The Pittsburgh Weekly Gazette.—The extensive circulation of our Weekly Gazette offers to our business men a most desirable medium of making their business known. Our circulation is between four and five thousand, reaching almost every merchant, manufacturer and shop-keeper in Western Pennsylvania, and Eastern Ohio.

To Advertisers.—Neither the Editorial Rooms nor Printing Establishment of the Daily Gazette are opened on Sunday. Advertisers who desire their notices to appear in the paper on Monday morning, will please hand them in before 8 o'clock, on Saturday.

Reading Matter on each page of this paper.

Copies of our DAILY PAPER can be obtained of Mr. PANCHARD, on Smithfield street, near the Post Office.

THE VETO OF PRESIDENT PIERCE.—Our readers have doubtless heard with deep regret that the President has vetoed the bill granting ten millions of acres of land to the several States for the benefit of the indigent insane. His reasons are, that Congress has no constitutional power to make provision for any such object, which is entirely within the control of the States themselves. For Congress to provide for this beneficence would be to transfer to the Federal government the charge of the poor in all the States, and the latter, instead of bestowing their own means upon the social wants of their own people, would become suppliants for the bounty of the General Government, reversing their true relation to the Union, the Federal Government being only the creature of the States.

This would do very well if donations for local and beneficent purposes had not been made and sanctioned by the country, for the last fifty years. The 16th section, of every township has always been set apart for the school purposes of that township. What is this but to make provision for objects entirely within the scope and control of the States themselves? Immense quantities of land have been given away for Railroad purposes, a matter entirely within State control. Are such objects more important than the education and support of these miserable beings, destitute of both reason and property, who are thrown out to subsist on charity, or perish, as the case may be? According to the late census, there were in the United States 15,768 insane and 15,706 idiotic—total, 31,474. How many of these are indigent we cannot guess—doubtless a large portion of them however. New York had 2,580 insane, and 1,729 idiotic, Massachusetts, 1,647 insane, and 791 idiotic, Pennsylvania, 1,891 insane, and 1,448 idiotic; Ohio, 1,862 insane, and 1,399 idiotic; Virginia, 1,026 insane, and 1,285 idiotic; Indiana, 579 insane, and 919 idiotic. Have these wretched beings no share in the immense inheritance which Providence has given to this country?

Our neighbor of the Post gives the veto his approbation, and reasons upon it in this way. If ten millions of acres of land may be voted to the indigent insane, ten or twenty millions may be voted to the indigent, who are not insane. That is just what Congress is trying to do in passing the Homestead bill, granting land to the indigent persons who are not insane. Are we to understand that the Post is opposed to that? Have not the indigent insane a better right to the national bounty than the indigent sane? Are we to understand that the Homestead bill is to fare as badly at the hands of the President, and of Democracy, and of the editor of the Post, as the bill for the relief of the indigent insane? It certainly looks like it, and will so result, if there is any attempt at consistency.

THE PITTSBURGH UNION.—For some time past the Pittsburgh Union has not come to this office. [illegible] the following [illegible] which appeared in that paper of Friday:—

We are forced in spite of our sense of propriety to admire the adroit pious fraud and ill-natured evasions of the old Gazette. Instead of openly contradicting the charge that Judge Pollock had ever voted against the advance of our army to Mexico, or against the increase of pay to the soldiers, it very shrewdly dodges the main issue, and quibbles about the date of certain resolutions. Will it distinctly say that Judge Pollock never voted in Congress against a bill to increase the pay of certain portions of the service?

Some very indecorous language towards this paper in the Gazette of yesterday, we cannot notice, as we presume it must have been inserted in some clandestine way, without the agency or knowledge of the regular editor. It palpably insinuates that the Union has been guilty of falsifying, a charge that the Gazette editor would never in his sober senses think of making.

This is all the answer this "independent" concern vouchsafes to our open charges (not insinuations) of falsifying about Judge Pollock's votes in Congress.

