TO DEALERS IN WASHBOARDS.

IN 1847 O. RICE, of Cincinnati, invented a valuable improvement in Washboards, for which he obtained a Patent in Oct., 1849. Said improvement consists in turning up properties the Edges of a sheet of Zinc (or other suitable metal) and there causing them to *incise* or cut their way into the wood, thus sinking the Washboard; the methods previously employed, having been to fix a series of cards or metal strips, upon the metal plate. O. RICE subsequently sold his entire interest and ownership in said Patent to the subscriber, who is now sole Proprietor thereof, as well as only authorized manufacturer of O. RICE'S IMPROVED PATENT ZINC WASHBOARDS, having succeeded to the late firm of Wayne, Bailey & Co., in that business. Induced by the popularity and extensive sale of said Patented Washboards, numerous parties have engaged in making and vending wooden Washboards, which they are *violating the Right* of the undersigned *authority to sell*, thereby causing the Patent Right granted to said Patent. Suits have been commenced and are now pending against certain parties, known to be the largest dealers, and it is my intention to prosecute for all infringements upon my legal and just right to the extent of the law. All persons are therefore cautioned against purchasing or selling Zinc Washboards, made after the manner patented by RICE, unless branded "O. Rice's Improved Washboard, Patented Oct. 1849," *none other being genuine.* It may be well to remark that the variation in the shape of the crimp, or the employment of any Patent other than that of the undersigned, does not give the right to sell Machine-made Ball Washboards, does not give the right to use the *Patented Printing Process* above described, upon which the validity of the Patent really depends. Wholesale orders for the genuine article respectfully solicited and promptly executed at as low prices as any of the unauthorized manufacturers. JOSEPH W. WAYNE, Sole Proprietor and Manufacturer, Office at Hardware Store, No. 195 Main st., opposite 5th, Cincinnati, Ohio. 5d25-

LAUNDRY BLUE—The attention of families and wash-women is invited to this Blue, which is simply Indigo dissolved, having all its properties retained. The Laundry Blue possesses over the unsolubled Indigo the advantage of imparting a better color to clothes, of being much more economical, and of not injuring the fabric, as a saving of about one half owing to the fact that not more than one half of the Indigo can be dissolved by water. It is entirely free from acid or properties injurious to clothes. We would solicit a trial, and warrant it to be as represented. For sale by JOHN HAFT, Jr., fe10 No. 141 Wood st.
