FRIDAY MORNING, DEC. 14. 1855.

Terms:

DAILY—Six Dollars per annum, payable in advance.
WEEKLY—Two Dollars per annum, in advance.—
Clubs will be supplied on the following conditions:
Four Copies per annum.....$5 00
Ten Copies per annum.....10 00
All arrears payments are strictly required, and the paper is stopped when the year is out, unless it is renewed.

Reading Matter on each page of this paper.

THE Democratic caucus of Congressmen which nominated RICHARDSON for Speaker, adopted the following resolution as the platform on which they agreed to support him:

Resolved, That the Democratic members of the House of Representatives, though a minority in the body, deem this a fit occasion to tender to their fellow citizens of the whole Union their heartfelt congratulations on the triumph in the recent elections in several of the Northern, Eastern and Western States of the principle of the Kansas-Nebraska bill, and their devotion to civil and religious liberty, which have been so violently assailed by a secret political Order, known as the Know Nothing party; and though in a minority, ever hold it to be our highest duty to preserve our organization, and continue our efforts in the maintenance and defence of those principles, and the constitutional rights of every section and every class of citizens, against their opponents of every description whatever, either so-called Republicanism, Know-Nothingism or fusionism, and to this end we look with confidence to the support and approbation of all good and true men, friends of the Constitution and the Union throughout the Union.

The selection of RICHARDSON as the embodiment of the doctrines here set forth, was exceedingly appropriate. He it was who engineered the infamous Nebraska bill through the House, and to whom Douglass and the South looked for its safety and success. He glories in his devotion to Slavery, and suits the South as well as any of its own sons.

But among those who support him, and who have voted for him from the very first ballot, are Mr. Barclay, of the Warren district, and Mr. Hickman of the Chester district, in this State. Both of these districts are decidedly Anti-Nebraska. The late member from the Warren district, Hon. C. B. Curtis, voted against the Nebraska bill, and received the sanction of his constituents; and Mr. Barclay could not have been chosen to succeed him, had he not everywhere throughout the district avowed his opposition to that bill, and his determination to vote right on all questions arising out of it. If, at this moment, he should submit himself to his constituents, and ask their endorsement of him as a Nebraska man, he would be indignantly secuted and repudiated by a majority overwhelming enough to convince the most stolid intellect. Yet this man sets himself to defy the well-known public opinion he pledged himself to respect, as if he had nothing to fear. Let him beware. He owes more, much more to the people than to his party, and the reward of treachery, if any be looked for, can never compensate him for what he will lose.

Mr. Hickman, of the Chester district, was originally nominated as a Democrat, but was adopted by the Know-Nothings, (most of whom were Whigs,) as their candidate. The regular Whig candidate was Mr. Broomall, a decided anti-slavery man; but the Order felt bound to take a Democrat to represent that old Whig district, and Mr. Broomall fell a victim to their policy. We are not aware that Mr. Hickman made any open Anti-Nebraska pledges; but we know that those who are responsible for his election gave out both then and since that he was a sound and reliable Anti-Nebraska and Anti-Administration man. Behold the result! A district which, left to an untrammelled selection, would have sent a man worthy of it and with a voice able to utter its views, is betrayed into the hands of the enemy, and the organization of the House delayed by it. We suppose it is too much to hope that a man elected by treachery can be induced to be faithful; but we trust that Mr. John Hickman may attain at an early day to the conviction that the honor of occupying a seat in Congress for two years, while acting manifestly against the public will, is too paltry to satisfy the cravings of a legitimately honest man.

THE WAR IN KANSAS.—The correspondent of the *N. Y. Tribune*, writing from Lawrence, up to noon of Dec. 1st, says that only *two* shanties were burned at Hickory Point, (instead of sixteen, as reported by telegraph,) which belonged to Coleman and Buckley, the murderers of Dow, and that the conviction is general that the shanties were fired by the pro-slavery men themselves, for the purpose of blaming it on the free state men. At all meetings of the latter, resorts to such measures have been sternly deprecated, and on the night that the fires took place, all the free state men of Hickory Point were absent in Lawrence, in company with Branson.

