THE AREOMETER
THE attention of the public is respectfully called to the following certificates:
MR. S. EAKINS—Having tested a quantity of Gold weighed by your Areometer, I find the result proves your instrument correct; and recommend the use of it to those going to California, as the best method for obtaining the real value of Gold. Resp. yours,
J. B. DUNLEVY, Gold Beater.
Pittsburgh, March 9, 1849.

PITTSBURGH, March 7, 1849.
MR. EAKINS—Dear Sir: Having examined the "Areometer," manufactured at your rooms, I do not hesitate to commend it to the use of those gentlemen who are about removing to California in search of Gold.
It gives a close approximation to the specific gravity of metals, and will certainly enable the adventurer to ascertain when his placer is yielding Gold.

MEDICAL.

PROCLAMATION.
KNOW all men who are sick and afflicted with disease of the bladder and kidneys, with rheumatic pains in back or limbs, stiff joints, old sores, running ulcers, &c, that they can be cured by taking the Petroleum! You may talk about its being a nostrum as much as you please, but this does not make it so, for we proclaim in the face of an honest community, that it has virtues which are not contained in any other remedy. The man who is racked with pain and suffering from disease, can for fifty cents, get relief from any of the ills enumerated above. Reader! it costs very little to make a trial. This Petroleum is no mixture—no compound, put up for the purpose of imposing on the community; but it is a remedy elaborated by the master hand of nature, and bubbles up from the bosom of our mother earth in its original purity, and offers to suffering humanity a ready remedy, a certain and cheap cure.
It has cured Piles after other medicines have failed to render any relief. It has cured Rheumatism of long standing, and of the worst and most painful character. It has cured Cholera Morbus by one or two doses; it has cured old cases of Diarrhea, in which every other remedy has been of no avail. As a local remedy in burns and scalds, it is better than any medical compound or ointment that we know of. It will cure chilblains or frosted feet, in a few applications; undoubted testimony can be furnished of the truth contained in the above statement by calling on Samuel M. Kier, Canal Basin, 7th street; or either of the agents.
Keyser & McDowell, corner of Wood street and Virgin Alley; R. E. Sellers, 57 Wood street, D. A. Elliot & D. M. Curry, Allegheny city, are the agents.

CAUTION EXTRA
A man by the name of RUEL CLAPP has engaged with a young man of the name of S. P. Townsend, and uses his name to put up a Sarsaparilla, which they call Dr. Townsend's Sarsaparilla, denominating it GENUINE, Original, etc. This Townsend is no doctor and never was, but was formerly a worker on railroads, canals, and the like. Yet he assumes the title of Dr., for the purpose of gaining credit for what he is not. He is sending out cards headed "Tricks of Quacks," in which he says, I have sold the use of my name for $7 a week. I will give S. P. Townsend $500 if he will produce one single solitary proof of this.—This is to caution the public not to be deceived, and purchase none but the GENUINE ORIGINAL OLD Dr. Jacob Townsend's Sarsaparilla, having on it the Old Dr.'s likeness, his family coat of arms, and his signature across the coat of arms.
JACOB TOWNSEND.
Principal Office, 102 Nassau st, New York City.

OLD JACOB  DOCTOR TOWNSEND,
THE ORIGINAL DISCOVERER
OF THE GENUINE
TOWNSEND SARSAPARILLA.

Old Dr. Townsend is now about 70 years of age, and has long been known as the AUTHOR and DISCOVERER of the GENUINE ORIGINAL "TOWNSEND SARSAPARILLA." Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth and known its value. This GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout the length and breadth of the land.
Unlike young S. P. Townsend's, it improves with age, and never changes, but for the better; because it is prepared on scientific principles by a scientific man. The highest knowledge of chemistry, and the latest discoveries of the Art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. The Sarsaparilla root, it is well known to medical men, contains medicinal properties, and some properties which are inert or useless; and others, which, if retained in preparing it for use, produce fermentation and acid, which is injurious to the system. Some of the properties of Sarsaparilla are so volatile that they entirely evaporate and are lost in the preparation, if they are not preserved by a scientific process, known only to those experienced in its manufacture. Moreover these volatile principles which fly off in vapor, or as an exhalation, under heat, are the very essential medical properties of the root, which gives to it all its value.

