PITTSBURGH:
SATURDAY MORNING, NOV. 1, 1856.

COURT OF OYER AND TERMINER; QUARTER SESSIONS, &c.—Judge M'Clure and Associates on the Bench.

The jury in the case of Com. vs. Joseph H. Scott and John Wills, police officers, returned into Court yesterday, with a verdict of GUILTY of assault and battery. The defendants were not sentenced.

Alexander M'Candless of the Sixth Ward, was arraigned for assault and battery upon oath of Rosanna Fox. The complainant was a tenant at will of the defendant; he served upon her a notice to quit which she did not observe, and on the first of April he forcibly ejected her from the premises. The complaint is that he used more force than was necessary to eject her. The jury found for plaintiff the prosecutrix's husband, Joseph Fox, to pay the costs.

Alexander Kelly and A. A. Decker were arraigned to answer an indictment for assault and battery with intent to kill, and assault and battery. The complainant, John Freunholtz, testified that on the evening of the 26th of July he was on Butler street, Lawrenceville, going home from a party where he had been playing music. He saw two men walking just before him. A little further on they stopped by the fence, and said that he should play music for them, and he said he wouldn't play as it was too late. He knew by their voice who they were, but not so well by their face. Kelly was the man that struck him. [The interpreter got mixed up at this point, which will account for the unconnectedness of the two last sentences]. There were two men there before he was struck. They blackguarded him; they were quite close to him. he couldn't tell who the two were; never heard the voices before; they were standing near Wilkinson's store, right in a fence corner; he told the men he didn't wan't to fight; they told him again to play, and said they would treat him; he asked one his name, and he said it was Kelly; none of the defendants was pointed out as the person who said he was Kelly].

The man that spoke had a beard on. He was quite close to him; the night was dark. The other man then tore the shirt off him; his name is Decker. Joseph Thunderstorm was with witness. A man named Arnusburg was there too, but did not see the occurrence. The witness took the middle of the street and started home; he went on a piece, when the same two stopped him next to a blacksmith shop; they asked him the reason why he didn't play, and he said he wanted to go home. Kelly said that Decker was there and said nothing. Kelly was very drunk. No one was with witness there; but some steps behind. I was in the middle of the street when I was stabbed. The defendants were about two steps from him; they had linked arms; he was stabbed in the stomach; and witness showed the jury an ugly scar.

He did not say a word to anybody before he was stabbed; he told his companions to go for a doctor. Kelly wanted to come back, but Decker took him off; they then ran away together; saw Kelly reach in his pocket for a knife, and afterwards saw the blade of the knife; he went to a house in the neighborhood, and fainted. Some person was brought to him that evening and asked him if that was the man; and he said he was not, as he had not the same clothes on. He had'nt worked any since; he is a stone cutter. Decker did'nt tell him some time that night. Kelly denied his name and said it was M'Closkey. The witness went over and pointed out one of the defendants as the man who stabbed him, and the other who was with and went away with the man who stabbed him. There was nothing said by any person to keep Kelly from stabbing him, but afterwards Decker took Kelly away. They left their shirts and hats.

The witness was subjected to a searching cross-examination.

The Commonwealth occupied the entire day, but nothing new was elicited.

SUCCESSFUL ATTEMPT TO BREAK JAIL.—ESCAPE OF TWO PRISONERS.—Joseph Wickline, awaiting sentence for Grand Larceny for stealing goods from Rosenbaum's clothing store, Liberty street, and Richard Simpson, awaiting trial for Burglary, having broken into the residence of Mr. M'Knight, Penn street, and stealing therefrom a large amount of jewelry, succeeded in escaping from jail about half-past two o'clock yesterday morning. They were occupants of cells No. 32—a cell which, it has become known from the fact that it was occupied by Pierce Kelly for many months, and was broken out on two occasions by noted criminals, is the cell was thoroughly repaired after the last escape, and by him declared to be secure against all efforts of the most desperate to escape. Assured upon this statement, jailor Lamb, of the most careful and vigilant of keepers, felt no hesitation in locking the prisoners in their cell last Saturday they were in chains, and made a previous attempt to escape, but their legs swelled so much that through pity he had ordered the shackles off. The escaped parties effected their success mainly to the fact that Pierce Kelly, well known maniac, was in jail, for since his committal he has kept up incessantly a deafening noise.

