MEDICAL.

TO THE PROFESSORS AND MEMBERS OF THE MEDICAL SOCIETIES, AND TO EVERY

Mother, Wife and Daughter

IN THE UNITED STATES.—The subscriber respectfully calls your attention to DR. BARRETT'S GUARDIAN, expressly intended for the protection of the MAN, from the effects from Incipient health of both sexes—whether it affect the Lungs, Phthisis, or early consumption, Debility of the Liver, Bronchial Affections, Asthma, Pleurisy, Derangement of Disordered state of the Liver, Spleen, or Kidneys, Diseased Spine, Cholic, Dyspepsia, Palpitation of the Heart, Loss of Muscular or Nervous Power, &c. &c.

DR. C. B. BARRETT'S GUARDIAN is the only immediate relief of Females suffering from Irregularities, and all other Uterine difficulties and diseases incident to women, whether occasioned by cold, wet, accidental to women, whether occasioned by cold, wet, or any similar injudicious exposure, and all this without the use of medicine; as the most delicate and sensitive lady can at any moment apply it to herself without the possibility of incurring any risk or danger, or any unpleasant results arising from it, and with the certainty of obtaining immediate relief.

Dr. Barrett's Guardian is no catch-penny, or one of the many humbugs of the day; but it is an instrument made upon strictly scientific principles, in accordance with the laws of Electricity and Galvanism; and for neatness, durability and efficacy, infinitely surpasses everything of the kind ever before offered to the public for the relief of disease, and, in the language of one of the most enlightened men of the day, is pronounced to be "the greatest discovery of the age."

A period of no less than four years has been occupied by Dr. Barrett in bringing the Guardian to its present state of perfection—during which time it has been in the hands of some of the most eminent physicians of the North and South, as well as in the dwellings of numerous families, who have used it for all of the above purposes, with the most perfect success, and who have cheerfully given their unqualified approbation of its efficacy and value, as can be seen by referring to the Manual of Instructions accompanying it.

Dr. C. B. Barrett's Guardian is secured from innovations by a patent from the United States Patent Office, and be had either with or without his Medico-Electric Galvanometer.

The Medico-Electro Galvanometer, in point of beauty, workmanship, durability and power, cannot be surpassed or even equalled, and the subscriber feels that he hazards nothing in the assertion that it will be found to possess more power and efficacy in the treatment and removal of diseases, by Galvanism and Electricity, than any other instrument, either in the United States or Europe. The Medico-Electro Galvanometer is warranted in every respect, and with common care will last a life-time, and is by far the cheapest and most simple instrument ever offered to the public. A manual accompanies them, giving the most ample instructions, of practical experience, so that it is readily intelligible to the mind of every one, while the "ease" of arrangement is such that a child may be entrusted with it.

Any information gratuitously given, and all communications cheerfully answered per mail, either in relation to the Electro-Galvanometer or Guardian.

Medical men are invited to call and examine Dr Barrett's Guardian, and test its efficacy.

OVER 5,000 PERSONS in Philadelphia alone, can testify to the wonderful efficacy of that powerful remedy,

THOMPSON'S COMPOUND SYRUP OF TAR AND WOOD NAPHTHA,

In Pulmonary Consumption, Chronic Bronchitis and Sore Throat, Asthma, Chronic Catarrh, Spitting of Blood, Pain in the Side and Breast, Difficulty of Breathing, Whooping Cough, Croup, Weak Nerves and Nervous Tremors, Palpitation of the Heart; also, Liver Complaint and Affections of the Kidneys.

This medicine is the invention of a man who gave the subject of Pulmonary, Bronchial and Pectoral Diseases the most rigid examination, has now been before the public near four years. During this period it has performed some of the most remarkable cures on record of Pulmonary Consumption—secured the encomiums of the medical faculty in their practice, and the warmest approval of thousands of persons in ordinary life, and all other Uterine difficulties and diseases incident to women, whether occasioned by cold, wet, accidental to women, whether occasioned by cold, wet, or any similar injudicious exposure, and all this without the use of medicine; as the most delicate and sensitive lady can at any moment apply it to herself without the possibility of incurring any risk or danger, or any unpleasant results arising from it, and with the certainty of obtaining immediate relief.

MEDICAL.

DR. TOWNSEND'S
COMPOUND EXTRACT OF
SARSAPARILLA.
Wonder and Blessing of the Age.

This most extraordinary Medicine is the World! This Extract is put up in Quart Bottles: it is more times cheaper, pleasanter, and warranted superior to any sold. It cures without vomiting, purging, sickening or debilitating the Patient.