The call for volunteers from Missouri had been but poorly responded to, not over three hundred having been enrolled, and these had a very wholesome dread of Sharp's rifles. There was no special activity in the way of preparations for defence at Lawrence; guards were set at night, and the people held themselves in readiness to turn out on alarm of an attack; but all the dispatches sent off about throwing up entrenchments, burning beacon lights, &c., appear to have been pure inventions. Beyond the general sense of danger, there was no chance in the ordinary daily aspect of affairs in Lawrence.

B. R. PASSENGERS MUST BUY TICKETS.—The Rochester *Union* says that the N. Y. Central R. R. Co. have adopted new regulations, which took effect on the first inst. Passengers are required to purchase tickets at the station offices, and the conductors are directed to station brakemen upon the platform to prevent persons from entering the cars without tickets. The cars doors will be locked until the trains leave the depot.—This arrangement, if enforced, will materially lessen the labor of the conductors, and often prevent persons from taking seats who have no money to pay fare.—*Buff. Courier.*

This seems a prudent regulation, though it may prove hard of enforcement, especially at stations where the train stops but a minute or two. The Canadian plan is to have two agents or conductors to each train—one to sell tickets to, and the other to take them from, passengers. Each is thus a check upon the other, and collusion is not much to be feared.

The adoption of the precautionary measure on the N. Y. Central has probably been hastened by the conviction of a conductor in Illinois for embezzlement. As a general thing it is to be presumed that conductors are honest, and we are happy in being able to say that those who come within our personal knowledge are trustworthy; but all corporations whose agents handle money extensively, adopt checks upon them without casting the least imputation upon their honesty, and there is no reason why railroad conductors should be an exception. It has long been a question with railroad managers how they should best arrange the difficulty involved in this matter; and if the N. Y. Central plan shall be found to answer, it will no doubt be generally adopted.

REPUBLICAN NATIONAL CONVENTION.—It is now generally understood that there will be an informal Mass National Convention of the Republicans of the Union at this place on the 22d of February next. No formal call will be issued, but the convention will be held here at that time by general consent and any member of the party who chooses can attend. The Republican press has yielded its approval to such a movement, and the Republican State Committees, so far as they have been consulted, favor it. The Convention will therefore be held.

The Republican Committee of this county, we are authorized to say, will charge itself with the duty of making all the necessary arrangements for the gathering that may take place.

The purpose of the deliberations of the proposed convention, it is understood, is merely to prepare the way for a permanent National organization, by the appointment of a National committee charged with the duty of calling a National nominating convention.

The Missouri legislature lately passed a bill to extend the aid of the State liberally to the several railroads of the State, and the Governor vetoed it; whereupon the bill was promptly passed by both branches over the head of the veto.—We have not seen a statement of the amount of aid granted; but it is quite large.

OUR BOOK TABLE.

THE BRITISH REVIEWS.—The annual advertisement of Leonard, Scott & Co., the enterprising American publishers of the British Reviews and of Blackwood's Magazine, will be found in another column. These Reviews are as much a necessity to an intelligent American, who desires to keep up with the literature and movements of the age, as to an inhabitant of Great Britain. They are in fact invaluable, and their uses cannot be supplied in any other way. To those of our readers unacquainted with these publications, we may state that they represent different parties and phases of opinion, political and religious. The "Edinburg," the oldest, and one of the ablest, is the organ of the Whigs; the "London Quarterly" of the Tories and conservatives; the "Westminster," of the Radicals in politics and religion; and the "North British" of the Free Church of Scotland and evangelical sentiment. "Blackwood's Magazine" is Tory in sentiment, but is mainly confined to literature of a high character, and is more sprightly than the Quarterlies. The present editor of the Edinburg Review is Mr. Reeve, successor to the Hon. George Cornewall Lewis, its late editor, who is now Chancellor of the Exchequer. The present editor of the North British Review is Professor Fraser, who has among his contributors Sir David Brewster, Isaac Taylor Gray, Mr. Senior, the Political Economist, Dr. Whewell of Cambridge, the Archbishop of Dublin, Mason, of the London University, Charles Kingsley, Dr. Samuel Brown, the Chemist, Mansel, one of the Oxford Board, Cunningham, Latin Professor of Oxford, Professor Blackie, Tulloch, Principal of the University, and the Duke of Argyle. The Westminster Review is under the direction of several strong writers of the liberal school, both male and female, with John Chapman, the American Book-seller in London, at its head as editor and publisher. The London Quarterly is edited by Rev. Whitwell Elwyn, and Sir Edward Bulwer Lytton is one of its chief contributors. Blackwood is conducted by Professor Aytoun, son-in-law of Professor Wilson—"Christopher North"—its former renowned editor. To read these publications regularly, is to keep up with the literature, politics, science, and art of the age, and to be well versed in the theological tendencies of the day.

