Pittsburgh Gazette.

PITTSBURGH:

SATURDAY MORNING, JULY 11, 1857.

IN a recent letter from Lake Superior to the Cleveland Herald we find the following passage:

Ontonogon village contains, I should think, a thousand inhabitants, and presents a neat appearance, although located principally on the sand, which in the street is over shoe. It is said in its favor, as compared with the other villages on the coast, that not more than one house in every five is a whisky shop, whereas in some the reverse is the case. The Mineral Range which, from Keweenaw Point to above Eagle River, runs near the shore, is here full eight or ten miles back. The mines of the District are the Norwich, West Minnesota, National, Minnesota, Rockland, Superior, Flint Steel, Nebraska, Maas, Bluff, Ridge, Adventure, Aztec, Toltec [illegible] Minnesota (the largest [illegible] ...nerally [illegible] ...hold- [illegible] ...ve been [illegible] ...Peninsular, and all represent a value in the [illegible] of $5,330,000. The Minnesota has paid its stockholders $680,000, and the market value of its stock is, as we are told, $3,050,000. [illegible] not out by the Minnesota Mines last [illegible] ...ty-two hundred tons; worth on the [illegible] ...25 per ton, or in the aggregate $935,- [illegible] ...ct of the Minnesota alone this year [illegible] ...value of $880,000. The copper is rare [illegible] ...h of it being as high as ninety-five per [illegible] commanding $550 per ton. Mr. Emerson, [illegible] Ontonogon *Miner*, who is on board the Iron [illegible] ...ty, informs me that the railroad, con- [illegible] ...ith the Marquette railroad and running to [illegible] ...Lac, Wis., will be commenced this summer. [illegible] completion will relieve this wintry shore of much [illegible] of its solitariness and by bringing it in contact at every season with the other parts of the Union, make living here quite a different thing from what it is now.

THROWN FROM A BUGGY.—Yesterday morning, between ten and eleven o'clock, quite a serious accident occurred on the Washington turnpike, two or three miles from the city. Hutchinson Wilson, of Robert W'Coy, of this city, and two little sons were being driven in a two-horse buggy on the way home from Sanbury's, about five miles from the city, where they had been on a visit, when the horses became frightened, near the Charters Valley Railroad track, and ran off, throwing the lady and both children from the vehicle, severely injuring her and slightly bruising the children. Subsequent to this, whilst rushing at a furious pace along the road, the animals brought the buggy in contact with a wagon, in which was an old lady, pitching the latter from the vehicle, though not injuring her to any extent, and frightening the horses, which also started off, but were soon stopped. Mrs. M'Coy was conveyed home on a settee, and Dr. Dake summoned to dress her injuries.

OUT OF JAIL AND IN AGAIN!—A fellow named W. Henry, who was committed to our county jail a short time since on a charge of rape, made his escape on Friday night, the 3d inst. He hung a portion of his clothing on the bed post, and fixed up his bed as if he were in it, and when the jailor opened the door in the evening, he slipped out in the yard, the wall of which he managed to scale. Fortunately, the Sheriff happened to be in the upper end of the county, where the fugitive went for some other clothes, and succeeded in retaking and again lodging him in prison on Saturday. Quick work that. —*Clearfield Raftsman.*

THE annual pic-nic excursion of the Universalist Sunday School and Congregation will be taken next Tuesday, July 14th, to Kilbuck Station, ten miles down the Ohio. The cars will leave Allegheny depot at 8½ o'clock, A. M. and 2 P. M. Though a "basket pic-nic" yet an abundance of good things will be on the ground to supply those who may want. Frank Gargo's and Young's band will discourse stirring music throughout the day. Tickets are, for a Gentleman's ticket, 75 cents—lady's ticket, 50 cents and children's ticket, 25 cents. Fare on the cars free to those having a ticket.

HOTTER.—The weather this week is *several* degrees hotter than it was last. We may reasonably expect to see the mercury keep on getting higher now. In town the mosquitoes have already made their appearance to torment weather cool enough, but only those who had rather than suffer present ills fly to others that they know not of, are preparing to be off to the Falls or somewhere else where the weather is a little cooler. But all those who can conveniently do away can easily refresh themselves by a cool drink from Super's Silver Soda Fountain, corner Penn and St. Clair sts.

