PITTSBURGH GAZETTE

TURKISH BRAVERY.—When crossing at Hirchova, a single Turk exhibited a degree of bravery which would parallel anything of the kind performed in our Mexican wars. He was a private soldier of the Bachi Bayouk, and had, in some manner, been separated from his regiment while retiring from the enemy. Seeing his unprotected position, three or four Russian troopers made a dash for him. But the Turk, undaunted, stood up to receive them, and as the foremost trooper swung his sword to deal the blow, the soldier, by a powerful effort, seized his horse and threw him on his haunches, and then, quick as lightning, cleft the trooper's skull. This springing to the saddle, he turned to face the others, one of whom, by his uniform betokened the officer. Instead of waiting the charge, he shouted the name of Allah, and spurred to contest. With single hand he maintained the unequal fight for some time, and till two out of four lay at his feet. The Russian officer still fought bravely, but animated by fanaticism and the determination to conquer, the Moslem seized the officer, though a larger man, by the belt, and dashed him like a child to the earth. With another blow he hurled the remaining trooper from the saddle, and securing the steeds, he made his way in safety to the Imperial camp, where his exploit had been witnessed, and where he was dubbed captain on the spot. I merely mention this incident to show that, though much underrated by the world, in general, the Turk has bravery and courage, and would under good discipline, form a most efficient soldier.

BOOKS, MUSIC, &C.

NEW YORK.
Its Upper Ten and Lower Million!

BY GEORGE LIPPARD.

Author of "Washington and his Generals," "The Nazarene," "Paul Ardenheim," "Jesus and the Poor," "Adonai," "The Quaker City," &c.

This is the best work ever written by Lippard: one continual scene of excitement from the commencement to the end. Those who have read Dumas' Countess Monte Cristo, or The Wandering Jew, we are under the impression, will be equally pleased with this. Novel readers will find this the most interesting work that has issued from the press for some time.—*Enquirer.*

George Lippard's Great Work—New York: Its Upper Ten and Lower Million. Novel readers will be perfectly delighted with this new work. The incidents delineated in this work are of the most exciting character. We should not be surprised if the demand for it should exceed that of Uncle Tom's Cabin.—*Times.*

From the Louisville Courier.

New York: Its Upper Ten and Lower Million.—George Lippard's last and best work. This novel requires only to be read to be correctly appreciated. As an enchantress, it is unsurpassed. We believe it will be impossible any person who commences this work, to leave it off unless he has turned over its last page.

[Extract from the Cincinnati Plain-dealer.]

New York: Its Upper Ten and Lower Million.—A new work by that gifted scourer of genius, George Lippard. We are read it. It is a novel of most exciting character—one as startling been commenced, you will sit up all night to finish. It is a book we would like every body to read. Price, handsomely bound, $1.00; in paper covers, 75 cts. For sale by all Booksellers in Pittsburgh and Allegheny. A fresh supply this day rec'd by RAY & CO., Pittsburgh. mh1-tmdfw, 8

HOLLAND BITTERS.

BOERHAVE'S ELECTRO-CHEMICAL AROMA,

GENUINE HOLLAND BITTERS.

FROM LOUIS A. ISRAELS'S, Chemist and Pharmacutist, of Amsterdam, Holland, Europe. A purely vegetable Compound, prepared on strictly scientific principles, after the celebrated Dr. Boerhave's Holland Professor Boerhave. Because of its great success in most of the European States, its introduction into the United States was attended with great success, and the Father Land restored here and there over the face of this mighty country. Medicine with great success was tried, I now offer it to the American public, knowing that its truly wonderful effects will be acknowledged.

IT IS A SURE REMEDY FOR
Fever and Ague, Dyspepsia, Sick Headache, Headache, Nervous and Bilious Headache, Costiveness, Loss of appetite, unpleasant taste in the mouth after eating or sleeping, Jaundice, Nervous Debility, Nervous Vertigo, extreme languor and exhaustion.
Loss of appetite, dispondency, drowsiness, weakness of the stomach, pain and sense of fullness in the stomach, and distress after eating, or fainting in a dense or crowded place.

IN THE FORM OF STOMACH.

It is particularly recommended to those persons whose constitutions may have been broken down by the continual use of ardent spirits, or other forms of dissipation. Generally speaking the effects of Holland Bitters are felt in the seat of life, thrilling and quickening every nerve, pleasing the body, invigorating the mind, in fact, infusing new health and vigor into the system.

A JEWEL VALUABLE MEDICINE

In all cases of Fever and Ague, Chills, Fevers, Morbus and the Gripe, unpleasant effects attending a change of water or climate.

Certificate of Mr. B. O. Woods, late Justice of the Peace, east Birmingham.

