Register,
WILLIAM J. RICHARDSON, Temperanceville.

Recorder,
JONATHAN P. ROSS, Allegheny.

Commissioner,
GEORGE HAMILTON, Pittsburgh.

Auditor,
BENNETT LAKIN, Elizabeth.

Surveyor,
C. McGOWIN, Pittsburgh.

Director of the Poor,
HENRY GRAFFART, Wilkins.

New York.—The distracted, divided, dispirited, despairing democracy have had a gleam of light in the midst of the terrible darkness that besets them; and strange to say, it has fallen upon their despairing vision through the bull's eye of the dark lantern. The Know-Nothings of New York (what is left of them) are, it seems, to be transferred to Douglas, and all at once the democracy are jolly with the faintest shadow of a hope that they can carry that State.

There are many strange things in politics; but nothing could possibly be stranger than a coalition between the Douglas Democracy, composed in large part of Catholics, and men who have sworn to "Put none but Americans on guard." Nothing could more strikingly exhibit the degeneracy of the democratic party, and the total destitution of principle of the men into whose hands it has fallen; nor could anything be more base than this act on the part of the "Americans" who become a party to such an arrangement. If it could be consummated, it would illustrate the very lowest depth of political degradation.

But it cannot be, at least it will not be, consummated. The Buffalo *Commercial Advertiser*, always a warm "American" paper, compares it to the offer of a man who had lost a large number of saw-logs by the breaking of a boom, and proposed to a fellow sufferer to give him, for every saw-log recaptured, a deer running wild in the forest. It says:

"Now it seems to us that the result of the late Union Convention at Utica is pretty much after the fashion of this proposition. The Union men agree to deliver to the Douglas men some sixty thousand American saw-logs, running down stream like mad in a Republican freshet. The Douglas men pass over to the Union party something still more intangible, and if ever the Union leaders see anything more than the tail of that Douglas venison, so clearly promised, we shall be astonished. We are tolerably well posted on the American vote of New York. It is 'recalcitrant, individualized, independant, knows no leaders, and now that the boom is broken, it will float off on the swift-rolling tide of the Lincoln flood beyond the reach of bargain and sale. Such a distinguished American—not Union—leader, a few days since—'I always found it easy enough to sell out the American vote; *the trouble was to deliver.*'"

The *italics* in this extract are significant. The "American" party of New York cannot be transferred. It has been broken up, and its members will go just where they please. A few may go for Douglas; but enough have already declared for Lincoln to make his election certain, and the most of the remainder will gratify their personal preferences by following them.

NORTHERN PENNSYLVANIA.—In the old Tenth Legion, comprising Carbon, Northampton, Monroe, Pike and Wayne, the democrats are mainly for Douglas; so also in Luzerne; but in Columbia and Montour counties the democratic papers support Breckinridge. The *Star of the North* has Foster's name up for Governor, but no candidate for the Presidency, evidently undecided on this point, but says that Breckinridge and Lane are the decided choice of the people of the county. The Danville *Intelligencer* talks of the renegade Forney and Breckinridge and Lane first from its masthead.

The Columbia *Democrat* prints both sets of candidates, but gives Breckinridge and Lane the preference.

The Berwick *Gazette* hoists the Breckinridge and Lane flag, which it calls the "National Democratic Ticket," and says that it reflects the enthusiastic wishes of an immense majority of the Democracy of Columbia county. The *Gazette* has letters from various parts of the county declaring that the Democracy are "almost solid for Breckinridge and Lane."

So far as we are enabled to see, the democrats of Columbia, Montour, Northumberland, Lancaster, Berks, Dauphin, York and Montgomery—comprising a very large portion of the democratic vote in the interior, will mainly support Breckinridge; those of the "Tenth Legion," Luzerne and Schuylkill, will support Douglas; the central counties are about evenly divided; while a majority in Philadelphia, the Wilmot district, and Western Pennsylvania generally, will support Douglas. This would give Douglas the preponderance over Breckinridge; but not to so great an extent as is generally believed.

