ONLY ONE WEEK MORE.

The time is rapidly slipping away, and only one week remains for work. Within that time the final blow of the campaign is to be struck.

The effect of our victory on the 9th of October was almost instantaneously apparent. It drove all hope from the hearts of the democracy, and correspondingly elated the hearts of the Republicans. Every body conceded the triumph of Lincoln, and nothing more seemed necessary than to wait for the day of triumph to come round.

But there is danger that this elation and confidence may tend to render some of our friends a little careless about voting on the 6th of November. They feel so sure of winning, that they may forget the fact that the victory cannot be won without votes. It is true that the enemy goes into the coming fight with neither hope nor love of principle to stimulate him; but there will still be an enemy to overcome, and we must be careful that he finds no spot in our lines rendered weak by inattention or over-confidence.

A tremendous effort is making in New York and the eastern cities generally to scare the commercial element by getting up a panic in stocks and howling wildly about the dangers of a dissolution of the Union. This is the last card of the democracy. The Secretary of the Treasury is in New York, doing his best to encourage this attempt at panic, and the administration is lending all its force to this disgraceful effort at coercing the people into an abandonment of their political faith.

Much reliance is placed upon this effort. The South is not yet ready to believe that the people of the North are independent enough to think and act for themselves. It has scared them so often that it has confidence in the effects of this last and biggest scare ever yet attempted.

But it will fail. The revolution in public opinion cannot be turned back by such a device as this. The people of the North are acting upon principle, and cannot be driven from their course by a heartless appeal to the pecuniary instinct. The masses are not mercenary, and can neither be bought, sold or driven. The cry of "Dissolution" is false, hollow, insincere, and unworthy of attention; but even if it were made in earnest, no true man should heed it. Threats are not arguments; and if threatened people live long, as the proverb says, a threatened nation need have no fear of a shortened life.

These efforts at intimidation, however, call upon us to renew our labors in earnest and answer them by an overwhelming Republican victory. The time has come for testing these blowhards; and if we whip them well, as we are bound to do, we shall hear no more of their threats and bluster.

THE "DISUNION" PANIC.—As the New York election approaches, the disunion howl increases in fervor and intensity. The most ridiculous *canards*, designed to frighten the good people of the Empire State from their propriety, are daily sent from Washington by the unprincipled politicians who now disgrace the places they fill under the Buchanan administration. On Friday last two "rumors" were given to the public.—They are so absurd that we venture to say that their authors will be ashamed of them when all the excitement shall have passed away. One of them states that several Southern States, acting through a secret commissioner, have already obtained a pledge from Louis Napoleon to protect Charleston as a free port in case of secession; and the other was to the effect that the great Wigfall called on President Buchanan, and notified him to make up his mind as to what course he would pursue in the event of secession, as he would have to meet the issue *solens volens*. The very fact that these pretended movements are made public shows that they are nothing more than harmless bravado. But whether serious or not they will have very little effect upon the people for whose special benefit they were made.

These threats of disunion have already very largely increased the Republican vote in the Northern States. People of all parties, tired of this arrogant dictation from an unscrupulous minority, are beginning to say that it is time that this matter should be tested—that it should be known at once whether a President cannot be elected in the manner prescribed by the Constitution, without causing a revolution. It is better to solve this question now, than to delay its solution to some future and distant period. If the pro-slavery faction can compel the country to accept such Chief Magistrates as it has given us for the last eight years—if the people must submit to the corrupt rule of a long line of Buchanans and Pierces in order to preserve the Union, let us be made acquainted with the fact now. The true issue before the country, is simply whether Slavery or the Constitution is the law of the land—and in that shape it must be met and decided.

BELL IN THE SOUTH.—The Raleigh Register—a Southern Opposition journal—keeps standing in its editorial columns, from week to week, the following vindication of Mr. Bell's soundness on the Slavery question:

"It is contended that the South is secured in the full benefit of the doctrine held by some of the most distinguished champions of its rights, who maintain that the Constitution, *proprio vigore*, that the flag of the Union protects the citizen in the enjoyment of his rights of property of every description recognized as such, in any of the States, on every sea and in every Territory of the Union. The soundness of the general doctrine held on this point, I think cannot well be questioned or disproved; and if the question related to a Territory situated as Oregon was, when the United States came into possession of it, property in slaves would be entitled to the protection of the laws and the Constitution of the United States."

