Republican Declaration of Principles

ADOPTED BY THE PITTSBURGH CONVENTION.

1. We believe and shall attempt to secure the repeal of all laws which allow the introduction of slavery into territories once consecrated to freedom, and will resist by every constitutional means the existence of slavery in any of the territories of the United States.

2. We will aid in every lawful means our brethren in Kansas in their constitutional and manly resistance to the usurped authority of their invaders, and will give the full weight of our political power in favor of the immediate admission of Kansas into the Union as a free, sovereign, independent State.

3. Believing that the present political administration has shown itself to be weak and treacherous, and that its continuance in power is identified with the progress of the slave power to national supremacy, with the extinction of freedom from the territory, and with increasing civil discord, it is a leading purpose of our organization to oppose and overthrow it.

☞ For Telegraphic News see 3d page. For City and Commercial News see 4th page.

☞ A friend kindly admonishes us that we dwell just a little too much on the subject of the extension of slavery to Kansas. It is possible that we do for some folks. "Out of the abundance of the heart the mouth speaketh." We feel this to be the great question of the day and the age, and its importance in our estimation cannot be magnified beyond its claims. But, probably for this very reason we are unable to judge of just how much is necessary to be said to keep up with the feelings and wishes of the people, or how much they can bear. Our motive is to discharge a great duty to our country and to posterity, a duty both political and moral, and which is second to none we have ever been called upon to discharge.

We receive the gentle rebukes of our friend in all kindness. We know they are well meant. But will he permit us to suggest, that probably his own mind is not properly awake as to the vast results for weal or woe, to the future of our country, depending upon the decision of the great questions now at issue. Can he estimate how much we shall have lost, to freedom, to free labor, to good morals, good government, and to our fair fame as a nation, if Kansas, a territory in the heart of our country, beautiful, fertile, well watered, and on the great highway to the Pacific, and as large as twice the territory of Pennsylvania, is barely given up by the North to slavery, after it had been secured to freedom by a solemn compact. If Kansas is lost to Freedom, then all south of it is lost, the Indian Territory and New Mexico. If it is saved, the Indian Territory, with an area of fertile territory larger than Pennsylvania, New Mexico, and Northern Texas may be secured to freedom.

Our friend should not forget that there are certain indubitable facts, which give to this subject paramount and present importance. It is a fact that the South secured the repeal of the Missouri Compromise for a definite object, with a fixed purpose in view. It is a fact, that this object was manifested, by the inroad of the Missouri border inhabitants, who seized the ballot boxes and the reins of government, and in defiance of fundamental laws have secured (and now possess the control of the destinies of Kansas, unless some mode of deliverance is resorted to of a semi-revolutionary character. It is a fact, that the bogus laws are in force, disfranchising freemen from the free States, and inviting aggressions upon the ballot-boxes from the Slave States. It is a fact, that these nefarious transactions are supported by the potent influence of the General Government, and that the whole power of the Federal Government has been promised to give effect to the laws of the bogus Legislature.

On one side, in this great struggle, is the Central Government at Washington, the whole of the slave States, the Border Ruffians of Missouri, and the whole of the powerful Democratic party. On the other side are the weak and struggling Freestate men of Kansas, and the free people of the Free States. On the side of slavery we see organization, official power, and that indomitable energy and force of will which have given to the South so many victories over the North. On the side of Freedom there can hardly be said to be any yet any effective organization, and no official power whatever, except such as may be wielded by the House of Representatives. The Presidential election is coming on swiftly, and this great issue is to be tried then.

We offer these considerations to our friend, not by way of apology, for we really do not think we need any, but to spur up his mind to the contemplation of the immense interests depending upon the results of the next few months. If he takes our stand-point for a while, he will think we are but lukewarm in a cause in which he now considers us over-zealous.

METHODIST GENERAL CONFERENCE.—The Methodist General Conference, which comprises delegations from all the Annual Conferences of the Methodist Episcopal Church, will assemble at Indianapolis on the 1st of May next. The Indianapolis Sentinel furnishes the following items relating to the nature and objects of this powerful ecclesiastical body:

"The whole Church North, which includes the Baltimore Conference, the Conference of Delaware, and a part of Virginia, and all the North, Eastern and North-eastern States, are within its jurisdiction.

