Save it, ye who legislate,
Save it, Freemen of each State,
Save it, ere it be too late,
Save our country, GRACIOUS HEAVEN.

PUYSAN, OHIO, March 7, 1854.

BOOKS, MUSIC, &C.

NEW YORK.
Its Upper Ten and Lower Million!

BY GEORGE LIPPARD,
Author of "Washington and his Generals," "The Nazarene," "Legends of Mexico," "The Rich and the Poor," "Adonai," "The Quaker City," &c.

This is the best work ever written by Lippard; one continued scene of excitement from the commencement to the end. Those who have read Dumas' Count of Monte Christo, or the Wandering Jew, we are under the impression, will be equally pleased with this. Novel readers will find this the most interesting work that has issued from the press for some time. Price 25 cents.

Lippard's Great Work—New York: Its Upper Ten and Lower Million. Novel readers will be perfectly delighted with this new work. The incidents delineated in this work are of the most exciting character. We should not be surprised if the demand for it should extend that of Uncle Tom's Cabin.—*Times.*

From the Louisville Courier.—*New York: Its Upper Ten and Lower Million.*—George Lippard's last and best work. This novel requires only to be read to be correctly appreciated. As an original work, it is unequaled. We hazard no fear in saying it will be impossible for the reader, who commences this work, to leave it off until he has turned over its last page.

"Lippard is a great and good Philadelphia."—*Times.*

New York: Its Upper Ten and Lower Million.—A new work, by that gifted son of genius, George Lippard. We have read it. It is a novel of most thrilling interest—and as one so handsomely and truly says, it will sit up all night to finish it. It is a book we would like every body to read.

Price, handsomely bound, $1.00; in paper covers, 75 cts.

For sale by all Booksellers throughout the United States.

A Peck wrote, I think that, and I will say it, Pittsburgh.

W. HAZLETT, 61 Wood st.

Melodeons.

JOHN H. KLEBER has just rec'd a fresh stock of superior Melodeons, from the celebrated manufactory of CARHART & NEEDHAM, New York. These instruments are now under the management and supervision of the original inventor, Mr. Carhart, and are considered improved in this country. They have recently received the premium at the Fairs, and other important improvements, being all late inventions of Mr. Carhart. The above instruments, with others,

1 Five octave Melodeons, round corner, gothic tablet and carved Piano Frame, $175.
1 Five octave Melodeons, scroll legs, double swell, etc.
2 Four and a half octave Melodeons, JOHN H. KLEBER, Sole Agent for Carhart & Needham's Melodeons.
fe28 No. 97 Wood Street, Pittsburgh.

MISCELLANEOUS.

To Capitalists, Manufacturers and Mechanics.

THE Beaver Manufacturing Company, under a Charter from the Legislature of Pennsylvania, with a Capital of $50,000, propose to establish, in the village of Brighton, Beaver Co., Pa., a number of FURNACES for the manufacture of Pig Iron, with the necessary machinery and apparatus for the production of Bar Iron, Sheet Iron, Nails, Spikes, &c., &c., and as soon as practicable, a Rolling Mill for Railroad Iron.

Towards the accomplishment of this object they are willing to expend the appropriated stock and energies of the work, together with the necessary amount of water power, and the purchase of getting coal, iron ore, fire clay, building stone, timber, &c., all of which they have in great abundance; also, dwellings, merchandise shops and vacant lots, for the accommodation of operatives and others, to excavate a large and commodious race or canal sixty feet wide, for the more convenient and abundant supply of water, and for the transport of boats to and from the works, and to erect suitable buildings in which to carry on the contemplated manufacture to perfection.

Such grounds, water power, erections, improvements and utensils as they propose to put in as their quota of capital, and it is hoped that other parties, with some capital, practical knowledge and mechanical experience, will be induced and it is hoped that other parties, with some capital, practical knowledge and mechanical experience, will be induced and willing to supply the machinery, the manufacturing labor, and a portion of the working cash capital. The capital to be contributed by the parties, in reasonable proportions, from one-fourth to three-fourths of the whole capital, required for each particular branch of business, is left for determination to afford every possible aid and facility to those who identify themselves with this enterprise, and will thus accordingly offer equally liberal inducements for the establishment of many other branches of industry which tend to the general good above enumerated, and by which tend to the more extensive development of the mineral stores by which their position is surrounded, and which, on grounds so richly and extensively pervaded. See multiplication and extension of free manufactures, &c.

The Company are now repairing their Cotton Factory and Flouring Mill, and are willing to rent to practical and responsible parties either or both for a term of years, upon liberal terms—that their own attention may be more particularly directed to the establishment and prosecution of the other branches, some of which have been enumerated, and to which they would add the building of locomotives, steamboats, steam engines and carriages, and the making of pottery, fire-brick and pipes, &c., for which they have the materials in their own premises ground, and in great perfection and abundance. The Flouring Mill is capable of making 200 barrels of flour every 24 hours, or 200 bbls of grits, or both, and is abundant, being brought by canals, railroads and rivers, to the door of the mill.

