# Pittsburgh Gazette.

FORBY GROVE, *Robinson Township,* Oct. 28th, 1857.

*Messrs. Eds. Gazette:* Permit me to present you with a bottle of Syrup made from the Chinese Sugar Cane, together with my mode of cultivating the cane and manufacturing the syrup. On the 20th day of May last I planted the cane in rows, at the same attention that I gave to my Indian Corn, and for sake of experiment suckered half the rot, the other half I permitted the suckers to grow, and they did grow for certain some two, three and four to a stalk, the portion that I stripped the suckers off grew much thicker and stronger in the stalk than that on which the suckers were permitted to remain, and consequently it required less labor to prepare as much cane as would make a barrel of juice from the lot that was suckered than that which was not, there being a greater amount of juice in a large stalk than a small one, a small stalk requires as much if not more time to strip and prepare for the mill than a large one.

On the 20th of October, inst., I cut half my cane, it having the night previous got a smart frost, till the blades were killed, on the following day I had the remaining half cut, it having got two nights freezing. We then hauled it in and set it on end in the barn, that which got one nights freezing on one side of the barn, and that which got two nights freezing on the other side in a solid mass, there it remained for some time till I got my mill ready for operation which was some time after the cane was cut. My mill which I built myself consists of three rollers turned out of a whiteoak but 10 inches in diameter and 18 inches long, set in a housing of four inch oak plank, the driving roller has two rows of cogs, one at bottom and one at top, the other two rollers have mortices corresponding with the cogs, the rollers stand perpendicularly, the driving roller runs through and three feet above the cap on which is placed a sweep to attach a horse to. The mill is set in two sills five feet long and 1 foot square which makes it heavy enough to remain stationary when in operation. The mill finished, I now commenced cutting the cane and my little wooden mill which took me about one week to build far exceeded my anticipations From every well grown stalk it pressed over a pint of juice. I have tried various ways of manufacturing the juice into syrup, I have taken the juice from the press just as it came from the cane, put in pots when it began to boil, put in a little lime, mixed to the consistency of thick cream which caused a thick scum to rise to the top, this removed continued to boil down one half, remove the pot from the fire, let it settle, strain it, put it over the fire when it comes to the boil, stir in the white of one egg mixed with half a gill sweet milk to four gallons, boil down till thick enough. But I think, the better way is to try my other mode, which is this: I set a barrel on a block convenient to the mill, (an open ended barrel), put a spile above the bottom hoops which will leave three inches between the bottom and spile, into this barrel put the juice, when the barrel is filled let it stand over night, by morning all the sediment will be settled to the bottom of the barrel, from this spile draw the juice, strain into a pot, put it over the fire, add one tablespoonful of baking soda to five gallons of juice, stir it well for a few seconds, boil down two-thirds, to three gallons, thus reduced, add one egg beat up in a gill of sweet milk, stirring it at the time so as to have it well mixed, remove it from the fire, let it stand thirty minutes, strain a second time, put it over the fire and boil till thick enough, thus was the sample made I send you.

Some of my cane remained eight days in the barn before it was crushed, and although it was in a solid body it did not appear to lose any of its juicy quality, neither did it heat, but the syrup is not all that we get for our cane, the crushed stalk makes an excellent feed for hogs, when cut up and mixed with a little bran it makes a feed that horses and cattle are very fond of, both cows and horses eat it greedily as it comes from the mill, and our women says that our cows have improved both in the quantity and quality of their milk, since they have had free access to the crushed stalks, and then the blades and tops make not only an excellent fodder, but a great lot of it. JOHN YOUNG, Jr.

## Arboricultural, &c.

**Pittsburgh Hedge Farm Nursery.**
SITUATED ON WILKINS AVENUE, a quarter of a mile from the second Toll-Gate, on the Farmers' and Mechanics' Plank Road, an extension of Fourth street, and about three and a quarter miles from Pittsburgh.

DR. C. MCLANE'S
VERMIFUGE
AND
LIVER PILLS.
Two of the best Preparations of the Age.

They are not recommended as Universal Cure-alls, but simply for what their name purports.

The VERMIFUGE, for expelling Worms from the human system, has also been administered with the most satisfactory results to various animals subject to Worms.

The LIVER PILLS, for the cure of LIVER COMPLAINT, all BILIOUS DERANGEMENTS, SICK HEADACHE, &c.

Purchasers will please be particular to ask for Dr. C. McLane's Celebrated VERMIFUGE and LIVER PILLS, prepared by Fleming Bro's

SOLE PROPRIETORS, Pittsburgh, Pa., and take no other, as there are various other preparations now before the public, purporting to be Vermifuge and Liver Pills. All others, in comparison with Dr. McLane's, are worthless.

