The reporter of the Cincinnati *Gazette* had extended him, at Harper's Ferry, extraordinary courtesies. He had detailed an officer to wait upon him. Hearing he was from Ohio, (the Virginians seem to have a perfect dread of the name,) and seeing his notes, which resembled the cypher in which Old Brown's letters were written, he was at once suspected of being a spy, and was accordingly taken into custody, in company with the reporter of the Baltimore *American*. The chivalry were soon assured, however, that they had nothing to fear from their prisoners, as they were simply innocent newspaper reporters, and they were set at liberty. Old Virginia is evidently pretty badly spared.

THE FRANKLIN RELICS.—It is understood that the whole of the greater portion of the interesting relics of the ill-fated expedition of Sir John Franklin, brought home by Capt. McClintock, of the Fox, will be deposited in the Patent Hall of Greenwhich Hospital, and will thus complete the relics already exhibited in that establishment as having belonged to Sir John Franklin and others of the crew of the Erebus and Terror, deposited a few years ago.

FEEDING SHEEP VERSUS DRIVES.—Moths who is a highly enlightened and practical English agriculturist, says he is convinced that beef must sell at 20 per cent higher than mutton to make them pay alike. He also remarks that he agrees with a friend of his, who says, that he who keeps many bullocks will neglect his own will.

SHELLED VERSUS EXPOSED.—By an English experiment it has been proved that sheltered sheep ate one-third less of linseed cake and two pounds less of turnips per day, and yet the increase of those sheltered as compared with those that were not, not consumed more food, was as 56 is to 36.

FOR SALE,
The Star Nail Works,
IN IRONTON,
LAWRENCE COUNTY, OHIO.

IN consequence of the decease of two of the stockholders, the STAR NAIL WORKS are now offered for sale at a great bargain. These Nail Works are situated in the Iron Region, in the Southern part of Ohio, about 3 miles above Portsmouth, and 112 miles above Cincinnati. The main building is 250 feet in length, by 110 feet in width, substantially built, and contains new and improved machinery, consisting of 3 steam engines, 20 nail machines, 4 machines for making nail kegs, also 10 boiling furnaces and 3 heating furnaces, together with the necessary rolls, and has a capacity to manufacture 250 kegs of nails every 12 hours. In addition to above, and to connect with the Nail Works, 40 acres of Coal Land, 3 miles distant by railroad, and delivering coal at the mills at a cost not exceeding one dollar per ton; and has peculiar advantages for shipping nails to river points at all seasons, as the Ohio river at this point and below is seldom closed. The location is regarded as the best in the country for supplies of pig iron and coal, as there are 9 blast furnaces within 30 miles, 8 of which bring their iron direct to town by the Iron Railroad; and the surrounding hills abound with coal and fire clay of easy access. Any further description is deemed unnecessary, as purchasers will desire to examine for themselves.

If not sold previously, the above property will be offered at public sale on THURSDAY, the 24th day of November, 1859. For terms, apply to STEER, JAMES & CO.,
Or, JOHN PETERS.

Valuable Coal Property for Sale

THE Widow and Heirs at Law of Cyrus Prentiss, late of Portage county, Ohio, deceased, offer for sale the Coal Mines situate in New Cumberland, Hancock county, Virginia—being the mines purchased of Alfred Chapman, B. W. Chapman and A. O. Chapman—consisting of 400 hundred and twenty-three acres, with the appurtenances and privileges conveyed by the above parties to Cyrus Prentiss, on the 20th day of April, 1857. There is a stratum of 6 feet of Coal on the above premises now opened—from 2000 to 4000 bushels can be mined and delivered at the Ohio river per day. Also all the minerals on 107 acres known as the Carson Farm, consisting of 50 acres of a 5 foot vein of Coal connected with the Chapman purchase, and can be worked from the same openings—and is also rich in Iron Ore, Fire Clay, &c. The mines are the most valuable of any now worked on the Ohio river. The quality of Coal is equal to Pittsburgh or Youghiogheny. The location of these mines, 70 miles below Pittsburgh, presents advantages for shipping Coal not possessed by any above the locality. All the appliances for mining and delivering Coal are in perfect order, and can go into operation at any moment.

This presents a rare opportunity for any individual or company wishing to engage in Coal Mining, as the property will be sold below cost on favorable terms.

A good title to the above property will be made to the purchaser.

John Whittlesey and Richard B. Knapp, the Administrators in Virginia, will attend on the premises to exhibit the property to parties desiring to purchase. For further particulars inquire of Cyrus John Whittlesey or Richard B. Knapp, New Cumberland, Hancock county, Va.; or Samuel J. Hopkins or J. S. Prentiss, Ravenna, Portage county, Ohio.

In connection with the above, the Administrators offer to sell, if desired, the personal property and property used in the mines—consisting of Horses, Mules, Cars, Barges, Steamboat Flats, Steamboat, Wharf Boat, &c.
Ravenna, Ohio, Sept. 6, 1859. octl5-dwlm1w

Ohio Land for Sale.

THE subscriber offers for sale one-fourth lot, township 12, range 19, Stark county, Ohio, commonly known as "Bowman's farm," containing 40 acres. It is situated three miles west of Massillon, on the State road leading to Wooster, and within about two miles of the Pittsburgh, Ft. Wayne and Chicago Railroad. The south and north-east quarters are partly cleared and improved—the remainder is timber. The soil is superior, timber and the whole is well watered by springs and branches. The situation is considered the finest body of land in the county. It will be sold in separate quarters to suit purchasers. To those who desire to leave a comfortable home and better opportunity is rarely offered.