BILIOUS DISEASES, of all kinds, will find in CARTER'S SPANISH MIXTURE the surest remedy. The afflicted will be revived by its use, humors will be expelled from the blood, and the liver will be brought to healthy action, thereby restoring the patient to perfect health and vigor. It contains no mercury, opium or other poisonous drugs, and may be given to the most delicate infant with perfect safety.

THE APPROACHING FOURTH.—Everybody is making preparations of some kind for the proper observance of the glorious Fourth." Some will go abroad and some will stay at home; others will remember; some will don military uniforms, while the great majority will wear such plain clothes as are becoming to a republican and patriotic private citizen. Of course the great mass of these people will be found assembled at the Brown Stone Clothing Hall of Rockhill & Wilson, Nos. 603 and 605 (new style) Chestnut street, above Sixth, Philadelphia.

HANEMANN RECONVERTED TO COMMON SENSE.—At a meeting of "spiritualists," an invalid was brought forward painfully afflicted with ulcerous scrofula that all the doctors had failed to cure. It was proposed to appeal to the spirit land for advice, and a Homœpathic physician present interrogated the departed spirit of Hahnemann by what means they should be taken. Loud and distinct rapping, audible to the whole audience, told *A-y-e-r's C-a-t-h-a-r-t-i-c P-i-l-l-s.—Homer [N. Y.] Whig.*

COOL, pure and delicious is the Soda Water, of Chas. H. Super, Cor. Penn and St. Clair St.

CARNAGHAN'S sales of men's and boys' clothing, &c., continue to be the centre of attraction in Allegheny. Read his advertisement.

**Prof. O. J. Wood's Hair Restorative,**

FOR PRODUCING HAIR ON

BALD HEADS,

GREY HAIR TO THE NATURAL COLOR.

THIS ASTONISHING AND UNEQUALLED preparation has never failed to produce a growth on Bald Heads, when used according to the directions, and turn Hair back to its original color after having become grey, and reinstate it in all its original health, lustre, softness and beauty. It has never failed to cure Scurf and Dandruff, Dryness, Itching, scrofula, eruptions and feverish heat from the scalp, in the first application, leaving it healthy and vigorous, and leaves no scurf, nor a sticky or greasy substance behind.

HAIR INVIGORATOR AND TONIC.

We annex a few certificates to corroborate our assertions.

STATE OF ILLINOIS, Carlisle June 27, 1853.

I have used Prof. Wood's Hair Restorative, and have admired its wonderful effect. My Hair was becoming as I thought prematurely grey, but by the use of the "Restorative," it has assumed its original color, and I feel confident permanently so. SYDNEY BREESE,

Ex-Senator United States.

A gentleman of Boston writes to his friends in New Bedford, thus:

To your inquiries I would reply that when I first commenced using Prof. Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years, and it was very thin on the top of my head, and very loose, and fearing that it would fall out if I continued to use it for a second bottle, (which was eight weeks,) my hair was entirely changed to its original color, (light brown,) and is now free from dandruff and quite moist. I have had it cut all the or six times since the change, and have never seen anything like white Hair starting from the roots as it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish to ask.

July 1, 1856. Yours, etc.—

GARDINER, Maine, June 22, 1854.

DEAR SIR:—I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the Hair. Before using it I was as grey as a man of seventy. My Hair has now attained its original color. You can recommend it to the world without the least fear, as my case was of the worst kind. Yours, etc.

D. N. MURPHY.

ST. LOUIS, Sept. 20, 1853.

DR. O. J. WOOD—SIR: I have used nearly three bottles of your Hair Restorative, and have found its effects very satisfactory. It has entirely destroyed all dandruff from my head, and restored my hair to its original color, which had become quite grey.

Yours, etc.

LIME—sales of 10 bbls Louisville Lime at $1,50.

**MONETARY AND COMMERCIAL.**

RICHARDSON, SPENCE & CO'S. CIRCULAR

(Arabia.) LIVERPOOL, June 26.

The arrivals this week are trifling: 11,210 bushels Wheat and 28,315 bushels Indian Corn from the States; 80 quarters Wheat, and 912 sacks Flour from the Continent.

