PITTSBURGH:

FRIDAY MORNING, JULY 24, 1857.

READING MATTER ON EACH PAGE OF THIS PAPER.

TELEGRAPHIC REPORTS.—That the telegraph will lie is now a well-established fact. On Tuesday last the following appeared among our telegraphic dispatches:

"NEW YORK, July 20.—Mr. Devlin, ex-Street Commissioner, has been released on a habeas corpus."

The New York papers of Tuesday merely mention the issue of a writ of *habeas corpus* in this case; those of Wednesday say:

"In the Devlin Habeas Corpus case, after argument the Judge remanded him to the close custody of the Sheriff."

On the same day we published another dispatch furnished us by telegraph, as follows:

"ST. LOUIS, July 20.—A gentleman from Kansas on Friday states that at a public meeting held in Lawrence, on Thursday, it was determined to resist the U. S. troops if an attempt be made to collect taxes."

We have now before us the proceedings of that meeting as furnished by the correspondent of the St. Louis *Democrat*. After noting the arrival of the troops at Lawrence, he says:

"About a mile from town we found the governor in his carriage, with G. W. Brown and G. W. Collamer. Mr. Walker told us that he intended to arrest these revolutionary proceedings, and that the United States army would be called into requisition if needs be.

"The citizens of Lawrence held a meeting during the afternoon, and dispatched a messenger to Brown and Collamer to inform them that they were not authorized to act for the town. After this meeting the people dispersed. The appearance of the troops, be their purpose what it might, did not seem to disturb the equanimity of the citizens of the threatened town.

"In the evening a meeting was called to ratify the proceedings of the Free State Convention, at Topeka. After giving the entire action of the convention a unanimous ratification, and the announcement of a most hearty endorsement, some attention was paid to the fact of an army being quartered so near to them. It was maintained that the organization of the town had only been to secure ends essential to the well-being of the inhabitants that could not be so easily reached in any other method; that the movement did not look beyond Lawrence or contemplate any collision with other authorities; that Gov. Walker had made a descent upon them without investigating the matter thoroughly or giving them timely notice of his opinion of their action—and that no law had been violated by the action of the people.

"A resolution was unanimously adopted, that the act of Gov. Walker in quartering upon the town in time of peace an army, was illegal, unconstitutional and infamous, and deserving only of cool contempt."

Now, herein is nothing about a determination to resist the U. S. troops. On the contrary, the citizens of Lawrence seem to look upon the Governor's force among them with the same contempt that the people elsewhere do.

We have detected these telegraphic lies so often that we place but little reliance, now, upon telegraphic news, and we caution our readers to doubt them in all cases where Kansas or politics may be concerned. It seems extremely difficult for some of the telegraphic agents of the Associated Press to give anything like an impartial statement in such cases.

The report sent by telegraph from St. Louis that the Democratic Convention of Kansas had endorsed Gov. Walker's course, was not correct. The following was the resolution adopted:

Resolved, That the National Democratic party of Kansas Territory pledges itself to the support and maintenance of his Excellency, Robert J. Walker, in preserving the peace and harmony of Kansas, and in executing the laws of the country.

It will then be seen that the promised support is limited to "preserving the peace and harmony of Kansas, and to executing the laws of the country," a vague promise which any Convention might pass without committing itself. A correspondent of the St. Louis *Republican* also sets the public right about another resolution of the Convention:

"The resolution to instruct our nominee to support the Constitution framed in September next, whether it be submitted to the people or not, was laid on the table, *not because the convention was in favor of submitting the Constitution to the people*, but because the passage of such a resolution was regarded as unnecessary and injudicious, and was considered as operating to trammel and incumber the nominee, by imposing on him a question which was beyond his official duties."

GOV. WALKER meets with but little encouragement from the Northern press. The Philadelphia *North American*, which has hitherto looked with much favor upon his course in Kansas, treats his late proclamation as an egregious piece of folly. It says:

"Charitably inclined as we are, to allow full justice to the motives of all men, and especially of those in public capacities embarrassed by delicate and difficult stages, we cannot close our eyes to the unfortunate coincidence of time in which this fire-brand is hurled among the people of Kansas, and Governor Walker is denounced at the South as a 'traitor' by the extremists. Justly or unjustly, the impression will go abroad that this movement was designed as a propitiation to that sentiment, or was contrived to soothe a political excitement that threatened disastrous results to the Administration. We attribute no such purpose; but appearances warrant the inference at least, that Gov. Walker, if not prompted by, has yielded to this clamor, and under its intimidation has surrendered the proud position he so recently assumed. If the result should prove so, he will discover, as all others have done before him, who renounced a great principle to serve a selfish interest, that he will be more scorned by those whom he has attempted to conciliate than by those he abandoned. The fate of Kansas has heretofore turned upon the courage and consistency of three men, each of whom failed her in turn at the most eventful crisis. It would seem, too, that Governor Walker has not profited by their example, but subdued by the same infirmity, is soon destined to find the same hopeless obscurity, if he is fortunate enough to escape the execration of an indignant people."