POPULAR ESSAY ON THE DISEASES, INCIDENT TO TRADES AND OCCUPATIONS.

It is our purpose to write, as briefly as possible, concerning the diseases and disorders incident to certain occupations, including their causes, symptoms and modes of cure. We shall do this in plain language, and in a straight forward way. Our purpose is twofold—firstly, to give some curious facts not generally known; and, secondly, to bring forward truths to view the ready result of hand in RAPHAYE'S REMEDIES. We frankly state that the trouble we are taking is a business transaction meant to benefit both the public and ourselves.

The diseases springing from various trades arise either from the very nature of the occupations, from the materials handled or used, or from bad habits. Scarcely any of the pursuits are necessarily unhealthy, but men will be as imprudent in their business as in their pleasures, and suffer for their neglect of precaution.

Let us look first at those who under their employment handle materials.

Copper-Smiths, Brass Founders, Brasiers, and Founders get their manipulations of copper and its compounds, into their system either the impalpable dust of its oxides or salts, or their fumes. The results are a copper disease, whose symptoms may vary more or less in violence, sometimes creeping slowly along, until the system is totally contaminated, or absorbing at once into more apparent disease. The victim to the copper disease notices, perhaps, on rising in the morning, a metallic acrid taste in the mouth, a slight constriction of the throat, the tongue dry and parched, and sometimes sickness at the stomach. He thinks he has caught cold, and probably takes some aperient and sweat, which leaves him worse than before. At times there comes on attacks of colic. If dysentery is at all epidemic, he is very liable to attacks of it, and his vomits and bowelsmen as to doctors call them, namely, his pain in the bowels and disposition to stool, are exceedingly violent. Often a bitter taste is noticed on waking, and his tongue is coated with a few weeks the most critical case of leaden is effected.

Patients too numerous to mention have been restored to perfect health and forever rescued from the snares of the numerous dangerous unqualified pretenders in this city. Hospital and private testimonials and certificates from the most eminent physicians and surgeons in England, in whose presence feef persons have been cured, and many address DR. JOHNSON, Drawer 404,

Medical.

Physicians,

who are frequently much exposed, should never be without the REMEDY RELIEF, especially in visiting patients sick with contagious disease. The head, hands and face thoroughly washed with it, and a full dose of it taken internally just before the visit, will effectually prevent contagion. The power of the REMEDY in the matter of contagious diseases is really wonderful. It is a sure preventive to Small Pox, and to a well-known disease among cattle, known as black-leg, depending, no doubt, upon some contagious virus.

Drovers and Cattle-Dealers,

Throughout the South and West, look upon it as a sure and infallible remedy in all such cases. Hence, it is

Boatmen, Planters, or Farmers Boarding on Low, Swampy, Overflowed Grounds,

will find the REMEDY a perfect specific against Fever and Ague and other malarious diseases.

Planters and Slaves,

the former from the nature of their business, the latter from their manipulations, are liable to be attacked by the Intermittent Fever, which is characterized by the alternate chill, fever and sweat, and the REMEDY RELIEF is the best remedy for this disease. The former should be dosed with the REMEDY RELIEF, and the latter and REGULATING PILLS, and the latter should be rubbed with the REMEDY RELIEF.

Painters and Masons,

are constantly exposed to the effects of the poisonous lead, from the contact of the lead with the skin, and from breathing the fumes of the lead. The former should be dosed with the REMEDY RELIEF and REGULATING PILLS, and the latter should be rubbed with the REMEDY RELIEF.

Gilders and Bronzers,

are subject to the effects of the poisonous lead, from the contact of the lead with the skin, and from breathing the fumes of the lead. The former should be dosed with the REMEDY RELIEF and REGULATING PILLS, and the latter should be rubbed with the REMEDY RELIEF.

Gold and Silver Refiners and Founders,

are subject to the effects of the poisonous lead, from the contact of the lead with the skin, and from breathing the fumes of the lead. The former should be dosed with the REMEDY RELIEF and REGULATING PILLS, and the latter should be rubbed with the REMEDY RELIEF.

EYE AND EAR.
DISPENSARY.
Office 95 Main St., (2d floor, up stairs) Buffalo, N. Y.
ESTABLISHED BY THE CELEBRATED DR. JOHNSON, late of London, England.

A great discovery in the science of vision, being a certain and speedy cure for restoring the sight and removing all diseases peculiar to the eye, which is universally acknowledged the only safe and sure remedy ever known to have been used with great success by the ablest physicians and surgeons.

Patients in any part of the country can treat themselves successfully at a moderate expense, thereby avoiding the danger and expense of travelling to the place of residence of the physician. This medicine (sufficient to cure) will be sent to any part of the Express, with all necessary directions on receipt of Ten Dollars.

Dr. Johnson's Certain and Infallible Cure for Deafness and Singing Noises in the Ears, Nervous Head and Mind Complaints.

Affecting instances relief to sufferers who have been deaf and blind for many years. After using this remedy a few days the patient is suddenly and almost intantaneously enabled to hear ordinary sound conversation, and in the course of a few weeks the most critical case of deafness is effectually cured.

Patients too numerous to mention have been restored to perfect health and forever rescued from the snares of the numerous dangerous unqualified pretenders in this city. Hospital and private testimonials and certificates from the most eminent physicians and surgeons in England, in whose presence feef persons have been cured, and many address DR. JOHNSON, Drawer 404,
Office 99 Main st., Buffalo, N. Y.

A case of this condition (enough to effect a cure) will be forwarded to any part of the country for Fifteen Dollars.
