STEVENSON'S WAR SPEECH—TREASON IN TENNESSEE.

JEFF. DAVIS AN ATTEMPTED WARLIKE.

[From the Nashville Democrat of Feb. 16]

This fulsome trigger-snake's speech at Stevenson, on Thursday night, overflowing with blood and thunder. Tennessee is not scared! Her sons have seen the elephant!

Can Jeff. Davis scare Tennessee? He says that the border States will come into the confederacy in sixty days. We will simply say, that Tennessee was declared for the stars and stripes, and that, pile pridgers, such as he is, had better be looking out for a safe retreat in some vast wilderness—some contiguity of space," in which to hide his head from an indignant and outraged people.

He boasted of his preparations for war! This same blusterer, in a speech a few years ago, ventured to slander the Tennessee volunteers. We know what we say, when we assert that, with all his bluster, Tennessee could, if so disposed, subdue the whole confederacy in a short time. He calculates on soldiers of Tennessee to aid him in his wicked, and fiendish purpose of breaking up this glorious government.

"He is as proud and as vain as Beelzebub. He thinks that he holds the kingdoms of the world, and the power thereof," in the hollow of his hand. He is looking for the English government to bow to him. He says the English government will acknowledge the cottonocracy.

This is all nonsense. The English government, as well as all others, knows how to treat the flag of the United States, and so will Jeff. Davis. Let him attempt to subdue the federal government, let him fire at Fort Sumter, or at any other point of this United States, where our flag now floats, and he is as sure to be hung as that the sun will rise to-morrow morning, unless he runs like a coward, to a country beyond the reach of Tennessee. We know hundreds of men in his seceding cottonocracy, who are ready to tie the rope for the hangman.

Jeff. Davis has been producing discontent, and teaching treason, as long as we can stand it. He has been a vile conspirator against his government for years.

There is no use in soothing our people any longer. Traitors must suffer unless they stop their treason. We may be asked to be patient. How is the name of High Heaven, can a man be patient when a traitorous flag is flaunted in our face? when a traitor comes to our very borders, and talks treason to our country open? He talks of sacking cities. Vile rebel! Infidel! bigot! Let him try the Tennessean, whom he so basely slandered. Let him try Nashville. Our readers must indulge us a little. We cannot forbear to denounce treason, and, whenever we cease to do so, "may our right hand forget her cunning."

We have borne with treason as long as it is possible to do so. Talk of tearing down our fair fabric of government! Never! never! Jeff. Davis is on the road to the gallows, and his followers had better be careful. An indignant public will not forever endure insult and treason plotting. We have lived prosperously and happily for three-quarters of a century, and we know that Tennessee never will give up this free and happy country.

Let this vile traitor and his foul minions come. Tennessee has never forsaken the glorious flag of free and happy America, and, by the Eternal, she never will! She has always conquered the enemies of the country, and will again, if required to do so. This is our country, and all the powers of earth cannot force us to give it up.

Rise, fellow countrymen, our country yet remains!
By that dread name we wave the sword on high,
And swear for her to live, with her to die!

PORK PACKING IN THE WEST.—We have returns from one hundred and thirty-seven towns in the West, including Louisville, St. Louis, Chillicothe, Indianapolis, all Tennessee, and Chicago, which our correspondent estimates for 225,000. The following are the aggregate for both seasons:

1859-'60	1,348,002
1860-'61	1,241,255
Decrease	106,837

Cincinnati is not included in the above. The remaining returns will add to this decrease, but there can be no doubt that the increase in weight will more than make up the falling off in number, as there is a marked increase in the weight of hogs this season at all the places heard from.—[Cincinnati Price Current.

A SECRETARY'S CURE, BY DR. SCHENCK.—I called on Dr. Schenck a few weeks ago in one of his visits to Pittsburgh, at the corner of Dr. Keyser, No. 140 Wood st. He was examining patients with lung disease. One of my friends and the President letter were found to be badly diseased. Observing that I coughed I expectorated blood and "nodules" in large quantities. I had sight sweats and a great cough, and was greatly debilitated. Dr. Schenck examined me, and said I had "Consumption Family," "Diseased Tissue" and "Ulcerated Tissue," and after taking them one month I have not expectorated a single nodule, my cough has ceased, and the night sweat nearly left me. I live in Delaware county, Dairy township, Ohio, where I am well known. You may publish this if you wish.

MARTIN KOCH.

Pittsburgh, Aug. 27, 1860.

N. B. Since the above was written, Mr. Koch has entirely recovered, and continued, having regained his usual health.

I, WILLIAM W. ALEXANDER, residing on Ann street, Allegheny city, do hereby certify that I have been a sufferer from severe cough and pain in the breast for about eight years. During the whole of this time I have had general debility and depression of spirits. I tried every thing that I thought would do me good, but nothing took hold of my disease. I heard of Doctor Schenck's "Pulmonic Syrup," but knowing no one personally that it had cured, I had no confidence in it. In April, 1860, I took a severe cold, accompanied with a violent cough, difficulty of respiration, night sweats, which so prostrated me that I was compelled to stay from my business.