THE YEARS AMONG THE MAIL BAGS: or, Notes from the Diary of a Special Agent of the Post Office Department. By J. Holbrook. Philadelphia: H. Cowperthwait & Co.

This is a handsome volume, spiritedly illustrated. It consists mainly of the personal narratives of the author, as a special agent of the Post office Department, in watching and catching rogues and depredators upon mail matter. It possesses, of course, all the interest to the public mind which such exciting narratives always impart, so that when one takes up the book he can hardly lay it down until it is finished. Among the illustrations are fine copper plate portraits of all the Postmasters General, with a sketch of the life of each. Altogether a very readable book. For sale by Miner & Co. and Gildersleeve & Co.

THE LONDON QUARTERLY, for October presents a fair table of contents. Among its interesting papers, is "Life and Opinions of Peter David Hues," "the Caldwell Papers," "Arago and Broughan on Men of Science," etc.

ANOTHER SWINDLE.—The Kane swindle, by which Polk obtained the electoral vote of Pennsylvania, was one of such magnitude as to be likely to live in history, and, with the imprisonment of Passmore Williamson for pretended contempt of Court, will in this age at least render its author a man of note. A swindle on a less magnificent scale, it seems, has been consummated in the neighboring Congressional district of Chester and Delaware, where a Pierce Nebraska democrat was by some house-pocus elected to Congress in that staunch anti-slavery district, by a majority unprecedented in its elections for national representatives. The Hon. John Hickman, the beneficiary of that swindle, has been at Washington since the assembling of Congress, and the only evidence he has yet given of his position on National affairs is his steady and uniform support of the Pierce pro-slavery candidate for Speaker of the House. We have been assured, repeatedly, by those who ought to know, that he was anti-Pierce and anti-Nebraska, but it appears that they were deceived themselves or were participants in the swindle.

The county of Chester—that good old Whig county—has been for the last two years under the guidance of the "Know Nothings" and "Republicans," and a pretty place of business they have made of it.—*Norristown Herald.*

Yes; such "Republicans" as the editor of the *Norristown Herald*, who permitted himself to be smuggled on to the Republican State Committee, while openly avowing that he did not belong to the party. From all such "Republicans" we pray a speedy deliverance.

"SHERIFF JONES," of Douglass county, Kansas, whom Gov. Shannon considers it treason to oppose in the execution of his office, is the Postmaster at Westport, in the State of *Missouri*, and a resident of that town. He is not now and has never been a citizen of Kansas; and yet it is to this creature that the enforcement of the so-called territorial laws is committed, and the aid of U. S. troops invoked to shoot down the inhabitants of Kansas who will not acknowledge his authority! Is *this* "popular sovereignty"?

— From the San Francisco Herald, Nov. 26.

HORRIBLE MURDER.

One of the most cowardly and heartless acts of murder, that we have ever been called upon to record was committed on Saturday evening, Nov. 7, in a public thoroughfare in one of the most frequented sections of the city. The victim, William H. Richardson, was a gentleman highly esteemed by a large circle of friends in this city, and occupied a high official position in this State. From all that we are able to gather, it appears that Mr. Richardson had some trifling difficulty the night previous with a man named Charles Cora. Mutual friends interfered in the matter, and it was supposed the difficulty had been amicably adjusted. About 8½ o'clock on Saturday evening, Messrs. Richardson and Cora were noticed standing in front of McAllister's building on Clay street, below Montgomery street. Several persons to whom both parties were known were standing near by, and presently Mr. Richardson was heard to remark: "Well, is it all right?" Cora replied: "Yes." They continued to converse in a low tone for some minutes, and by this time Cora had taken hold of the coat-collar of the other with the left hand. Richardson suddenly exclaimed: "What are you going to do? Don't shoot me, I am unarmed." At this Cora produced a small single-barreled pistol, and before he could be prevented shot Richardson through the heart. The action was so sudden and unexpected that the witnesses were for a moment paralyzed, and Cora held his victim against the wall of the house for the space of a few seconds and then suddenly relaxing his grasp, walked away, but was arrested and placed in the custody of Officer Russell, who hastened with him to the police station. Richardson was taken into the drug store of Messrs. Keith & Co. at the corner of Montgomery and Clay streets, where he expired almost immediately. An immense crowd immediately congregated in that vicinity and it was found necessary to take the body of the murdered man to some more secluded place, and it was finally taken to the private office of the Clerk of the United States District Court. By this time a very large and excited crowd had assembled, completely blocking up the passage of Montgomery street for a distance of two blocks.

