HOME MATTERS.

INQUEST IN THE JAIL.—An old man named Francis Ivory confined in the County Jail for vagrancy died suddenly in his cell on Thursday night. An inquest was held on his remains yesterday at which the following evidence was elicited:

Alexander Hanna, sworn—Have been confined in the same cell with the deceased; he has been confined about two weeks; he said he was worse than he ever had been; it was of the rupture he complained; the doctor had been with him once or twice; don't know when the doctor was with him last; the deceased asked for a physician a few days ago and had one sent him by the jailor; he said that if he wasn't taken out of the cell he wouldn't live his time out; he complained of being sick yesterday, but did not hear him ask for a physician.

Michael Larkin, sworn—Was put in the cell with Ivory on Tuesday; there were five prisoners in the cell, and but two beds; didn't go into the bed as I didn't like to disturb the deceased; saw every one in the cell attending him; but he was always complaining; gave him a drink of water about nine o'clock on Thursday night; didn't pay any more attention to him till we found him dead in the morning; never heard him ask for a physician, though he was always complaining.

Andrew Mitchell, sworn—The deceased has been in jail two weeks; was in his cell yesterday; heard no complaints, the deceased did not ask for a physician.

Dr. Tindle, sworn—Am physician to the jail; In the early part of last week the turnkey told me that Ivory was unwell; went to his cell and found him suffering slightly from bronchetis; gave him the proper remidies and saw him the day following; saw him last on Friday morning at which time he was very much relieved, but he was greatly prostrated and wished me to get him out of the prison; visited the jail on Monday morning; think the deceased died from general debility brought on by exposure and excessive drinking.

The evidence closed here, and the jury after a short deliberation rendered a verdict that the deceased came to his death from the causes named by Dr. Tindle, and the jury further gave it as their opinion that the death of the deceased may have been hastened by continuous imprisonment owing to the impure atmosphere of the jail in which he was confined.

The deceased was about sixty-five years of age, and was an incorrigible vagrant.

—A word of explanation regarding the latter clause of the verdict returned by the Coroner's jury may be necessary. The jury found the atmosphere of the prison very impure; but when it will be considered that there are now one hundred and sixty prisoners in the jail, and that it is one of the worst ventilated buildings in the county, it will be seen how difficult a task it is to keep it otherwise. Jailor Crawford and the Sheriff both exert themselves to keep the jail as clean as possible, and if the atmosphere there be impure, it is none of their fault.

ANOTHER VICTIM OF INTEMPERANCE.—A woman named Catharine McGroggan, residing on Poplar alley, in the Sixth Ward died suddenly in bed on Thursday night. The Coroner was called on yesterday, and empanneled a jury to investigate the causes which led to her death. It appeared from the testimony given on the occasion that the deceased was much addicted to drinking, and had on more than one occasion, suffered excessively from mani-a-potu. Some days ago, she drank to excess, and since then she continued to sink until she expired on Thursday night. A number of witnesses were examined, some of whom attempted to show that the woman died from ill treatment received from her husband; but the jury placed no credence in their testimony, and returned a verdict that the deceased came to her death from the excessive use of intoxicating drinks.

NEW MUSIC.—H. Kleber has received the following choice music, at his store on Third street, to wit:

"*Evening Song*, written by J. E. Carpenter, composed by Franzabt." "*The Sturm March Gallop*, arranged by Fred. Beyer." "*El Cucuye, the Cuckoo*. The celebrated Havana Contra-Dance. Arranged for the Piano Forte, by Geo. W. Warren." "Song—My Wildwood Home—Poetry and Music by A. Annie Wade." This last song is by our talented townswoman.

FALSE PRETENCE CASES.—William Hall, charged with obtaining $15 worth of goods by false pretences from William Cleland, was held to bail, for trial, by Alderman Steel, yesterday.