INTERESTING HABEAS CORPUS CASE.—We invite attention to the very able opinion of Hon. HENRY W. WILLIAMS, of our District Court, in relation to the arrest of persons by inferior Magistrates, charged with offences against the laws of other States. The opinion of Judge Williams is a luminous exposition of the law and will form a precedent in all similar cases which may hereafter arise.

We may take this occasion to say, without impropriety, that the legal acumen, patience and unerring accuracy of Judge Williams in all his judicial labors, has won for him the confidence and esteem of the legal profession in an unusual degree. He is regarded by the Bar, the most intelligent judges of real merit in this behalf, as a jurist of rare excellence and worth. We could not say less than this and do justice to a gentleman who for now near ten years has adorned the Bench of this county with a learning and ability which challenges public admiration.

BENEVOLENT NOMINATIONS.—The Republicans of the Westmoreland and Fayette senatorial district have nominated Dr. Smith Fuller, of Fayette, for the Senate; and those of the Washington and Greene district have nominated George V. Lawrence.

These are both excellent nominations, and are not without a fair prospect of success. Both districts were, when framed, strongly democratic; but under present circumstances they both may be regarded as doubtful, with the chances in favor of the Republican nominees.

NOT QUITE.—The N. Y. *World*, referring to the meeting recently held in Connellsville, Fayette county, relative to the railroad bonds issued by that borough, says "Fayette is in Allegheny county." Not quite. Fayette is a county by itself.

A HIGH COURT TRIBUNAL.—Milwaukie, Wis., which gave Buchanan in 1856 some 6000 majority, elected T. H. Tweed, Republican, City Treasurer, on the 18th, by 992 majority.

BRECKINRIDGE IN WESTMORELAND.—The Greensburg *Herald* says that the Democrats of that borough, at a meeting called to form a Democratic club, refused to endorse Stephen A. Douglas and Popular Sovereignty, and after due consultation and discussion, decided that they would not form a Douglas and Foster Club.—A Breckinridge meeting has also been held in Adamsburg, in that county; and we hear that there is a very strong Breckinridge feeling among the democrats throughout the county.

Westmoreland is Foster's own county, and Foster himself is now strongly suspected of being a Breckinridge man. Bigler distinctly claims that he is opposed to Mr. Douglas, but is advised against expressing his preference for Mr. Breckinridge at present. The game of these managers is to concentrate the support of both wings upon him, and then to claim his vote as an exhibition of Mr. Breckinridge's strength in Pennsylvania. This was the design of the State Committee, in proposing a pledge, when the administration had already secured a majority of the electors nominated at Reading. Do the Douglas men want to be cheated in the Governor's election? If not, let them beware of putting faith in Foster. Bigler has him in his toils, and he *dare* not avow himself against Breckinridge.

THE CENSUS.—The few returns received from Fayette county do not compare very well with 1850. The following are all yet given:

	1860.	1850.
Union borough	2020	2233
North Union	1768	
South Union	960	2873
Menallen	1414	1411

There is a falling of 465 in these four districts.

We have returns from Kinzua, Corydon and Elk township, Warren county, which show an aggregate population of 1179 against 774 in 1850, and 92 farms, 25 manufacturing establishments; capital invested in the manufacture of lumber, $80,000.

Frederick township, Berks county, has 1782 inhabitants; an increase of 352 in the last ten years. It has 220 farms.

Lancaster city is reported to have 20,000 inhabitants against 12,369 in 1850.