We have distinctly charged the Union with having alleged that Judge Pollock voted against supplies to our army in Mexico; that he voted against a [illegible] resolution declaring it "expedient" for our army in Mexico to retreat; and that he voted against granting an increase of pay to the soldiers engaged in the Mexican war. All these allegations, which have found currency through the Union, we have plainly characterized as false, and the date proven them from the record to be so, and we have called upon the editor of the Union to prove them or retract them like a fair and honorable man. The above is the answer given. Its independence and [illegible] epistle of admiration from the [illegible] acquisition, Judge [illegible]

A paper that can be guilty of such unfairness does not deserve an answer, but in the hope of inducing it, by perseverance, to shame it into some regard for fair dealing with a political opponent, we proceed to notice its new allegations, [illegible]

In regard to the [illegible] of openly contradicting the charge that Judge Pollock ever voted against the advance of our army to Mexico, or against the increase of pay to the soldiers, it very shrewdly dodges the main issue and quibbles about the date of certain resolutions. There is not one word of truth in all this. Judge Pollock never voted to our knowledge, been charged with having voted against the advance of our army to Mexico, and consequently we have never been called upon to contradict it; we have denied that he voted against the increase of pay to the soldiers, [illegible] the record [illegible] quibbled about the date of certain resolutions, we have shown that the "resolution" quoted in the Union which Judge Pollock was charged with having voted for, was never [illegible] the [illegible]

[illegible]

Let us go back a little for the purpose of [illegible] the first bill that was introduced to grant supplies to the army in Mexico, [illegible]

[illegible]

The Union, however, has never made the necessary correction in its columns. Afterwards, the Union [illegible] charging Judge Pollock with having voted against increasing the pay of the soldiers employed in the Mexican war. This we showed to be an error, the fact being that our candidate not only voted for the increase of pay, but made a speech in favor of it: still, the Union is not quiet on the subject, and refuses to commend justice to a political opponent whom it has misrepresented.

Here are three adjourned questions of veracity; and we might very properly wait until our neighbor has the manliness to put himself right before the public, before recognizing his right to question us about Judge Pollock's votes in Congress. An editor who refuses to correct falsehoods that have found currency through his paper can hardly be relied on to treat an answer fairly to any question he may put. Nevertheless, we have no hesitancy in giving an answer to the following question of the Union:

"Will it (the Gazette) distinctly say that Judge Pollock never voted in Congress against a bill to increase the pay of certain portions of the service."

We will "distinctly say" what are the facts in the case, and that is what we have been trying, but in vain, to induce our cotemporary to do. A bill was passed during the session of 1846—7, of which the following was a section:

"That from and after the first day of May last, and until the termination of the war with Mexico, the monthly pay of the non-commissioned officers, musicians, and privates of the army of the United States, and militia and volunteers in the service of the same, shall be increased three dollars per month each."

For this bill Judge Pollock voted. It was sent to the Senate, and was there amended by striking out the provisions for an increase of pay, and substituting an increase for cavalry alone. Against concurring in this amendment Judge Pollock voted, because he was friendly to increasing the pay of the whole army, and would not consent to add to the pay of one portion of it, while the other was left unchanged. It was because he was a true, and not a pretended, friend of the increase of pay to the army that he voted against concurring in the amendment of the Senate. We should like to see what the Union is able to make out of a fair and full statement of the facts of this case.

We again call upon our cotemporary to do justice to Judge Pollock (and so do justice to itself) by withdrawing the unfounded charges to which it has given circulation. If it does not, we shall know exactly how to treat it hereafter, and square our conduct accordingly.

WHITES AND BLACKS.—The Union of Saturday expresses a great degree of astonishment that Mr. Howe should have been guilty of the crime of favoring Congressional justice to colored men. In the view of the sham democracy which that sheet advocates, all men are created free and equal, except negroes; and human rights belong only to white men. A man, formed in the image of his Creator, and endowed with all the attributes of a man, is no man at all in the eyes of these pseudo lovers of equality, if he be black. Such a man is a man only in name, born to be a slave, and ought to be thankful for the boon of oppression which elevates him to the condition of a menial and an outcast. He ought to thank God that his lot is cast in a country where "democracy" of a patent kind occasionally rules, and where he may be trained up under the lash, graduate under the healthful morals of a plantation, live with a concubine, be spurned as unworthy of the rights accorded to other men, and finally stand the chance of being one out fifty thousand chosen to carry the blessings of civilization to his benighted fatherland. It is a pity, so far as the Union is concerned, that Mr. Howe is not able to get rid of the humanity which is so repugnant to the democracy of this region; but he will probably stand all the better, therefor, at the bar of eternal judgment.

