SPREAD OF THE REVOLUTION IN MEXICO.—Dates from Acapulco to the 3d instant make no mention of the death of Alvarez. The revolution is said to be rapidly spreading, the whole district of Ajuchitlan having declared its independence. In Tetala del Rio the Mexican authorities had been routed, and the commander killed.

YELLOW FEVER ON SHIPBOARD.—A telegraphic dispatch dated at Mobile, July 21, says that the ship B. Aymar, Wright, arrived at that port from Matanzas with the crew all sick with the yellow fever, and the captain dead.

It is stated in a New York Sunday paper that the United States Government wishes to purchase the Crystal Palace for some purpose, and has offered $120,000 for it. It is rumored that the city of Boston proposes to give $175,000 for it.

THE Belfast (Ireland) Mercury says, the extent to which the sale of Indian Meal is carried on through the rural districts, seems really wonderful. At one steam mill the average quantity turned out, for the last couple of months, exceeded 60 tons per week.

MEDICAL.

TO THE PUBLIC.

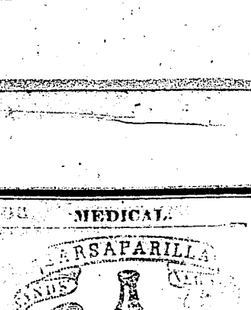
MOST IMPORTANT ANNOUNCEMENT;
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.
From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE!
Popular Medicine for the first time sanctioned by the
HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK, M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap and popular form*, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the widest research, and the almost unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to *some particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, to the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have seen his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

THE FOLLOWING CERTIFICATE,

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.



SANDS' SARSAPARILLA
IN QUART BOTTLES,
For Purifying the Blood, and for the Cure
of Scrofula, Rheumatism, Stubborn Ulcers, Dropsy, Salt Rheum, Fever Sores, Erysipelas, Pimples, Blotches, Mercurial Diseases, Cutaneous Eruptions, Liver Complaint, Dyspepsia, Costiveness, Female Complaints, Tumors, Loss of Appetite, General Debility, etc. etc.

IN this preparation all the restorative properties of the root are concentrated in the most powerful strength, and by a peculiar process, the active and important parts of its combination, it at the same time retains the properties of the other vegetables used in the process and it is in the peculiar combination and scientific manner of its preparation, that its great virtues consist. In the cure of diseases arising from the impurities of the blood, such, the circulation of the blood, and thus purifying it, which are either hereditary or the result of three different kinds of medicine, are carried on at the same time, through the three principal channels of the system, viz: the bowels, urines and the insensible perspiration, or pores of the skin. Many other preparations imitate in the name of Sarsaparilla, and in that their reputation is established, but they are generally composed of inert root, and, of course, possessing no healing or curative properties, and, in fact, in many instances, injuring the system, and, in fact, in many instances, injuring the system, and would take no other but that one entitled to their confidence, from the long list of cures it has effected, and the well established character of Sands' Sarsaparilla, has been published, and who are still bearing daily testimony to its worth.

ASTONISHING CURE.

BALTIMORE, N. Y., Sept. 20th, 1851.

Messrs. A. B. & D. SANDS: Gentlemen—Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me great pleasure to add my testimony in favor of the same, and to recommend it to my son. In the Spring of 1848, he took a severe cold, which settled in his leg, and he was confined to his bed, and to his crutches, for a long time, with the swelling was lanced, and a large quantity of matter discharged, and for more than two years he was obliged to use crutches, and, at times, was so lame that he could not walk without them. He was recommended to try Sands' Sarsaparilla, and with its use his health and appetite began immediately to improve, and in less than a dozen bottles effected a perfect cure. With gratitude, I remain truly yours,

WM. H. HARRISON, 170 Aisquith st., Baltimore.

We, the undersigned, neighbors of Mr. Ballard, cheerfully testify to the facts of his wonderful cure.

The following testimony is from the pen of the Rev. J. W. Parkes is extracted from the Christian Chronicle.

PHILADELPHIA, Philadelphia, Feb. 7th, 1852.

Dr. C. M. Jackson, Dear Sir:—I believe your German Bitters are what they are represented to be, a valuable tonic, and I have found them in the cases in which Chronic Diarrhoea perhaps generally of a the time, until about the middle of the Spring, I had been in a state of health, but very much prostrated by it. My stomach and the numerous membranes of my bowels seemed to be in a state of inflammation. In this condition, I called upon a physician who understood my case and directed treatment, in a measure, but I soon found I was worse, and, at the end of a month, I found I were not right, my tongue continued to be much coated, my urine deficient, and I was fast losing flesh. I then became put partially forming their regular functions, another physician was called in, who treated me for the Chronic Diarrhoea, I noticed Dr. Hoofland's German Bitters advertised, and several cases cured, I thought I would try them, I did so, and found a marked change, and in a short time I was entirely well. I have since used them in my family, and have found them invariably efficacious. I cheerfully recommend them to my friends, and to the public, as a valuable tonic, and a safe family medicine.

Yours, JOHNSON BURKE, Waverly Place, N. Y.

The undersigned, in accepting the proprietorship of Dr. James McClintock's Family Medicines, would respectfully state to the public, that in his profession as Druggist and Chemist, for nearly fifteen years past, during which time he has been actively connected with the best pharmaceutical establishments in this country, he has had constant occasion to see and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. Mott, Dr. Parker, Dr. Francis, Dr. Chapman, Dr. Rasse, Dr. Whittaker, Dr. Schmidt, Dr. Hosack, Dr. Hixam, Drs. Pratt and Young, Dr. Beale, Dr. Green, and many others in the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combined scientifically*, so as to secure a harmonious chemical action in union with their highest therapeutical effects, and the inaccurate mixtures of quackery and ignorance where in, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, and contrary to its intended design. It is with pleasure, therefore, that he hesitates that the prescriptions of Dr. James McClintock are not only composed of the most valuable medical agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself that he can refer with confidence to his past career, as his guarantee to the public that *these great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.