We have the census of three wards in Trenton, N. J.:

First Ward	2600
Third Ward	3700
Fourth Ward	2600
Total	8900

SHOCKING FATE OF A LOST CHILD.—Several notices have recently been published in the Newark (N. J.) journals concerning a child named Thomas Henry Finley, aged 4½ years, who disappeared on July 5th, having followed from home the band of the Turners, who had a picnic on that day. His dead body was found on Saturday, near the Kossuth Woods, on the "Neck," almost imbedded in mud. The child had evidently followed the procession to that vicinity, and having started to return to his home, over the meadows, had become fastened in the mire, and perished from exposure and hunger. During the night of the 5th his cries were heard, but nothing unusual was suspected and no search was undertaken. The face and nose of the unfortunate lad had been eaten away, probably by muskrats, and the body was otherwise mutilated. One thumb was sound in his mouth, showing that in the agony of starvation the lad had attempted to relieve himself. He had perhaps lingered in this horrible condition for two or three days, under a broiling sun by day and exposed to cold by night, and finally perishing.

DELAWARE.—We have advices from well informed sources in this State, assuring us that but two tickets for State Officers, Congress and Legislature, will probably be run in this State, termed respectively the "Democratic" and the "People's." The latter will be supported by both the Lincoln and Bell men, as the former will by Breckinridge and Douglas men. The parties are very nearly equal in strength, but the People's party are quite confident of success. For President, four distinct tickets will be run, and the prospect of the Breckinridge men is best, as Douglas makes but a small inroad into the Democratic ranks, while the People's party is divided much more equally.

MUNIFICENT FARE.—In referring to the fact that the United States District Attorney of Louisiana has been instructed to appeal the cases of the prize steamers Miramon and Marquis of Havana, recently decided by Judge McCaleb against the claims of the captors, the New Orleans *Delta* states that Mr. Soule, who has conducted the defense, received a fee of ten thousand dollars. It is also stated that Mr. Benjamin has received a retainer of $12,000 to proceed to California to argue the question of title to the Alameda quicksilver mines, and that his contingent will amount to half a million.

IT is announced that the Constitution, "Old Iron Sides," will soon be in service again. Orders have been received at Portsmouth, New Hampshire, where she has been lying in ordinary, to fit her out immediately for sea. She is to be armed with a heavy battery, and to proceed at once to Annapolis, there to take on board the cadets from the Naval Academy. Thence she is to proceed to some port in the English Channel, whence her cruise will be extended to most of the interesting points on the Atlantic and along the shores of the Mediterranean.

IT is reported that a large number of the streams in the northern portion of Rhode Island are dry. As a consequence the mills are at a stand still, and operatives are idle. The showers which have fallen with frequency, have not contributed in the least to raising the streams. With a demand for goods, and no water to run the mills, the owners are naturally in an unenviable position.

Among the appropriations to be voted by the British Parliament is one of $50,500 for Dr. Livingstone's explorations in Africa, for which another steamer is needed. The discoveries of Dr. Livingstone are regarded as of the greatest importance at the Cape Colony, and the Colonial Legislature has appropriated funds to keep up a regular inland communication with the exploring party.

METALIC MANURE.—The scales of iron that accumulate around the anvil of a blacksmith's shop are more valuable than manure for peach trees. A shovel full put around a healthy peach tree will be very likely to keep it in good condition, and it is said that trees already diseased have recovered by the application of these scales. Iron in any form will answer a good purpose.

THE CONFLICT IN ENGLAND.—The Douglas and Breckinridge factions in the ancient town of Jonesboro have mutually passed a Non-Intercourse Act, by the terms of which the Douglas men have resolved not to trade at the Breckinridge stores, and the Breckinridge families have determined not to visit the Douglas families nor to recognize them as respectable members of society.—*Chicago Press.*

A FOOTING HOME.—The story going the rounds about a cargo of slaves having been landed in Mobile Bay, turns out a hoax. The story sprung up from the fact that a planter from Alabama had been to a more northern market, and while there had purchased a lot of hands for his plantation.

THE population of York, Pa., by the new census, is about 10,000. In 1850 the population was 6,863. This shows a very handsome increase, but not as large as was expected by many.

The Crops.