The Pittsburgh Catholic, in the following paragraph, threatens a renewal of the School controversy:

"It has often been a matter of surprise to us that the School question that, whilom, was so zealously and eloquently advocated, should be now, as it were, dissolved and forgotten. We knew we were right. We know it yet. The arguments were in our favor, and we courted fair and gentlemanly discussion. Yet the subject is laid aside, as if the injustice we complained of, and the justice and liberty we claimed, were the cravings of a sick child unworthy of notice. That was not so. Prejudice was arrayed against us. Like the fish that escapes its pursuers by blacking the waters with filth, our opponents, by issuing fresh calumnies, turned aside our attention, and we are but too willing to make the schoolboy's bargain—Let me alone, and I'll let you alone. In the meantime they have the spoil; our children are suffering in their education. Our poor people are doubly taxed. It is well enough for those who either have no religion, or any, at least that they care much for, to get the country to contribute towards Godless schools, best suited to their tastes. They can afford to be silent. But will we be diverted from claiming our rights as citizens of a free country, because the Gentiles rage against us? There is now, we may say, a lull after the storm. If we shall be compelled to put into port again, we may at least launch our bark while the weather permits. We are not cowardly mariners, to fear even the storm, when truth guides the way."

It is a matter of indifference to us when the question is re-agitated. We are prepared to resist the perversion and ruin of our common school system now and at all future time, as long as we hold a position which gives us any influence with the public mind. We never supposed that the Romish Hierarchy would yield finally a measure which has been so carefully resolved upon and so boldly attempted. They may dissemble for a while, but on the first opportunity which promises success the effort will be renewed with more pertinacity than ever. The sneer of the "Catholic," flung at the friends of common schools as having "no religion" or "any they care much for," may go for what it is worth. It is the impotent raving of the chained tiger which would soon tear Protestant heretics to pieces had it the power. The churches which dot our whole land, the immense sums voluntarily expended for religious and missionary and benevolent purposes, show whether Protestants care for their religion or not. The editor of the "Catholic" makes the same mistake that the Romish Hierarchy did when it threw off the mask and betrayed its designs upon the cherished institutions of this country. The Pope and his Bishops doubtless thought there was not enough attachment to common schools to resist their onslaught upon them. They found their mistake, and discomfited retired from the field, to wait, as the "Catholic" admits, a better opportunity. The "lull after the storm" only arises from the overthrow of the foe. Let him come out of his hiding place if he wants the storm renewed. The friends of a national education, controlled by no priestly influence, are ready for the contest. The premonitory growlings of the Catholic press will alarm nobody, but will serve to incite to vigilance.

HON. JOHN J. CRITTENDEN.—This gentleman's conduct in volunteering to defend the Wards meets with almost universal condemnation by the press. Some faint efforts are made to defend his conduct on professional grounds, but meet with no response in the public mind. Any professional usage or rule which justifies it is so manifestly wrong to any correct moral sense, that it is scouted as unworthy of consideration. It is held by some authorities, "that an advocate has nothing to do with the guilt or the innocence of his client—that he simply stands in his place, and is in duty bound to do all he can, whether he be innocent or guilty, to secure his acquittal. The doctrine degrades the profession, and is condemned by its worthiest members."

But this excuse will not serve Mr. Crittenden, as he volunteered his services to screen a vile murderer from the just punishment due to his crime. On this subject the New York Times properly remarks:

"Ward was rich, surrounded by influential friends, ready and determined to exhaust all the resources of wealth, of talent, and of social power in securing his acquittal. Half a dozen of the most eminent lawyers of Kentucky had been already retained for his defence. Special pains had been taken to sway public sentiment in his favor. An army of witnesses stood ready to overbear palpable facts by testimony to personal character. The odds against justice were already great; and no man doubted that Ward would have every possible advantage which the law could give him. What necessity was there, then, for John J. Crittenden to throw into the scale against justice, already fearfully depressed, the great weight of his reputation and his forensic skill? It was not to aid the cause of truth—it was not to insure Ward a fair trial;—it was not because he stood at any disadvantage before the Court or before the world. It was simply to rescue from condign punishment one whom he knew to be guilty of murder, because he and influential friends to be gratified thereby. It was no honorable thing for such a man as Mr. Crittenden to do. He has put made himself responsible to the country, for the brand he has thus helped to fix on the justice and the laws of his native State."