Joseph Schmidt, charged with taking $30 from a letter (sent to Mrs. Talbert by her husband from Reading) under pretence that she owed him that sum for boarding with her, was not the case, was also held to bail, to appear at Court, by the same Alderman.

HELD TO BAIL.—Alderman Steel, yesterday, held J. J. Hays, G. B. Hays and J. Hays, jr., to bail for trial, on a charge of assault and battery preferred against them by J. Owens.

Owens was subsequently held to bail by the same Alderman for a similar offence on J. J. Hay and G. B. Hay. The parties all reside at Hay's station on the O. & P. Railroad.

THE MILITARY ENCAMPMENT, at New Brighton, broke up on Thursday evening. There were seven military companies in attendance, numbering in the aggregate nearly three hundred men. The affair passed off without accident, and gave entire satisfaction to all who attended the gathering.

CAPIAS CASES.—The Prothonotary, yesterday, issued a capias for the arrest of Daniel M'Laughlin and his wife, on a charge of maligning the character of Margaret Sinclair.

The same officer also issued a warrant for the arrest of Joseph Hastings, charged with slander by John McClure.

ERROR.—We erred, yesterday, in stating that the child of Captain Randall had lost his life by the accident which recently befel the family of that gentleman. We are pleased to learn that the boy, though for a time senseless, has since got much better and will in all probability recover.

DROWNED.—A colored man, engaged as steward on one of the boats plying between here and Brownsville, was drowned on Thursday evening, by falling off the guards into the water, while asleep. The accident happened near Pollock's on the Monongahela river.

LAST APPEARANCE.—Whitbeck's Equestrian Troupe will make their last appearance in this city to-day. Mr. Whitbeck has met with great success in Pittsburgh, for which he returns his sincere thanks.

LARCENY.—John Simpson, charged with stealing some articles of harness from James McDonald, was held to bail, for trial, by Alderman Heisley, yesterday.

THE DEMOCRATS hold their primary meetings to-day. The Democratic County Convention meets on Wednesday.

THE CORNER STONE of the Western University of Pennsylvania will be put down this afternoon at 5 P. M.

BY TELEGRAPH.

BOSTON, Sept. 1.—The steamer Europa arrived from Halifax, shortly after eleven o'clock this morning.

The papers from Liverpool contain little additional news.

A letter from St. Petersburg says that not a word has been uttered there about peace. No one dare utter it. The old Russian war party governs public opinion. Voluntary contributions flow less plentifully.

Lord Beaumont died at London of Cholera.

Berlin letters state that Prussia is quite satisfied with the evacuation of the Principalities, and professes to assume openly the character of a mediator.

Bomarsund was the strongest fort taken by the French and English. After several hours of severe fighting the Russians report that they gained a great victory over the Turks at Bagazid, killing 3000 Turks. The Russian quads and reserve were advancing by forced marches towards the southern frontier of the empire.

Dates from Barbadoes to the 10th August state that the cholera scarcely exists as an epidemic, though cases had occurred up to the last day or two. The total deaths from cholera on the island are 1800; the number of deaths reported among the military was 355.

The reported existence of Cholera at Grenada is fully confirmed. Up to August 4th, the deaths amounted to 3000, being nearly the 10th part of the population. At the latest dates it was on the decrease. At St. Lucia the Cholera reached 850. St. Vincent, Tobago, Trinidad and Demarara are healthy.

LOUISVILLE, Sept. 1.—The Salt Lake mail arrived at St. Louis to-day.

Peace has been established between the people of the city and all the Utahs. Gov. Young has concluded a treaty with all the chiefs.

The health of the city is good.

The rains have been more abundant than ever known, and there is a much larger quantity of land under cultivation.

On the 18th June, a heavy storm of rain and hail spread over the greater portion of the valley, which did considerable injury. Grass is scarce, owing to the large amount of cattle driven in to California, which is estimated at 450,000 head, this season.

Four thousand persons have gone to Salt Lake this season.

