## RELIGIOUS INTELLIGENCE.

The Rev. Wm. Shaw, Superintendent of the English Wesleyan Missions in Southern Africa, lately declared in a public address in London, that there are fifteen or eighteen thousand natives, regularly accredited members of the various churches; and, taking the attendance at the schools, members of the Church and those who attend irregularly the administration of the Gospel ordinances, he estimated that at least one hundred thousand natives of the various classes may be won over to Christianity. Bishop Payne, of the West African Episcopal Mission, referring to the progress of the Gospel in Western Africa says along the whole extent of two thousand miles, where forty years ago all was barren and unchristian, now God has established his Gospel and the slave trade was nearly abolished. The language had been written in twenty-five dialects; there were one hundred church buildings, two hundred schools, and over sixteen thousand children, while the Gospel was preached to over five million Africans.

——The Baptists are doing a good work in Germany. During the year 1,237 have been baptized; making the present number, 8,935. The work is vigorously carried forward in Poland, and is favorably commenced in Russia.

——The Toronto Globe says that the union of the United Presbyterian and Free Presbyterian churches of Canada has been consummated. Total number of ministers and elders, 305.

——The Church Journal says on the Festival of the Circumcision, at the Cape of Good Hope, the *first* English missionary bishop for the heathen outside of the British dominions, was consecrated; and on St. Matthias' day, on the opposite side of the Southern hemisphere, Auckland, Rev. J. C. Pattison was the *second* on the noble list of missionary bishops.

——At the seventy-first anniversary of the New York Baptist Association, held last week it was

*Resolved*, That as a means of supplying the lack of religious instruction and regular preaching of the Word, we deem it expedient and desirable to revive and encourage lay preaching within our association limits.

——Sir Henry Havelock was careful to read his bible when on duty in camp, notwithstanding his surroundings. A fellow-officer testifies that "he invariably secured two hours in the morning for reading the Scriptures and prayer. If the march began at six, he rose at four; if at four, he rose at two."

——The Rev. W. Arthur, one of the Secretaries of the Wesleyan Missionary Society of Great Britain, speaking of the way the Wesleyans raise missionary money says the ministers make the missionary cause their own; and all, children as well as adults, and the poor as well as the wealthy, are invited to contribute. Seven hundred thousand dollars were raised last year.

——At the recent session of the New School Presbyterian Assembly held at Syracuse, New York, a plan was adopted for a denominational Home Missionary Society, thereby severing the connection of the Church with the American Home Missionary Society, through which they have heretofore co-operated with the Congregationalists.

——The United Presbyterian General Assembly, at its recent annual meeting at Monmouth, Illinois, after the consideration of a memorial relative to improper matrimonial connections, adopted the following resolution:

*Resolved*, That it is the duty of parents to counsel their children against the formation of such matrimonial connections, and that ministers of the Gospel should show from the Scriptures their dangerous tendency, with a diligence proportioned to the dangers to which young people are exposed from the social influences with which they are surrounded.

——Much feeling of opposition was expressed at a public meeting in Dublin against the Sunday opening of the Botanic Gardens. At the meeting of the Royal Dublin Society, the votes were, for opening, 18; against it, 129.

——A Moslem Missionary Society has been organized to carry the Gospel more directly to the vast numbers of Mohammedans for whom as yet little has been done. Mr. Skene, the British Consul at Aleppo is very active in this praiseworthy movement, and has a number of native Arabs secured to enter on the preparatory stages of the work.

——In the Will of Rev. Matthew Tate, who died at Beaufort, S. C., Oct. 6, 1795, was the following:

"I enjoin it upon my executor to publish it in all the newspapers, that I departed this life in the full persuasion that if I died in possession of a slave, I should not conceive myself admissible into the kingdom of heaven."

——The ship Monarch, of the sea, arrived at New York Wednesday morning, the 19th, with 954 Mormons. They are bound for Salt Lake city.

——The Rev. John Travers Lewis, LL. D., of the University of Trinity College, Dublin, was elected Bishop of Ontario, Canada.

——The South Carolina Sunday School Union has issued the first number of a Sunday School paper for the South.

——The Missionary (Lutheran) says:

"Within the past week we have conversed with at least two hundred of our ministers, and find but one sentiment among them all. To a man they are for the Union, for the Constitution, and for the enforcement of the laws—peaceably if we can, but forcibly if we must. Rose-water puerilities about peace, when rebels mean and make war, find no utterance from their lips, but gathering the departing soldiery into their sanctuaries, they preach to them the Word of God, and with many tears and prayers, give them the blessings of the Church."

