PITTSBURGH GAZETTE

A singular case, called one of attempted kidnapping, has occurred at New York. A boy named Frank Hernandez, whose father was in prison in Cuba, received a letter at the hands of a messenger from that island, ordering him to leave the school where he was being educated and return with the messenger to Cuba. He was placed on board the steamer Empire City, and just as she was about to sail, was rescued and taken on shore again. His father was formerly in league with the Cuban junta, but being imprisoned, is said to have turned traitor to save himself. His uncle in New York, endeavored to detain the boy.—Several letters from the Spanish Consul, the messenger and the boy, are published in the New York papers, but they are on their face unreliable. The boy seems to have signed whatever either party required him.

NUNNS AND CLARK'S PIANOS.
SPLENDID FRESH STOCK!
HENRY KLEBER,
Sole Agent for Pittsburgh and Western Pennsylvania, for
NUNNS & CLARK'S
UNRIVALLED
GRAND AND SQUARE
PIANOS.

RESPECTFULLY informs the public of Pittsburgh and vicinity that a splendid fresh stock of *Nunns & Clark's superior* Pianos is now being prepared for him, and has partly been received. The immense and yearly increasing popularity of Nunns and Clark's Pianos has caused the firm to add another wing to their enormous establishment, a description of which may be found in a late number of the *Waverly Magazine*, viz:—"It is undoubtedly the largest, and, if we are not mistaken, the oldest house devoted to that branch of business in the United States. It was established upwards of thirty years ago by an ingenious and enterprising Philadelphia Turk who applied the *practical* and *thorough knowledge* of the art, trade and mystery of manufacturing the beautiful instruments for which this house has so long been famous. If patronage is the highest compliment that can be paid to an establishment, and imitation is the sincerest flattery, then the firm of *Nunns & Clark* have much to be proud of. Their establishment is far ahead of their orders for they have never been able to go ahead of their orders sufficiently to make up Pianos for exhibition and speculation."

The above remarks from the pen of a *Boston* editor on a *New York* establishment are peculiarly forcible and significant.

Opinion of Mons. LAZARE, the celebrated Pianist.

Having in most of my concerts made use of and carefully examined the Pianos made by Nunns & Clark, New York, I freely give this testimonial of their superiority with regard to volume and power of *tone* and their promptness and elasticity of touch—qualities so important in forming the hands and improving the style of playing of musical students. MARTIN LAZARE, Professor of the Piano at the Royal Conservatoire of Paris.

Opinion of Madame ANNA ZERR.

The accompaniments to my songs having been played by Nunns & Clark's Pianos made by Nunns & Clark, in nearly all my concerts on the Pacific Coast, I can only speak in terms of the highest commendation of their excellent tone, which is so well suited to *blend* and *vie* with the voice—a great and important quality for those with vocalists. ANNA ZERR.

Opinion of MAURICE STRAKOSH, the celebrated Pianist Composer and Conductor.

I have for several years past been using one of Nunns & Clark's Pianos in my own family, and consider them preferable to any other, both as private and concert pianos. They have a peculiar delicacy of tone and touch added to great volume and power. MAURICE STRAKOSH.

Opinion of resident Professors.

Having thoroughly tested the capacities and qualities of *Nunns & Clark's* Pianos, we feel constrained to pronounce them *superior* in every respect. Their tone is unreachable for volume, brilliancy and equality, and their touch delightful for promptness and elasticity—the qualities so important in forming the hands and improving the style of playing of musical students. HARVIN LAZARE, Professor of the Piano at the Royal Conservatoire of Paris.

AYER'S PILLS.
FOR ALL THE PURPOSES OF A
FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill, which could be relied on as perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown that what such a pill should accomplish the purpose designed. It is easy to make a physical pill, but not easy to make the best of all such pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative pill in existence has been nauseous and irritating to the bowels—medicine is sometimes taken with more purging pain than this is not. Many of them produce so much more than counteracts the good to be expected from them. Pills should produce no irritation or pain, unless it arise from a previous state of existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for the use of these are given in the wrapper, but a few words may be added here. Among the complaints which have been specifically cured by them, we may mention Costiveness, Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever and Ague, Pain in the Side and Loins, for in truth, all these are but the consequence of disordered bowels. As a family cathartic, they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, and with a retness of the bowels, Fevers and Inflammations, with a tendency to fever, Colds and Fevers, Rheumatism, Gout, Dropsy, Urinary Deposits, Gravel, Dyspepsia, Loss of Appetite, Dullness, Drowsiness, Headache, Jaundice, Humors, Scrofula, Erysipelas, Ulcers and Eruptions of the skin, Ulcers in the Throat, Tumors, Dropsy, Urinary Deposits, Gravel, Dyspepsia, Dysentery, Colic, Piles, Costiveness