JOHN BELL.

It will be seen that Mr. Bell sequiesces in the Calhoun doctrine, that the Constitution of its own force, without the intervention of Congress, establishes slavery in the territories. In brief, he substantially endorses the Dred Scott decision. We are not aware that the Bell men of this State will vote a distinct electoral ticket. To our minds there does not seem to be any necessity for such action on their part. If they approve the sentiments of the extract which we have quoted, why not throw their votes for Mr. Breckenridge at once? If on the other hand they regard Slavery as a local institution, and not national, they should support Mr. Lincoln, who is the only candidate in the field that represents that side of the question. It is a fact which cannot be successfully controverted that Mr. Bell and Breckenridge, as far as the Slavery question is concerned, stand precisely on the same platform.

THE prospects for carrying New York must be very gloomy for the fusionists when the New York *Herald* concedes that the contest is hopeless. In an article in that paper of Friday last, we find the following:

"Common justice to all concerned demands that this idea that something may turn up to redeem New York should be abandoned. New York will vote for Lincoln, and by a larger majority, we dare say, than any other State. Lincoln will be elected. There is no use in blinking the matter any longer. We are called upon to look the thing full in the face. The best that our Union forces can now do is to save all the odds and ends of the election within their reach, such as Congressmen, Assemblymen and county officers. Lincoln will be elected, and all parties concerned may as well just now shape their courses to that event as to wait till the day after election."

The unprincipled *Express* is not as candid as its satanic co-laborer. The former paper is still crowing over the "bright prospects" of the three headed organization in the Empire State. The *Express* has been predicting triumphs for the fusionists ever since the opening the campaign. Previous to the Maine election, one of its editors, who was on a visit to that State, wrote home that the Republicans had not a ghost of a chance there. The returns of the election not realizing that prediction, its attention was next turned to Pennsylvania, Ohio and Indiana. In those States "Fusion" had a sure thing of it, but somehow when the votes were counted, matters turned out pretty much after the same fashion as in Maine. New York is now the "forlorn hope" of the disorganizers, and next week will show how far wrong they have been in their calculations in regard to the vote of that great State.

IMMENSE NUMBER OF SUFFERERS IN SYRIA.—*Measures of Relief.*—It is now certain that the extent of suffering in Syria is appalling. Nor are the full dimensions of the misery of the poor Christian fugitives been even yet ascertained. The N. Y. Journal of Commerce, by advices from Syria, learns the following facts:

"Every week, now that the strong arm of Fuad Pacha is restoring some degree of order in the plain country, if not entirely in the Lebanon districts, new masses of human wretchedness are coming to light. Only a few days preceding the 23d of September, some three thousand miserable creatures were heard of by the Anglo-American Relief Committee at Beirut, as ready to perish at or near a place called the "Cedars of Lebanon," and 30,000 plasters (or $1,200) were sent up to save them from death by famine and destitution. About the same time 3,000 wretched beings had reached Sidon, from the region of Hasbeya, who must be cared for. And finally, near 4,000 had come from another quarter, to Beirut—thus increasing the number of those who must be fed by the committee at Beirut, (and many of them clothed too,) from 14,000 up to more than 25,000! Nor does this include all the poor creatures who must be fed through the winter. As the autumn wears away and the pinching cold commences on Lebanon, hundreds and thousands who have been resting a miserable sustenance from herbs on its sides and in its ravines, will be compelled to come down to Beirut and Sidon, and they must be fed and clothed or die!"

