THE DECISION.—On Tuesday last the Slave power achieved a victory, such as it has never recorded since the celebrated passage of the Russian Grand Duke's dispatch was written to his master, the Czar, announcing that "Peace reigned in Warsaw." Two years and some months ago, it was declared by an Act of Congress to the astonished nation, that the local laws of the Slave States were, or of right should be, operative in the Territories of the Union; in other words, that the slave holder had the same right to take with him in his exodus from the house of bondage to what before had been considered free soil under the decree of omnipotence, his slaves, that men of Free States have to take with them their cattle or their household goods. As a fit supplement to this dogma it has been since practically declared by a general system of protected outrage that if said slave holders could not go there with their human property peaceably, they would at the point of the bayonet; that if "babbling fools and drivellers" in these territories would continue to denounce the slave-system there, they must be effectually silenced by "law," and if not by law, then by robbery, plunder, and murder. Practically, the persons who voted for the so-called Democracy on Tuesday, decided that such shall be for four years the policy of the Government. We have not the most distant idea that a large majority of the voters of the North intended to endorse the terrible system of outrage and wrong which make up the history of the present administration; practically they have done so. Mr. Buchanan stands pledged by every declaration of honor to carry out the scheme which Mr. Pierce inaugurated. A majority of the electors for President—not, we believe, a majority of the people of these United States—will declare in December that they wish it to be so. The doom of the Territory of Kansas and all other which Slavery can seize in the future, is sealed. We have done our best, we have striven in every honorable way to ward off this fatal decree. It has passed and we quietly and confidently await the issue. As private citizens in our own humble sphere, we have labored for the success of what in our inmost hearts we believe to be just and right. We have failed, and we cast all the responsibility upon those who have the control of the Government. Let us see what Mr. Buchanan will make against the Southern freeeaters who have him in hand! Let us see how much he will do against the admission of Kansas as a Slave State! Let us put upon record here that the great majority of the Northern journals who have supported Mr. Buchanan have reiterated continually the declaration that *Kansas shall be a Free State!* We wait the result.

For the sake of the people who are going forth from our midst and from their quiet homes in the land of Bibles and of Free Schools to build up great States in the now voiceless solitudes of the West—States that would reflect the great principles of civil and religious liberty which lie at the bottom of all that is good in our Government, we regret the decision in our heart of hearts. But for the great party which has sprung into existence under the promptings of every generous and ennobling emotion of the human soul; whose principles lie firmly embedded in the Constitution of our country where they were placed by the fathers, for that party we have no fears. In its ultimate success we trust as we trust that God lives, that his arm knows no weakness, that his justice never swerves, and his providence never is at fault.—In 1852, a party with a thorough organization, one which had held successful contest with the Democratic party for forty years was able to carry for the gallant Scott but four of the thirty-one States. The Republican party stands forth to-day almost without organization, backed by twelve noble and gallant members of the confederacy, including the chief, the best, the noblest of the whole sisterhood, and it has won to its support all these millions simply by the justice of the cause it defends and the inherent beauty and symmetry of the principles it supports. There is no ground for despair or even for discouragement. Let this defeat but stimulate us to renewed effort. Let us begin at once to perfect our organization. Where we have strength as we have in this county, let us neither ask or give quarter, make no concessions, yield no principle but fight for the last inch of ground. And we make this practical suggestion in the hope that our various committees will be called together at once and such an organization effected as shall enable us to hold the ground we have taken and press forward to new triumphs. Truth is mighty and must prevail. Take courage friends, and the day will come when the hosts of darkness will be routed and justice once more reign in the land. The Decision of Tuesday is not final.

WHAT'S TO BE DONE?—There is no better prospect to day of a rise in the Ohio River than there was last September or at any other time one might mention. In fact it draws so near now to winter that we might fairly expect in case of abundant rain that it would be succeeded by sudden cold weather which would freeze the river up, making the embargo more effectual if possible than it has been now this long time. Not less than one and a half millions of dollars worth of Pittsburgh manufactures are lying here waiting for exit. Every interest from that of the laborer on the wharf to that of the manufacturer demands that this immense accumulation of property find a market. All the sources of our prosperity are dammed up, and must find a vent. It is time that we were all busy in devising some plan by which threatened evils may be prevented.