At this time there could not be less than three thousand persons present. The utmost excitement prevailed. The fearful cry of "Hang him! hang him!!" was raised. The public pulse beat at a feverish rate, and it is more than probable that if the culprit had been within reach he would have been executed on the spot. Several persons addressed the assemblage in favor of hanging Cora at once, while others counseled submission to the laws, and spoke in favor of the maintenance of law and order. It was finally put to vote a show of hands was followed. It was found impossible to decide whether there had been a majority in favor of, or against hanging without recourse to law. The assembly shortly afterward broke up into little knots, in which the enormity of the crime which had just been committed was discussed in a very excited manner. Others rushed to the Station-House in order to ascertain what disposition had been made of the prisoner.

Meantime, Cora was conveyed to the Station-House, and on being searched, two derringers were found on his person, one of which had but recently been discharged. When the crowd began to gather about the Station-House the officers became alarmed for the safety of the prisoner, and determined on placing him in the county jail, for greater security. He was accordingly removed there. During the whole of these proceedings, Cora displayed the utmost coolness, and seemed never to have lost his presence of mind. During the walk from the Station-House to the County Jail, he appeared somewhat agitated, and apprehended that he might be taken out of the hands of the officers by the excited people, frequently looking back to ascertain if he was pursued.

ISAAC CITY COLLEGE.—A free Law Lecture at the Hall this evening.

SPECIAL NOTICES.

Derangement of the Liver is one of the most common, as well as the most formidable of diseases known to American physicians. It had for years attracted the closest attention of the medical faculty in all parts of the United States, and yet up to the time of the discovery of Dr. M'Lane's great specific, it was almost beyond the reach of medical skill. Thousands had perished without even a hope of relief, and although thousands may yet be destined to feel the direful effects of this most complicated disease, it is now, thanks to the research of Dr M'Lane, most completely brought within the scope of medical control. The proprietors of the Liver Pills feel confident that they offer a remedy which has been fully tested by time, and which has never failed of success when fairly tested.

NB. Purchasers will be careful to ask for DR. M'LANE'S CELEBRATED LIVER PILLS, and take none else. There are other Pills, purporting to be Liver Pills, now before the public. Dr. M'Lane's Liver Pills, also his celebrated Vermifuge, can now be had at all respectable Drug Stores in the United States, and Canada.

For sale by the sole proprietors.

FLEMING BROTHERS,
Pittsburgh.

The Greatest Medical Discovery OF THE AGE.

Mr. Kennedy, of Roxbury, has discovered in one of our common pasture weeds a remedy that cure *every kind of Humor, from the worst Scrofula to a common Pimple.*

He has tried it in over eleven hundred cases, and never failed except in two cases (both thunder humor.) He has now in his possession over two hundred testimonies of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples of the face.

Two to three bottles will cure the worst scrofula of the system of blotches.

Two bottles are warranted to cure the worst case of tetter.

Three to five bottles are warranted to cure the worst case of ringworm.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ear and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruption of the skin.

Two to three bottles are warranted to cure the most degenerate cases of rheumatism.

Two to three bottles are warranted to cure the worst case of ringworm.

Three to four bottles are warranted to cure salt rheum

Five to eight bottles will cure the worst case of scrofula. A benefit is always expected from the first bottle, and a perfect cure is warranted when the above quantity is taken.

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day, as that a common weed growing in the pasture, and along old stone walls, should cure every humor in the system; yet it is now a fixed fact. If you have a humor it has to start in your system yet, human ingenuity never invented a cutter cause and root yours. I peddled over a thousand bottles of it in the vicinity of Boston. I know its effects in every case. It has already done some of the greatest cures ever done in Massachusetts. I save it to children a year old to old people of sixty. I have seen poor, yeasty, wormy coking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle.