The GENUINE McLane's Vermifuge and Liver Pills can now be had at all respectable Drug Stores.

**FLEMING BRO'S,**
WOOD ST., PITTSBURGH, PA.
**Sole Proprietors.**

100 BBLS, Hydraulic Cement, for sale by J. R. CARBERY. oc12

## Medical.

R. R. R.
A FALSE THEORY EXPOSED.—
THE TRUE SCIENCE REVEALED.

Mankind have long been engloomed in darkness as regards the mysteries of medicine, and of deriving a truthful solution of its power over disease, and its proper use in the treatment of the sick.

Medicine, as practiced by the regular faculty, is a delusion—a bundle of improbabilities and uncertainties.—There is nothing in its theories on which the physician can rely as certain or fixed; the results obtained from its prescriptions are doubtful, and in most cases unsatisfactory.

It is a solemn and startling fact, that three-fourths of those "who have departed this life" died victims, *not to disease,* but to the injudicious application of this simple and illusory theory, as practiced by the regular faculty.

We have proved the utter fallacy of the regular practice of medicine, and the great undeniable truthfulness of the R. R. R. over and over again; for, in a thousand cases, where the regular physicians have given up their patients as incurable, and had in many cases even set the time to only a few short hours, that their victims had to live, Radway's Ready Relief, Regulators and Resolvent, in the case (way back) we has restored those dying patients to new life and health.

In the treatment of the sick by the R. R. R. remedies, there is nothing left to chance or uncertainties, for these remedies are so prepared as to possess fixed and positive curative powers, founded on principles so immutable in their power over diseases, as the laws of gravitation over the earth. It is therefore, impossible for these remedies to fail in removing from the human system the difficulty for which they may be given, and of restoring the whole human system to its normal condition of health.

This is readily seen in the marvellous efficacy of RADWAY'S READY RELIEF—for the moment this remedy is applied to the pure or parts of the body tortured with pain, or crippled with infirmity, all pain and unsteadiness ceases, and the crippled, lame and wounded limb becomes invigorated with renewed strength. So also with the Resolvent—The most repulsive Sores, Ulcers, Humors, and the most obstinate of chronic diseases quickly become extinct after a few doses is taken.

In cases of Dyspepsia, Constipation of the Bowels, Derangement of the Liver, Congestion, Palpitation of the Heart, Radway's Regulators, in the form of Pills, can be relied upon as a positive and certain corrector and regulator of these difficulties. In cases of temporary Constipation or derangement of the stomach or bowels, the Cathartic and Purgative Pills given by the regular faculty, even if they remove the temporary difficulty, do so at the expense of Cramps, Sickness at Stomach, and Weakness, and after the effects of these purgatives are over, the bowels are left costive and the system debilitated. Radway's Regulators will instantly relieve the pain and distress, remove the difficulty and restore a regular action to the liver, stomach, bowels and other organs—they neither irritate, inflame, sicken or weaken the patient, and the evacuations are natural, without purgitating the system or cramping the bowels.

These remedies are the only ones that have reduced the hygienic principle to the fixity of a mathematical demonstration—invariable in all cases, and proceeding on a settled principle. They, and they alone, have imparted to the icongruous experience and repugnant practice of the so-called "regular faculty," the precision and invariability which has enabled it to the requirements of this science. Taking the human body as the problem, and health as its normal condition, they proceed by fixed rules to eliminate all extraneous and deleterious particles, and thus restore the constitution to its integrity, by the expulsion of those local or organic irregularities which vitiate the consistence of the whole.

DANGEROUS DISEASES.

In Cholera, Yellow Fever, Ship Fever, Dysentery, Diarrhoea, Typhus and Typhoid Fevers, and all malignant and malignancy fevers, Radway's Ready Relief and Regulators are not only positive curatives, but certain preventives.

Not only in the milder latitudes of the North have these remedies cured the patients of those terrible maladies, but under the burning suns of the Southern climes, they have proved the most signal blessing to the people as a pestilence. With these remedies you need not fear exposure to any contagious disease or pestilence.

CONSTITUTIONAL DISEASES.

All diseases that have become established in the system, called chronic or constitutional, Radway's Resolvent, aided by the Relief and Regulators, will remove. Scrofula, Hemorrhoids, Ulcers, Sores, Tumors, Humors, Salt Rheum, and all skin diseases will quickly yield to this all powerful remedy.

The use of the Resolvent will, in a few weeks, entirely change the whole condition of the body, we care not how long or how many generations you have derived your title to the disease established in your blood, Radway's Resolvent will remove it, and give to you what your forefathers were unable to—a pure and healthy body—free from diseases.

COMMON DISEASES.