Some of my friends who called to see me, spoke in very high praise of what they knew what it had done. My prostrated condition encouraged me considerably, and I made up my mind to venture no more money for doctors or medicine, but would take the chances, live or die, as I had been so long sick that I felt considerably discouraged. However, after reading several advertisements in the Pittsburgh Dispatch, I determined to give Dr. Schenck's medicine a fair trial, and purchased one year's forwards. I am in good health, by taking less than one dollar's worth of Dr. Schenck's medicine. I unhesitatingly state that it has made a perfect cure of me. I am a well man, and I attribute my good health and vigor of constitution entirely to Dr. Schenck's medicines. I enjoy better health to-day, Feb. 6th, 1861, than I have done for twenty years past. If persons have the utmost M. Dr. Schenck's Scientific medicine, they should not hesitate to call on him in his visits to this place. I feel like advising every person to call on him, as I have the utmost confidence in his medicines. Any persons wishing to see the man to whom my case can refer, can see at my place of business, at Wm. M. Fahrer's Machinist, in this city, or at my residence, Ann street, Allegheny city.

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this vile disorder from the blood, and the invigoration of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIOUS OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so compounded that disease within the range of their action can seldom elude or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. Some of these they relieve, placed to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costiveness, Heartburn, Headache, Nausea, Pain in the disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a torpid liver or the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

DR. MOTT'S CHALYBEATE RESTORATIVE PILLS & IRON.

AN APERIENT AND STOMACHIC. Preparation of 1808 purified of Oxygen and Carbon by Combustion in Hydrogen. Sanctioned by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of iron can be compared with it. Impurities of the blood, depression of vital energy, pale and other sickly complexions indicate its necessity in almost every conceivable case. Numerous in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhoea, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Hallucinations, Blotches, Strictures, Whites, Chlorosis, Fever Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and sanguine energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids on long bed-sickness as to have become forgotten in their own neighborhoods, have suddenly reappeared in the busy world as if just return d from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, simplicness exhaustion, critical changes, and that complication of nervous and dyspeptic anarchon to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and our remarks familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old cellular, it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of this Chalybeate Pills has often suffered for the most habitual case, including the attendant Costiveness.

In unchecked Diarrhoea, even when attended to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate incipient Consumption, this remedy has allayed the alarm of disorder from the blood, and the tendency of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIOUS OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

BLOOD FOOD

The alliance of Iron, Physicians, Clergymen, Scientific Men, and the Public generally, is respectfully solicited to the merits of this chemical prep ration containing Iron, Sulphur and Phosphorus, and which is identical in its composition with the Hematic Globule, or red blood in all diseases accompanied with

DEBILITY,

pale countenance and nervous derangement, analyses of the blood show a deficiency of the red globules. Rudy complexion and a rosy tint of the skin, is always indicative of health; while a pale, waxy, bloodless and sunken face—which evinces a deficiency of the red globules—announces a diseased organism. Preparations of Iron have been given for the purpose of supplying the red globules, but we contend that Iron alone, unaided by blood, or Phosphorus alone, will not meet the deficiency, for every case, but that a judicious combination of all these elements is necessary to restore the blood to its normal standard. This point, never before attained, has been reached in the Blood Food, and discovery ranks as one of the most scientific and important of the age. Its effects in

CONSUMPTION

are to soften the cough, lessen the pulse, strengthen the system, allay the prostrating night sweats, increase the physical and mental energy, enrich the blood by restoring the lacking red globules, increase the appetite, restore the color, and clothe the skeleton form with flesh. The Blood Food will be found a specific in all Chronic Diseases of the Throat or Lungs, such as Asthma, Bronchitis, Coughs, &c. Public Speakers and Singers will find it of great utility in clearing and strengthening the vocal organs. In Dyspepsia, Liver Complaints, Dropsy, Epilepsy, Paralysis, Neuralgia, Chronic Rheumatism, Gravel, Fever and Ague, &c., its efficacy is marked and instantaneous. In cases of disease however, are the beneficial effects of this remedy so conspicuous as in those harrassing

FEMALE COMPLAINTS

to which the gentler sex are liable, and which tend towards Consumption, such as Suppressed or Difficult Menstruation, Green Sickness, Whites, &c., especially when these complaints are accompanied with paleness, a clingy box or pallor of the skin, depression of spirits, debility, palpitation, want of appetite, and nervous prostration. We have the utmost confidence in recommending the Blood Food to all who may be conscious of a loss of vitality or energy, and to those whose mental or bodily powers are prostrated through over-use, either of the mind or body, and we deem it our duty to say that in all cases of Weakness and Dependency, the Blood Food will be found a most invaluable and efficacious remedy.