It has been suggested to us by several of the leading manufacturers of the city that such arrangements might be made with the P. Ft., W. and C. Railroad and others, as that our manufactures could be transported over that and so further west to their market at such rates as would compensate them amply and not impoverish the shippers. Those who made this suggestion to us named prices which they thought they could afford to pay upon iron ware to the various markets of the West, which it is not necessary for us to name here, as this article has no such object. What we do wish is simply to give publicity to the plan proposed by them, viz: that a meeting of the manufacturers of Pittsburgh be called at once, to authorize certain steps to be taken with a view to ascertain at what prices our western roads can carry to market the vast amount of property now accumulated here, waiting for a rise in the river.—Railroad managers ought, and no doubt will, meet our manufacturers half way in this matter, and we trust such an arrangement may be made as will be not only satisfactory but profitable to both.

GREAT RAILWAY CELEBRATION IN CANADA.—Most extensive preparations have been made for the great Railway celebration to take place in Montreal, on the 12th and 13th inst. The occasion is the opening of the Grand Trunk Railway from Montreal to Toronto. The completion of this road will place Montreal in railway connection with the seaboard and Western States. The distance from Montreal to Toronto by rail is 333 miles. A train has already passed over the road from Montreal to Toronto.

Keep up your Organization!

Whatever has been the result elsewhere, the result *here* is a glorious victory for the principles we have been contending for throughout the canvass. In the two cities we have overwhelming majorities—933 in Pittsburgh and 1149 in Allegheny—while the boroughs are all on our side, and the townships are all with us but three or four. Out of the sixty-one election districts, we have carried all but six.

This has been done by *organization*, and a proper attention to all the minutia of an election campaign. Under the stimulus of common principles, upon which we were all agreed, we have united into a firm mass the opposition elements of the country, and in this union they have shown themselves invincible.

There is no reason why the elements thus united should not remain so. We have an efficient Organization which can be maintained much more easily than it was to form it. It is the duty of our friends, and it must be their object, to maintain it, firmly and actively. Casting aside all past differences, we have united upon the broad basis of hostility to the present administration; and as the incoming administration is likely to be more infamous than it has been, and more worthy of opposition, the basis of opposition will be even broader than that we now occupy. The future promises us even greater incentives than the past.

In the two cities, in January next, we have ward and municipal officers to choose; and in all the boroughs and townships there will be the usual list of officials to select. With the political power now in our hands we are able to put tried friends of freedom into nearly every office within the gift of the people, and we feel it to be our duty to urge on all our friends the importance as well as the obligation that rests upon them of filling every station, from constable up, with those who sympathize with us politically.—There is neither reason nor policy in our permitting the enemy to quarter upon us. During the contest just past, the bitterest and most active enemies of our cause were men put into office through the mistaken friendship of their opponents. They used their power and their influence to injure and destroy the most valued rights of those who helped to elect them. It was galling to witness, especially in these two cities, the efforts of men in favor of Buchanan who would have been powerless against us but for the position given them when party lines were not strictly drawn. The past is beyond reach, but the future is ours; and this error must be remedied, at the very outset. We must keep up our present organization in every ward, borough and township; nominate clean tickets for every office, from the least to the greatest, and elect them.

To this end, we suggest immediate Conferences in each district among our active men. Keep the camp-fires burning and the forces under drill. The fight is not over, it is only begun. We have passed through but the Lexington and Bunker Hill of this struggle; before us there are many more battle fields to contest before we attain to ultimate victory. We have enlisted for the war; let us go gallantly through it; and as the first duty before us let us dislodge the enemy from every post within our reach.