——The Presbyterian Banner says Rev. Alexander Shand, for many years in connection with the Associate Reformed Church, afterwards a minister of the Presbyterian Church has entered the Episcopal Church. Previous to his last change he was about commencing the practice of law.

ABOUT TOBACCO.—The lovers of the "weed" should begin to smoke and chew sparingly. The Philadelphia "Gazette" supposes tobacco will be as dear in Philadelphia in a short time as it is in London. It states that Richmond supplies the Philadelphia and New York markets with nearly their whole stock of plug tobacco, and since the war commenced, manufacturing is almost suspended. Over five thousand negroes usually employed in the tobacco factories, are either idle or engaged in work connected with fortifications. Since the blockade of the port the prices have still further advanced. A Philadelphia house, that a short time ago made a $20,000 investment in a re-pig-tail and lady-twist, is now rejoicing in a return of forty per cent. over the usual margin.

GARDEN STATE OF THE WEST!

THE ILLINOIS CENTRAL RAILROAD COMPANY

HAVE FOR SALE

1,200,000 ACRES

OF

## Rich Farming Lands!

IN

TRACTS OF FORTY ACRES AND UPWARDS!

ON

LONG CREDITS

AND AT

LOW PRICES!

*MECHANICS, FARMERS AND WORKING MEN!*

The attention of the enterprising and industrious portion of the community is directed to the following statements and liberal inducements offered them by the

*ILLINOIS CENTRAL RAILROAD COMPANY,*

which, as they will perceive, will enable them, by proper energy, perseverance and industry, to provide

Comfortable and Permanent Homes

for themselves and families, with, comparatively speaking, very little capital.

*LANDS OF ILLINOIS.*

No State in the Valley of the Mississippi offers so great an inducement to the settler as the State of Illinois. There is no portion of the world where all the conditions of climate and soil so admirably combine to produce those two great staples, corn and wheat, as the Prairies of Illinois.

*RICH ROLLING PRAIRIELANDS!*

The deep rich loam of the prairies is cultivated with such wonderful facility that the Farmers of the Eastern and Middle States are

Moving to Illinois in great numbers.

The area of Illinois is about equal to that of England, and the soil is so rich that it will support twenty millions of people.

*EASTERN AND SOUTHERN MARKETS*

These lands are contiguous to a railroad 700 miles in length, which connects with other roads and navigable lakes and rivers, thus affording

an unbroken communication

with the Eastern and Southern markets.

*APPLICATION OF CAPITAL.*

Thus far capital and labor have been applied to developing the soil; the great resources of the State in coal and iron are almost untouched; the invariable rule that the mechanic arts flourish best where food and fuel are cheapest, will follow at an early day in Illinois, and in the course of the next ten years the natural laws and necessities of the case warrant the belief that at least *FIVE HUNDRED THOUSAND PEOPLE* will be engaged in the State of Illinois in the various

Manufacturing Employments.

*RAILROAD SYSTEM OF ILLINOIS.*

Over 100,000,000 of private capital have been expended on the railroad system of Illinois. Inasmuch as part of the income from several of these works, with a valuable public fund in lands, goes to diminish the State expenses, the taxes are light, and must, consequently, every day decrease.

*THE STATE DEBT.*

The State Debt is only $10,106,393 14, and within the last three years has been reduced $2,959,746 80, and we may reasonably expect that in ten years it will become extinct.

PRESENT POPULATION.

The State is rapidly filling up with population; 868,025 persons having been added since 1850, making the present population 1,719,496—a ratio of 102 per cent. in ten years.

AGRICULTURAL PRODUCTS.

The agricultural products of Illinois are greater than those of any other State. The products sent out during the past year exceeded 1,500,000 tons. The wheat crop of 1860 approaches 35,000,000 bushels, while the corn crop yields not less than 140,000,000 bushels.

FERTILITY OF SOIL.

Nowhere can the industrious farmer secure such immediate results for his labor as upon these prairie soils, they being composed of a deep, rich loam, the fertility of which is unsurpassed by any on the globe.

TO ACTUAL CULTIVATORS.