GENUINE
OLD DR. JACOB TOWNSEND'S SARSAPARILLA is so prepared; that all the inert properties of the Sarsaparilla root are first removed, every thing capable of becoming acid or of fermentation, is extracted and rejected; then every particle of medical virtue is secured in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the
CURE OF INNUMERABLE DISEASES.
Hence the reason why we hear commendations on every side in its favor by men, women and children. We find it doing wonders in the cure of Consumption, Dyspepsia, and Liver Complaint, and in Rheumatism, Scrofula and Piles, Costiveness, all Cutaneous Eruptions, Pimples, Blotches, and all affections arising from
IMPURITY OF THE BLOOD
It possesses a marvellous efficacy in all complaints arising from Indigestion, from Acidity of the Stomach, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and cold hands, cold chills and hot flashes over the body. It has not had its equal in coughs and colds; and promotes easy expectoration, and gentle perspiration, relaxing stricture of the lungs, throat, and every other part.
But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of
FEMALE COMPLAINTS.
It works wonders in cases of fluor albus or whites, Falling of the Womb, Obstructed, Suppressed, or Painful Menses, Irregularity of the menstrual periods and the like; and is effectual in curing all forms of the Kidney Diseases. By removing obstructions, and regulating the general system, it gives tone and strength to the whole body, and cures all forms of
NERVOUS DISEASES AND DEBILITY,
and thus prevents or relieves a great variety of other diseases, as Spinal Irritation, Neuralgia, St. Vitus Dance, Swooning, Epileptic Fits, Convulsions, &c. Is not this, then, the MEDICINE YOU PRE-EMINENTLY NEED?
But can any of these things be said of S. P. Townsend's inferior article? This young man's liquid is not to be
COMPARED WITH THE OLD DR'S,
because of the Grand Fact, that the one is incapable of Deterioration and NEVER SPOILS, while the other DOES; it sours, ferments, and blows the bottles containing it into fragments; the sour, acid liquid exploding and damaging other goods! Must not this horrible compound be poisonous to the system? What! put acid into a system already diseased with acid! What causes Dyspepsia but acid? Do we not all know, that when food sours in our stomachs, what mischiefs it produces?—flatulence, heartburn, palpitation of the heart, liver complaint, diarrhea, dysentary, colic, and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever-Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour acid fluid, which insinuates itself between the joints and elsewhere, irritating and inflaming the tender and delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulations, and nearly all the ailments which afflict human nature.
Now, is it not horrible to make and sell, and infinitely worse to use this
SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND?
and yet he would fain have it understood that Old Jacob Townsend's Genuine Original Sarsaparilla, is an imitation of his inferior preparation!!
Heaven forbid that we should deal in an article which would bear the most distant resemblance to S. P. Townsend's article! and which should bring down upon the Old Dr. such a mountain load of complaints and criminations from agents who have sold, and purchasers who have used S. P. Townsend's Fermenting Compound!
We wish it understood, because it is the absolute truth, that S. P. Townsend's article and Old Dr. Jacob Townsend's Sarsaparilla are heaven-wide apart, and infinitely dissimilar; that they are unlike in every particular, having not one single thing in common.
It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health and bloom and vigor into the crushed and broken and to banish infirmity—that old DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his GRAND UNIVERSAL CONCENTRATED REMEDY within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its TRANSCENDENT POWER TO HEAL!

Chambers' Educational Course.
THE SCIENTIFIC SECTION.—The Messrs. Chambers have employed the first Professors in Scotland, in the preparation of these works. They are now offered to the Schools of the United States, under the American revision of D. M. Reese, M. D., L. L. D., late Superintendant of Public Schools, in the City and County of New York.
I. Chambers' Treasury of Knowledge;
II. Clark's Drawing and Perspective;
III. Chambers' Elements of Natural Philosophy;
IV. Reid & Bain's Chemistry and Electricity;
V. Hamilton's Vegetable and Animal Physiology;
VI. Chambers' Elements of Zoology, with plates;
VII. Page's Elements of Geology, illustrated.
It is well known that the original publishers of these works (the Messrs Chambers, of Edinburgh) are able to command the best talents in the preparation of their books, and that it is their practice to deal faithfully with the public. This series will not disappoint the reasonable expectations thus excited. They are elementary works, prepared by authors in every way capable of doing justice to their respective undertakings, and who have evidently bestowed upon them the necessary time and labor to adapt them to their purpose. We recommend them to teachers and parents with confidence. The first named volume, in the hands of a teacher of the younger classes, might furnish an inexhaustible fund of amusement and instruction. Together, they would constitute a rich treasure to a family of intelligent children, and impart a thirst for knowledge.—Vermont Chronicle.