In addition to the measures already in progress in the United States to send prompt relief, it has been suggested that on the coming thanksgiving day (which will be observed probably on the 29th of November in nearly every State of the Union) collections in aid of the sufferers be taken up in churches of all denominations. The Journal remarks that the Presbyterian Synods of New York and New Jersey have already adopted this suggestion, and adds:

"It is probable that other Synod's have done or will do the same. What can be more appropriate than that a liberal contribution should be made on that joyous occasion by the churches of a country so wonderfully blessed the past year with abundant harvests and health throughout all its extent, for the relief of these sufferers who must now be counted by tens of thousands!

WHO'S AFRAID?—The merchants of New York under the alarms of the New York *Herald*, are making gigantic efforts to buy off, and frighten off, the people of that State from carrying out their political views and sentiments just now, in the election of Lincoln. William B. Astor, we are informed, has contributed one million of dollars, and another million has been raised from the first half dozen merchants that were applied to. This is but a sample of what they are doing. These men really suspect that the South—or a small portion of it at least—is in earnest about opposing the election of the representative man of the legal and constitutional majority. Are the moneyed men of Gotham given to panics, that they should bleed themselves so freely, and in so hopeless a task, as diverting, by gold and gabble, the people of a great free State from the vindication of their political convictions? Are the people of New York so timid and so profligate in political sentiment, that an attempt so uncomplimentary to their integrity and intelligence should be gravely attempted? It is indeed an argument against their capacity for self-government—an insult to the cardinal principle of Republican Government, and a horrid slur upon the rural population of the great Empire State. In fact we are astonished at the audacity, not to speak of the immorality, of the attempt. We presume, however, that as fear is unscrupulous, under the higher law plea of necessity, these bad practices are reconciled to the consciences of terrified merchants. To their morbid apprehensions, as a matter of policy it seems better to contribute a large share of what each is worth, than to lose the greater part of their property in the depreciation and panic that must follow, at the North, the dreaded dissolution of the Union.

But who is it that is cruelly terrifying these Northern princes, and making them come down to the work of defeating Lincoln? Has the South got them by the pockets, that they should display such zeal, and do they know it? Is it the disunion braggadocio at the South that induces them at this late day to make such herculean exertions? We ask for information. May be it was the disunionists of the States-Rights Democracy that elected Mr. Buchanan in '56, by pitting interest against inclination at the North. In this instance, however, we are sorry to believe the New Yorkers may save themselves the trouble. The City is not the State, and the people of the interior of New York are too many, if not too honest, to be bought, nor can they be frightened by Southern thunder.—*Charleston Mercury, October 24.*

HEALTHFULNESS BY APPLES.—There is scarcely an article of vegetable food, says Hall's Journal of Health, more widely useful, and more universally loved, than the apple. Why every farmer in the nation has not an apple orchard, where the trees will grow at all, is one of the mysteries. Let every family lay in from two to ten or more barrels, and it will be to them the most economical investment in the whole range of culinaries. A raw mellow apple is digested in an hour and a half, while boiled cabbage requires five hours. The most healthy desert which can be placed on a table, is a baked apple. If taken freely at breakfast, with coarse bread and butter, without meat or flesh of any kind, it has an admirable effect on the general system, often removes constipation, correcting acidities, and cooling off febrile conditions more effectually than the most approved medicines. If faithfully could be induced to substitute the apple—sound, ripe and luscious—for the pies, cakes, candies, sweetmeats with which their children are too often indiscreetly stuffed, there would be a diminution in the sum total of doctors' bills in a single year, sufficient to lay in a stock of this delicious fruit for a whole season's use.

NOT HUNG.—The two Hitchings, father and son, arrested near Chersw, S. C., on suspicion of being engaged in an insurrectionary plot, have not been hung as reported. They were tried before a committee of seventy persons selected from the several best companies in the district, and were acquitted by a vote of eleven for hanging and fifty-nine against it. The committee determined that the two Hitchings should leave the State, and appointed a sub-committee of six, who forthwith performed the duty of conducting them to North Carolina.

CENSUS OF VERMONT.—Sufficient returns of the late census have been received to show that the population of Vermont has decreased since the census of 1850. In four counties the losses amount to 4,413, and in two other counties the gains are 2,443, showing a real loss of about a thousand. The total loss of the State, it is thought, may be four or five thousand. This is, we believe, the first instance in the history of the country where the population of a State has receded in the course of ten years.

