THE PAPAL VOLUNTEERS IN ROME.—A letter from Rome, of the 20th of June, in the Paris Patrie says:—The Marquis Emmanuel de Gregorio, the commandant of the first military division, has resigned from the following motives:—A Hungarian officer of noble family serving in the Papal army was in garrison at Viterbo. The officer, who was of a very sedent temperament, had been put under arrest for a few days for I know not of what fault—He remonstrated; the affair was referred to Rome, and the punishment, instead of being lessened, was increased to a week's imprisonment. The Hungarian became desperate, and committed suicide in prison. The first report made to the Pope proved out to be false, and his holiness determined to ascertain the facts precisely. An inquiry was commenced, and the innocence of the officer clearly proved. Strong reproaches were addressed to General de Gregorio, on the subject, and as he had other causes of discontent since the arrival of General de Lamoriciere, he sent in his resignation, which has been accepted. The Irish volunteers at Ancona have, from what cause I know not, addressed complaints to the English consul—That functionary showed them the act of parliament, declaring that any Englishman taking service under a foreign power loses his rights as a British subject, and told them that he could not do anything for them. Colonel Guerra has been named commander-in-chief of the engineers at Ancona.

A BULLET IN A MAN'S HEART FOR EIGHTEEN YEARS.—In June, 1842, John Kelly was accidentally shot, at Chatham Four Corners, Columbia county, N. Y., and the bullet was bedded somewhere under the collar bone. This man died on the 15th of last June, and the body was examined by two surgeons, Orville Terry and G. B. Balch, who certify to finding the missing bullet in the substance of the heart; they also advance the theory that this ball remained in the vein where it was first lodged, whence it passed through a larger vein into the heart, and that the irritation from its presence is that delicate organ, caused the abnormal action of the heart, which has since then, caused the man so much difficulty and distress.

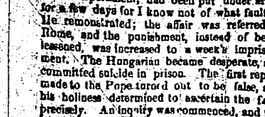
RUSSIAN EMANCIPATION.—From the special St. Petersburg correspondence of "Le Nord" we have the following:

"The question of emancipation is near a solution. In some way or other, it seems to be definitely settled that the serfs shall be emancipated during the coming autumn, that is to say, after the close of the harvest. The Imperial statesmen, deciding this great measure, will, therefore, appear about the last of October, or during the month of November.

Mr. Wm. Karns has prosecuted Mr. Reuben Brown, for a libel, in Berks county, said libel alledged to be in a "card" published in the Reading Gazette. The names of both these persons have been connected with the forged naturalization papers which carried our State for Buchanan in 1856, and the suit grows out of a dispute between them in regard thereto. This seems to be one of those cases where it is said honest people get their dues when certain other people fail out.

VERY SENSIBLE CONCLUSION.—An old man said—"For a long time I puzzled myself about the difficulties of Scripture, until at last I came to the conclusion that reading the Bible was like eating fish. When I find a difficulty, I lay it aside and call it bone. Why should I choke on the bone, when there is so much nutritious meat?"

MCCORMICK'S REAPER AND MOWER.



20,000 Sold in the Last Five Years!

Being a Larger Number than is Manufactured by any other single Establishment in the world.

THE MACHINE for 1860 will be found so greatly improved as fully to meet the wants of farmers, both on a Reaper and a Mower—so modified in its construction, as now to be

THE ONLY COMPLETE MACHINE

for both purposes. While cutting a swath several inches wider than the Two Horse Machine of past seasons it is as a whole, narrower, lighter and stronger, and will run much easier—with no material side draught. We present, therefore, for the coming season, a machine not wider than those of most makers, with a light draught for two horses, in Reaping or Mowing—LIGHTER THAN IS REQUIRED BY ALL MANUFACTURERS MACHINES. By the protection of balancing of this machine, in connection with a patented compressed tongue, (with the wheel frame,) the cutting apparatus, when moving, is now easily thrown over obstructions while in motion, simply by the weight of the driver in his place, thus dispensing with all levers and complicated arrangements to effect the same object.

The machine of 1860 will be found superior as a MOWER, presenting some peculiar features *not attainable by other machines*. The Two Horse Machine, though cutting about five and one half feet wide, is of light and easy draught, accomplishing a *greater amount of work* with a *less expenditure of power* than any machine made.

A warranty is given to every purchaser, and in addition, the following pledge is made: *Any farmer, who may deem it, in all respects, not the best machine in use, may return it, and say so, and pay for the one PATRONIZED.*

For further particulars, as also for patent claims under which this machine is built, we refer to our annual pamphlet, which will be furnished on application to us, at Chicago, or either of our many agents.