Great American Mechanical Work.
D Appleton & Co, New York, have in course of publication, in parts, price twenty five cents each,
A DICTIONARY
Of Machines, Mechanics, Engine Work, and Engineering; designed for Practical Working Men, and those intended for the Engineering Profession.
EDITED BY OLIVER BYRNE.
THIS WORK is of large 8vo. size, and will contain TWO THOUSAND PAGES, and upwards of SIX THOUSAND ILLUSTRATIONS. It will present working-drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work, and Engineering; with all that is useful in more than one thousand dollars worth of folio volumes, magazines, and other books.
The great object of this publication is, to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together is almost beyond precedent in such works. Indeed, there is hardly any subject within its range which is not treated with such clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which it is important for him to know.
The publishers are, in short, determined, regardless of cost, to make the work as complete as possible; and it is hoped every one desirous to obtain the work will procure it as issued in numbers, and thus encourage the enterprise.
The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with great regularity.
The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.
Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

Opinions of the Press.
"To our numerous Manufacturers, Mechanics, Engineers, and Artisans, it will be a mine of wealth."—Providence, (R. I.) Journal.
"Young men, arm yourselves with its knowledge.—We can with confidence recommend our readers to possess themselves of its numbers as fast as they appear."—American Artisan.
"We unhesitatingly commend the work to those engaged in or interested in mechanical or scientific pursuits, as eminently worthy of their examination and study."—Troy, (N. Y.,) Budget.
"It is truly a great work, and the publishers deserve the thanks of inventors, machinists, and manufacturers, and indeed of the public generally."—N. Y. Independent.
"This Dictionary will be highly useful to practical mechanics, and valuable to all who wish to acquaint themselves with the progress of invention in the mechanic arts."—New Bedford Daily Mercury.
"Young mechanics ought to keep posted up in theoretical as well as practical knowledge, and this work will give them just how they stand."—Roxbury (Mass.) Advertiser.
"We take it to be just the work that scores and hundreds of our intelligent mechanics have desired to possess. So ample are its descriptions, and so full and minute its specifications, that it seems to us that any mechanic might construct any machine it describes, on the strength of its engravings and instructions."—N. Y. Commercial Advertiser.
"All interested in mechanics should avail themselves of its advantages."—Schuylkill, (Penn.,) Journal.
"A work of extensive practical utility and great importance and value to the rapidly increasing interests of the country. We regard the work as eminently calculated to promote the cause of science and the mechanical arts, and to disseminate valuable information on these subjects."—Farmer and Mechanic.
"Practical men in all the varied walks of mechanical and manufacturing industry engineering &c., will find in this work a treasure which it will be to their profit to possess."—Troy Daily Whig.
"We have carefully perused the numbers, and have no hesitation in saying that it is the best work for mechanics, tradesmen, and scientific men, ever published, for it contains minute information on every branch of the mechanical arts and sciences, expressed in a style and language intelligible to any reader of ordinary capacity."—Gloucester, (Mass.,) News.
"We are sure we are doing the mechanics of Norwich and other parts of Connecticut a service by bringing the work to their attention."—Norwich, (Conn.) Courier.
"It is just such a work as every mechanic should possess."—Freeman's Journal.
We consider it one of the most useful and important publications of the age. No mechanic can afford to be without it."—Newark, (N. J.) Commercial Courier.
"Of all the various publications having for their object the elucidation and advancement of the mechanical arts and science, none that we have seen, is so full of promise as this."—Buffalo Com. Adv.
"It is the best and cheapest work ever offered to the scientific and practical engineer and mechanic. The plates are beautifully executed."—Washington Globe.
"This great Dictionary is one of the most useful works ever published for years, and the low price at which it is sold makes it acceptable to all."—South Carolinian.
"We regard it as one of the most comprehensive and valuable, as well as cheapest works ever published."—Baltimore Advertiser.
"Ought to be taken by every one desiring to keep pace with the progress of art and science in every one of the labors of civilized life."—Rondout Courier.
"It is designed after the principle of Ure's Dictionary, only that it is more devoted to the mechanical and engineering professions, and above all, it is valuable as accomplishing for America what Ure has done for England, viz: describing American machinery and works of art."—Scientific American.
"It is published in numbers, and at a price so moderate, looking at what is contained in each number, that no one who has the least interest in such matters, need be deterred from procuring it; and every one who does so, will find that he has in a condensed form an amount of instruction which would be obtained, if at all, only by the purchase of very many volumes."—N. Y. Courier and Enquirer.
"The comprehensiveness with which the subjects are treated, the admirable manner in which they are illustrated, conspire to make this one of the most desirable works."—Democratic Review.
"This work should be in the hands of every mechanic, artisan, and manufacturer, especially those who have the least aspirations to excel in their respective businesses. We have carefully examined it, with a view of recommending it to inventors. To them we would say in the strong language of the Bible: "It is good."—Baltimore Inventors' Journal.
Notice to the Proprietors of Newspapers throughout the United States and Canada.
If the foregoing advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

MISCELLANEOUS.