"PICK YOUR FLINTS AND TRY IT AGAIN."—We are beaten but not conquered; defeated but not dismayed; and we are glad to see upon the faces of all our fellow-workers a determination to renew the fight, and keep up struggle with unfaltering courage. In the midst of the discouragements surrounding us, we have found no one willing to yield. We have right and justice upon our side, and if the boasted intelligence of the people and their love of freedom be not the veriest shams, we are sure of victory at no distant day. The present success of the enemy has been won by a bold game of deception; lying and fraud which there was not opportunity sufficient to expose, but which will work its own cure. The people, in due time, will be undeceived, and then will the day of reckoning come. Our path of duty lies straight before us. We have hot to continue as we have begun, and go right on to the completion of our work. Our party in young, yet, and the wonder is, not that it is defeated, but that it has accomplished so much. It was organized in this city less than six months ago—on the 22d of February last; and within that time it has swept every thing before it in at least eleven of the sixteen Free States. To have succeeded, absolutely, at the first trial, would have been little short of a miracle. With an old party, to contend against, well officered and compact, possessing control of the government with its eighty millions of revenue, backed by the slave interest representing fifteen hundred millions, and whose rank and file vote any ticket called Democratic merely because of its designation, we have achieved great results in holding them so thoroughly in check as we have done. But for the aid given them by that miserable squad who sought to ruin because they could not rule, we should have accomplished much more; but as it is, our party has attained a substantial foothold, which it will not yield. We have driven the pro-slavery democracy, at the first onslaught, to the southern border, the next trial will drive it over, and leave our free soil incontaminated with its tread.

For the sake of Kansas, and the many sufferers by Border Ruffianism, we deeply regret the election of Buchanan; but while we are powerless, now, to extend them that governmental aid which they need and deserve, the party which first sprung into life under the indignation excited by their wrongs is still charged with the high mission it at first assumed. *They* may be driven from the homes they have chosen, and all their rights violated, but justice, if slow is sure, and the party offreedom will ultimately avenge them. Before it lies a future full of promise. Only let us be firm and faithful, preserving and perfecting our party machinery, and time will bring us to the realization of our dearest hopes.

MEXICO.—The New Orleans Delta's Mexican correspondent says it is asserted in the city of Mexico that a revolutionary junta, composed of Mexican exiles, now exists in New York.—Among the plans is stated that of proclaiming Don Antonio Corona President of Mexico.

Senor Garay and Col. Decasi are occupied in drafting maps of the waters of the two great lakes of the valley of Mexico, for the purpose of planning works to carry off the water, and guard the city from danger of inundation.

Four clergymen have been suspended by the Archbishops of Mexico, for purchasing of the Government property formerly belonging to the Church. Purchases are said to have been made in the names of their sisters.

He also gives a favorable account of the progress of the works on the Tehuantepec Transit route, under the auspices of the New Orleans company. Of the carriage road from Suohil toward the Pacific terminus fifty-three miles are now open and capable of use. Garay is making active efforts to dislodge the New Orleans company from their possessions of the route, which they hold under the Sloo grant.

THE GERMANS.—To no portion of our citizens are we more indebted for the success that attended us in Allegheny county in the late election than to the Protestant Germans. They stood up like men to their duty. They, in their usual calm and cool manner, considered the great question at issue. The old fatherland with its devotion to liberty and hatred of tyrants passed before their eyes, and true to freedom in a foreign land as they had been in their birth land and for which they are suffering exile they came truly up and cast their votes for the cause of right. The friends of liberty owe to the Protestant foreign population generally, and to the Germans in particular their thanks for their efforts in our cause.

THE Rev. Dr. Hoge, of Columbus, Ohio, has retired from his pastoral duties, in consequence of his advanced age and increasing infirmities. He has been in the pastoral office of the Presbyterian Church for upward of forty years.

To the Editors of the Gazette.

GENTS:—As the time is approaching that an election is to be had in this city for a Mayor or Chief Magistrate it seems proper that we should be casting about us for a suitable person to fill that high and important office. Permit me to say that I know of no one who would combine all the necessary qualifications for the office of Mayor better than our worthy and esteemed citizen, Alderman JOHN MAJOR, of the sixth Ward, who, a long experience in police matters has duly qualified for that important office.