It convenes only every fourth year.

The number of regular delegates will be about 230, besides irregular, or visiting delegates from England, Canada, &c., which will probably swell it to about 250.

Seven Bishops are expected to be in attendance, and probably a large number of lay visitors."

The Journal of the same city adds the following:

"The interesting question of Slavery, in relation to church membership, has already been settled by the Methodist Church. The question will have no especial bearing upon the proceedings of the approaching Conference, any further than their slight connection with the Methodist Episcopal Church South, is concerned."

This is a mistake. The "interesting question of Slavery in relation to church membership" is not settled, and that question will have a very powerful bearing upon the proceedings of the approaching Conference. There has been no change in the condition of church membership in reference to slavery, for many years. No change was made by the secession of the Southern Conferences, but the rules on slavery and church membership remain just as they did before. A vigorous controversy has raged in the Methodist periodicals for the last two years in relation to a change in the condition of membership, one side desiring to debar all slaveholders from the church, and the other side pleading for some less stringent regulation. The question will be a very exciting and interesting one before the Conference, and we doubt not some change will be made.

ALLEGHENY VALLEY RAILROAD.—After protracted, and we think unreasonable delays, the Select Council has finally granted the right of way to the Allegheny Valley Railroad into the city, by Pike street. We trust the Common Council will lose no time in ratifying this decision, as it seems to be generally conceded that it is the best thing which can be done. The road has had a long wait for the privilege, and has suffered great inconveniences and losses. We trust there will be no further delays.

By the end of the year it is expected that the Ohio and Pennsylvania Railroad will be extended to this city. The Connellsville road will be completed to Turtle Creek by that time, where it will connect with the Central road, and one iron track into this city. If the Allegheny Valley road has its track laid on Pike street, by that time, we shall have the termini of four railroads all centering in the neighborhood of the canal basin. It will cause a great stir in that part of the city, and must enhance the values of real estate in that vicinity.

THE PITTSBURGH WATER CURE ESTABLISHMENT, located at Hayesville, on the Ohio & Pennsylvania Railroad, and under charge of Drs. Meeks, Fraser, is a very well conducted and successful institution of the kind. The patients generally express themselves gratified and satisfied, and many of them are enthusiastic in their expressions of admiration. The situation is pleasant and cheerful, and we have no hesitation in recommending those who wish to try Hydropathy to its Hayesville institution. See advertisement.

A NEW PLAN OF CLEANING STREETS.—A gentleman called upon us yesterday, to suggest for adoption in Pittsburgh, the mode in use for keeping the streets clean in the French Capital. In Paris it is made the duty of every householder, or occupant of any premises which abut on any street, alley or court, to sweep every morning the pavement in front of his premises to the middle of the street, carefully cleaning out the gutter. The dust and litter thus gathered, is left in a little pile just outside the gutter, opposite each premises, and to which is added whatever ashes, or garbage of any kind made in the house. This has to be done by 7 o'clock in the morning. It is a part of the duty of the persons who open and sweep out stores and offices, and of the servants or other inmates of private dwellings. When the streets are thoroughly cleaned in this way every morning, the trouble of sweeping to the middle of the street is very trifling.

From 7 o'clock to 10, carts go round and remove from every street and alley, these little piles of dirt. Two persons attend each cart, a man and a boy; one armed with a broad shovel, and the other with a broom. One dexterous evolution of the shovel removes the pile to the cart, when the broom sweeps up what is left on the shovel, and the cart moves on to the next pile. The persons engaged in this business become very expert, and the dirt is removed with great rapidity. By 10 o'clock, the whole city of Paris is swept, and all the litter and filth removed.

Persons who own carts, who depend upon stray jobs for a livelihood, are glad to obtain the contract for keeping a certain number of streets clean, as the work is mostly done before they could pick up other work.

