FRIDAY MORNING, FEB. 22.

A T[illegible] — [illegible] Dissatisfaction — An Unexecuted Threat.

Great dissatisfaction and disgust, says the New Orleans *Delta*, prevail among the militia still at Pensacola, as well as among those who have gone to their homes from there, at the treatment to which they were subjected, and the incapacity, as they allege, of the Commander-in-Chief, Major Chase, who seems to have projected nothing and accomplished nothing after so much flourish of trumpets. We cannot say whether this querulousness is reasonable or unreasonable, just or unjust, and only vouch for its existence as reported to us. On the 6th inst., the steam frigate Brooklyn, with two companies of artillerymen, to reinforce Fort Pickens, reached the entrance to Pensacola harbor and was there boarded by Captain Barron, a messenger from Washington, who was the bearer of communications to the commander of the Brooklyn, which communications, it was understood, countermanded the landing of the troops, and directed the steamer to keep off and on until further advised.

A very disagreeable little incident occurred recently among the military. It appears that Lieut. Slemmer, the officer in command at Fort Pickens, had been allowed by the authorities to come ashore, and, when there, was made the guest of one of the volunteer officers, and, as such, had access to the fortified places held by the Southern soldiery, all of which, we are assured, he was allowed to inspect. Subsequently, Capt. Berryman, commanding the U. S. steamer Wyandotte, between whom and the civil and military authorities on shore the best feeling prevails, thought he would manifest social and kindly courtesy by extending an invitation to Brigadier General Anderson and other friends to return Lieut. Slemmer's visit, by a trip to Fort Pickens, which was politely accepted. The party accordingly, at the time appointed, embarked for the fort, but their astonishment may be conceived when, on arriving there, Lieut. S. met them by a positive refusal to allow them to enter. Gen. Anderson, justly indignant at this ungracious proceeding, in return for the politeness shown Lieut. Slemmer previously, gave expression to his mortification by telling Mr. Slemmer that before long he would visit and lodge in the fort, even if in so doing he had to pass over his (S.'s) dead body.

ANOTHER CURE BY DR. SCHENCK.—I called on Dr. Schenck some time ago in one of his visits to Pittsburgh, at the office of Dr. Keyser, No. 140 Wood st. He was examining patients with lung disease. One of my lungs and the bronchial tubes were found to be badly diseased. Oftentimes when I coughed I expectorated blood and matter in large quantities. I had night sweats and a great cough, and was greatly debilitated. Dr. Schenck prescribed for me his "PULMONIC SYRUP," "SEAWEED TONIC" and "MANDRAKE PILLS," and after taking them one month I have so far recovered that I do not spit any more blood or matter, and the cough has nearly left me. I live in Columbiana county, Unity township, Ohio, where I am well known. You may publish this if you wish.
Pittsburgh, August 27, 1860. MARTIN KOCH.
N. B. Since the above was written, Mr. Koch has entirely recovered, and continues well, having regained his usual health.

I, WILLIAM W. ALEXANDER, residing on Ann street, Allegheny city, do hereby certify that I have been a sufferer from severe cough and pain in the breast for about eight years. During the whole of this time I have had general debility and depression of spirits. I tried every nostrum I could hear of, but nothing took hold of my disease. I heard of Doctor Schenck's "PULMONIC SYRUP," [illegible] personally that it had cured, I had so confidence in it. In April, 1860, I took a severe cold, accompanied with a violent cough, difficulty of respiration, and night sweats, which so prostrated me that I was confined to my room for two months.
Several of my friends who called to see me, spoke in very high praise, as they knew what it had done. My prostrated condition discouraged me considerably, and I made up my mind to waste no more money for doctors or medicine, but would take the chances, live or die, as I had been so long sick that I felt completely discouraged. However, after reading several advertisements in the 'Pittsburgh Dispatch' I felt induced to give Dr. Schenck's medicine a fair trial, and now, nearly two years afterwards, I am in good health, by taking less than one dollars' worth of Dr. Schenck's medicines. I unhesitatingly state that it has made a perfect cure of me. I am a well man, and I attribute my good health and vigor of constitution entirely to Dr. Schenck's medicine. I enjoy better health to-day, Feb. 4th, 1861, than I have done for twenty years past. If persons knew the value of Dr. Schenck's inestimable remedies, they would not hesitate to call on him as he comes to this place. I feel like advising every person to call on him, as I have the utmost confidence in his medicines. Any person wishing to know the facts as here stated can call on me at my place of business, at Wm. M. Faber's, Machinist, in this city, or at my residence, Ann street, Allegheny city.

Depend upon it, mothers, it will give rest to yourselves, and
Relief and Health to your Infants.
We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it what we have never been able to say of any other medicine—NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after ten years' experience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS in

BELTING & PACKING.
Our GUM BELTING has strength adapted to its purposes, and scarcely ever requires tightening more than once; it has a perfectly smooth and even surface, and will run straight with a perfect bearing on the pulleys. It is manufactured by a particular process, whereby it is made to withstand a heat of 300 degrees Fahrenheit, without being affected; and the greatest cold will not diminish its pliability. It is therefore not only valuable for sheltered operations but specially adapted to withstand exposure to the weather, and can constantly be run in wet places, without injury.
Our LEATHER BELTING is extensively known in this community as the best article of the kind in use, to which we can give any number of the best references.
Our GUM PACKING is that made by the New York Company, manufactured under Goodyear's patent, and is well known to be of superior quality. It is considered by engineers and machinists indispensable wherever steam is used, and can be used, as no other substance has so much elasticity, which will stand so high a degree of heat.