SECRETARY MARCY AND GOV. GRIMES OF IOWA.—Our readers may have observed the letter or appeal of Gov. Grimes of Iowa to the President in behalf of the suffering people in Kansas who had immigrated there from the State of which Grimes is Executive. That was some time since We saw a few days since a letter in answer purporting to come from Secretary Marcy which we did not publish because we thought there was too much decency in the Secretary to stoop to such contemptible taunts or exhibit such meanness. A dispatch appears in the eastern papers in words as follows:

NEW YORK, NOV. 4.—Mr. Grimes, Assistant Secretary of State, publishes a card in the Evening Post, stating that the letter published yesterday, purporting to be from Mr. Marcy to Gov. Grimes of Iowa, is a forgery.

RETURNED FROM RUSSIA.—Dr. Henry L. Smyser, of York, Pa., who sailed from New York for Russia in April, 1855, and who spent a year or more in the service of his Imperial Majesty, as surgeon, has returned home.

In New York city on Tuesday, there were desperate and bloody riots at the polls of the 1st and 6th Wards, where the Democrats drove away their opponents, and in some cases beat them badly.

SPECIAL NOTICES.

Dr. Keyser's Shoulder Braces—From Pittsburgh Dispatch, April 10th, 1856.—For more than 3 years, we have constantly worn the Washington Suspender Brace, manufactur'd by Dr. Geo. H. Keyser, of No. 140 Wood st., in this city, and would heartily recommend it to all who are compelled to follow a sedentary occupation. As we have before remarked, in calling attention to its merits, it answers for a brace and suspenders, the weight of the pantaloons being so placed as to continually tend to bring the shoulders to their natural position and expand the chest. Women, hundreds of whom are annually injured by the weight of enormous "skirts," should also procure this brace, in particular as by curing the bad habit mentioned, as many of the braces sold are humbug. Sold at Dr. GEO. H. KEYSER'S, Wholesale Druggist, 140 Wood st, sign of the Golden Mortar.

THE GREAT ENGLISH REMEDY.

A Paragraph to be Perused.—We should be doing injustice to the public, whom we profess to serve, if we should remain quietly in our sanctum and deny Mr Kennedy the credit that is his due for presenting to the afflicted his Medical Discovery; and the thousands who have been cured might well upbraid us, and the pains of the sick, and perhaps their death, might be upon our head, should we withhold the knowledge that we possess in relation to the healing powers of this medicine. After having been an eye-witness to the cure of several remarkable cases of humor—after conversing with persons who have been cured, and since perusing the certificates of others, we cannot find terms strong enough in which to speak of this great scourge of Scrofula, Canker, Rheumatism, Neuralgia, and such like evils.

Frostwort or Rock Rose.—For the cure of Scrofulous Diseases.

NEW HAVEN, Jan. 1, 1852.
My son Charles has been afflicted with inflammation of the hip joint. At the age of 5 he was first attacked, inflammation increased until the hip was very diseased, and the joint seriously affected his leg, drawing it up so that it was impossible to straight it, a professor of surgery gave it as his decided opinion that the leg would never heal, and that the young man would never walk again.—The disease increased so rapidly that for two and a half years he only walked with a crutch, and too efforts to exercise the limb were attended with great pain, so that he could not sleep. I watched him so attentively, that for 6 months, did not have the full night's rest. He had been treated by distinguished medical practitioners, by leeching, blistering, &c. he had also been before the Medical Clinique of Yale College. The remedies they recommended were most faithfully tried, but without avail. This was his disease and dreadful condition 18 months; since when he commenced taking Myers' Rock Rose. One bottle was but partly taken when he was much better, continuing until three bottles had been taken, when a cure was entirely completed, now he is in excellent health. This is the testimony of what can be corroborated by authority Mrs. Catharine McGill, 91 Wallace st., New Haven, Conn. or can be fully substantiated by hundreds at witness, on by addressing a line to Rev. W. W. Holden, New Haven, Conn.

Consumption Cured—Be not deceived by base imitations. Hegeman, Clark & Co's Genuine Cod Liver Oil, never disappoints, and nine years' experience has proved it superior to all others, and the only reliable cure for Consumption.