HARVEST.—Our farmers have had two weeks of delightful harvest weather, and are generally done cutting and hauling in their wheat and hay. The wheat is generally of a good quality, but few fields escaped being more or less "winter killed," so that the aggregate amount in this county is not more than a good half crop. Rye is not so generally cultivated by our farmers, but it yielded better in proportion to the quantity sown this year than the wheat. The oats crop was never better, and we believe we may say as much for the hay. The corn is now in a most critical condition, and unless we have rain in a few days may prove a failure although we never had a more promising prospect.—*Uniontown Stand.*

PROSPECTS OF THE WHEAT MARKET.—Our farmers are now securing an abundant harvest of Genesee wheat. All concur in saying that the yield is not only handsome, but the quality is remarkably fine. Some few parcels contracted for will arrive this week, and more next. What the opening price will be is unsettled. We have no other criterion by which to judge, than the fact, our dealer has contracted, on speculation, for a number of crops at $1 per bushel, delivered in a reasonable time after harvest—say three or four weeks.—*Roch. Union.*

THE Milwaukee *Daily Wisconsin* says that more Eastern "drummers" have passed through that place in the last thirty days than for two years before. "This shows that the promise of a good crop has done much to raise the credit of the West again, and that Eastern merchants have not doubted the inclination, but only the ability of our merchants to meet their obligations. The large crop this year will enable us to purchase much more goods from the East than we have done for ten years past."

NEW WHEAT.—Col. W. H. Baily had some two or three hundred bushels of his new wheat thrashed, one day last week, 200 bushels of which were purchased by Lewis & McClelland, and converted into flour at Barton's Mill, which they are now selling to their customers.

We hail the return of our home-made flour, as the harbinger of better times and better bread.—*Uniontown Standard.*

DR. THOS. C. STATES of Pettis county, Mo., and formerly a strong pro-slavery man, has announced himself as the Republican candidate for Congress in the Fifth Congressional District of that State. He is strong for Lincoln and Hamlin, and says he intends to canvass his district.

"WEASTLAND."—The report in circulation last week, that President Buchanan had sold his residence near this city, known as "Weatland," has no foundation in truth, as we learn from a reliable source. The property is not for sale.—*Lancaster Union.*

Catarrh! Catarrh!! Catarrh!!! Catarrh!!!!
What is it? How Cured?

Thousands of persons suffer all sorts of annoyance from Catarrh. Most people know what its inconvenience and results are, yet but few know how it can be cured. It is simply a chronic irritation and often enlargement of follicles and consequent thickening of the mucous membranes, lining the nasal cavities, frontal sinuses, and sometimes extending into the throat and lungs. From this result tightness and often vertigo of the head, obstructed nose, or a profuse flow of mucus, loss of smell, nasal voice, and often impaired hearing and taste.

The old school remedies have never been able to do any thing for it. Nasal injections and inhalations are as painful and expensive as they are generally worthless. Yet Dr. PERSOY'S CATARRH SPECIFIC, a simple *Sugar Pill*, taken one or three times per day, promptly cures the milder cases, cures at once all colds in the head, and radically cures, by persevering use, the most obstinate cases, as is proved by the experience of hundreds.

Price, with full directions,
Fifty Cents Per Box.

N. B.—A full list of HUMPHREY'S HOMEOPATHIC SPECIFICS, with Book of Directions, and twenty different Remedies, in large vials, morocco case, $5; do, in plain case, $4. Family case of fifteen boxes and book $4.

These remedies, by the single box or case, are sent by mail or express, free of charge, to any address, on receipt of the price. Address Dr. F. HUMPHREY & CO., No. 562 Broadway, New York.

Sold in Pittsburgh by J. LANGE, JOHN PETTY; Allegheny City, C. P. FLEMING and J. J. KAST.