Many complaints are made of outrages by the Pawnee Indians. A man named French, a wood teamster, was killed in broad day-light, and 700 sheep were driven off.

The mail from Santa Fe was received on the 1st. It contained nothing of interest.

The crops in New Mexico are good.

The train experienced no trouble from the Indians. Buffalo were numerous all over the plains.

The storm at Salt Lake did considerable damage to some of the wheat crops.

A great number of horses, sheep and mules are on the route. Seven thousand sheep were driven off in a body. After passing Fort Kearney the country showed signs of heat and drought. Water was difficult to procure; the grass was withered but plenty.

A band of Camanches were met crossing the Arkansas and sent to camp. Having obtained provisions, they departed peaceably.

CINCINNATI, Sept. 1.—The United States Express was robbed of between $30,000 and $40,000 at the Hamilton Railroad depot last night.

By the last English packet a dividend was remitted to English holders of Mexican bonds.

The deaths from yellow fever at Charleston last week, were all foreigners except three.

An official statement of the U. S. Treasury shows $25,620,000 in the treasury on the 28th ult.

NEW YORK, Sept. 1.—The Chemical Bank was defrauded of $9000 yesterday by a man giving his name as James Bishop. He opened a small account a few days ago and on Wednesday deposited a check for $16,000 purporting to be drawn by James Thompson on the American Exchange Bank. He then drew $9000, and the check for $16,000 after being honored at the Exchange Bank was found to be a forgery. The swindler has escaped.

'I am prepared to recommend your Pills.'

JOHNSTOWN, Will Co., Ill., Feb. 25, 1854.

MR. R. E. SELLERS: When I resided in Pittsburgh, I was cured of an attack of Liver complaint, which had preyed upon my system for 6 years, and reduced me so much that I was compelled to quit work. During the three or four suffering, I had the advice of several physicians, but their treatment failed to accomplish a cure. A friend recommended the use of your 'Liver Pills,' and after using two boxes of them, I found myself entirely cured. Whilst suffering from Liver Complaint, I was also afflicted with the Piles, which I never felt afterwards. As my wife and eldest son are now very much afflicted with a deranged state of the Liver, I am very anxious to have them use the same remedy for the sale of your Liver Pills at this place.

After the cure of my own disease, I am prepared to recommend your Pills, and very many persons in this section would freely try them if they had a chance. Yours, respectfully, ANDREW SARVER.

TO THE PUBLIC—*The original, only true and genuine* Liver Pills are prepared by R. E. Sellers, and having his name in *black letter* upon the lid of each box, and his signature on the *outside wrapper*—all others are *Counterfeits or Base Imitations*. R. E. The speculative feeling aroused in the West in Corn and Pork, an i Breadstuffs generally, by the long prevalence of dry weather and the probable failure of the Corn crop is likely to lead the speculators beyond the line of safety.—The Corn crop is much larger than was expected, and the means of fattening hogs are more extensive. We consequently hear of a slight reaction in Provisions, both East and West, and a downward tendency in Breadstuffs. The fact appears to be that while there is no reason to doubt the seriousness of the drouth, the great Corn-growing sections have been more fortunate than others, and the Corn crop, beside, is one able to stand an immense amount of dry weather. Then the mast in the woods is good and plenty, and there is no reason to doubt that the number of fat hogs this fall will be abundant. We advise those disposed to venture in speculations to keep their fingers out of this fire. As soon as the streams become navigable, and the railroads now finishing into new regions are open, Corn will be brought forward in immense quantities, the more so on account of present high rates, and there will be an immediate prostration. Breadstuffs, too, especially, as a cheap substitute for Flour and Potatoes, will be in good demand all winter, and command fair prices but those who look forward to famine rates are likely to be disappointed.