The privilege of placing all the ashes, or other litter made in the house during the day, on the little street pile, to be carried away, is a wise sanatory measure. The amount of ashes, mixed with all sorts of slop and garbage, lying in the yards and cellars of Pittsburgh, is painful to contemplate, when it is considered that under the influence of hot suns, it will throw off continually steaming miasmas to the danger of health and life. The filth of years is thus accumulated, through carelessness, parsimony or poverty. But when all this will be taken away by the public cart, if it is placed on the street every morning, and when persons will be liable to a fine for keeping it in their yards or cellars, we may reasonably calculate that the city will be measurably free from the impurities and nuisances now so prevalent.

Officers are appointed in Paris, whose duty it is to visit all the premises in his district every month, even to the cellars and garrets, as well as the yards, to see that the law for removing garbage is complied with.

We beg leave to direct the attention of our city Councils to this plan. We do not believe it will be attended with any more expense than the present inefficient and slip-shod contrivance, which merely removes the dirt and mud when it becomes nearly ankle deep. The Paris plan subsidizes the whole city, and secures the active exertions of a smart laborer at just the proper hour in the day when the removal of the dirt will create the least inconvenience. All the city has to do is to remove it, and we believe, a special tax, if necessary for the purpose, would be borne with great cheerfulness by the citizens.

THE TORNADO.—The terrible hurricane of Saturday night last, which caused so great destruction West and North of this city, was very severe in Philadelphia. It commenced there about 10 o'clock at night, and lasted about fifteen minutes. The dust was carried up in clouds, awnings were torn to pieces, houses were unroofed, chimnies were blown down, and in Kensington particularly, property was destroyed to the amount of upwards of one hundred thousand dollars. Five houses were utterly demolished, and more than one hundred and fifty were more or less injured. Among these were five Churches, the Trenton Railroad Depot, one Dye-house and several Manufactories. The panic for a few moments was fearful. Many of those who were in the streets ran for their lives. Signs were dashed to the earth with great violence, and several persons were injured in this way. Happily no lives were lost, but nine persons were seriously injured.

The tornado commenced in Alliance, 82 miles West of this city, at 5 o'clock; in this city it took place about 6 o'clock, and in Philadelphia at 10 o'clock. It thus traveled at the rate of about 70 miles an hour in a straight line.

We fear, judging from the accounts, which have already reached us, that much damage has been done in the section of country through which it passed. In Baltimore there was high wind, but no damage done.

THE MISSISSIPPI BRIDGE.—We learn from the Chicago *Tribune* that the great railroad bridge across the Mississippi at Rock Island, commenced under the auspices of the Chicago and Rock Island Railroad, and continued by the joint efforts of that road and the Mississippi and Missouri Railroad, is now completed, and the locomotive crosses regularly from Illinois to the Iowa shore. It was commenced in 1854. The plan adopted is that invented by Howe, including a "draw" for the passage of steamers. The "draw" rests upon a center pier of 38 feet diameter at the top, and its entire length is 291 feet in the clear. When open it leaves a space of 127 feet over the main channel. The cost of the bridge is $300,000.

THE NEW BRIGHTON NORMAL SEMINARY, under the charge of R. Curry, A. M., as Principal, is an Institution designed to afford young ladies such facilities as will enable them to acquire a liberal, thorough, and practical education, fitting them for every sphere of life by the mental and moral discipline they obtain, as well as by the attention paid to their manners. The next session commences on the first of May. An excellent corps of teachers has been engaged, and every preparation made to afford all needed facilities in the branches taught, which comprehends a very extensive course.

OUR BOOK TABLE.

THE GREEN MOUNTAIN GIRLS; a story of Vermont. By Blythe White, Jr. New York: Derby & Jackson.

This story is laid during the time of the war of 1812. The incidents have been picked up among the pioneers of the dark forests of Vermont, and although the characters are all from the common walks of common life, the book is full of exciting scenes. Most of the personages brought on the stage are real characters, and will be recognized by those acquainted in the neighborhood of the incidents. For sale by Gildersleeve & Co. and Miner & Co.