PAPER MILL FOR SALE.—The undersigned will dispose of his PAPER MILL, situated in Canton, Ohio, on the Pittsburgh, Fort Wayne & Chicago Railroad, one hundred miles from Pittsburgh. This mill has been in operation about four years. The machinery is of the very best kind, built by J. L. Severns & Co., Boston, and is in excellent order. The machine cylinder is 42 inches in size.

The building is of brick, one hundred feet long, thirty-two wide, and two stories high, the lower story being twelve feet and the upper fourteen. The steam engine and boiler house is of frame, thirty feet by forty-nine. There are two new fine tools, twenty two feet long and forty inches in diameter. The engine consists of a twelve and a half-inch cylinder, with four feet stroke. Water of the very best character is plenty. There are three rag engines, carrying two hundred and fifty pounds of rags each. The rolls are twenty-eight inches in length and twenty-eight in diameter.

The mill is in constant operation, and any one wishing to sold at a bargain. For particulars, inquire at the mill, in Canton, or of myself, in Manchester.

SUMMER RESORT,
Has had the buildings thoroughly refitted, with important additions, and the whole newly furnished. Being just over Laurel Hill Mountain, in Fayette county, Pa., and a circuit of scenes of natural and historic interest, near the National Road, only eighty miles from Pittsburgh and eight from Uniontown—the present busy terminus of the Pittsburgh & Connellsville Railroad, on which two daily through trains run—it is an easy and attractive transition from the surroundings of a
MOUNTAIN RETREAT.
The waters are strongly Chalybeate—pure and powerful tonic. Warm and Cold Baths are attached. Also, a Bowling Alley and other appliances for healthful exercise and amusement. No guests or visitors.
Horses and carriages well cared for, with which guests can be furnished for excursions to the interesting contiguous localities. A post-office is near the Springs, supplied by daily mails during the season.
The long experience of the subscriber in catering to the comforts of his friends, emboldens him to promise entire satisfaction in all respects, as well to abiding guests as transient visitors. Charges moderate. All is now ready. Come. Address ALFRED MOORLAND,
June 26, 1860—jy6:1m Fayette Springs, Pa.

MOTHERS!
READ the following testimony to the success of DR. EATON'S INFANTILE COOD ALL:
Maysville, Ky., July 20th, 1859.
DR. EATON—Dear Sir: I have much pleasure in certifying to the perfect harmlessness and efficacy of your Infantile Cordial, and cheerfully recommend it to those who have children teething. I have used it in my own family, and have sold over two hundred bottles the past year. All those who have ever used it unite in its praise for all diseases for which it is recommended it. Yours, &c.,
R. V. LATHROP.

BLOOD FOOD! BLOOD FOOD!!
DR. BRONSON—Sir: It may not be valuable, to you, to know that I have used the different Preparations of Blood Food on several cases, and uniformly with success; and that I am convinced they are a near approximation to the means of a radical cure of those cases of *Chronic Disease of the Blood* which they are prepared, then any *other* Medicinal Agencies known to the Pharmacopœia.
I recommend these Preparations as I am naturally desirous that they should be most widely tested and adopted.
R. K. BROWN, M.D.,
New York, Sept. 19th, 1858. 116 West Broadway.

RICHARDSON'S
IRISH LINENS,
DAMASKS, DIAPERS, &C.
CONSUMERS OF RICHARDSON'S LINEN GOODS, should see that the articles they purchase are sealed with the full name of the firm,
J. H. RICHARDSON, SONS & OWDEN,
as a guarantee of the soundness and durability of the Goods. This caution is rendered essentially necessary, as large quantities of inferior and defective linens are prepared, some after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturer of the genuine Goods, will not readily abandon a business so profitable, while purchasers can be imposed on with Goods of a worthless character.
J. H. RICHARDSON & J. H. COCKE,
Agents, 36 Church Street, New York.

Analytical and Manufacturing Chemistry.
GESNER'S CHEMICAL AND ENGINEERING ROOMS,
No. 28 and 29, 24 William Street, New York.
