PITTSBURGH GAZETTE

The St. Louis Democrat says, "The majority in Ohio against the repeal of the Compromise is equal to the entire vote of Missouri cast in the recent election."

Our friend of the Ohio State Journal is down on tournaments, and thinks that "Old Kentucky ought to be ashamed of such children's play." Kentucky need not blush just yet—there have been no baby shows over the river.—*Cincinnati Gazette.*

The division of the hull of a vessel into water tight compartments, though so efficient in the case of the Vesta will not always keep an injured vessel afloat. The steamship City of Philadelphia was built in that way, and yet she sank in half an hour after knocking a hole in her bottom.

The Irish shopkeeper, who was lately cheated by an old woman stealing a jar of whiskey, and leaving a jar of water in its place, described her as speaking a strange dialect, nether Irish nor English. A punster said, he had reason to complain of the jar-gon.

MEDICAL.

TO THE PUBLIC.
A MOST IMPORTANT ANNOUNCEMENT;
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.
From the Philadelphia Medical College.
A NEW ERA IN THE HISTORY OF MEDICINE!
Popular Medicine for the first time sanctioned by the
HIGHEST AUTHORITY IN THE PROFESSION!
THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent professor JAMES McCLINTOCK M. D., of Philadelphia, known for more than a quarter of century past as one of the ablest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap and popular form*, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the ripe est research, and the almost unequaled experience of one the first physicians of the age. Each remedy is especially adapted to *some particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Carlisle, Pittsfield, and elsewhere.
READ THE FOLLOWING CERTIFICATE:
This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and put up the same for public use. They are such as I employ in the habit of recommending and prescribing for many years, and their compound is well known to my students and regular physicians, who have been my students, and who are many of them now practicing, and recommending the same in their respective localities. My inducements for this step are numerous—one of the most urgent is the ease and comfort of my patients, which I can secure, through private report of their causes, as to make their preparation and administration a matter of little form or trouble, and solicitations of my friends and patients, in the belief that the general introduction of my remedies will be productive of reports a public benefit, and finally, in securing the co-operation of Dr. Alexander Stephens, of Philadelphia, an educated Chemist and practical Apothecary of many years experience, whereby I am enabled to secure the best results that can be prepared in the best, PUREST and most perfect form, regardless of expense.
JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery and Medical Jurisprudence in the Philadelphia Hospital. Blockley; late member of the Medical Society of Philadelphia; late member of the Philadelphia Medical Society, member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont; and also, late Professor of Anatomy and Surgery in the Pittsfield Medical Institution, Pittsfield, Mass. &c. &c. &c.
We need scarcely remind the intelligent public of the great advantage to be derived from the introduction of a class of *good and reliable popular medicines* which may be confidently adopted into family use and *depended on at all times* in the absence of a regular practitioner, or in cases of *Sudden attacks of Pain, Sickness and Emergencies.* No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily pushed into notoriety by unscrupulous and reckless men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We trust confidently in the good sense of the community, and in this effort to restore to the great public evil of *Quackery* by giving a careful perusal to the following list, which embraces the first twelve remedies of the series, and which comprises some of the most valuable specimens of the entire collection, and which will be found to cure most of your friends or sufferers, one no time in procuring the aid of the *first medical authority of the day*, by adopting the advice and using a few bottles of these medicines, as adapted to the case. We call especial attention to the first of the list as being most generally demanded, at this season namely, the