As there is a great deal of spurious oil in the market adulterated with seal oil, whale oil, &c., &c., too much care cannot be taken to procure the Genuine.

Our Oil is made at our own factory in Newfoundland and each bottle has our signature over the cork, be careful to get Hegeman, Clark & Co. for since the death of Mr. Rushton, our late partner, there has been an article introduced called Rushton's, which is in no way connected with H. C. & Co. or H. C. & Co. sold by R. A. FARNESTOCK & CO., H. P. SELLERS & CO., and by druggists generally. oct23m

The Bitters all they are represented to be.—JACKSON, La., Aug. 20, 1851.—Dear Sir—I have used your German Bitters, and find them all they are represented to be, and cheerfully commend them to the public as an excellent medicine. Respectfully, yours,
W. J. FAULKNER.

WORMS! WORMS!!—Various theories have been started relative to the origin of intestinal worms, and yet the question is still a vexed one among medical authorities. Of one fact, however, all are informed, and in which all agree—the fatal nature of the influence they exert on children. At this season of the year, the attacks of worms are most frequent, as well as most dangerous. We take great pleasure in directing the attention of parents to the Vermifuge of Dr. McLane, prepared by Fleming Bros., Pittsburgh. It is one of the most extraordinary medicines ever introduced to the public, and has never failed of success when tried.

☞ Purchasers will be careful to ask for Dr. McLANE'S CELEBRATED VERMIFUGE, and take none else. All other Vermifuges, in comparison, are worthless. Dr. McLane's Vermifuge, also his celebrated Liver Pills, can now be had at all respectable Drug Stores in the United States, and Canada. None genuine without the signature of FLEMING BROS

Important Notice to those Afflicted WITH CHRONIC DISEASES, by Dr. A. S. HEATH, New York City. Finding it impossible to attend personally to all my patients, and being unwilling to trust such respectable duties to assistants or students, and for the purpose of suppressing the sale of worthless and injurious quack medicines, as well as the impositions advertised under fictitious names, offering to send receipts gratis, or on receipt of letter stamps or one dollar, &c.—to obviate this above, and to accommodate patients in all parts of the country, I send medicine with full directions, to cure any disease, for $5, unless treatment is required for a longer period than one month, when the fee is the amount for each month. The fee for all cases of operations, including doctor the radical cure of hernia, will depend upon the peculiarity of the case. Patient's will give a full statement of all their symptoms as the remedies are prepared with an especial reference to each case. All answer letters should be registered. The only Medal Awarded by the New York Exhibition to the English or foreign Sauces Manufacturers has been obtained, amongst numerous competitors, by LEA & PERRINS, of the

WORCESTERSHIRE SAUCE,

whereby further testimony is afforded of its being the best Sauce extant.

The celebrity of this Sauce has extended to every quarter of the globe, and its efficacy in promoting the human health is becoming daily more observed and acknowledged.

In the United States it is held to be the most agreeable condiment, and it esteemed for its tonic and invigorating properties, its has ritual one enabling the stomach to digest the food.

On the Continent of Europe, these qualities have been testified to by a gentleman, who writes to LEA & PERRINS thus: "I have carried a bottle of your Worcestershire Sauce in a tour I have just completed through Spain and Portugal, and believe I owe my present state of health to its use; your Sauce is nonpareil, and I think medicinal. can with truth say there is nothing in a traveller's baggage so essential to his comfort, at least in those countries, as your Sauce.

In India, also, where it is found at the mess of every regiment, a medical gentleman writes from Madras to his brother in the same profession at Worcester, in the following terms: "Tell Lea & Perrins that their sauce is highly approved in India, and that it is, in my opinion, the most palatable as well as the most wholesome sauce made."

The sauce is suitable for every variety of dish, and is a universal demand which its excellence has created has led to many imitations being offered to the public, under a variety of names, but the genuine may be known by the names of "LEA & PERRINS" being impressed upon the patent metallic capsules, or patent glass stopper of the bottle, as well as the labels and wrapper.