Sample machines can be seen at all prominent points.

Prices of machines as thrown in Chicago, St. Louis, Indianapolis, Cincinnati, Louisville, Pittsburgh, Cleveland and Buffalo not—charges following from these points:

For Four Horse, complete.....$165
For Two Horse, complete.....140

Quack Nostrums.

THE NEW YORK DEAL BOOK says:

"The majority of Hair Washes, Hair Dyes, Hair Tonics, Hair Oils, and the numberless preparations which are now before the public under such extravagant, hyperbolical and fantastic titles as we see garnished in show windows and newspaper headings, as hair preparations, are all humbugs of the first water (their real merit, when they possess any, is, that they do no harm. BOGY'S LAD WHALE OIL, LARD OIL, SWEET OIL, castor oil and color, make up, when in beautiful wrappers and white flint glass bottles, the costliest character of tonics, and when thus costly, are bepaffed with some triplitate term, and bought at by vacant young and old of both sexes. Such is not the character of Professor Wood's Hair Restorative. This gentleman comes before the world without any "high falutin" Alophakotion, or any other astounding and startling catchpenny terms, he simply advertises a *Hair Restorative*—what it expresses precisely—and as a Restorative, it acts. Buy Professor Wood's Hair Restorative, and as you wash your scalp, you your very brains, apply soft water and lather freely, you will see some wonderful change then performed lard oil on your crotchum. Remember, Wood's Restorative for the Hair is the best article extant."

It Will, by Nature's own Process,
Restore Gray Hair to the Original Color,
Will make Hair Grow on Bald Heads,
Will restore the Natural Secretions,
Will prevent once all Itching,
Will remove all Dandruff,
Will cure all complaints—even Scald Head,
Will make the Hair Soft and Glossy,
Will make the old appear young again,
Will preserve the Color of Hair to old age,
Will always Factor it and stop its Falling,
And is one of the best Toilet Articles for the Hair now in use.

DR. MOTT'S
CHALYBEATE
RESTORATIVE
PILLS OF IRON.

AN APERIENT AND STOMACHIC Preparation of IRON purified of Oxygen and Carbon by combination in Hydrogen. Endorsed by the highest Medical Authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and others sickly complexions indicate its necessity in almost every conceivable case. Innoxious in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhœa, Dysentery, Sallow Complexion, Scrofulous Tuberculous, Salt Rheum, Rheumatism, Whites, Chlorosis, Leucorrhœa, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In case of General Debility, whether the result of acute disease or of the continued elimination of nervous and muscular energy from chronic complaints, one trial of this new tonic will prove successful to an extent which no diffuse or prolix written attestation would render credible—Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if from return from protracted travel in a distant land. Some very signal instances of the kind attended of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of Iron must necessarily be salutary, for, unlike the old oxide, it is vigorously tonic, without being exciting and consequently, regularly aperient, even in the most obstinate cases of costiveness, without ever being a gastric purgative, or inducing a disagreeable sensation.

It is this better property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single bottle of these Chalybeate Pills has often evidenced for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhœa, even when advanced to Dysentery, continued, scarching, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and results to hectic, which generally indicate incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculous, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of Iodine, without any of their well known liabilities.

The attention of families cannot be too cautiously invited to this remedy and restorative, in the cases peculiarly adapted to them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West, will probably be one of high reserve and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills; price 50 cents per box; for sale by Druggists and other Dealers in Medicines, and forwarded free of postage on receipt of price. All letters, orders, etc., should be addressed to

DOLLAR SAVINGS BANK,
No. 65 Fourth Street.
CHARTERED IN 1850.
OPEN DAILY FROM 9 TO 2 O'CLOCK, first to November first, from 7 to 9 o'clock, and on Saturday evenings, from 6 to 8 o'clock.
Deposits received of all sums not less than one Dollar, and a dividend of the profits declared twice a year, in June and December. Interest has been declared semi-annually, in June and December, since the Bank was organized, at the rate of six per cent. a year.
Interest, if not drawn out, is placed to the credit of the depositor as principal, and bears the same interest from the first days of June and December, compounding twice a year with the principal. It is of more advantage to all or any to present his pass book. At this rate, money will double in less than 12 years, making in the aggregate MORE AND ON PAY THAN ONCE a year.
Books containing the Charter, By-Laws, Rules and Regulations furnished gratis, on application at the office.