KANSAS TERRITORIAL ELECTION.—There is to be an election in October for a Delegate to Congress and a Territorial legislature in Kansas; and as Gov. Walker has repeatedly given the assurance that "in October next, not under the act of the late territorial legislature, but under the laws of Congress, you, the whole people of Kansas, have a right to elect a delegate to Congress, and to elect a territorial legislature," the late Free State Convention resolved that the Free State men would attend that election in a body and elect a Territorial legislature that can properly be recognised as such. They also adopted the following:

"WHEREAS, we have reliable information that preparations are being made in some parts of the State of Missouri to control the result of the coming elections in Kansas. Therefore be it

Resolved, That Gen. James H. Lane be appointed by this convention, and authorized to organize the people in the several districts, to protect the ballot boxes at the approaching elections in Kansas."

This looks like pluck and a determination not to be cheated again.

FAMINE IN MINNESOTA.—An old citizen of Minnesota and an extensive farmer writes to the St. Paul *Times* that Famine is likely to be the lot of that territory during the next winter, in consequence of the Grasshopper scourge. He says:

"The effects of this grasshopper scourge which is now being inflicted upon a large portion of our territory cannot well be over estimated. All kinds of business must suffer thereby not only, but starvation, aye starvation, dreadful as is the word must be the lot of many, unless timely assistance is rendered.—There are thousands of families here who have had hard work to get through the last long winter.—Their last dollar has been expended in getting in their little crop, their only dependence for the future, their only support for the winter which will soon be upon them. This, their last and only hope is now being completely and entirely destroyed by the grasshoppers. In many fields not a vestige of the crop remain, in others the stalks of the grain only remains, while in all of these the destruction is complete. In my vicinity some 500 acres have been put into crops this year, which, with a fair season, would have been worth to the farmer from 12 to $15,000, but are now entirely worthless."

HOW FORTUNATE.—There is nothing like a friend at Court, wherever that Court may be.—In this particular Hon. Wm. B. Reed of Philadelphia, Minister to the Celestial Court of China, is very fortunate. The celebrated Archbishop Hughes, occupying, as he expresses it, "the arch-episcopal throne of the Diocese of New York," in a letter which we find in the *Times* and *Tribune* of Wednesday says:

"The Archbishop [Hughes] is in constant communication with the high dignitaries of the Church in Rome. He enjoys their confidence; and one great proof of this is, that, after having given a general letter to our Minister Plenipotentiary to China, he requested of his Eminence, Cardinal Barnabo, Prefect of the College of the Propaganda, another general letter of introduction and recommendation for the same distinguished personage, and that this document, so unusual from such a source, under such circumstances, was most kindly and promptly made out and will be in China awaiting Mr. Reed's arrival."

HOW fortunate to have the servants of the Republic go abroad with such distinguished introductions and commendations as those of Archbishop Hughes and Cardinal Barnabo!

THE AMERICAN TRACT SOCIETY.—The action of the Board, which assembled in New York last May, in declaring that the moral aspects of the slavery question may be discussed in the Tracts that may be issued under its supervision, has called out a protest under date of June 3, which we find in *The Charleston Courier* and which has only now fallen under our eye. The concluding passages in this protest signed by a large number of gentlemen, contain the gist of the whole paper and are couched in the following language:

"When our Northern *friends* undertake to instruct us in a matter on which they have nothing in common with us, we must reply—

"Non tali auxilio, nec defensoribus ilis."

"We are entirely inaccessible to instruction upon that subject from that quarter, and it *must not be attempted* in any form.

"If we can have no part in the work of the Society hereafter, be it so. The Southern people will pursue apart their quiet way of love and obedience to their Divine Master, in accordance with his own encouraging word, Isa. 66: 5. 'Your brethren that hated you, and that cast you out for my name's sake, said 'let the Lord be glorified,' but He shall appear to your joy, and they shall be ashamed.'"