PENNSYLVANIA.—The Legislature has passed an act, agreed on by a Committee of Conference, providing for a Popular Vote on the question of Liquor Prohibition at the regular State Election next October. The terms of the act appear unexceptionable, and the vote by which it passed was very decided—in Senate, 22 to 7; in the House, 60 to 33.

We regret to see some sulkiness evinced with respect to this act by Pennsylvania Temperance men. The Lancaster Express says, "It is the same as the wriggle proposed by Mr. Quiggle two years ago, and will not be accepted by the friends of Prohibition. It means nothing, and is therefore good for nothing."

Under favor, we do not feel the force of this logic. The bill means exactly what it says—that the People shall be enabled and invited to declare, in an authentic manner, their will and pleasure with regard to Prohibition. That is a genuine significance, and easily understood. The Express must mean either that the Legislature have dodged the main question, which they should have fairly met, or that the decision of the People, one way or the other, will have no effect. We reply, first, that the motive or courage of the Legislative majority is not in issue, and is of very little consequence; and secondly, that the friends of Temperance can make the vote significant and effective if they will. They have just two things to do: 1. Organize, canvass the State, and put the right documents in every house; and 2. Ask each candidate for next Governor or legislator this one plain question, "In case the People should decide in favor of Prohibition, will you in good faith aid to frame and pass an efficient Prohibitory Law?" If any candidate says No, equivocates, or refuses to answer, they must beat him if possible, either with his regularly nominated competitor or, if there be none such who has answered Yes, with a candidate of their own. If they accept the issue now tendered them promptly, heartily, zealously—they may achieve a signal and beneficent triumph; if they reject it, they will seriously injure their cause, and give their opponents a good reason for arguing that they seek legislation which public sentiment does not require and will not sustain. We entreat them to act thoughtfully and wisely.—New York Tribune.

We commend the above remarks to the temperance men of Pennsylvania. We were pained to observe indications in various quarters that the temperance men of the State did not intend to accept the issue thus presented by the solemn act of the Legislature. If such a course is pursued, it will be destructive to the cause of temperance for many years to come. It will be taken as evidence of weakness, and of a doubt of the readiness of the people for a prohibitory act. If a majority of the people are not willing to vote in favor of such a measure, on its naked merits of "prohibition" or "no prohibition," the law could not be sustained were it enacted. It needs the moral force of the expressed will of the people to sustain such a measure. We hope the friends of temperance will meet the issue boldly and fairly, and not mix it up with ordinary politics, or any side issues whatever. All such issues alienate friends and weaken the cause.

OUR BOOK TABLE.

SPIRITUAL MANIFESTATIONS EXAMINED AND EXPLAINED."—Here we have a work by John Bovee Dods, author of a work on "Electrical Psychology," and others on kindred topics. It is in the form of Lectures, the author having delivered them extensively before giving them to the world in this form. He takes the ground that modern spiritual rappings, table tipping, etc., are not deceptions, but natural and mental phenomena, independent of any spiritual agency. He says we have two brains, one voluntary and the other involuntary, and that all the modern phenomena of spiritualism are to be accounted for by the excited action of the involuntary part of our nature, which neither reasons, learns, or wills, knows intuitively, and acts from instinct, like the lower animals. He is a strong believer in mesmerism and clairvoyance, and believes the true meaning of scripture will be ascertained by clairvoyance, though he denies that any newer revelation of morals will be made. The code of revelation is perfect, and clairvoyance is to interpret it. If this is not as great a humbug, and as dangerous an error as Spiritualism, then we are mistaken. The work is published by De Witt & Davenport, New York, and is sold by B. T. C. Morgan, Wood street.