THE MARKET.—The produce market opened yesterday, with a fair supply of wheat, which went off readily at Saturday's rates, the inferior to prime ranging at $1.35; prime and choice $1.37½@1.40; prime white at $1.45, extreme ruling rate; twenty-five bbls. of Cabin Passage upper rivers, and the withdrawal of the Fairies, also, at $1.40, the detention of other boats now bringing the largest portion received. It is thought prices will advance before the termination of the present week. Should the two Naples boats discontinue their trips, the supply of wheat brought to market will be considerably diminished, as the bulk of receipts for two days or two weeks past has been by them and the Alton packets.

Flour sells in small lots at $6,87½@7 for country and city superfine; country extra at $7.25. Corn—Ohio, 58 and prime white held at 60c. Oats 40@41c. Provisions firm, but no sales reported at the ruling rates for pork and lard. Bacon shoulders selling at 6c; other descriptions firm at 7. Whiskey 36c, and under, prices having declined. Groceries steady at the late rates. Coffee 9¾ to 10¼c. Molasses and rebolled molasses 15@17c. Sale to day of 250 sks prime Rio coffee at 12¼.—St. Louis Intel.

HOGS AND LARD.—The high price of lard helps to maintain the present price of hogs in this market and a great deal of what is termed Butcher's lard is now being received. Saturday we are making from 8¾ to 9c, and at this rate hogs at 3¾ to 4 will yield a good profit. Corn fed hogs are in demand at 3¾ to 4c net, the inquiry being chiefly from Butchers, who take the shoulders and hams for bacon or sausage meat, and the balance of the hog goes into lard.—St. Louis Intel.

The quotations of Sterling Exchange are 109¾@109¾; and of Francs 5.11½@5.13½. Sales of Sterling Bills of Exchange have been large buyers of Exchange. The importers buy moderately. The leading drawers of Exchange are all shipping specie this week.

The business of Brooklyn is on the increase. The amount of Maranatha paper falling due next Monday, the 4th of September, will be large. The Discount Brokers take all the best grades of ex-town paper readily at 12 per cent per annum, but little under. The single named and second-class papers is taken at 12 @ 24 cent. Money is present freely at 6 @ 7 per cent, and in large amounts; but the same parties do not lend it beyond the certainty of immediate call.—Brooklyn Times.

The Detroit Advertiser of Aug. 28 says: We learn from undoubted authority that Messrs. Wing & Co., brokers, and redemption agents in this city of the Bank of Washtenaw, received instructions from the President of the bank to redeem no more of the notes of this institution. Hence, the inference is, we said the bank will continue to redeem its notes at its counter in Ann Arbor.

Money has been in demand to-day, but the supply in the street is good. The offerings at the Banks increase, and are about double the amount of yesterday. The Banks are discounting to the full extent of their receipts, but no more.—N. Y. Trib.

Corn fed hogs are in demand at 3¾ to 4c net, the inquiry being chiefly from Butchers, who take the shoulders and hams for bacon or sausage meat, and the balance of the hog goes into lard.—St. Louis Intel.

The business of Brooklyn is on the increase. The amount of Maranatha paper falling due next Monday, the 4th of September, will be large. The Discount Brokers take all the best grades of ex-town paper readily at 12 per cent per annum, but little under. The single named and second-class papers is taken at 12 @ 24 cent. Money is present freely at 6 @ 7 per cent, and in large amounts; but the same parties do not lend it beyond the certainty of immediate call.—Brooklyn Times.

The Detroit Advertiser of Aug. 28 says: We learn from undoubted authority that Messrs. Wing & Co., brokers, and redemption agents in this city of the Bank of Washtenaw, received instructions from the President of the bank to redeem no more of the notes of this institution. Hence, the inference is, we said the bank will continue to redeem its notes at its counter in Ann Arbor.

Money has been in demand to-day, but the supply in the street is good. The offerings at the Banks increase, and are about double the amount of yesterday. The Banks are discounting to the full extent of their receipts, but no more.—N. Y. Trib.