FORT WAYNE & CHICAGO RAILROAD.—We are much gratified to learn that an arrangement is about being made which will secure the early completion of the Chicago Railroad. It is proposed to consolidate the Ohio & Penn., the Ohio & Indiana and the Fort Wayne & Chicago Railroads into one company under the name of the Pittsburgh and Chicago Railroad, and to have the whole put in complete running order at the earliest possible day. We have not heard the conditions on which the consolidation is proposed to be made, but hope the Pennsylvania Company is prepared to offer such fair, liberal, and equitable terms, as will at once be accepted by the other companies. Such an arrangement would add much to the wealth and business of the Ohio & Penn. and Penn. Central Railroads, and by relieving the Ohio & Indiana and Fort Wayne & Chicago Railroads of their present embarrassments, would be of equal advantage to them. The entire line would be one of the best in the west, and we firmly believe that when once finished and fully established the Fort Wayne & Chicago will be found the most profitable portion of the line. If the Pennsylvanians are alive to their true interests they will at once complete the arrangements, and thereby secure the immense addition to their business, that otherwise they would be in some danger of losing.—*Fort Wayne Sentinel.*

We have thought that Mr. Buchanan would be the candidate for the Democracy, but we drew disposed to believe that he has effectually killed himself by writing a letter. He too has entered the lists with Douglas and Pierce for Southern votes and the probability is that all these gentlemen will have the satisfaction of seeing the scenes of 1852 re-enacted in 1856. Pierce and Buchanan and Douglas will kill each other. The weakest candidate, under the two-thirds rule, will be strong enough to CONCIT his most formidable antagonist, and he will do it, hoping that the choice of the convention may fall upon an obscure person who has can control. Let the President go, or let these pandyers to human slavery and the southern insolence and aggressors get their just deserts—let the Presidency elude their grasp whenever they attempt to reach it.—*Newark Mercury*

EMIGRATION TO KANSAS.—A Kansas correspondent of the N. Y. Times says:

Emigrations from Southern and Eastern States has already commenced—a few drops before a plentiful shower. Two gentlemen arrived today from the State of Virginia, who report that 1,500 will emigrate from that State to this sometime during the present season. A few gentlemen from Kentucky report a large number that on the eve of departure from that State, destined for Kansas. A gentleman from Wisconsin states that about 2,000 families will emigrate to Kansas from that State, and so on. All prophesy a tremendous emigration to this State from different quarters of the Union before next January. If reports are not very much exaggerated, Kansas will be a very populous State by the time the next President takes his seat, and Senator Douglas' alleged reason opposition to our administration into the Union (a want of sufficient population) will be done with.

DIED—On Tuesday morning, 15th inst., at 1 o'clock, P. M., PATRICK MOKER, in the 4th year of his age.

The funeral will take place from the residence of Mrs. Eliza Nicholson, No. 110 Fourth st., on Wednesday, 16th inst., at 3 o'clock, and proceed to the Allegheny Cemetery. His friends, and the friends of the family are respectfully invited to attend the funeral without further notice.

On Tuesday, the 15th inst., at ¼ P. M., HARRIET R., wife of W. S. Courtney, Esq., and daughter of Isaac Wickersham, in the 35th year of her age.

The funeral will take place from the residence of her husband, corner of Decatur and Fulton streets, Sixth Ward, Thursday afternoon, 17th inst., at 2 o'clock. The friends of the family are respectfully invited to attend without further notice.

SPECIAL NOTICES.

Medical Testimony Cannot be Controverted—On of the most startling cases is narrated of Dr. McLane's Vermifuge by Dr John Butler of Lowell, Trumbull Co., O. The case was that of a young lady who had been very sick for eight years, and had consulted a number of physicians, who had treated (in accordance of Prolapsus Uteri) for Dyspepsia, Liver Complaint, &c. Dr Butler was then called in, and for a time believed with his predecessors that it was a case of Prolapsus. He was however, soon forced to the conclusion that this patient was suffering from worms and after much persuasion prevailed upon her to take two doses of Dr McLane's Vermifuge, prepared by Fleming Bros, of Pittsburgh. This medicine had the effect of removing from her a countless number of the largest size. After she passed them, her health immediately returned. She is since married, and continues to enjoy excellent health.

Mothers should be careful to ask for DR. MCLANE'S CELEBRATED VERMIFUGE, and take none other Vermifuges, in comparison, are worthless. Dr M'Lane's Vermifuge, also his celebrated Liver Pills, for sale by all the leading druggists and Dealers in Medicines throughout the United States, and Canada.