Mr. Israel said Page, *Jr.—Dear Sir:* I would say that I consider your Holland Bitters a valuable medicine, in the action of the heart, and nervous headache for nearly fifteen years, and have spent some hundreds of dollars in order to get a cure, but to no purpose. I have tried many of the styles of your "Electro-Chemical Aroma, or Holland Bitters," and have found relief, and I feel now as well as ever I did, and attend to my business with pleasure, and would cheerfully recommend it to all those who are similarly afflicted.

B. O. WOODS.

PITTSBURGH, Aug. 24, 1853.

Mr. Seal, Page, *Jr.—Dear Sir:* My sincerest thanks are due to my friend, recommending your Holland Bitters. Having suffered for some time with headache, loss of appetite, mental depression, and in fact general disorder of the system, I now feel as if new life was infused into my constitution, returning health.

[Signed] NICOLAS SCHOSTER.

Beaf, Page, *Jr., Esq.—Dear Sir:* I have been relieved of the most distressing form of Dyspepsia, by the use of Boerhave's Holland Bitters, (purchased of you) after suffering for 3 years with loss of appetite, nausea and general debility attending indigestion. I now feel perfectly restored.

Yours, respectfully, JOHN HUTHERFORD,
No. 92 Wylie st., Pittsburgh.

☞ Buy BOERHAVE'S "Holland Bitters" and taken, other. Should it fail, in any instance, to effect as much and more than the advertisement claims for it, your money will be refunded. BENJAMIN FAHE, Sr.,
Drug and Chemical House.
Cor. 4 and Smithfield and Logan and Wylie sts.

Also, for B. A. Fahnestock & Co., R. E. Sellers, Dr. Geo. H. Keyser, Fleming Brothers, and J. Schoonmaker & Co., Pittsburgh.

To Capitalists, Manufacturers and Mechanics.

THE Beaver Manufacturing Company, under a Charter from the Legislature of Pennsylvania, with a Capital of $100,000, propose to establish, in the village of Brighton, Beaver County, Pa., a number of Flour Mills, and an extensive ROLLING MILL, with the necessary machinery and apparatus for the manufacture of Iron, Steel, Iron Nails, Spikes, &c., &c., and as soon as practicable, a Car for Railroad Iron.

Towards the accomplishment of this object they are willing to furnish the opportunity, *site and grounds* for the works, together with the necessary amount of water power, the privilege of getting coal, iron ore, fire clay, building stone, timber, &c., all of which they have in great abundance; also, dwellings, mechanic shops and vacant lots, for the accommodation of operatives and others—to erect a large and commodious store or canal story fret wide, for the more convenient and expeditious transfer of freight, and for the purchase of boats to and from the works, and to erect and maintain in which to carry on the contemplated manufacturing operations.

Such grounds, water power, operations, improvements and privileges, they propose to put in as so much capital, and it is hoped that other parties, with some capital, practical skill and business and mechanical experience, will be found ready and willing to supply the machinery, the manual labor, and a portion of the working cash capital. The company is willing to contribute any reasonable number of shares from one-fourth to three-fourths of the whole capital required, for such particular branches of business, as it may be determination to afford every possible aid and facility to those who identify themselves with this enterprise, and they accordingly offer equally liberal inducements for the establishment of many other branches of *business* and *manufactures*, not above enumerated, especially those which tend to the more extensive development of the mineral stores of Western Pennsylvania, which abound in this vicinity, grounds so richly and extensively spreaded. (See multiplication and extension of iron manufactures below.)

The Company are now repairing their Cotton Factory and Rooting Mill, and are willing to rent to practical and responsible parties either or both for a term of years, or sell upon liberal terms—that their own attention may be more particularly directed to the establishment and prosperity of other branches, some of which have been enumerated, and to which they would add the building of locomotives, cars, omnibuses, and carriages, and the making of pottery, fire-brick and stone ware, for which they have the materials upon the town ground, and in great perfection and in abundance. The Flouring Mill is capable of making 250 barrels of flour per day, and has a hundred horse power, and is now upon the most approved plan, for either or which grain is abundant, being brought by canals, railroads and rivers, to the door of the mill.

Pittsburgh papers, addressed to the Agent, will receive prompt attention.

REFERENCES—Persons in the East wishing to know more of this mill, and of the parties composing the Company, are respectfully referred to—

New Brighton, Beaver Co., Pa.

Multiplication and Extension of Iron Manufactures.

We have within the last few months seen frequent allusions to a new plan, by which iron, steel, and iron ore are converted at once into *wrought iron*, without passing through the more tedious and expensive steps into and from pig iron and metallic steel, as now generally practised in the United States.

This new process appears to be gaining favor rapidly in various parts of our country. It was first heard of at Newark, New Jersey, then at Cincinnati, then at Chicago, and next in Wisconsin, now in our immediate vicinity, Pittsburgh and Beaver City.

