BARRETT'S GUARDIAN comes to the immediate relief of Females suffering from Irregularities, and all other Uterine difficulties and diseases incidental to woman, whether occasioned by cold, wet feet, or any similar injudicious exposure, and all this without the use of medicine; as the most delicate and sensitive lady can at any moment apply it to herself without the possibility of incurring any risk or danger or any unpleasant results arising from it, and with the certainty of obtaining immediate relief.

Dr. Barrett's Guardian is no quack-penny, or one of the many bombposts of the day; but it is an instrument made upon strictly scientific principles, in accordance with the laws of Electricity and Galvanism; and for neatness, durability and efficiency, infinitely surpasses everything of the kind ever before offered to the public for the relief of disease, and, in the language of one of the most enlightened men of the day, is pronounced to be "the greatest discovery of the age."

A period of no less than four years has been occupied by Dr. Barrett in bringing the Guardian to its present state of perfection—during which time it has been in numerous families, who have used it for all of the above purposes, with the most perfect success, and who have cheerfully given their unqualified approbation of its efficacy and value; as can be seen by referring to the Manual of Instructions accompanying it.

Dr. C. B. Barrett's Guardian is secured from imitations by a patent from the United States Patent Office, and be had either with or without his Medico-Electric Galvanometer.

The Medico-Electro Galvanometer, in point of beauty, workmanship, durability and power, cannot be surpassed or even equalled, and the subscriber feels that he hazards nothing in the assertion that it will be found to possess more power and efficacy in the treatment and removal of diseases, by Galvanism and Electricity, than any other instrument, either in the United States or Europe. The Medico-Electro Galvanometer is warranted in every respect, and with common care and usage will last a lifetime, and is by far the cheapest, because the best, instrument ever offered to the public. A manual accompanies them, giving the most ample instructions, of practical experience, so that it is readily intelligible to the mind of every one, even the most slight acquaintance with such that a child may be—operate with it.

Any information gratuitously given, and all communications cheerfully answered by addressing, either in person to the Electro-Galvanometer or Guardian.

Medical men are invited to call and examine Dr Barrett's Guardian, and test its efficacy.

I applied to several physicians and used various remedies, but without any benefit, and despaired of ever obtaining a restoration of my former health. But in the time last June I was advised to try Thomson's Compound Syrup of Tar and Wood Naphtha, and immediately as it may appear, by the time I had taken three bottles, I was going a few bottles of this invaluable medicine, I have been blessed with fine, healthy offspring.
