DEATH FROM KICK OF A HORSE.—On Monday the 6th inst. Mr. Edward Keyser, of Donegal Tp. met with a painful accident which caused his death on Wednesday morning. He was over in Cook township, riding a young horse that became from some cause unmanagable, and was about to run off with him. Mr. K. either attempted to jump from him or was thrown off, and then the horse kicked him, inflicting fatal injuries, that resulted in death. He was, as we are informed, insensible after receiving the injuries. Mr. K. was a young man very much respected and beloved by his acquaintances, was full of energy and enterprise.—*Greensburg Her.*

FREE LABOR ORGAN AT ST. JOSEPH.—The St. Joseph *Free Democrat*, a new Free Labor organ for Northwestern Missouri, has made its appearance. If well supported pecuniarily, it will render good service in the cause to which it is devoted. This is rather a bold experiment, yet we trust it will not prove an unsuccessful one. The manner in which it is noticed by the St. Joseph "*Daily West*," we are sorry to observe, if it does not betray a desire that the enterprise should be put down by violence, has at least a tendency to provoke such action by the mob.—*Cin. Gaz.*

HE'S SOUND.—The editor of the Henderson *Democrat*, a Democratic paper in Minnesota, exposes the tricks of his party, stating that Democratic high position base their hopes of success on the coming fall campaign upon anticipated returns from Renville, Murray, Cottonwood, Pembina, and other out of the way places! He also states that he himself has been approached in a corrupt manner, and his conscientious convictions impel him to abandon such associations, and to act hereafter with the Republicans of his district.

THE Baltimore *American* says "the news from Europe does not answer the public expectation, which has anticipated a more active campaign." We regard the gladiatorial games of olden Italy as barbarous; but is there anything in Bulwer's thrilling description of the last days of Pompeii—the thirst of the people for blood—their disappointment when it did not flow like water, and the horrors of the arena purpled with gore—which equals the insatiate appetite of our countrymen for horrible news from the European belligerents!—*Lou. Jour.*

TROUT FISHING.—This rare sport must be enjoyed to perfection in Huntingdon county just now. The Blair County *Whig* says that "Mr. C. F. Sargeant, U. S. Mail Agent on the Pennsylvania Railroad between Harrisburg and Altoona, and Maj. Geo. Darke, of Huntingdon Furnace, caught, one day last week, *twenty-five dozen* of trout, varying in size from six to twelve inches in length." What sport for one hot day!

THE Missouri Democrat speaks encouragingly of the condition of the rivers. It says that the June rise of the Missouri will not be formidable, and that the people along the lower Mississippi need not be alarmed at the flood of which we have heard at the falls of St. Anthony and at St. Paul's. It will spend itself long before it reaches the "coast."

An Austrian merchantman is lying at Boston, not daring to proceed on the cruise to which she had been ordered, viz: to St. Johns, N. B., to load a cargo for England. This explains what that French War steamer is waiting for, off Halifax, which has been two or three times seen and mistaken for an expected arrival from Europe.

THE remains of the late Alexander Hamilton, buried thirty-seven years ago in the New Haven Cemetery, were a day or two since exhumed for the purpose of being removed to Bridgeport, (where his son's remains have within a few years been deposited). The coffin, being of mahogany, was found to be almost perfectly sound, and the skeleton appeared perfect.

ACORNS.—Persons from the country inform us that according to present appearances the oak trees will be laden with acorns. To some this may appear of little importance; but to the pork grower in the vicinity of large forests an acorn crop is of great value.—*Wheeling Times.*

DIRECTIONS FOR USING SAWYER'S CHEMICAL OLIVE ERASIVE SOAP.—A new and valuable article, which is fast receiving the preference over other family soaps, for Laundry and Family use. Being free from resin and other adulterations—economical and pure—suitable for washing with cold or warm, hard, soft or salice water.

It speedily removes oil, grease, paint, printer's ink, tar, pitch, etc., from the hands and from clothes. It contains no injurious ingredients, but otherwise the clothes will come out clean and white, without much rubbing or much boiling, thus saving time, labor and money—without injuring the fabric of the most delicate texture.

Cold water may be used in place of hot, requiring almost double time in washing. If water is hard or cold, it will need more soap, and consequently more rubbing and time in washing; those long worn without washing, and garments of mechanics, engineers, iron-workers, and of many other mechanics and artisans, may need more soaking and more rubbing than others. Attentive housekeepers will soon learn, by a few trials, how to suit it to different kinds of work. It is invaluable to those who are compelled to wash with hard or well water.

Cotton Prints and Calicoes, after being washed in the suds, and well rinsed, should be dried as soon as possible, to prevent colors from running.

Woolen garments and goods should be soaked and rinsed well in luke warm—not in cold—water, wrung out, stretched and dried same as convenient. It washed in cold weather, they should be dried in a warm room, to prevent shrinking. Housewives will find this one of the finest and best soaps they ever used for washing woolen hose, under-garments, skirts, blankets, merinos, delaines, etc. Also, for every kind of white—cotton, coarse or fine, cotton, linen or silk.

For cleaning Paints, make about the same suds, or solution as above, using a cloth or sponge, if paint is new or is often cleansed, when paint is old or much soiled, a brush may be needed. We have assortment for good trade keeper, after once learning its value, will wish it be without it; and if they can procure this, it is an honest soap, offered in confidence to an intelligent public, by established soap manufacturers, who have been manufacturing for nearly half a century, and who still continue to manufacture every variety of soaps, Family Toilet and Plain Soaps, and to whom prize and other medals have been awarded by the Pennsylvania and several other State Fairs.

Sold throughout the United States, by wholesale Grocers and druggists, at the manufacturers, cheap, at the Family Grocery and Provision Store.

It is our wish that dealers and consumers may all be supplied with the best article of the kind in the firm, for the coming year. Terms, cash. Be sure and ask for sawyer's then and Olive Erasive Soap. It is put up in pound lumps—in a box. Colors: Pure white and lemon.
