The Three New Territories—Colorado, Nevada, Dakota.

The bill organizing the new Territories has been signed by the President, which increases the number of the Territories of the United States to seven, including the previously existing ones of Washington, Nebraska, Utah and New Mexico.

The first of these Territories, Colorado, includes parts of Kansas, Nebraska and Eastern Utah. Its boundaries run as follows:—Beginning at a point where the 102d degree of west longitude from Greenwich crosses the 37th parallel of north latitude, thence north along said 102d parallel to where it intersects the 41st degree of north latitude, thence west along said line to the 109th degree of west longitude, thence south along said line to the 37th degree of north latitude, thence east along the 37th degree of north latitude, to the place of beginning. The Territory contains about 100,000 square miles, and at this time a population of some 25,000 persons. The Rocky Mountains divide the Territory into 2 parts, westward from them flowing a large number of rivers, tributary to the Colorado, and eastward others, equally numerous and large, tributary to the Arkansas and South Fork Platte rivers. It includes the famous mining region, Pike's Peak, rich in gold and other metals, cut off by deserts from the more fertile Western States, but destined to be the home of advancing civilization, and to give up its treasures at the summons of enlightened toil.

Nevada is taken from Western Utah and California. Its boundaries are as follows:—Beginning at the point of intersection of the 42d degree of north latitude with the 39th degree of longitude west from Washington; thence running south, on the line of the 116th degree west longitude, until it intersects the northern boundary of the Territory of New Mexico; thence due west to the dividing ridge separating the waters of Carson Valley from those that flow into the Pacific; thence on this dividing ridge northwardly to the 42d degree of north latitude, thence due north to the southern boundary line of the State of Oregon; thence due east to the place of beginning. That portion of the Territory within the present limits of the State of California is not to be included within Nevada until the State of California shall assent to the same by an act irrevocable without the consent of the United States. The Territory includes the lovely Carson Valley, the memory of whose beauty lingers with the traveler in his journey through arid plains and over ragged mountains, and whose wondrous fertility, even under the rudest cultivation, shows what may be expected there when intelligent industry has free course. Great mineral wealth, especially of silver, in which it is richer than any other part of the world, and unlimited capacity for the raising of agricultural products, will combine at an early day to transform this region into a rich and populous State.

In general terms, Dacotah lies between lat. 42 deg. 30 min. and 49 min. north, and long. 90 deg. 30 min. and 103 deg. west. It is bounded on the north by British America, east by the States of Minnesota and Iowa, south and west by Nebraska. Its length from north to south is 450 miles; its average breadth is about 200 miles, and it has an area of 70,000 square miles. It was formerly a part of the Territory of Minnesota, but was detached when that became a State. The Indians belonging to the Yankton, Sissiton and Sioux tribes are numerous, and live chiefly by the chase. The Territory includes open, grassy plains, high-rolling prairies, a great number of lakes and ponds, and very numerous valuable rivers. The climate of the south is mild; that of the north severe, though less so than might be expected from its high latitude. The land is well timbered and the valleys are highly productive. Coal abounds in some parts, and other minerals add wealth to the region. The game is plentiful, and of great value for its furs.

About a year ago Thos. B. Mynatt, a deputy sheriff, shot and killed, upon slight provocation, an old and respectable citizen of Memphis, named James L. Webb. The murderer has been in prison since the occurrence, until Friday last, when he was admitted to bail, having obtained a change of venue. He returned to Memphis on Saturday last, and while walking the streets with some friends, was shot by Morris Webb, a brother of deceased, and John L. Webb, a son of the gentleman killed by Mynatt. Mynatt's wounds, it is thought, will prove fatal. The younger Webb surrendered himself, while the other was not arrested.

Another Cure by Dr. Schenck.—I called on Dr. Schenck some time ago in one of his visits to Pittsburgh, at the office of Dr. Keyser, No. 140 Wood st. He was examining patients with lung disease. One of my lungs and the bronchial tubes were found to be badly diseased. Knowing that I coughed a expectorated blood and matter in large quantities. I had slight sweats and a great cough, and was greatly debilitated. Dr. Schenck threw down for me his "PULMONIC SYRUP," "SEAWEED TONIC" and "MANDRAKE PILLS," and after taking them one month I have so far recovered that I do not spit any more blood or matter, and the cough has nearly left me. I live in Columbiana county, Unity township, Ohio, where I am well known. You may publish this if you wish.

Pittsburgh, August 27, 1860. MARTIN KOONS.

N. B. Since the above was written, Mr. Koons has entirely recovered, and continues well, having regained his usual health.

I, WILLIAM W. ALEXANDER, residing on Ann street, Allegheny city, do hereby certify that I have been a sufferer from severe cough and pain in the breast for about eight years. During the whole of this time I have had general debility and depression of spirits. I tried every nostrum I could hear of, but nothing took hold of my case. About a year ago I heard of Doctor Schenck's "Pulmonic Syrup," but knowing no one personally that it had cured, I had no confidence in it. In April, 1859, I took a severe cold, accompanied with a violent cough, difficulty of respiration, and night sweats, which so prostrated me that I was confined to my room for two months.

Several of my friends who called to see me, spoke in very high praise, as they knew what it had done. My prostrated condition discouraged me considerably, and I made up my mind to waste no more money for doctors or medicine, but would take the chances, live or die, as I had been so long sick that I felt completely discouraged. However, after reading several advertisements in the Pittsburgh Dispatch I felt induced to give Dr. Schenck's medicine a fair trial, and now, nearly one year afterwards, I am in good health, by taking less than one dollar's worth of Dr. Schenck's medicine. I unhesitatingly state that it has made a perfect cure of me. I am a well man, and I attribute my good health and vigor of constitution entirely to Dr. Schenck's medicine. I expect to live in good health to day, Feb. 4th, 1861, than I have done for twenty years past. If persons knew the value of Dr. Schenck's inestimable remedies, they would not hesitate to call on him in his visits to this place. I feel like advising every person to call on him, as I have the strongest confidence in his medicines. Any persons wishing to know the facts as here stated can call on me at my place of business, at Wm. M. Faber's, Machinist, in this city, or at my residence, Ann street, Allegheny city.

TESTIMONIALS OF THE TESTIMONY

WHO HAVE BEEN THE VICTIMS OF QUACKS and who have had their health so cruelly shattered by improper treatment, or who have tried many worthless remedies, and been deceived and disappointed in their expectations, and have found their money expended and their health not improved, or perhaps made worse by the use of Mercury, Sarsaparilla, Iodide of Potassium, Lime Water, Copaiba, Cubebs, Injections, Astringents, Quacks and Empirics, and have spent their money, time and health, and have found themselves worse than when they commenced taking the nauseous stuff they have been imposed on by the Quack Doctors, who, regardless of the injury they may inflict upon the patient, by the use of Mercury, will recommend it as the best medicine in the world, and will use it in every form and combination, and when they have succeeded in salivating the patient, and ruining his constitution, pocket the money and laugh at the victim of their cupidity, who has thus been deceived and injured by their false and lying representations, and who has spent his money, and ruined his constitution by the use of Mercury, or some other worthless nauseous stuff, when a few bottles of the Extract Buchu would have cured them in a few days, without any injury to the constitution, or any change of diet, or exposure to the cold, and have saved the victim of quackery from the Grave, and from the Lunatic Asylum, and from the Dissecting Table