"MARTIN MERRIVALE, HIS MARK."—This is the title of a new serial novel, by Paul Creyton, published by Phillips, Sampson & Co., Boston, and finely illustrated from original designs by Billings and other artists. The work is beautifully printed, and the illustrations are of a superior character. The work is to be finished in about 12 numbers. The principal character is an ambitious youth from the country, poor and inexperienced, who comes to the city to earn a livelihood by literary labors. Paul Creyton is a young author of much promise—the Dickens of America. Price 12½ cents a number.

Dr. Morse's Invigorating Elixir or CORDIAL.—If it is inquired how this great restorative is accomplishing such extraordinary cures, we can only reply that in the Arabian herb that forms its cardinal ingredient have been blended by the Omnipotent Physician, a larger amount and greater varieties of curative properties than had heretofore been supposed to exist in a hundred different articles of the pharmacopoeia. A whole medicine chest of remedies, so to speak, seems to have been combined in this herb; and in the ELIXIR or CORDIAL we have their concentrated essence. It is the effect, however, not the cause with which we have to deal in the practical application of the medicine. The victims of dyspepsia are cured, the nervous are relieved, the half paralyzed resume their activity, the sufferers from head-ache are tormented no more, the weak become vigorous, the tint of jaundice leaves the complexion of the bilious, the depressed in spirits become buoyant, the sick in almost in every condition of disease derive immediate benefit from the use of Dr. Morse's Invigorating Elixir or Cordial. These facts, supported by irrefragable proof, are presented to the attention of Invalids, who can verify them by a single bottle of the medicine. The Cordial is put up highly concentrated, in pint bottles. Price three dollars per bottle, two for five dollars, six for twelve dollars. C. H. RING, Proprietor, 192 Broadway, N. Y.

SPECIAL NOTICES.

A good Comparison.—The Rev. William Roulatt, a well known Methodist clergyman, residing at Naples, draws the following amusing but apt comparison between Dr. M'Lane's celebrated Vermifuge and a ferret: "A ferret, which placed at the entrance of a rat-hole, enters the aperture, travels along the passage, seizes upon the rat, exterminates his existence, and draws the animal's defunct carcass to the light. And in like manner have I found Dr. M'Lane's American Vermifuge to operate upon worms, those dreadful and dangerous tormentors of children. This remedy, like the ferret, enters the aperture of the mouth, travels down the gullet, hunts round the stomach, lays hold of the worms, takes the life out of the reptiles, sweeps clear their den, and carries their carcases clear out of the system."

A neighbor of Mr. Roulatt, Mr. John Briggs, adopts the simile of the reverend gentleman, thus both giving their most unequivocal approval of this great specific, after having witnessed its operation upon their own children. Let others try it, and be satisfied.

Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED VERMIFUGE, and take none else. All other Vermifuges, in comparison, are worthless. Dr. M'Lane's Vermifuge, also his celebrated Liver Pills, can now be had at all respectable Drug Stores in the United States and from the sole proprietors, FLEMING BROTHERS, my6-3 Successors to J. INDIGESTION and LIVER COMPLAINT CURED BY KIER'S PETROLEUM.—Read the following letter from Rev. O. Dickerson, a Missionary in Oregon:—

Mr. S. M. Kier—Dear Sir:—Myself and wife having been greatly benefitted by the use of your Petroleum, I wish to have you send me a box of two or three dozen bottles. I am the Congregational Minister in this place, and several of my people are affected with indigestion and an inaction of the liver, the same of myself and wife, before taking your PETROLEUM OR ROCK OIL. We took several bottles—two or three each—about a year and a half ago, and we have never enjoyed so good health for years as we have since that time. I had not taken a single bottle before that fullness of the stomach which so distresses the dyspeptic was relieved, and I have felt nothing of it since that time. My wife was also relieved from a chronic disease of the liver, which had been of several years standing, by the use of your Petroleum.

Sold by S. M. KIER, Canal Basin, GEO. H. KEYSER, 140 Wood st., and Druggists and Medicine Dealers everywhere. [Papers advertising Petroleum copy.] oc28

Hoofland's German Bitters, prepared and sold by Dr. Jackson, at the German Medical Store, 120 Arch street, Philadelphia, daily increase in their well deserved celebrity, for the cure of all diseases arising from derangement of the liver. These Bitters have, indeed, proved a blessing to the afflicted, who show their gratitude by the most flattering testimonials. This medicine has established for itself a name that competitors, however wily their schemes, or seductive their promises, cannot reach. It gained the public confidence by the immense benefits that have been derived from it, and will ever maintain its position.