In cell 32 the large iron plate which protects the window, weighing 300 pounds, was in its position by twenty bolts, fastened on the outside. These bolts were broken from the centers, and, three-fourths of them, which they unscrewed the nuts and then without difficulty, pushed out. They lore up their bed, and threw it down on the floor, for the purpose of the fall of the iron plate upon the floor. The plate removed, they had no further difficulty, as a piece of the stone had been knocked off before by ing Burnsides, a horse-thief, fearing an aperture of about eight inches. Their bedclothes were speedily transformed into ropes, by which they let themselves into the jail yard.—They had still a high wall between them and liberty. On the top of that wall, however, there was a heavy ridge, and the pieces of wooden, which the fellows tied to the end of the rope and threw over the wall, caught there, and were held securely. They then in turn pulled themselves up. The descent was effected in the same manner.

The prisoners chose the time for their descent when the watchman was on the other side of the jail. Upon his returns he saw the rope dangling from the wall, and immediately gave the alarm. But the prisoners had made good their escape.

There can be no blame attached to the officers of the jail. The only person who can be reflected upon at all is the stone-mason who repaired the cell, in neglecting to run lead around the screws which held the bolts, and then representing the cell to be entirely secure.

DEATH OF THE ORIGINAL CONFIDENCE MAN.—The many victims of confidence games doubtless feel some interest in the originator of them. This Brilliant individual has cut not come any game of that sort with death, as will be seen from the following item from the New York *Tribune*:

"Thompson, alias Davis, with numerous other names, as occasion required—the original confidence man—recently died in a fit, while serving out a term of two years, imprisonment in Sing Sing. His remains passed through this city, on the way to Greenwood Cemetery for interment. This noted individual was first arrested in New York (near the Post Office), some eight years ago, he having come the confidence game over several gentlemen, from whom he obtained money, gold watches, &c., which, of course, the owners never saw again. He was convicted and sentenced to the State Prison, from which he was discharged over two years ago. Some months since Thompson, under the name of Davis, renewed his old tricks again here, but did the work so snugingly that he was caught at it. He obtained possession of three gold watches from a jeweler in the Bowery, under pretense of wishing to purchase one; but crossing the street directly opposite, he pawned one of the timepieces for a small amount. He was watched, detected, and arrested for this offence. Thompson pleaded guilty and was "sent up" for two years. He has left relatives of the highest respectability."

RIGHT OF WAY GRANTED.—The Council of Manchester borough has granted the right of way through Preble street to the Cleveland and Pittsburgh Railroad. The ordinance authorizes the Company to construct a single track of railroad along and over Preble street, from the northend of the same to Walnut street, and from thence, with one or more tracks, to the Ohio river, with authority to grade Ohio and Preble street, between Walnut and Spruce streets, in such a manner as may be necessary to connect the road with the Ohio river; the Company to erect a bridge over Adams street fifty feet wide, and to fully protect the water table on the cross streets. The Company's cars or locomotives are not at any time to exceed a speed of four miles an hour within the borough limits, and are to use coke or coal for motive power. The rolling stock is not to be suffered to remain for any purpose whatever in such a position as to interfere with the business and travel of the citizens under such penalty as may by hereafter ordained and enacted by Council. The termination here of this improvement will be highly advantageous to the already thriving boro of Manchester.

PARMONT BOYS' PARADE.—The young Fromonters of Pittsburgh, Allegheny and the surrounding boroughs will have a procession to-day, commencing at half past ten o'clock a. m. The procession will form on the Oregon lot.

WINTRY.—Winter was fairly inaugurated yesterday morning by the first fall of snow in 1856. The weather was cold enough to call into requisition brisk fires and clothing.

THE OYER AND TERMINER, Quarter Sessions, Common Pleas, and Orphan's Courts and the District Court will be in session to-day for arguments, motions, &c.

DUFF'S MERCANTILE COLLEGE, PITTSBURGH.—The exigencies of this age of expanded and complicated commerce has invested the art of keeping accounts with the dignity of a science, and no person aspiring to eminence in the mercantile profession now thinks of entering it without a systematic course of commercial study. In this department of education the principal of this long established institution has earned a reputation as a practical accountant, as a merchant, as an author and as a teacher, which gives the graduates many important advantages over those of unknown teachers.