All diseases prevalent at this season of the year, caused by derangement of the organs of the system, sudden changes of the weather, heat and cold, dampness and chilliness of the blood—Rheumatism, Neuralgia, Tic Doloreux, Bowel Complaints, Fever and Ague, Headache, Toothache, Aches and Pains of all kind, Bruises, Burns, Scalds, Falls, Inflammatory Diseases, Congestive Diseases, Humors in the system—Impure Blood, Boils, Pustule Pimples, Blotches, &c. Liver Complaints—Dyspepsia, Kidney Complaints, and all diseases whether acute, inflammatory, instantous, nervous, chronic, or constitutional, Radway's Remedies will most positively exterminate and restore the infirm and enfeebled system to health and strength.

AS OFFER—TO THE DYING.

Yet who have friends now upon the brink of the grave, on whom all hopes of recovery are fled—who have been given up as incurable by your physician, we invite you to make one more effort to save the valued life of the dying one. A trial of these remedies cannot do any injury, and may restore to life and health, even though no hopes are entertained by your physician. Over a thousand such instances have been given to the world, and we therefore, feel confident in recommending in requesting the trial. Surely, after the physician has given up his patient, his prejudice to your using a remedy that must do good, is criminal.

As one of the instances we have alluded to in the above article, we refer the public to the case reported to us by Richard Griffith, Esq., well known in Canada West as a man of high integrity, and well approved of by his countrymen for his high official capacities.

HARROWSMITH, Fontenac Co., C. W., Sept. 25 1855.

In October, 1855, my wife giving birth to a child, left her bed too early and caught a severe cold, which promised to terminate her life. The best physicians in the neighborhood and Kingston were in attendance on her—but all of no avail—*the doctors had given her up to die. Her seven consecutive weeks* I sat at her bedside, momentarily watching to see her breathe her last. I happened to see a copy of your paper called "*The Morning World,*" and then I tried your medicines. I resolved to test them as a last resort. I gave her the *Resolvent* with the Regulators—and Relief—according to directions, and *in three days observed a wonderful improvement.* From this she daily recovered, and is now, thank God, better than ever she was in her life.

The child, when three months old, caught a bad cold, and *decindled always to a mere skeleton,* nothing but *bone* and *skin* to be *superpositated from his head; as if they would drop out;* the physicians all united in saying there was no use of attempting to save him, *his case was hopeless, as he was too young and weak for the Pills.* But I thought differed. Your medicines gave life to my wife, while the doctors gave her up to death. I again had recourse to them. I gave him the Resolvent internally and used it as a wash, externally on his eyes—he is now a laughing, hearty, prattling child, enjoying the best of health. Your name should be my grateful servant. RICHARD GRIFFITH.

The above reader, is but one out of thousands of similar cases, we could adduce, if space permitted, but we feel assured that the wonderful results of the Resolvent, have been relied upon without further trial, *death* would have seized its victim. Do not therefore give up your friends on the mere report of your physicians who *say* they can do no more. When you are told this, resort to our Remedies.

The Latin, German, Spanish, and Italian languages, receive due attention.

The Natural Sciences are taught with the aid of a large and expensive apparatus.

The Musical Department is under the charge of a lady eminently qualified for the situation, and all who prefer to be taught on the pianoforte, singing by a gentleman, have a visiting teacher from Philadelphia.

Drawing and Painting are under the direction of a lady accomplished in the arts.

The Fall Term commences September 9th.

Miss Eastman, at liberty to refer to the following gentlemen:

Right Rev. A. Potter, Bishop of Pennsylvania.
Hon. Franklin Pierce, ex-President of U. S.

## Medical.

AYER'S CATHARTIC PILLS.
*SUGAR COATED.)*
ARE MADE TO
CLEANSE THE BLOOD AND CURE THE SICK,
*Invalids, Fathers, Mothers, Physicians, Philanthropists,*
*Read their Effects, and judge of their Virtues.*
For the cure of Headache, Sick Headache and Foul Stomach.

PITTSBURGH, Pa., May 1, 1855.

Dr. J. C. AYER.—Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing. Yours with great respect,
ED. W. PIEBLE, Clerk of Steamer Clarion.

*Bilious Disorders and Liver Complaints.*

DEPARTMENT OF THE UNITED STATES,
Washington, D. C., Feb. 7, 1856.

Sir: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the *Liver* is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of *Bilious Disease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

*Dysentery, Relax and Worms.*

POST-OFFICE, HARMARV, Liv. Co., Mich., Nov. 10, '55.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. We took off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here. GEO. J. GRIFFIN, Postmaster.

*Indigestion and Impurity of the Blood.*

From Rev. J. V. Himes, Pastor of Advent Church, Boston:

DR. AYER: I have used your Pills with extraordinary success in my family, and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

Dear Sir: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the