IN QUART BOTTLES,
FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABIT OF THE SYSTEM, VIZ:
Scrofula or King's Evil, Rheumatism, Obstinate Cutaneous Eruptions, Pimples or Pustules on the Face, Blotches, Biles, Chronic Sore Eyes, Ring Worm or Tetter, Scald Head, Enlargement and Pain of the Bones and Joints, Stubborn Ulcers, Syphilitic Symptoms, Sciatica or Lumbago,—and diseases arising from an injudicious use of Mercury, Acities or Dropsy, Exposure or Imprudence in Life; Also—Chronic Constitutional Disorders, &c.
This medicine has acquired a very extended and established reputation wherever it has been used, based entirely on its own merits, which its superior efficacy has alone sustained. The unfortunate victim of hereditary disease, with swollen glands, contracted sinews, and bones half carious, has been restored to health and vigor. The scrofulous patient, covered with ulcers, loathsome to himself and his attendants has been made whole. Hundreds of persons, who had groaned hopelessly for years under cutaneous and glandular disorders, chronic rheumatism, and many other complaints springing from a derangement of the secretive organs and the circulation, have been raised as it were from the rack of disease, and now, with regenerated constitution, gladly testify to the efficacy of this inestimable preparation.
"TRUTH IS STRANGER THAN FICTION."
The attention of the reader is called to the following astonishing cure, effected by the use of Sands' Sarsaparilla.
"This is to certify that I have a colored woman who has been afflicted for the last five years with Scrofula, and all the remedies I used had no effect in arresting the progress of the complaint; on the contrary, she constantly grew worse; and after expending between $70 and $80 with physicians, besides using other popular remedies without success, till the disease had eaten away the cartilage of her nose, made its appearance on various parts of her body, and had finally commenced its ravages in the roof of her mouth.
"In this dreadful situation, with the prospect of death staring her in the face, I stated her case to Dr Disosway, the agent for Sands' Sarsaparilla in Newbern, N. C., by whom I was advised to use that article; and to my surprise and that of my neighbors, to whom her case was known, after using four and a half bottles she was restored to perfect health, and that in the space of three weeks, and was able to work in two weeks from the time she commenced taking it.
"In witness of the truth of this statement, I have hereunto affixed my name, this 12th day of September, 1847. JOSEPH McCOTTER, J. P.,
"Mouth of Neuse River, Craven co. N. C.
SORE THROAT.
The following is an extract from a letter received from Mrs. Bevan, who had been afflicted several years with Scrofulous Ulcers, Dyspepsia, &c., and recently an affection of the throat and chest:—
"BAILEYSBURG, Va., Dec. 13, 1845.
"Messrs. A. B. & D. SANDS—Before I commenced using your Sarsaparilla, my sufferings were almost past expression; my throat was completely ulcerated, I had a dreadful cough, and there were frequently weeks together that I could not speak above a whisper; and besides, the inflammation from my throat extended to my head, so that my hearing was very much impaired. After taking the Sarsaparilla a short time, my health was improved, and my throat is now well; I am as free from cough and tightness of the chest as ever I was, and can hear quite distinctly. My throat has been well about three months, the cure of which has been effected entirely by the use of your Sarsaparilla. Your friend, LOUISA R. BEVAN."
The following testimonial to the value of the Sarsaparilla is from the Rev Luther Wright, aged 76 years, Congregational Minister, residing at Woburn.
"WOBURN, Mass., March 30, 1846.
"Messrs. Sands: Gentlemen—From what I have experienced, and from the information I have recently received from a number of persons of high respectability who have used your Sarsaparilla, I have not the least doubt but that it is a most valuable medicine, and that the numerous certificates you have received of its efficacy are fully sustained by experience, and although its reputation and utility are very extensive, and stand in no need of my humble efforts to increase them, I want all who are afflicted by disease to become acquainted with the efficacy and power of your valuable medicine.
"I am, gentlemen, gratefully and very respectfully yours, LUTHER WRIGHT."