We have seen the process and witnessed the results. We have seen the mineral coal and the crude ore, after being crushed or pulverized and mixed in suitable proportions, put into a hopper, like a bag of grain at a country mill, and have seen it, when sufficiently *decarbonized*, by passing through red hot tubes, or chambers, come forth like a smooth meal or flour into a pudding oven at the foot of those tubes or chambers, apparently like a mass of dry sand, and without having been melted from first to last. We have seen this flour, or meal, by the mere application of a gregation of its particles, and the spontaneous welding of those particles, under the manipulations of a practical puddler, grow into a compact mass, and like a rolling snowball, increase with every turn to the size of the largest pumpkin.

We have seen this from pumpkin, or ball of red hot metal brought immediately under a forge hammer, and in less time than five minutes it was converted into a beautiful bloom. We have seen the same bloom pass through the rolls, and come forth as bolts, as sheet iron, bar iron, hoop iron, &c., and it was all very good.

A appropriate furnace and puddling oven for this purpose can be created for less than $1000, and any man having that sum, or even half that sum, and good credit, or a thousand dollars in his pocket, can, in less time than it would require to erect a saw mill or grist mill, have a working running upon his own premises, the best iron ore, and coal bank, which shall turn out daily two tons of first rate iron at a cost of $20 the ton, from which sum, at his own door $50 the ton—thus giving him a profit of $100 a day on a capital of $1000. The "Beaver Manufacturing Company," are ready to furnish the ground, the coal, the iron ore, water power and patent right privilege, or so much capital under their charter, with others who have some money, skill and industry.

Let those who wish to know more of this matter, inquire of the undersigned, who knows all about it.

H. C. GOULD,
Rochester, Beaver Co., Pa., Jan. 10, 1854. 6t-2d

NEW CARPETS—SPRING STYLES,

AT THE CHEAP CARPET WAREHOUSE

NO. 82 THIRD STREET.

NEW PAPER MILL FOR SALE.—The one-half of a new Paper Mill at Dam No. 17 on the Little Beaver river, forty miles from Pittsburgh. It is a new mill, capable of making $12,000 worth of printing paper per week, with a water power that cannot be excelled. It will yield a yearly profit of $4000. It is a rare chance for the investment of capital.

For further particulars, inquire of JOB HARVEY, at Smith's Ferry, or at the Dunlap's Paper Mill, at Dam No. 17, on the Little Beaver, and of THOMAS WOOD, Commercial Bookst., 72 Fourth street.

MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT;

RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.

From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE!

Popular Medicine for the first time sanctioned by the

HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK M. D., of Philadelphia, known for more than a quarter of century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his receipts, and the preparation of series of FAMILY MEDICINES therefrom, which will be put up in a *showy* and *popular* form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the wid range of practical experience, and the most unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, or disease, with the *highest principles of modern medical science*. Each of these remedies has been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds and thousands of those who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were unjudiciously, in addition, in the College of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the receipts for my "family Medicine," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students and who are many of them now practising with distinguished success in all parts of the country. My indorsement for this step is numerous one of the most urgent is that the demand for my formulas has become so large, through private report of their success, as to make Dr. Hoffman's proposition great a draft upon my time; another is, the repeated solicitations of my friends and patients, in the belief that the general introduction of my remedies would be in many respects a public benefit, and finally, in securing the cooperation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the best, purest and most perfect form, remedies of genius.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians of the Philadelphia Hospital, Blockley, late member of the National Medical Association, member of the Medico-Chirurgical College of Philadelphia, formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont and also, late Professor of Anatomy and Physiology in the Philadelphia Medical Institution, Pittsfield, Mass., &c., &c., &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *good and reliable popular medicines* which may be confidently adopted into family use and *depended on at all, times* in the absence of a physician, as being the legitimate productions of *Science and Experience*. No argument is needed to prove the immense superiority of such class of remedies over the dangerous compounds that are daily puffed into notice by ignorant and reckless men, solely for the purpose of enriching themselves at the expense of the health and wealth of their fellow beings. We feel confidently in the good sense of the community to support us in this effort to extirpate the great public evil of *Quackery*, by giving a careful perusal to the following list, which contains the first twelve remedies of the series, and which comprises some of the most valuable specifics ever discovered for the several complaints enumerated. If you or any of your friends are sufferers, one no time in procuring the aid of the following medicines, which are the result of study and giving a trial to such of these medicines as are adapted to the case. We call especial attention to the first on the list as being most generally demanded, at this season namely, the

I.—PECTORAL SYRUP.