*Since 1854, the Company have sold 1,300,000 acres. They sell only to actual cultivators, and every contract contains an agreement to cultivate. The road has been constructed through these lands at an expense of $30,000,000. In 1850 the population of forty-nine counties through which it passes was only 335,598, since which 479,293 have been added, making the whole population 814,891—a gain of 143 per cent.*

EVIDENCES OF PROSPERITY.

As an evidence of the thrift of the people, it may be stated that 600,000 tons of freight, including 8,600,000 bushels of grain and 250,000 barrels of flour, were forwarded over the line last year.

EDUCATION.

Mechanics and Working Men will find the Free School system encouraged by the State, and endowed with a large revenue for the support of schools. Their children can live in sight of the church and school house, and grow up with the prosperity of the leading State in the Great Western Empire.

PRICES AND TERMS OF PAYMENT.

The prices of these lands vary from $6 to $25 per acre, according to location, quality, &c. First-class farming lands sell for about $10 or $12 per acre, and the relative expense of subduing prairie land as compared with wood land is in the ratio of 1 to 10 in favor of the former. The terms of sale for the bulk of these lands will be

One Year's Interest in Advance,

at six per cent. per annum, and six interest notes at six per cent., payable respectively in one, two, three, four, five and six years from the date of sale; and four notes for principal, payable in four, five, six and seven years from date of sale, the contract stipulating that one-tenth of the tract purchased shall be fenced and cultivated each and every year, for five years from the date of sale, so that at the end of five years one-half shall be fenced and under cultivation.

Twenty Per Cent will be deducted

from the valuation for cash, except the same should be at six dollars per acre, when the cash price will be five dollars.

Pamphlets, descriptive of the lands, soil, climate, productions, prices and terms of payment, can be had on application to

ANOTHER CURE BY DR. SCHENCK.—I called on Dr. Schenck some time ago in one of his visits to Pittsburgh, at the office of Dr. Keyser, No. 140 Wood st. He was examining patients with lung disease. One of my lungs and the bronchial tubes were found to be badly diseased. Oftentimes when I coughed I expectorated blood and matter in large quantities. I had night sweats and a great cough, and was greatly debilitated. Dr. Schenck prescribed for me his "PULMONIC SYRUP," "SEAWEED TONIC" and "MANDRAKE PILLS," and after taking them one month I have so far recovered that I do not spit any more blood or matter, and the cough has nearly left me. I live in Columbiana county, Unity township, Ohio, where I am well known. You may publish this if you wish.

MARTIN KOCH.

Pittsburgh, August 27, 1860.

N. B. Since the above was written, Mr. Koch has entirely recovered, and continues well, having regained his usual health.

I, WILLIAM W. ALEXANDER, residing on Ann street, Allegheny city, do hereby certify that I have been a sufferer from severe cough and pain in the breast for about eight years. During the whole of this time I have had general debility and depression of spirits. I tried every nostrum I could hear of, but nothing took hold of my disease. I heard of Doctor Schenck's "PULMONIC SYRUP," but knowing no one personally that it had cured, I had no confidence in it. In April, 1859, I took a severe cold, accompanied with a violent cough, difficulty of respiration, and night sweats, which so prostrated me that I was confined to my room for two months.

Several of my friends who called to see me, spoke in very high praise, as they knew what it had done. My prostrated condition discouraged me considerably, and I made up my mind to waste no more money for doctors or medicine, but would take the chances, live or die, as I had been so long sick that I felt completely discouraged. However, after reading several advertisements in the Pittsburgh Dispatch I felt induced to give Dr. Schenck's medicine a fair trial, and now, *nearly two years afterwards*, I am in good health, by taking less than ten dollars' worth of Dr. Schenck's medicines. I unhesitatingly state that it has made a perfect cure of me. I am a well man, and I attribute my good health and vigor of constitution entirely to Dr. Schenck's medicine. I enjoy better health to-day, Feb. 4th, 1861, than I have done for twenty years past. If persons knew the value of Dr. Schenck's inestimable remedies, they would not hesitate to call on him in his visits to this place. I feel like advising every person to call on him, as I have the utmost confidence in his medicines. Any person wishing to know the facts as here stated can call on me at my place of business, at Wm. H. Tyler's, Machinist, in this city, or at my residence, Ann street, Allegheny city.

