SLAVES IN CALIFORNIA.—On the 18th ult., the Assembly passed a bill to extend till April 1855, the law about to expire, authorising persons claiming slaves brought to this State previous to the admission, (9th Sept. 1850,) to seize the slaves, take them before a magistrate or judge, who, upon receiving satisfactory evidence that the slaves were brought hither previous to the admission, shall give a certificate to that effect to the claimant, and the victim may be taken by force out of the State. He is not allowed bail, nor attorney to defend him, time to prepare for trial, nor an appeal.

DR. HENRY S. PATTERSON, who has been for many months lying on a sick bed, died yesterday afternoon, in his 38th year. Dr. Patterson possessed natural abilities of a high order, which were further improved by diligent cultivation and scientific and literary study. In his profession he had acquired a name of distinction equal to any of his age and experience. He possessed a fine literary taste and contributed largely to the current literature of the day. He was a generous, warm-hearted friend, full of sociability and good feeling. His early demise will be a source of sincere regret to his numerous acquaintances. —*Phil. Ledger, of Friday.*

HOLLAND BITTERS

WORKMAN'S ELECTRO-CHEMICAL AROMA, OR
GENUINE HOLLAND BITTERS.
FROM LOUIS A. D'ISRAEL'S, Chemist and Pharmaceutist, of Amsterdam, the only Manufacturer. A purely vegetable Compound, prepared in the manner of the celebrated scientific gentleman, after the manner of the celebrated Holland Professor Boerhaave. Because of its close imitation to most of the European Bitters, it has been thought by the United States was intended more especially for those of our Fellow Citizens who have left the fatherland for the more delightful country. Meeting with great success among them, I now offer it to the American public, well knowing that the wonderful properties of Holland Bitters cannot be acknowledged.
IT IS A SURE REMEDY FOR
Fever and Ague, Rheumatism, Nervous Headache, Sour and Foul Stomach, Offensive Breath, Billiousness, Costiveness, Dyspepsia, Want of Appetite or Loss of Appetite, Indigestion, Costiveness, Nausea, Vertigo, extreme languor and exhaustion, Want of Sleep, Nervous Debility, Dizziness in the head, and all diseases arising from a DISORDERED STATE OF THE LIVER OR STOMACH.
It is particularly recommended to those persons whose occupations may have been inspired by the continuous use of ardent spirits, or other form of intoxication, as a cordial, and permanent in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, and giving a healthy tone to the whole frame, infusing new health and vigor into the system.
WHITE VARNISH MEDICINE
In all cases of Diarrhoea, Dysentery, Cholic, Cholera Morbus, and the many unpleasant effects attending a change of water or climate.

Mr. Beni. Saale, Jr.—*Dear Sir:* I would say that I have been afflicted with a disease of the stomach, palpitation of the heart, and nervous headache for nearly fifteen years, and have spent some hundreds of dollars in order to effect a cure, but to no purpose. After having used three bottles of your "Electro-Chemical Aroma, or Holla nd Bitters," I find myself entirely restored. I can eat and sleep well, and attend to my business with pleasure, and would therefore recommend it to those who are similarly afflicted.

READ THE FOLLOWING CERTIFICATE:
This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. My inducements for this step are numerous; one of the most urgent is, that the demand for my remedies has become so large, through practice, as to make their preparation too great a draft upon my time; another is, the repeated solicitations of my friends and patients, in the belief that the general introduction of my remedies would be in many respects a public benefit; and finally, in securing the co-operation of Dr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they may place implicit reliance upon the purity and most perfect form, regardless of expense.
SAMUEL MORSE, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Physician of the Philadelphia Hospital. Recently late member of the National Medical Society; member of the Philadelphia Medical Society; member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in the Vermont Medical College, Vermont and also, late Professor of Anatomy and Physiology in the Berkshire Medical Institution, Pittsfield, Mass., &c. &c.
We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *good and reliable popular medicines* which shall be at once *cheap and efficacious*, and *depended on at all* deeply adapted into the hands of a physician, as being the legitimate productions of *Science, Study and Experience.* No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds now so daily puffed into notice by thoughtless and reckless men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We trust confidently in the good sense of the community for a candid and careful perusal to the following list, which embraces the first twelve remedies of the series, and which comprises some of the most valuable specifics ever offered for the several complaints enumerated. If you or any of your friends, relatives or acquaintances, are now in procuring the services of a *first medical authority of the day,* by obtaining one of the *first medical publications* as are now issued, and giving a trial to such of these medicines as are adapted to the case. We call especial attention to the first on the list as being most generally demanded, at this season of the year.
I.—PECTORAL SYRUP.
This invaluable Syrup, the publication of which is entirely meritorious in its composition, has been employed with wonderful success for many years in the cure of diseases of the Throat and Lungs, such as Coughs, Colds, Bronchitis, Difficulty of Breathing, Pain in the Side, Pain in the Breast, Hoarseness and Inflammation of the throat, windpipe and lungs. We have the satisfaction of being able to offer this Syrup as a remedy for any of these forms of disease, whether arising from Cold, Inflammation, Pleurisy, Spitting of Blood, Difficulty of Breathing, Pain in the Breast, Spitting of Blood, Difficulty of Breathing, Hoarseness or Loss of Voice, and the Hooping Cough, in its first stage, for nearly all forms of disease, we have found it one of the best and safest medicines for all forms of pulmonary and consumptive.
No Laudanum or preparation of Opium, in any shape, is in this Syrup. PRICE, Per Pint Bottle, 50 cents.
II.—COLD AND COUGH MIXTURE.
For recent coughs, colds and irritation of the throat or lungs, this is a valuable preparation, and should be tried at our changeable climate, should be without it. It cures the first symptoms of cold, and will prevent many an attack of Bronchitis, and a fatal disease in Consumption.
No Laudanum or preparation of Opium, in any shape, in this Mixture. PRICE, per bottle, 25 cents.
III.—ASTHMA AND HOOPING COUGH REMEDY.
These terribly distressing diseases are relieved by this medicine, which paralleled degree by this preparation is found to be a most valuable remedy, and has been in use for many years, during which time it has been actively connected with the best pharmaceutical establishments in this country, he has had constant occasion to see and prepare the prescriptions of many of the eminent physicians, among whom he would name Dr. Mott of New York, Dr. Francis, Dr. Chossmann, Dr. Rosse, Dr. Whittaker, Dr. Schmidt, Dr. Hosack, Dr. Klamm, Drs. Pratt and Young, Dr. Beals, Dr. Green, and many others in the city of New York.
The experience thus acquired enables him to discriminate with confidence between *legitimate medicine, combined on scientific principles,* so as to secure a harmonious chemical action in union with their individual properties, and those of the mere incoherent mixtures of quackery and ignorance, where, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, instead of beneficial. It is with the utmost pleasure, therefore, that he certifies that the prescriptions of Dr. James McClintock are not only composed of the most valuable medical agents known to, and habitually employed by the most eminent practitioners in the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their entire sphere of efficacy.
In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.