To those who are subject to a sick headache, one bottle will always cure it. It gives great relief to catarrh and dizziness. Some who have been cured from deafness of long standing, have had their hearing restored by it. Where the body is sound it work quite easy, but where there is any derangement of the functions of nature, it will cause very singular results, but you must not be alarmed—persevere—always clean your bowels at least four days to a week. There is never a bad result from it. On the contrary, when that feeling is one you will feel yourself like a new person. I heard some of the most extravagant encomiums of its than ever tie lips could utter. No change of diet is ever necessary—eat the best you can get. I have likewise an herb, which, when simmered in sweet oil, discovers scrofulous swelling of the neck and under the ears. Price 50 cents. Price of the Medical Discovery $1 per bottle.

DIRECTIONS FOR USE.—Adult, one table-spoonful a day. Children over six years, one table-spoonful. Less quantity can be made applicable to all constitutions, take enough to keep the system in a healthy state.

Mr. KENNEDY gives personal attendance in bad cases of scrofula.

Sold, wholesale and retail, at Dr. KENNEDY'S, 140 Wood street, corner of Virgin alley.

Speaking What They Know.

These gentlemen take pleasure in testifying in regard to R. A. Fahnestock's Vermifuge, because two of the firm have used it in their private practice as physicians for a number of years, and they have known it, by observation, to be good.

NEW ALBANY, Ind., July 4th, 1836.

To R. A. Fahnestock & Co.—

GENTLEMEN—Having sold your valuable Vermifuge for some time, and having seen it used for many years, we would commend it to all as a safe and efficient remedy for all cases of worms. In no instance have we ever seen any evil results following its administration, but always has it answered the purpose for which it was intended, and been entirely satisfactory.

Believing that everything that has been set forth in regard to its virtues is strictly in accordance with our observations not only as practitioners, but as men of business, we would substantially say to all who read this, that if they want a Vermifuge now in use, and that its virtues are best known when tried.

Sold wholesale and retail by all the principal druggists and country merchants throughout the United States.

Prepared and sold by R. A. FAHNESTOCK & CO., corner of Wood and First sts.

NEW YORK, June 15th, 1856.

New York & Liverpool Line of Packets.

MR. JOHN THOMPSON, No. 410 Liberty street, Pittsburgh, Pa., is the only person in the city authorized to sell Passage Certificates for my Line of New York and Liverpool Packets.

CORNELIUS GRINNELL.

Had always on hand Sight Drafts for any amount, payable at any Bank in England, Ireland, Scotland and Wales.

Also, brings passengers from New York and Philadelphia by Railroad.

JOHN THOMPSON,
de14:dawtf No. 410 Liberty street.

Important to Farmers—New Discoveries—VEGETABLE CATTLE POWDER.—These Powders are put up in one pound packs, and are really a good article, not only for the disease incident to horses, cows, swine, and other animals, but they are likewise an excellent article to improve the condition of the animal.

For Milch Cows, they not only improve the condition of milch cows, but they increase the quantity as well as improve the quality of milk and butter. The proprietors say that it increases the quantity of butter from half a pound to a pound a week to each cow while these persons who have been in the habit of using it, have sold from one to two pounds per week, with the same kind of feeding as before. Of one thing we are certain, all who use it once will use it all the time, and save money by the operation as well as improve the appearance of their stock. Price 25 cents a package; 4 packages for $1.

GEO. R. KEYSER,
Corner Wood street and Virgin alley,
Wholesale and Retail Agents.

WELCH & GRIFFITH'S
PATENT GROUND SAWS.

HAVING purchased from Mr. Wm. Southwell his Patent Right, for grinding circular and other Saws, for which we have paid him a large sum, and we are the sole proprietors of this patent. We will reward any person giving information of infringements of our patent. This is the only Machine, ever invented that will grind a Saw perfectly even in thickness.

They will require less set—will not heat while running—will run smooth—save time in filing and keep an edge longer than any other saws made—and are not liable to become untrue.

All our Saws are made from an Extra Quality of Cast steel, imported expressly for our own use, at much higher cost than generally used for Saws.

We respectfully inform all manufacturers of Lumber, that no Saw will be sent from this Establishment but what is of superior Steel and workmanship, and the Temper will be found more even and uniform than any Saw in use.