Sold in Pittsburgh, by FLEMING BROS., Druggists, 60 Wood st. Also, for sale by GEO. H. KEYSER, 140 Wood street. ap22-2wd&wS

Shoulder Braces.
Should you be stooped and troubled with a
Hacking cough, pain in the breast, side or back!
Or any of those symptoms arising therefrom; you will
Understand me when I say that a Shoulder Brace will
Lessen and oftentimes permanently cure these
Dangerous harbingers of pulmonary consumption.
Every one is aware of the advantage such a
Remedy possesses in straightening and
Bringing the body to a natural position—
Remember this all who desire an erect form.
A full chest and capacious lungs.
Call at Keyser's, 140 Wood street, where he is
Ever ready to fit all ages and conditions with
Shoulder Braces of the best and latest fashions.

[From the Pittsburgh Daily Dispatch, Feb. 24, 1853.]
AN EXCELLENT ARTICLE.—Persons who have acquired a stooping position, by following a sedentary occupation will experience great relief by the use of the "Washington Suspender Brace," made and sold by Dr. KEYSER, corner of Wood street and Virgin alley. It answers for a brace and suspenders, the weight of the pantaloons is so placed as to continually tend to bring the shoulder to their natural position, and expand the chest. We purchased one some time ago, and have been so pleased with it that we unsolicited gave it a "puff" gratis.

Women, hundreds of whom are annually injured by the weight of enormous "skirts," should also procure these braces. Be particular in procuring the kind mentioned, as many of the braces sold are humbugs.

[From the Pittsburgh Dispatch, Feb. 4, 1854.]
Having worn one of Dr. Keyser's Washington Shoulder Braces, until it is no longer fit for service, we feel perfectly competent to discourse upon its merits. By using it, the weight of the pantaloons aids in throwing back the shoulders and expanding the chest, while it answers every purpose of suspenders. No one who is "stoop-shouldered" or whose occupation is sedentary, can afford to be without one of these braces. Women and girls, whose health is too often injured by the weight of their undergarments, should wear them. We have tried several kinds, but none seem at all equal to the "Washington," and we wish others to profit from our experience.

Sold wholesale and retail of the Drug Store of George H. Keyser, No. 140, corner Wood st. and Virgin alley.
Sign of the Golden Mortar.
N. B.—I also keep every variety of Trusses, Supporters, Body Braces, Pile Props, Elastic Stockings, Suspensary Bandages. my2-d&wT

Old Sores, Ulcers, and all eruptions and diseases arising from an impure or depraved state of the blood. See the extraordinary cure of Mr. Wm. G. Harwood, a highly respectable citizen of Richmond, Va., by Carter's Spanish Mixture. He had ulcers and sores of the worst description, and finally got so bad he was unable to walk, except on crutches. A few bottles of Carter's Spanish Mixture, the great blood purifier, cured him, as it has cured hundreds of others who have suffered with rheumatism, bad effects of mercury, and pains and ulcers of the bones and joints.

Especial Notice to persons using Cod LIVER OIL—The subscriber having made arrangements with Messrs. Popplein & Thompson for a regular supply of their genuine COD LIVER OIL, put up in pint bottles, would respectfully invite the attention of the public to an examination of the article, being fully persuaded that for purity and freeness from rancid taste or smell, it is unequaled. There is now no Cod Liver Oil in this country superior, if equal, to the above. Hundreds of bottles have been sold, and given unrivaled satisfaction. In the article of Cod Liver Oil, persons taking it should be careful to obtain a genuine article and one free from a rancid taste and smell, as its virtues are greatly enhanced by its being acceptable to the stomach and not producing nausea—purity and a pleasant taste make it more readily taken up by the lacteals and digested by the blood, and thereby in causing the richness of that fluid giving a tone and healing impression to every organ through which it passes. Sold by GEO. H. KEYSER, No. 140, corner Wood st. and Virgin alley, my8-d&wT Sign of the Golden Mortar.