Post paid letters addressed to the Agent, will receive prompt attention.

INQUIRERS—Persons in the East wishing to know more of this matter, and of the parties composing the Company, are respectfully referred to

H. W. Wilson, Hiram Walbridge, and Chester Bedell, of New York.

John A. Sewell, Esq., Philadelphia.

John Thompson, Esq., Baker, Wakefield, Rhode Island.

Hon. Benj. T. Tappan and Jas. D. Voorhees, Esqs., city of Syracuse, N. Y.

Jas. D. Wheeler, Truesdell, Esq., Agent of the Company, at the Office of the United States Branch Bank, New Brighton, Beaver Co., Pa. Mr. Truesdell is requested to show the Company in all its details, with maps, plats, descriptions, terms, conditions and future prospects of the Company, so as to make a contract, insure, and sell.

Western parties to the property and title thereto—

H. W. Wilson, Esq., Pittsburgh and Esq., Pittsburgh.

Multiplication and Extension of Free Manufactures.

We have within the last few months seen frequent allusions to a new plan, by which mineral, coal, and iron ores are converted into the finest cutlery, and other articles, through the more tedious and expensive steps into and from the pig metal state, as now generally practiced in the United States.

This new process appears to be gaining favor rapidly in various parts of our country. It was first heard of at Trenton, New Jersey, then at Cincinnati, then at Cleveland, then at Wheeling, and now to our immediate vicinity, Allegheny and Beaver Counties.

We have seen the process and witnessed the results. We have seen the mineral (as it comes from the mine) being crushed or pulverized and mixed in suitable proportions, and put into a hopper, like a bag of grain as a corn mill, and have seen it then subjected to a powerful descending, by passing through red hot cylinders, come forth in the form of a bar, or rather a pudding oven at the rate of three tuns per stanchers, apparently fire so much red hot as to be welded without having been melted. From what we have seen this iron and, by the mere adhesion and agglomeration of the particles, the incorporation which takes place, under the manipulations of a practical puddler, into a compact mass, and like a rolling stone, gathers with every turn to the size of the largest pumpkin.

We have seen this iron pumpkin, or ball of red hot metal brought immediately under a large hammer, and in less time than five minutes it was converted into a beautiful bar of iron, and then the same blows pass through the rolls, and come forth a boiler iron, or sheet iron, bar iron, rail road iron, or any other form desired.

An appropriate furnace and puddling oven for this purpose can be erected for less than $1000, and any person can be in store of one that, with good fuel, can in its vicinity, and a thousand dollars in his pocket, can in less time than a month, erect a saw mill or grist mill, have a factory running upon his own premises, and be in receipt of a handsome profit, which shall turn out daily, two tons of first rate blooms at a cost of $70 the ton, though worth at his own door $100 a ton, and thus realizing from a profit of $30 a day on $1000 capital, or $10,000 per annum. The "Beaver Manufacturing Company" are ready to furnish the ground, the coal, the timber, the water power and patent right, privileges, or so much capital under their charter, with others who have some capital, and skill and industry.

Let those who wish to know more of this matter, inquire of the undersigned, who knows all about it.
M. C. DUNLAP.

MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT;

RETIREMENT OF PROF. JAMES McCLINTOCK, M. D

From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE!

Popular Medicine for the first time sanctioned by the HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK, M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preservation of a series of FAMILY MEDICINES therefrom, which will be put up in a cheap and popular form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations ever known for the cure of disease. They are the fruits of the most profound investigation, the wide est research, and the utmost unparalleled experience of one of the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, in accordance with the highest principles of modern medical science. Each of these medicines has been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who use many of them now practising with distinguished success in all parts of the country. My indorsement of this course is all the more numerous one of the most urgent is that the demand for my remedies has become so large, through my extensive report of their success, as to make their preparation too great a draft upon my time; another is, the belief that solicitations of my friends and patients, to the effect that the general introduction of my remedies would be in many respects a public benefit, have induced me to yield to the importunity of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the BEST, PUREST and most perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians to the Philadelphia Hospital, Block-ley, Member of the National Medical Society, member of the Philadelphia Medical Society, member of the Medico-Chirurgical College of Philadelphia, formerly President and Lecturer on Surgery in the Castleton Medical College, Vermont, and also, late Professor of Anatomy and Physiology in Rensselaer Medical Institution of Troy, Pittsfield, Mass., &c., &c., &c.

We need scarcely remind the intelligent public of the great *novelty* which exists for the introduction of a class of *good and reliable popular medicines*, which have been so long and so frequently prescribed by the medical profession, and *dispensed on a cost* defiantly adapted into family use and *dispensed on a cost* defiantly adapted into family use and *dispensed on a cost* defiantly adapted into family use