INCREASED FACILITIES FOR MANUFacturing, and the curtailment of litigation expenses consequent upon recent decision of the United States Court, affirming the validity of the Grover & Baker Company's Patents, enable this company to furnish their Sewing Machines, with important improvements, at GREATLY REDUCED PRICES. The superiority of these Machines for family use and for manufacturing, in the same range of purposes and material, is attested by the tens of thousands in use. And the moderate prices at which they are now sold place them within the reach of all, and obviate all excuse for tampering with those inferior and low priced machines which have so much prejudiced the sewing machine business. Every machine sold by us is

WARRANTED FOR THREE YEARS.

We also give instructions, free of charge, to purchasers, to enable them to Hem, Fell, Gather Tuck and Embroider, all on the same machine.

## Miscellaneous.

## A Card to the Public.

The amount of bodily and mental misery arising from a neglect of small complaints is incalculable, and it is therefore of the utmost importance that a strict attention to the least and most trifling bodily ailments should be had; for diseases of the body invariably affect the mind. DR. MOFFAT'S VEGETABLE LIFE MEDICINES, in every instance where they have been thoroughly used, have TRIUMPHED OVER DISEASE in almost all its diversified forms. The salutary effects of the Life Medicines have, in fact, been so universally experienced, that they have become fully established as the most easy, safe and perfect mode of treatment ever offered to the public.

## THESE MEDICINES

Have now been before the public for a period of 30 YEARS and during that time have maintained a HIGH CHARACTER in almost EVERY PART OF THE GLOBE for the extraordinary curative properties which they possess.

IN MANY THOUSANDS

of certified instances, they have even RESCUED SUFFERERS from the very VERGE OF AN UNTIMELY GRAVE, after all the deceptive nostrums of the day have invariably FAILED. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and enduing them with renewed tone and vigor, that they were indebted for their name.

MOFFAT'S LIFE PILLS!!!

Are composed of VEGETABLE INGREDIENTS EXCLUSIVELY, as can be ascertained by CHEMICAL TESTS. Their prominent qualities are those of an active and searching, though perfectly mild and agreeable detergent aperient, of a gentle soporific, promoting the insensible perspiration; of a pleasant diuretic, invigorating the kidneys and bladder, and of a delightful tonic cordial, exciting appetite by the demands of active digestion, and cheering the mind with that grateful sense of renovated health which is one of the most felicitous feelings of our nature.

## THE PHŒNIX BITTERS!!!

So denominated from their astonishing power of creating new life and strength, as it were from the very ashes of the most dilapidated constitutions—are more strongly tonic and more immediately invigorating than the Pills: containing the same choice vegetable extracts as the latter, in a different medication. Although really less cathartic than the LIFE PILLS, they nevertheless begin to cleanse the alimentary canal much sooner, generally slightly operating within three or four hours, and producing a decided sense of relief to the Head and Stomach, and exhilarating the Mind, even in less time than this.

MOFFAT'S LIFE PILLS!!!

In Affections of the Head, Sick Headache or Nervous Headache, these Pills will be found to possess the most salutary efficacy.

MOFFAT'S PHŒNIX BITTERS!!!

Have been happily used for the cure of FEVER AND AGUE, with INVARIABLE SUCCESS!

BILIOUS COMPLAINTS, AND A MODE OF CURE!!!

A well-regulated and proportionate quantity of bile upon the stomach is always requisite for the promotion of sound health—it stimulates digestion and keeps the intestinal canal free from all obstructions. When there is a deficiency of bile, the body is constantly costive. On the other hand, an overabundance of bile causes frequent nausea in the stomach, and often promotes very severe attacks of disease, which sometimes end in death.

Dr. Moffat's Life Medicines!!!

Should be taken in the EARLY STAGES of Bilious complaints and if persevered in strictly according to directions, will POSITIVELY EFFECT A CURE.

## PILES! PILES! PILES!

As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of *thirty-five years*, and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

MOFFAT'S

Life Pills and Phœnix Bitters!!!

CURE DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure, healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of APPETITE, HEARTBURN, HEADACHE, RESTLESSNESS, ILL TEMPER, ANXIETY, LANGUOR, and MELANCHOLY, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

THE

## LIFE MEDICINES!,

For BILIOUS AND LIVER COMPLAINTS, with their many well-known attendants, *Bilious and Sick Headache, Pain and Oppression after Meals, Giddiness, Dizziness, Heartburn, Loss of Appetite*, are acknowledged to be vastly superior to anything ever before offered to the public.

## MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of MERCURY, will find these medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

## SCROFULA!

The most horrible cases of *Scrofula*, in which the Face, Bones and Limbs of the victim had been preyed upon by the insatiable disease, are proved by undeniable authority to have been completely cured by these purely Vegetable Medicines, after all others had been found more than useless.