Dalley's Genuine Pain Extractor.

Its friends are the Million—and intelligent! Its enemies, the ignorant—the bigoted—the selfish—and the criminal counterfeiter!

The honor and unscrupulous are imposed on by the latter, who callously endangers the lives of the confiding, for the mere sake of paltry gain! I leave it to a discerning and impartial public to decide, what punishment the wretch deserves, who could inflict pain and suffering, and hazard the life of a fellow creature, for the mere sake of benefiting his own pocket.

The great and principal characteristic of DALLEY'S MAGICAL PAIN EXTRACTOR consists:

1st: Its never failing and unique property, as soon as applied to an external injury, to SUBDUE INFLAMMATION, instantly, and rapidly to reduce it. This feature constitutes its great power to allay all the pain of burns and scalds. And of other external diseases, is so incredibly short a space of time, and so will appear from the testimonials all herein contained. Every Druggist, and Dealer is fully aware that in all cases of external injury, the pain is produced by inflammation of the injured parts, and that, if you remove the cause, the effect must cease.

2d: Its purifying properties, are certain in the extent that may lurk in the system, and will when applied to the sores, draw rapidly all impure matter to the surface, and (yet) from the great discharge of pus produced from sores occasioned by burns—and when applied to old and inveterate sores, fails, in many of the cases, to cure.

Christadoro's Excelsior Fluid Hair Dye,

No 6 Astor House.—The claims of this extraordinary article to public estimation, are not based upon the testimony of its friends but from the world. It is appropriately a new preparation, founded on new discoveries in Chemistry, and it has inaugurated a new era in Hair Dyeing. What more can be recommended?

1st—It changes the Hair of any obnoxious color to nature's black or brown in five minutes.

2d—It eradicates with the Hair, and nourishes instead of injuring it.

3d—It is pronounced by eminent Chemists the only safe Hair Dye known.

4th—It is impossible to name an instance of its failure.

5th—It has the widest popularity ever yet accorded to a similar preparation.

For the establishment of these assertions by proofs, see the testimony at CHRISTADORO'S, No. 6 Astor House, where it is manufactured, sold, and applied privately. Price per small box, $1; large box, $1.50.

The Satisfactory Remedy.—From all parts of the country, north and south, the proprietors are almost daily in receipt of such testimonials as the following, relative to R. A. Fahnestock's unequaled Vermifuge:

GREENSBURGH, Ala., April 12th, 1854.
Messrs. R. A. Fahnestock & Co.—I have been selling your Vermifuge in this place for 5 years, and take pleasure in stating, to the information of the trade and of the public, that it has been, so far as I know, one of the most satisfactory remedies in the market, and one of the most valuable medicines we have. I have also personal knowledge of its good effects in numerous cases under the treatment of our physicians, all of whom use it regularly, and always found it to be safe and reliable as a worm remedy. I can recommend it as one of the safest and best in the market. J. STOLLENWERCK.

THE GREAT ENGLISH REMEDY.
SIR JAMES CLARKE'S Celebrated Female Pills.

Prepared from a prescription of Sir James Clarke, M. D., Physician Extraordinary to the Queen. This invaluable Medicine is unfailing in the cure of all those painful and dangerous diseases incident to the female constitution.

It moderates all excess, removes all obstructions, and brings on the monthly period with regularity. These Pills should be used two or three weeks previous to confinement; they gently ease the constitution, and lessen the suffering during labor, enabling the mother to perform her duties with safety to herself and child.

In all cases of Hysterics and Spinal Affections, pain in the Back and Limbs, Heaviness, Fatigue on Slight Exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, and all the painful diseases occasioned by a deranged system, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any other mineral.

Full directions accompanying each package. Price, in the United States and Canada, One Dollar.

Sole Agents for this country,
I. C. BALDWIN & Co., Rochester, N. Y.
TUTTLE & MOORE, Auburn, N. Y., General Agents.

N. B.—$1.00 and 3 postage stamps enclosed to any authorized agent, will insure a bottle of these Pills by return mail.