ARCHBISHOP HUGHES writes a very venomous but silly and otherwise weak letter to the N. Y. *Tribune*, in answer to the late article in the N. Y. *Times* concerning him, which we copied. He admits many of the facts stated but denies others, among them those relating to his treatment of Bedini and the promulgation of the Immaculate Conception, the main denial consisting in his averment that there are no measures on foot at Rome or elsewhere to procure his removal, resignation or retiracy. Having copied the article from the *Times*, we state the denial as a matter of justice to the Archbishop, merely adding that, judging from the tone of his letter, he seems to have lost the dignified bearing which formerly characterized him.

"THE PRESS."—This is the name of the paper the first number of which Mr. Forney is to issue sometime within a week. He has done us the favor to send us his prospectus. We are very happy to see this movement of Mr. Forney and this very pretty little fight that is on hand for the dog-days. Look out for lively times when Mr. Forney, the unappreciated and the *depreciated*, opens his batteries—hot shot, grape and cannister—upon the *Pennsylvanian*, the organ of the President and the office-holders. In the words of the Almanac—"Expect—much—lightning—about—this—time." Won't Mr. Forney go politically to the root of the matter and reform? Why not?

THE *Pennsylvanian*, in reviewing two new books on the Slavery Question, by clergymen, one for Slavery and the other against it, says:

"We question the utility of their publications as ministers of the gospel. Let the question of slavery be argued by politicians, for it is only as a political question that it can ever be met in our country."

This is a reversal of the old plea. The burden of the democratic plant in old times was that Slavery was a moral and religious question and not a political one. It was half right, then, and the other half, now. Slavery is a moral and religious as well as political question, and must be met in all three of its aspects.

PACKER'S PROSPECTS IN BRADFORD COUNTY.—The postmaster at Towanda, Bradford County, Mr. John G. Freeze, has been obliged to resign his post in consequence of his inability to support himself and a paper called the Bradford *Times*, which he had agreed to publish in consideration of the official patronage he enjoyed. It is therefore evident that the Packer nigger drivers have no foothold in old Democratic Bradford; and that, since Judge Wilmot is in the field, his majority can easily be estimated by taking the whole number of votes in Bradford and deducting therefrom a few dozen postmasters scattered throughout the county.

WYANDOTT CITY.—This town stands at the very portals of Kansas, and is therefore a very important commercial point. Quite a number of Pittsburghers have settled there, among whom we notice our old friend JOHN M'ALPIN, formerly of the firm of Loech, M'Alpin & Co. Although less than six months old it is growing very rapidly, and the census just taken shows a population of 985.

☞ THE N. Y. *Tribune* says that the bogus legislature of Kansas never granted a charter to the people of Lawrence. Hence there was no resistance to territorial authority in framing a charter for themselves.

IN the Louisville street fight, Prentice was slightly wounded in the leg, and one of Prentice's shots took effect in the ankle of Mr. Hinkle, a looker-on, inflicting a severe wound.—Durrett was not hit.

MORE THAN TWO HUNDRED MILLION DOLLARS FOR EDUCATION.—At the last monthly meeting of the Connecticut Historical Society, Hon. Henry Bernard, the President, presented an interesting paper relating to the number of donations, bequests, &c., made for educational, literary and scientific purposes in the United States. The whole amount of land appropriated by the General Government for educational purposes to the 1st of January, 1854, was stated to be 52,080,221 acres; which, at the low price of 50 cents per acre, would have realized $26,040,110. These lands were first brought into market, represented the magnificent sum of $66,000,000, but which, at this time could not be worth less than $200,000,000. The amount of donations and subscriptions by individuals far exceeds all that had been given by State Legislatures. Mr. Bernard read from a table exhibiting the donations and bequests made by citizens of Boston within the last half century, amounting to upwards of $4,000,000.

A NOVEL speculative movement has begun in Cuba, a joint stock company having organized for the purpose of encouraging the growth of cotton. The capital of the company is put down at eight millions, divided into four thousand shares of $2000 each. They propose to buy up all the cotton-growing lands of the island, especially such as are unfit by nature or otherwise for the growth of sugar, and put them at once under cultivation. The company also proposes to engage in cotton manufactures. The movers speak with confidence of their enterprise, which they say has the approval and encouragement of the Government.