A LARGE and enthusiastic meeting of the friends of Fremont and Dayton, was held at Texas in this county on Thursday evening last. Able and eloquent speeches were made on the occasion by C. W. Bobb and J. M. Kirkpatrick.

Many Democrats were present, a large number of whom are beginning to think John C. Fremont a better Democrat than James Buchanany especially as the latter had so much difficulty when a Federalist, to find "One drop of Democratic blood in his veins."

A SUBSCRIBER.

INFORMATION AGAINST A MURDERER.—Coroner Lowry yesterday made oath before Alderman Major against Kramer for the murder of Torrence Clark, who was killed in October 1854.—No bill had ever been presented to the Grand Jury. Clark was clerk at Agnew's Glass Works, Fifth Ward, and Kramer had been engaged there as a laborer, but was discharged. The difficulty occurred in making a settlement, in the course of which Kramer stabbed Clark to the heart.—The murderer has never been arrested.

EDUCATIONAL.—The Allegheny County Educational Association will hold its regular monthly meeting this morning in College Hall, opposite *The Gazette* office. Prof. Dean will lecture. The following is the question for discussion: "How much should pupils be allowed to study out of school?"

COMPLIMENTARY.—Miss Annie Jackson, daughter of Col. Jackson, of this city, has been elected a teacher in one of the Public Schools of Philadelphia, after passing a creditable examination.

DISCHARGED.—The traverse juries in the Courts were discharged until Wednesday, in order that they might cast their votes on Tuesday.

LECTURE BY MURDAY.—We understand that Murdaway, the hatless prophet, has secured Wilkin's Hall for a lecture to-morrow evening.

WE would call attention to the advertisement of Mr. E. Cunningham, in another column.

FRANK LESLIE'S ILLUSTRATED NEWSPAPER.—The last numbers of *Frank Leslie's Illustrated Paper* have come to hand. In style and general appearance it resembles—and is quite equal to—the *London Illustrated News*, which is world-renowned for the excellence and variety of its illustrations. The New York paper, however, is sold at half the price of its London prototype. The engravings in *Frank Leslie* are infinitely superior to those in *Ballou's pictorial.—Whig, Easton, Pa.*

COUNTERFEITS AND IMPOSTORS.—The public are cautioned against purchasing articles pretending to be of the nature of the Balm of Thousand Flowers, for perfuming the breath and beautifying the complexion. The popularity of of that article has brought forward a host of counterfeiters. None is genuine unless signed by FETERSON & Co. For sale by all respectable druggists who frown down counterfeiters and impostors.

FREMONT, THE MUSTANG CANDIDATE.—If Col. Fremont had as many friends as the Mustang Liniment, the opposition could not draw a corporal's guard. Mr. Fremont remarked, in his dispatches to President Fillmore, while transporting horses and cattle over the plains of Mexico, "that if the Government would send on a liberal supply of Mustang Liniment, it would save 25 per cent. of his losses." This is very important for all Farmers and Livermen to know. The Mustang Liniment is a wonderful article for man or beast. It should always be used for Sores, Swellings, Stiff Joints, Burns, Bruises, Rheumatic Pains, &c., and for Galds, Sprains, Spavins, Ringbone, &c., upon horses. *Beware of imitations.* The Mustang is sold by all respectable dealers everywhere.

The Election Returns.

Important to those who send the elect'on returns—Send the whole number of votes cast for the electors of each presidential candidate. Majorities are not sufficient. In cases where it is impossible to send promptly complete returns by States or counties, send as nearly full returns as possible, and as careful estimates of the balance.

Editors throughout the country will greatly facilitate the collection of the returns of the important election next week by publishing the above notice every day until Tuesday.

COMMERCIAL.—The London money market on the 17th was decidedly more stringent. The brokers' circular dated Liverpool, Oct. 17th, quotes the Cotton market as active and closing firm. Prices were stiffer, but the quotations are unchanged, middling quotations are mostly inquired for. The sales for the week have been 73,000 bales, including 14,000 on speculation and 8000 for export. The sales on Friday evening were 10,000 bales, of which 3,000 were for speculation and export. GENERAL INTELLIGENCE.—The political news is not very important.