Weekly Review of the Pittsburgh Market.
[*Reported specially for the Pittsburgh Gazette.*]
PITTSBURGH, THURSDAY, Feb. 21, 1861.

The week which has just closed has not been characterized by any new or important feature in the general market, if we except an advance on Sugar and Molasses. This may be attributed to the recent firmness manifested in those articles at New Orleans, where an advance has also been established. Later advices, however, from that place state that they had declined, and on the 19th Molasses were quoted dull at 29c.

Flour remains inactive and dull without change in rates, and the same can be said of Grain.

Provisions continue quiet but steady while last week's prices are well maintained. Produce remains in fair local request, but rates remain as before.

The money market continues quiet with no new aspect to notice. There is an increasing difficulty in procuring loans from banks, as they seem to be engaged in trimming their operations for a resumption of specie payments. The weekly statements exhibit a falling off in loans and deposits, and an increase in specie and circulation.

GREEN APPLES—continue to meet with a good local demand at quite a variety of prices according to quality. The current rates are $1,25 to $2—according to quality. The receipts during the past few days were light.

ASHES—quiet and dull. Sales Pearls 5¼; Soda Ash 3@3¼; Pots range from 4@4¼.

ALE—Pittsburgh manufactured continues in fair demand, with steady shipments to all parts of the country. The established rates at present are:

	bbls.	half bbls.

BEANS—have been in moderate request. We note a fair amount of sales at 85@90c ₩ bush for small White and $1 for York State.

BROOMS—The market is well supplied and prices have a declining tendency. We note sales at $1,75, $2,25 and $2,75 for common, medium and choice.

BACON continues firm but quiet with a regular demand. The current rates now are 8c for Shoulders, 10 for Sides, 10½c for plain Hams and sugar Cured do at 11½c.

BUTTER & EGGS—Butter has improved a little. We note small sales of Common Roll at 10@11c, and prime at 13@14c. Eggs in good supply and command 13½@12c.

The Belmont, Capt Joe T McCombs, will clear for Nashville on Saturday, positively. Passengers and shippers will find the Belmont a first class boat, with a careful and clever set of officers.

The steamer Fort Wayne, bound from New Orleans to Pittsburgh, sunk at Island No 16, in the Mississippi on Tuesday. She had a full cargo of sugar and molasses, the greater portion of which was consigned to this city. One house here had 547 bbls of molasses on her, which was insured in the Eureka Company. The boat is said to be a total loss.

THE GOODY FRIENDS ATTACHED.—The Cincinnati *Commercial* of yesterday says:
The U. S. Marshal yesterday attached the Goody Friends, at the suit of the Western Insurance Co. The claim under which the process was issued is for $16,818—damages occasioned by a collision between the Goody Friends and South Bend, a short time since, in the Mississippi, above Memphis—the latter being sunk. Since the collision, however, the Goody Friends has been sold by the U. S. Marshal at Pittsburgh, and is now in charge of her new owner, Capt. Alex. May Jr.

Ayer's Sarsaparilla

A compound remedy, designed to be the most effectual *Alterative* that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. MOTT'S
CHALYBEATE RESTORATIVE
PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innocuous in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful, to an extent which no description nor written attestation would render credible.—Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for *Piles*, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant *Costiveness*.

In unchecked Diarrhoea, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well known liabilities.

The attention of families cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of price. All letters, orders, etc., should be addressed to

PROF. WOOD'S
Restorative Cordial
AND
BLOOD RENOVATOR

(printed down the left side: PROF. WOOD'S RESTORATIVE; down the right side: CORDIAL AND BLOOD RENOVATOR)

IS PRECISELY WHAT ITS NAME INDICATES—for while pleasant to the taste, it is reviving, exhilarating and strengthening to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skilfully combined as to be the most powerful tonic, and yet so perfectly adapted to as to act in *perfect accordance with the laws of Nature, and hence soothe the weakest stomach*, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered from debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous to which poor humanity is constantly liable. Such, for example, as the following: consumption, bronchitis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy hypocondria, night sweats, languor, giddiness, and all that class of cases so fearfully fatal if unattended to in time, called female's weakness or irregularities. Also, liver derangements or torpidity, and liver complaints, diseases of the kidneys, scalding or incontinence of the urine, or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed we might enumerate many more still, but we have space only to say, it will not only cure the debility following chills and fevers, but prevent all attacks arising from miasmatic influences, and cure the disease at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing the liver to action, promoting, in fact, all the excretions and secretions of the system; it will infallibly prevent any deleterious consequences following upon change of climate and water; hence, all travelers should have a bottle with them, and all should take a table spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits, students, ministers, literary men. And all ladies not accustomed to much outdoor exercise should always use it. If they will, they will find an agreeable, pleasant and efficient remedy against those ills which rob them of their beauty—for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then, again, the Cordial is a perfect mother's relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. There is no mistake about it, this Cordial is all we claim for it. Mothers, try it! And to you we appeal to detect the illness or decline not only of your daughters before it is too late, but also your sons and husbands; for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business, that if it were not for you, they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never-failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need.