This invaluable Syrup, which is entirely Vegetable in its composition, is offered to the public with the full confidence of many years in the cure of diseases of the AIR PASSAGES AND LUNGS. The most common diseases of these organs are, *Irritation, Cold, Inflammation of the Throat, Bronchitis*, which lines the air tubes of the throat, windpipe and lungs. For any of these forms of disease, which prove themselves as *Cough, Tickling of the Throat, Sense of Tightness in the Throat, Spitting of Blood, Difficulty of Breathing, Hoarseness and Night and Hectic Fever*, its use will be attended with the happiest results. It is recommended as one of the best and safest medicines for *Bronchitis and Consumption.*

No Laudanum or preparation of Opium, in any shape, is in this Syrup. PRICE (in Pint Bottles) $1.

II.—COLD AND COUGH LETTUCE.

For recent coughs, colds and irritation of the throat or lungs. It is especially valuable for children; no family, in no circumstances, should it be without this effecting remedy, which, if taken on the first symptoms of cold, will prevent many an attack of Bronchitis, and a fatal issue in consumption.

No Laudanum or preparation of Opium, in any shape, is in this Lettuce. PRICE (in Pint Bottles) 50 Cents.

III.—ASTHMA AND WHOOPING COUGH REMEDY.

Is a most powerful and effecting remedy for the distressing disease, which, in the last few years, has spread to a parallelled degree by this purely vegetable medicine, which has been brought to perfection slowly in the course of many years of study and trial, and which we feel confident prove its efficacy to those who have never employed it. PRICE (in Pint Bottles) $1.

IV.—DIARRHŒA CORDIAL AND RHEUMATIC TINCTURE.

A CERTAIN cure for Diarrhœa and, *if used in time*, for Dysentery, Cholera Morbus and Asiatic Cholera. This prescription HAS NEVER FAILED to cure Diarrhœa; and in Dysentery it is equally powerful, and in Cholera Morbus and Asiatic Cholera it will be found invaluable. For Colic of Infants and Children, Diarrhœa in Infants, it is a specific. The directions for use accompany each bottle. PRICE, per Bottle, 25 and 50 cents.

V.—TONIC ALTERATIVE SYRUP.

For the cure, I. Of *Cutaneous or Skin Diseases*, viz: Tetter, Scurvy, Ringworm, Erysipelas, Itch, Blotches, Pimples, *Disease*, Scrofula, or King's Evil, White Swelling, Goitre or Swelled Neck, Tumors, Slow Ulcers, &c., &c. II. *Rheumatic Diseases*, Rheumatism, Gravel, Gout, Lumbago, Pain in the Bones, Joints, Nails, Spikes, &c., &c., and as soon as practicable, a Tonic for Railroad Iron.

Towards the accomplishment of this object they are willing to furnish the opportunity, *site and grounds* for the works, together with the necessary amount of water power, the privilege of getting coal, iron ore, fire clay, building stone, timber, &c., all of which they have in great abundance; also, dwellings, mechanic shops and vacant lots, for the accommodation of operatives and others—to erect a large and commodious store or canal story fret wide, for the more convenient and expeditious transfer of freight, and for the purchase of boats to and from the works, and to erect and maintain in which to carry on the contemplated manufacturing operations.

Such grounds, water power, operations, improvements and privileges, they propose to put in as so much capital, and it is hoped that other parties, with some capital, practical skill and business and mechanical experience, will be found ready and willing to supply the machinery, the manual labor, and a portion of the working cash capital. The company is willing to contribute any reasonable number of shares from one-fourth to three-fourths of the whole capital required, for such particular branches of business, as it may be determination to afford every possible aid and facility to those who identify themselves with this enterprise, and they accordingly offer equally liberal inducements for the establishment of many other branches of *business* and *manufactures*, not above enumerated, especially those which tend to the more extensive development of the mineral stores of Western Pennsylvania, which abound in this vicinity, grounds so richly and extensively spreaded. (See multiplication and extension of iron manufactures below.)

The Company are now repairing their Cotton Factory and Rooting Mill, and are willing to rent to practical and responsible parties either or both for a term of years, or sell upon liberal terms—that their own attention may be more particularly directed to the establishment and prosperity of other branches, some of which have been enumerated, and to which they would add the building of locomotives, cars, omnibuses, and carriages, and the making of pottery, fire-brick and stone ware, for which they have the materials upon the town ground, and in great perfection and in abundance. The Flouring Mill is capable of making 250 barrels of flour per day, and has a hundred horse power, and is now upon the most approved plan, for either or which grain is abundant, being brought by canals, railroads and rivers, to the door of the mill.

Pittsburgh papers, addressed to the Agent, will receive prompt attention.

REFERENCES—Persons in the East wishing to know more of this mill, and of the parties composing the Company, are respectfully referred to—