The Neapolitan question is unchanged and a peaceful issue is still anticipated.

Financial affairs are still in a state of suspense.

The steamship Washington, from New York, arrived at Southampton on Saturday the 18th.

The country remains in a state of suspense as to money matters, but the only quotation yet is on the Stock Exchange. The commercial wants can be supplied, though at extreme rates.

The detailed accounts of the change in the Spanish ministry had not yet come to hand, further than the official announcement that there is no political crisis, and that the Queen made the change from O'Donnell to Nazvaez solely on personal grounds.

The new Minister's first act was to cowhide Senior Guel, husband of the Infanta Josefa, for words spoken in the Cortes. Senior Guel challenged Narocz, who accepted, but the Queen forbade it, and the meeting did not come off.

The Napolitan difficulty is without much change. It was the general impression that the anglo-French ultimation would be presented to King Ferdinand on the 15th, and failing to receive an immediate favorable answer, the Ambassadors would be withdrawn; but it was not supposed that the fleets would immediately appear.

PHILADELPHIA, Oct. 31.—John Coonry has been arrested on a charge of forging forged naturalization papers. Four witnesses were examined who testified that they had voted at the late election though they had never declared their intentions to become citizens, nor been at Court to obtain papers. They produced their papers in a mysterious manner from their coat pocket; another had the papers left at his house, in another's house they were thrown. The above facts were ascertained through the investigation instituted by Mr. Mann the Union candidate for District Attorney, who is contesting the election of Lewis C. Cassidy the Democratic candidate.

WASHINGTON, Oct. 31.—The weather is cold and disagreeable. The first snow of the season commenced falling in considerable quanty at half past 11 o'clock.

Secretary Dobbin has resumed his duties at the Navy Department. His health has been much improved by his recent visit to North Carolina.

The Department has been receiving unusual large number of resignations by army officers. It is alleged that these resignations are in consequence of the inadequacy of their pay for the support of themselves and their families.

BALTIMORE, Oct. 31.—New Orleans papers of Saturday have been received. They furnish Vera Cruz dates to the 10th inst., and state that a portion of Vidaurri's force in Nuevo Leon has surrendered to the government troops. Mr. Forsyth, the American minister, was to leave Vera Cruz for the city of Mexico the next day.

GREAT AUCTION SALE
OF
REAL ESTATE
AT CLEVELAND, OHIO,
ON
Tuesday, November 25th, 1856.
1092 CITY LOTS.
THE SUBSCRIBER WILL OFFER FOR SALE, through Messrs. O. Cowan & Son, Auctioneers, on TUESDAY, the 25th day of November next, on the premises, or, if the weather shall prove unfavorable, at the Merchants' Superior street, six lots in Central Tract in the city of Cleveland, numbered as follows, 34 to 231 inclusive, and 591 to 1000 inclusive.
Also, 197 lots in "College Tract," numbered as follows: 356 to 418 inclusive, 601 to 622 inclusive, 627 to 646 inclusive, and 661 to 792 inclusive.
Central Tract, which contains about 100 acres, located so as to accommodate manufacturing establishments and for other general purposes. The nature of the soil is such as to afford good foundations for the heaviest class of buildings without any preparation or expense. It has extensive canal and river fronts, with ample water in the river for vessels and steamers, such as are usually employed in the navigation of the Lakes, and will speedily be brought into use for the purposes above mentioned, not for the speculative purposes of the Railroads terminating at Cleveland.
The Lots in College Tract, which will be offered, are convenient to the Machine Shops of the Cleveland and Michigan Railroad Company, and the majority of them are on high ground, and very desirable for residences.
The undersigned has great confidence in recommending this property to the notice of Capitalists & Manufacturers, interested in Cleveland Real Estate, and does not hesitate to say that the property will spring rapidly into value, and soon rank among the best and most valuable in the city.
An appraisal of the above and other lands was made in October, 1855, by Leonard Case, Richard Hilliard, and Edmund Clark, gentlemen who are ranked among the most prudent and rapacious business men of our city, and a copy of so much of said appraisal as relates to the property to be offered for sale is hereto attached, and attention is referred thereto. These durting to make purchases are particularly requested to visit and