THE word "doughface," so long used at the North, in connection with gentlemen who were noted for servility to slavery, is now applied to different kind of men at the South. There the fire-eaters are beginning to stigmatize as "Southern Doughfaces" all who approve of Governor Walker's course in Kansas. Governor Wise is among the Walkerites, and it is something new to learn that he is a "doughface." We shall next hear that he is an abolitionist, and that he has placed himself in confidential communication with Mr. Garrison. The South is so poor that it has to import its terms of abuse from the North.

The democrats of New York are making an effort to raise $100,000 to endow their organ, the Daily News. With the aid of government advertising it cannot pay expenses. It is a significant fact that while the independent and republican papers of New York are enriching their publishers, a solitary democratic organ cannot live without appealing to the charities of the party.

THE Auburn (N. Y.) *American* says that "miles and scores of miles within the fenced track of the Central Railroad, are planted with potatoes by the employees of that great road." These "railroad farms" are attended to mostly by the wives of the employees.

DR. HENRY ANDRE'S IODINE WATER.

INFALLIBLE SPECIFIC FOR FEVER AND AGUE

CERTAIN REMEDY FOR SCROFULA.

DR. HENRY ANDRE having at length succeeded in effecting what has long been considered the great desideratum in all other REMEDIES, THE IODINE WATER, offers it to the Faculty and Public as a remedy for a multitude of complaints hitherto pronounced beyond all radical cure. In all strumous affections, where the scrofulous taint is either hereditary or acquired, the IODINE WATER ERADICATES THE ELEMENTS of the disease. In FEVER AND AGUE it perfects a THOROUGH and PERMANENT removal from the system of the morbid causes of the disorder. The beneficial results are immediately felt in LIVER COMPLAINT, BILLIOUS DISEASES, HEMOPTISIS, and other HEMORRHAGES, TUMORS, HEART DISEASES, DERANGEMENT OF THE LIVER, KIDNEYS and BLADDER, DROPSY, RHEUMATISM, NEURALGIA, HEMORRHOIDS, NERVOUS AFFECTIONS, and all FEMALE DISEASES, together with BRONCHITIS, and the entire range of PULMONARY COMPLAINTS. Dr. Henry Andere's Iodine Water has been analyzed by Dr. James E. Chilton, the celebrated chemist, and also by Professor Booth of the U. S. Mint, of Philadelphia, and both pronounce it to be just what it is represented. For circulars, furnishing full details of the legitimate character of this remarkable medicine, as well as for certificates voluntarily given by those who have been cured by its use—The public are invited to call upon

A RETIRED PHYSICIAN

Whose sands of life have nearly run out, discovered while in the East Indies, a certain cure for Consumption, Asthma, Bronchitis, Coughs, Colds, and General Debility. The remedy was discovered by him when his only child, a daughter, was given up to die. He had heard much of the wonderful restorative and healing qualities of preparations made from the East India Hemp, and the thought occurred to him that he might make a remedy for his child. He studied hard and succeeded in realizing his wishes. His child was cured, and is now alive and well. He has since administered the wonderful remedy to thousands of sufferers in all parts of the world, and he has never failed in making them completely healthy, and happy. Wishing to do as much good as possible, he will send to such of his afflicted fellow-beings as request it, this recipe, with full and explicit directions for making it up, and successfully using it. He requires each applicant to enclose him one shilling—three cents to be returned as postage on the recipe, and the remainder to be applied to the payment of this advertisement. Address

Dr. H. JAMES, No 19, Grand street, Jersey City, N. J.

Great Cure after the Physicians had Failed

ROSSVILLE, Ohio, Jan. 10, 1855.

Dr. C. M. Jackson—Dear Sir—We would inform you that we are out of Hoofland's German Bitters, which meet with ready sale. One of our neighbors has been doctoring for some time, (we think about two years,) with *all the doctors in the country, but all of no avail.* He looked as much like a dead man going about as anything we can compare it to. His disease appeared to be a *overflowing of the gall.* With hard persuasion we prevailed on him to try your Bitters, with the promise to him if it did no good, we would charge him nothing for it, provided he took six bottles according to the direction, which he has done, and is now entirely cured, and has become a well man. This case has created a great sale in this neighborhood.

Respectfully,
EDWARDS & BROWN.