Farmers' deliveries of Wheat for the week ending last Saturday were 102,750 quarters, at 60s 1d, against 105,857 quarters at 68s 11d in the corresponding week of last year.

Since Tuesday we have had brilliant hot weather, which produces the usual effect on our market.

Today very little business was done in any article. Wheat and Flour are nominally without change in value. Indian Corn declined 1@2s 6d ⅌ quarter, without buyers beyond retail orders. The quotations are more or less nominal.

Flour 32s@35s ⅌ bbl. White Wheat 9s 6d @10s; Red 8s 6d @9s 6d ⅌ 70 lbs. Indian Corn—Mixed 35s 6d; Yellow 39s, and White 39s@40s ⅌ 480 lbs.

Pork—We might omit reporting on this article, as there is so little done in it.

Bacon—The sales continue small, but dealers are low in stock, and there are no symptoms of an improved demand.

Lard—The sales for the week are about 400 tons at 63s@ 65s ⅌ cwt, closing with buyers and no sellers. The advance is mainly caused by speculators.

Tallow—In London 69s 6d is paid to settle June contracts of P. Y. C. and 63s has been paid here for this description. Other descriptions are about 1s ⅌ cwt. dearer.

BOSTON FIRM MARKET.—There is very little change in Codfish since last week; the arrivals have been moderate, with sales of large Shore and Bank at $3,25@3,4 ⅌ qtl. ad to quality, and small Bankers at $3,12½ ⅌ scaled, and prime at nominally $4,50@4,75 ⅌ qtl. In Hake and Pollock nothing of any consequence has been done. New Haddock have been arriving pretty freely, with sales at $2@2,25 ⅌ qtl. Mackeral with increased arrivals, are not quite so firm, but very good prices continue to be maintained; the sales have been at $16@ $18,25 for large, and $9,25 for medium 3's; prices of old Mackeral are quite nominal. In Pickled Herring there have been sales of common and good at $3@3,50 ⅌ bbl. Alewives are in moderate demand, and have been sold at $3,50@4,50 ⅌ bbl, as to quality.

WOOL.—There has been considerable doing in pulled Wool at Boston, the past week, but in fleece no movement of any importance, on account of the very small stock. The sales are full 100,000 lbs, mostly pulled, at our quoted rates. The purchases of fleece Wool in the West continue at from 30@35 ⅌ lb advance on the opening rates of last year, and at this advance manufacturers have taken considerable lots. Dealers have very little confidence in the present high prices, and hold back. Considerable inquiry for low grades foreign Wools. The sales have been 50,000 lbs Smyrna Mediterranean and other kinds, and 230 ballots Peruvian at good prices.

NEW YORK CATTLE MARKET, July 10.—The following were the total receipts at all the yards for the week:

| | Beeves. | Cows. | Veals. | Sheep & Lambs. |
|---|---|---|---|---|
| Total, | 2334 | 224 | 715 | 10,448 |
| Total last week, | 3301 | 303 | 832 | 10,701 |

As the supply was small at all the yards to-day, prices have advanced from ½c to ¾c ⅌ lb on all qualities. The average quality of the offerings compare very favorably with that of the past few weeks, and there were several fine lots on sale which brought from 12 to 13 cents ⅌ lb—but the latter price only for the very best quality. The supply included cattle from Illinois and Ohio, with 128 head from Indiana. The demand was pretty brisk, on account of the short supply, which was only 2122 head of fresh cattle for the whole week at Allerton's, and 2344 head at all the yards. Cows and Calves are dull, and about $5 per head lower than same week last year. Veals are dull and about 1c lower than last week's prices. The current prices for the week at all the markets are as follows:—Beef Cattle—First quality, 9 cwt, $12@12,50; ordinary quality, $11@$11,50; common quality, $10@$10,50; inferior quality, $9@$9,50. Cows and Calves—First quality, $50@$60; second quality, $40@45; common $40@45; inferior, $20@35. Veal Calves—Extra, 9 ℔, 7@7½c; other qualities, 6@8. Sheep and Lambs—First quality, $5@6; other qualities, $3@4,50. Swine—First quality, 6½@7; other qualities, 6@6½.

