The Tariff Bill.

Our free-trade friends are likely to have small cause for rejoicing over their achievements in the present Congress. Professing always to oppose a tariff chiefly because of the burdens which they allege it imposes upon the people, they defeated a carefully-prepared tariff bill, which would have reduced the revenue from imports more than thirty millions annually.

This week saw the culmination of their scheme to reduce by one-half the duty on salt. In compliance with instructions, Mr. Schenck reported in the House a bill to that effect, which was summarily referred to the Committee of the Whole, and therefore will share the same fate as the former.

What is the Prospect of the American Mechanic?

In looking to the future, and proposing the question. What is the prospect of the American mechanic? two present facts stare us in the face, and render out-look very gloomy. These facts are, first, the growing strength of a free trade feeling in our country; second, the disposition of great manufacturers and corporations to import labor which can be had for services at a less cost than that for which American labor can be had.

At the present time the manufacturers of the east are importing large gangs of coolies to take the place of Americans, simply because the former can be had for one-half the wages demanded. These facts make it very clear that under any circumstances, alike with free trade or protection, the American mechanic will reap no benefit.

THE FIRE FIEND.

FEARFUL OIL FIRE IN PITTSBURG.

A TREMENDOUS EXPLOSION

PITTSBURG, June 28.—The most disastrous oil fire which ever occurred in this city is now raging near the Sharsburg bridge in the Eighteenth ward.

The Eclipse tank instantly exploded, the burning oil running towards the river and burning all the buildings, including Dr. Tweedle's house, and setting fire to the Sharsburg bridge, which was totally destroyed.

At three P. M., during a terrible rain storm, in which houses were blown down and trees uprooted, 20,000 barrels of oil in a tank, belonging to the Edipal Refinery, was struck by lightning. Another tank, belonging to the Citizen's Refinery, was struck at the same time.

The Citizen's Refinery, with one tank of crude oil, and a warehouse were burned. Forsyth & Brothers lose one tank of 3,000 barrels of crude oil. The Astral Works of John B. Bellensons lose buildings, &c.

The Anchor Works of Dilworth Bros., lose one tank of crude oil. The National Refinery and Storing Company's Bleaching House was destroyed. The Allegheny Valley Railroad Company had ten cars of crude oil burned, and lose on oil \$0,000.

The Sharsburg Bridge was insured for \$40,000. Citizens' refinery, \$20,000, insured.—Eclipse building, \$15,000 on oil and \$8,000 on machinery; insured for \$50,000 in Eastern companies. Swearingen & McCandless, agency for Forsyth Bros., \$15,000; insurance small. Auction works, \$1,3000. National works, \$15,000, partly insured. Total loss probably \$500,000.

Henry C. Foster, brother of the late Stephen C. Foster, a clerk at the Eclipse refinery, was burned to death, and Valentine Holley was injured, but not fatally.

A Dangerous Madman.

About nine o'clock on Wednesday forenoon, says the Cincinnati Gazette of Saturday, a colored lunatic by the name of Gaines, at Longview, rent the iron bars of his cell, and beating down with his frantic strength all opposition, escaped. Gaines is a farmer, and resided formerly near Cleves, in the western part of this county, on the line of the I. and C. Railroad. He is a man of powerful muscle. For the last two or three months he has been very manageable. Whenever he has been given work he has done it cheerfully. Much of his time has been spent in the garden, working on the Longview premises. It was thought he was nearly well. Day before yesterday morning some fury seemed to take possession of him. He became unmanageable—manifestly dangerous. His attendants succeeded in enticing him into a cell, with iron grates windows, where he was at once locked up. The thundering of his feet at the door the attendants counted only as so much helpless rage. Such a thought as his breaking out did not enter their minds. For him iron bars were as wishes to the giant who bore on his back the gates of Gaza. How he broke them is a wonder to all, but that he made room for his escape was ocularly demonstrated. Out he dashed with a maniac fire blazing and flashing from his red, glaring eyes. A couple of attendants stood in his way, and tried to prevent his escape. They were as children before the hammer-like blows of his fists. Another attendant ran to the help of these two, and was stretched senseless, with a gash in his head, from the stroke of a short club the maniac had gathered up. By this time no one was disposed to stand in the way of the madman. He escaped, and was soon out of sight. Yesterday evening he had not been even seen or captured. It is supposed he has gone to his old home, near Cleves.