## Acute or Inflammatory Rheumatism!

ANTHROSIA CHRONICA, OR CHRONIC RHEUMATISM!!

These diseases, which are among the most painful, and, by ignorant treatment, the most inveterate to which suffering humanity is liable, are CURED, *speedily and permanently cured*, by a proper course of the LIFE PILLS and PHŒNIX BITTERS.

## MOFFAT'S PILLS AND BITTERS!!!

But it is unnecessary to enumerate the many cases in which these purely vegetable medicines have been successful; but let us inquire, Why are they so UNIVERSAL in their happy effects?

Because they PURIFY THE BLOOD, and thus remove all cause of disease in the system.

Because they act powerfully upon the secretions of the body, and remove all impurities at once.

Because they do not reduce the system, but invigorate it—thus requiring no restraint from pleasure or business during their operation.

THE

# ONLY DISCOVERY

WORTHY OF ANY CONFIDENCE FOR

RESTORING

## The Bald and Gray.

Many, since the Great Discovery of Prof. WOOD, have attempted not only to imitate his Restorative, but profess to have discovered something that would produce results identical; but they have all come and gone, being carried away by the wonderful results of Prof. Wood's preparation, and have been forced to leave the field to its restless sway. Read the following:

BATH, Maine, April 18th, 1859.

PROF. O. J. WOOD & Co: Gents—The letter I wrote you in 1856, concerning your valuable Hair Restorative, and which you have published in this vicinity and elsewhere, has given rise to numerous inquiries touching the facts in the case. The inquiries are: first, is it a fact of my habitation and name, as stated in the communication; second, is it true of all therein contained; third, does my hair still continue to be in good order and of natural color? To all I can and do answer invariably yes. My hair is even better than in any stage of my life for forty years past, more soft, thrifty and better colored; the same is true of my whiskers, and the only cause why it is not generally true, is that the substance is washed off by frequent ablution of the face, when if care was used by wiping the face in close connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of letters from all parts of New England, asking me if my hair still continues to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt, been busily imitated and been used not only without any good effect, but an absolute injury. I have not used any of your Restorative of any account for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now 61 years old and not a gray hair in my head or on my face; and to prove this fact, I send you a lock of my hair taken off the past week. I received your favor of two quart bottles last summer, for which I am very grateful; I gave it to my friends and thereby induced them to try it; many were skeptical until after trial and then purchased and used it with universal success. I will ask as a favor, that you send me a test by which I can discover fraud in the Restorative, sold by many, I fear, without authority from you. A pure article will insure success, and I believe where good effects do not follow, the failure is caused by the impure article, which curses the inventor of the good. I deem it my duty, as heretofore, to keep you apprised of the continued effect on my hair, as I assure all who inquire of me of my unshaken opinion of its valuable results. I remain, dear sir, yours,

A. C. RAYMOND.

AARON'S RUN, Ky., Nov. 30, 1858.

PROF. O. J. WOOD: Dear Sir—I would certainly be doing you a great injustice not to make known to the world, the wonderful as well as the unexpected result I have experienced from using ONE bottle of your Hair Restorative. After using every kind of Restoratives extant, but without success, and finding my head nearly destitute of hair, I was finally induced to try a bottle of your Hair Restorative. Now, candor and justice compel me to announce to whoever may read this, that I now possess a new and beautiful growth of hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to all who may feel the necessity of it. Respectfully yours, REV. S. ALLEY GROCK.

P. S. This testimonial of my approbation for your valuable medicine (as you are aware of) is unsolicited; but if you think it worthy a place among the rest, insert if you wish—if not, destroy, and say nothing.

Yours, &c., REV. S. A. B.

The Restorative is put up in bottles of three sizes, viz: large, medium and small; the small holds half a pint and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

O. J. WOOD & CO., Proprietors, 444 Broadway, New York, and 114 Market street, St. Louis, Mo.; and sold by all good Druggists and Fancy Goods Dealers.

Sold in Pittsburgh by B. L. Fahnestock & Co., J. M. Fulton, Dr. George H. Keyser, R. E. Sellers & Co., B. A. Fahnestock & Co., Joseph Fleming, Simon Johnston, Chas. H. Soper. au21:lyd:tlw

## Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

## Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

## Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints, arising from a low state of the body or obstruction of its functions.

## Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