This great beauty and superiority of this Sarsaparilla over all other medicines is, that while it eradicates the disease it invigorates the body. It is one of the very best medicines for the

SPRING AND SUMMER MEDICINES

Ever known; it not only purifies the whole system, and strengthens the person, but it *creates new, pure and rich blood*: a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the last two years, more than 100,000 cures of severe cases of disease; at least 15,000 were considered incurable. It has saved the lives of more than 10,000 children during the two past seasons.

10,000 cases of General Debility and want of Nervous Energy.

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indiscretions committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, lassitude, want of ambition, fainting sensations, premature decay and decline, hastening towards that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is *far superior to any*

Invigorating Cordial,

As it renews and invigorates the system, gives activity to the limbs, and strength to the muscular system, in a most extraordinary degree.

Consumption Cured.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.

SPITTING BLOOD.

New York, April 23, 1847.

DR. TOWNSEND—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad Cough. It became worse and worse. At last I raised large quantities of blood, had night Sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me. I can now walk all over the city. I raise no blood, and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,
WM. RUSSELL, 63 Catharine-st.

Female Medicine.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri, or Falling of the Womb, Costiveness, Piles, Leucorrhœa, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system, no matter whether the result of inherent cause or causes, produced by irregularity, illness or accident. Nothing can be more surprising than its invigorating effects on the human frame. Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence. It immediately counteracts the nervousness of the female frame, which is the great cause of Barrenness. It will not be expected to publish cases of so delicate a nature, or exhibit certificates of cures performed but we can assure the afflicted, that hundreds of cases have been reported to us. Thousands of cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine, healthy offspring.

To Mothers and Married Ladies.

This Extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "*the turn of life,*" should neglect to take it, as it is a certain preventive for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable for those who are approaching womanhood, as it is calculated to assist nature, by quickening the blood and invigorating the system. Indeed, this medicine is invaluable for all the delicate diseases peculiar to which women are subject.

It braces the whole system, renews permanently the natural energies, by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation, which is the case of most medicines taken for female weakness and disease. By using a few bottles of this medicine, many severe and painful surgical operations may be prevented.

Great Blessing to Mothers and Children.

It is the safest and most effectual medicine for purifying the system, and relieving the sufferings attendant upon child-birth ever discovered. It strengthens both the mother and child, prevents pain and disease, increases and enriches the food, there who have used it testify to its indispensable. It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth—by Costiveness, Piles, Cramps, Swelling of the Feet, Despondency, Heartburn, Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage, Fits, Inflammation of the Bowels, Diarrhœa, &c., and in regulating the secretions and equalizing the circulation it has no equal. The great beauty of this medicine is, it is always safe, and the most delicate use it most successfully, very few cases require any other medicine. In some a little Castor Oil, or Magnesia, is useful. Exercise in the open air, and light food with this medicine, will always ensure a safe and easy confinement.

Cleanse and Strengthen, Health and Beauty.

Cosmetics, Cosmetics, Cosmetics! Their temporary beauty is very transitory, when applied to the face, very soon spoil it of its beauty. They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face Divine," as well as in the garden of the "human face Divine," as well as in the garden of rich and delicately tinted and variegated flowers. A free, active and healthy circulation of the fluids, or the coursing of the pure, rich blood to the extremities, is that which imparts the indescribable shades and flashes of loveliness that all admire, but none can describe. This beauty is the offspring of nature—not of *powder or soap*. If there is not a free and healthy circulation, there is no beauty. If the body is sallow—they are generally so—no amount of powder will make it look healthy. It is that which imparts the indescribable tint or beauty. HARNDEN & CO'S
Passenger and Remittance Office.

HARNDEN & CO. continue to bring persons from any part of England, Ireland, Scotland or Wales, upon the most liberal terms with their usual punctuality and attention to the wants and comfort of emigrants. We do not allow our passengers to be robbed by the swindling scamps that infest the seaports, as we take charge of them the moment they report themselves, and see to their well being, and despatch them without any detention by the first ships.—We say this fearlessly, as we defy one of our passengers to show that they were detained 48 hours by us in Liverpool, whilst thousands of others were detained months, until they could be sent in some old craft, at a cheap rate, which too frequently proved their coffins.

We intend to perform our contracts honorably, cost what it may, and not act as was the case last season, with other officers,—who either performed not all, or when it suited their convenience.

Drafts drawn at Pittsburgh for any sum from £1 to £100, payable at any of the provincial Banks in Ireland, England, Scotland and Wales.