HORRIBLE INDIAN OUTRAGES.

Soldiers Murdered in Arizona—Swift Punishment—Fifty-six Savages Killed.

SAN FRANCISCO, June 23.—Advices from Southern Arizona to the 10th of June give particulars of the murder of Messrs. Kennedy and Israel and the dispersion of their party. Mr. Kennedy lived on a rancho at Tucson. Mr. Israel was scalped, his legs burned off, heart cut out, and a coal of fire placed in it. The remainder of the party reached Camp Grant. Their mules were captured, and their wagons and merchandise destroyed. General Cogswell ordered Lieutenant Cushing, of the Third Cavalry, to pursue the savages. The lieutenant discovered and surprised the Indian camp; killed thirty-six Indians, and captured two. He also destroyed the village and other property of the savages.

Colonel Standford, a short time before, in a battle with the same band, killed twenty-one of them. Governor Safford is personally visiting the various tribes in the Territory, to ascertain their wishes and to hear their complaints. The Indians promise fairly, but the Governor has no faith in them.

THE GREAT MEDICAL DISCOVERY

Dr. WALKER'S CALIFORNIA VINEGAR BITTERS. MORE THAN 500,000 PERSONS Bear testimony to the wonderful Curative Effect of these Bitters. WHAT ARE THEY?

THEY ARE NOT A VILE FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits, and Refuse Liquors, doctored, spiced, and sweetened to please the taste called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true medicine, made from the native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and Life Giving Principle, a perfect Reinvigorator and Invigorator of the System, carrying off all poisonous matter, and restoring the blood to a healthy condition. No person can take these Bitters according to directions, and remain long unwell.

\$100 will be given for an incurable case, provided the bones are not destroyed by mineral poisons or other means, and the vital organs wasted beyond the point of repair. For Inflammation and Chronic Rheumatism, and Gout, Dyspepsia, or Indigestion, Bilious, Remittent, and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

Pin, Taps, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed.

In Bilious, Remittent, and Intermittent Fevers, these Bitters have no equal. For full directions read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

NEW ADVERTISEMENTS

ADDRESS

TO THE NERVOUS AND DEBILITATED, WHOSE SUFFERING HAVE BEEN PROTRACTED FROM HIDDEN CAUSES, AND WHOSE CASES REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

If you are suffering or have suffered, from involuntary discharges, what effect does it produce upon your general health? Do you feel weak, debilitated, easily tired? Does a little extra exertion produce palpitation of the heart? Does your liver, or urinary organs, or your kidneys, frequently get out of order? Is your urine sometimes thick, milky or floccy, or is itropy on settling? Or does a thick skum rise to the top? Or is a sediment at the bottom after it has stood awhile? Do you have spells of short breathing or dyspepsia? Are your bowels constipated? Do you have spells of fainting, or rushes of blood to the head? Is your memory impaired? Is your mind constantly dwelling on the subject? Do you feel dull, listless, mooping, tired of company, of life? Do you wish to be left alone, to get away from everybody? Does any little thing make you start or jump? Is your sleep broken or restless? Is the lustre of your eye as brilliant? The bloom of your cheek as bright? Do you enjoy yourself in society as well? Do you pursue your business with the same energy? Do you feel as much confidence in yourself? Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia. Have you restless nights? Your back weak, and have but little appetite, and you attribute this to dyspepsia or liver-complaint?

Now, reader, self-abuse, venereal disease badly cured, and sexual excesses, are all capable of producing a weakness of the generative organs. The organs of the generation, when in perfect health, make the man. Did you ever think that those bold, dominant, energetic, persevering business-men are always those whose generative organs are in perfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pleasant in company of ladies, and look you and them right in the face—none of your downcast looks or any other meanness about them. I do not mean those who keep the organs inflamed by running to excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly cured diseases, from the effects of self-abuse and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other disease—idiocy, paralysis, spinal affections, suicide, and almost every other form of disease which humanity is heir to—and the real cause of the trouble scarcely ever suspected, and have doctored for all but the right one.