DR. KEYSER'S SHOULDER BRACES—From Pittsburgh Dispatch, April 10th, 1856.—For more than 3 years past we have constantly worn the Washington Bus pender Brace, manufactured by Dr. Geo. H. Keyser, of No. 140 Wood street, in this city, and would heartily recommend it to all who are compelled to follow a sedentary occupation. As we have before remarked, in calling attention to its merits, it answers for a brace and suspenders, the weight of the pantaloons being so placed as to continually tend to bring the shoulders to their natural position and expand the chest. Women, hundreds of whom are annually tortured by the weight of enormous "skirts," should also procure these braces. Be particular in procuring the kind mentioned, as many of the braces sold are humbug. Sold at $1,250, DR. KEYSER'S, Wholesale Druggist, 140 Wood st., sign of the Golden Mortar. je26dAwT

No calls received on the Sabbath, except in cases of extreme urgency. Dr. Fitch will occasionally be absent from the city on Saturday and Monday of each week, and when in town wishes to devote those days to rest, and would prefer to receive no calls from those who can as well call on any other day of the week. On TUESDAYS, WEDNESDAYS, THURSDAYS and FRIDAYS, of each week, Dr. Fitch will always be at his office.

Patients desiring to consult Dr. Fitch should not defer till the last few days of his appointment, as they will incur great risk of not being able to obtain the attention desirable, the throng before leaving being frequently such as to preclude the possibility of giving each case the requisite attention, and occasionally even preventing his examining them at all.

Consultations and Examinations of the Chest FREE, but as Dr. Fitch does not pretend to raise the dead, he does not wish to treat any in the last stages of Consumption, or where a curative treatment cannot be adopted; and he desires none to apply to him who do not wish to hear the truth, as he is their friend in the actual condition of their lungs; cannot hope, and will not give encouragement.

Dr. Fitch would also add, that he may be consulted for General Debility, Also, for Dyspepsia, Female Diseases, Affections of the Heart, (Sympathetic,) Nervousness and certain kinds of Fevers, viz: Beginning at a beech at land N. 72° E. 168 perches to a white oak; thence N. 15½° E. 161 perches to another white oak; thence along lands of lands of S. 85½° W. 212 perches to a hickory; thence along lands of S. 4½° W. 212 perches to the place of beginning, containing Two Hundred Acres, more or less. To Steamboat Builders.

THE citizens of Madison, Indiana, have subscribed $40,000, which they propose to lend for five year, with six per cent. per annum, to a competent Boat Builder to start a ship yard in this place.

There are now in Madison a ship yard and marine railway, three iron foundries and machine shops, a brass foundry, a copper-smith and sheet iron shop, a boiler yard, a large furniture factory and two planing mills—one of the planing mills chiefly does cabin work on steamboats.

The ship yard now in operation employs about one hundred hands, and is in a flourishing condition. Timber for ship building in the vicinity of Madison is abundant and of excellent quality—property is cheap and great inducements held out to manufacturers of all kinds. The population of Madison numbers 8,000, the city is well located and supplied with water and gas. Boat builders having sufficient means to carry on the business will find it to their advantage to look into this proposition.

Applications in person or by letter will receive prompt attention. Address T. T. CRAFTON,

Madison, Indiana.

B. L. FAHNESTOCK, late of the firm of B. L. Fahnestock & Co., and successor to Fleming Bros., Wholesale Druggist, No. 60, corner Wood and Fourth sts., Pittsburgh, Pa.

NOTICE—My connection with the house of B. A. Fahnestock & Co. of which firm I have been an active partner for the last 23 years; also with the houses of Tock, Hull & Co. of New York, having ceased by limitation, on 1st July, 1857; and having purchased the extensive and merly J. Kidd & Co.) corner of Wood and Fourth streets, I will continue to carry on the business in all its various branches.

To my friends as well as to the patrons of the house I have been so intimately connected with, I give the assurance that nothing shall be wanting on my part to accommodate and please.

B. L. FAHNESTOCK,

jy21 No. 60, corner Wood and Fourth streets.

NOTICE—The subscribers have this day disposed of their Drug Establishment to Mr. B. L. Fahnestock, late of the firm of B. A. Fahnestock & Co.

Returning thanks for the kind and liberal patronage heretofore extended to us, we would most cordially recommend our successor to our friends and customers, as a gentleman of long experience in the business, ample means and one in every respect entitled to confidence.

We shall continue as heretofore the Manufacture and sale of Dr. McLane's celebrated Vermifuge and Liver Pills, at No. 24 Wood street, where we shall be happy to see our friends. Our Books will, for a time, be at the old stand, where those indebted will please call and settle.