The Pittsburgh, Fort Wayne and Chicago earnings for June will be about $121,000, showing satisfactory increase. A sale has been made of its Mortgage Bonds in London, and the advices from its agents as to the placing of a considerable sum are very satisfactory.

The receipts of the Baltimore & Ohio road for June were $423,972—a falling off from last year of about $13,000.

**RIVER NEWS.**

The weather yesterday was excessively hot; we have had nothing like it during the summer before. The river is less than four feet and the landing is fringed with big boats that have nothing to do but keep quiet and hide their corn. The Chenango did not arrive until afternoon yesterday and had on her bills for Wheeling and Parkersburg. The little Fortune is getting along very well on the daily lines between here and Wheeling, and we think her trips rather improve upon the Kanawha. Except with her, the Monongahela line, Monongahela line, there's nothing doing.

There were no arrivals at this port yesterday, nor such as are noted above. We think none went out but are not sure, for the heat was so intense during the afternoon as to render it unsafe to be out of doors.

This is the day for the elegant Minnetonka to leave for Wheeling. Captain Williamson is a highly accommodating gentleman and his clerk aloft. His boat is true new and passengers will do well to choose their berths as early as possible.

The Cincinnati Gazette, of Thursday, says:—

"The Commerce, for sometime laid up at St. Louis, has again undertaken a trip to Pittsburgh. The Jesse K. Bell, Belmotte, Silver Wave, Empire City, are also up for this port and Pittsburgh. The Tennessee Belle and Empire City, arrived from this port on Monday, and the Fanny Fern departed."

The Cincinnati Commercial, of same date, says:—

St. Louis.—The Tennessee Belle and Empire City, from Cincinnati, and Pringle from Missouri River, arrived at St. Louis on Monday. Departed—Council Bluff and Fanny Fern for Pittsburgh. The Prima Donna is loading for Missouri River.

**Prof. O. J. Wood's Hair Restorative,**

FOR PRODUCING HAIR ON

BALD HEADS,

GREY HAIR TO THE NATURAL COLOR.

THIS ASTONISHING AND UNEQUALLED preparation has never failed to produce a growth on Bald Heads, when used according to the directions, and turn Hair back to its original color after having become grey, and reinstate it in all its original health, lustre, softness and beauty. It has never failed to cure Scurf and Dandruff, Dryness, Itching, scrofula, eruptions and feverish heat from the scalp, in the first application, leaving it healthy and vigorous, and leaves no scurf, nor a sticky or greasy substance behind.

HAIR INVIGORATOR AND TONIC.

We annex a few certificates to corroborate our assertions.

STATE OF ILLINOIS, Carlisle June 27, 1853.

I have used Prof. Wood's Hair Restorative, and have admired its wonderful effect. My Hair was becoming as I thought prematurely grey, but by the use of the "Restorative," it has assumed its original color, and I feel confident permanently so. SYDNEY BREESE,

Ex-Senator United States.

A gentleman of Boston writes to his friends in New Bedford, thus:

To your inquiries I would reply that when I first commenced using Prof. Wood's Hair Restorative, my hair was almost white, and had been so for the last ten years, and it was very thin on the top of my head, and very loose, and fearing that it would fall out if I continued to use it for a second bottle, (which was eight weeks,) my hair was entirely changed to its original color, (light brown,) and is now free from dandruff and quite moist. I have had it cut all the or six times since the change, and have never seen anything like white Hair starting from the roots as it is now as thick as it ever was, and does not come out at all. It has proved in my case all that I could wish to ask.

July 1, 1856. Yours, etc.—

GARDINER, Maine, June 22, 1854.

DEAR SIR:—I have used two bottles of Prof. Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the Hair. Before using it I was as grey as a man of seventy. My Hair has now attained its original color. You can recommend it to the world without the least fear, as my case was of the worst kind. Yours, etc.

D. N. MURPHY.

ST. LOUIS, Sept. 20, 1853.

DR. O. J. WOOD—SIR: I have used nearly three bottles of your Hair Restorative, and have found its effects very satisfactory. It has entirely destroyed all dandruff from my head, and restored my hair to its original color, which had become quite grey.

Yours, etc.