SNOW IN SOUTH CAROLINA.—The Pickens (S. C.) *Courier* furnishes the following:

"A sudden change of the weather occurred on Saturday. It was unusually cool. There was snow in some sections of the district, and the mountains north of us were covered to the depth of four to six inches with it. We have since had killing frosts."

A LICK AT THE IRISH.—Cornelius O'Brien, an Irishman, was the Democratic candidate for Supreme Court Clerk in Indiana. In the township of St. John, Lake county, where the vote stood for Hendricks (Dem.) 158 to 21 Republican, O'Brien did not get a single vote, and he ran greatly behind throughout the whole State.

No man can vote in South Carolina unless he owns ten negroes, or real estate of the value of ten thousand dollars. Now, who votes there, the white man, the negroes, or the plantation?

B. B. McKnow, one of the Bell electors in Alabama has gone over to Breckinridge because he learned that Edward Everett once sent his boys to school where a colored boy was educated!

Eruptions! Salt Rheum! Erysipelas!

It is now generally admitted that all eruptive diseases depend upon some internal or constitutional cause, and that no one washes or ointments for them is in any way to reach the system, and only to drive in, not to cure the disease. DR. HUMPHREYS' SPECIFIC HOMEOPATHIC SALT RHEUM PILLS are a true specific for all such diseases. They cure Salt Rheum, Barber's Itch, Erysipelas, Pimples on the Face, Ringworm, and Nettle Rash, by curing the cause upon which they depend, and by restoring the skin to the state of health and purity. Thus, not only is the disease cured, but the softness and beauty of the complexion restored.

Price, 25 cents per box, with directions. Six boxes, $1. N. B—A full set of HUMPHREY'S HOMOEOPATHIC SPECIFICS with Book of Directions, and twenty different Remedies, in large vials, morocco case, $5; ditto, in plain case, $4; case of fifteen boxes, and Book, $2. Single boxes, 25 cents and 50 cents.

These Remedies, by the single box or case, are sent by mail or express, free of charge, to any address, on receipt of the price. Address. Dr. V. HUMPHREYS & CO., No. 562 Broadway, New York.

VALUABLE IMPROVEMENT
In Steam and Atmospheric Hammers.

LETTERS PATENT were granted on Sept. 4th, 1860, to Thomas Beach, for a very simple and efficient improvement in Steam and Atmospheric Hammers, whereby the full stroke of the hammer is obtained, no matter what be the thickness of the mass of iron to be hammered—thereby effecting a great increase of power where large pieces of metal are to be operated upon, and a corresponding saving of steam.

The subscribers are owners of said patent, and are desirous of selling rights to use said improvement, as well as territory under said patent. A model of said improvement is left at the office of Messrs. Sakewell & Cushing, Attorneys at Law, corner of Grant and Diamond streets, where parties interested may call and see it, and learn also the terms of license sale, &c.

Allegheny County Fair, Pittsburgh,
and other County Fairs, too numerous to mention.

WE offer to the public WHEELER & WILSON'S IMPROVED SEWING MACHINE, with increased confidence in its merits as the best and most reliable Family Sewing Machine now in use. It sews equally well on the thickest and thinnest fabrics, makes the lock-stitch impossible to unravel, with the essential advantage of being alike on both sides, forming no ridge or chain on the under side—is simple in construction, more speedy in movement, and more durable than any other machine.

We give full instructions to enable the purchaser to sew ordinary seams, stitch, hem, fell, quilt, gather, bind and tuck, all on the same machine, and warrant it for three years.

Circulars, containing testimonials from ladies of the highest standing, East and West, giving prices, &c., will be furnished gratis, on application in person or by letter.

Sewing Machine Needles, Silk, Twist, Cotton and Oil constantly on hand.

FRUIT, ORNAMENTAL TREES, ROSES, &c.

In returning thanks to the public for their patronage, hitherto so liberally extended, I would call their attention to my very large stock of TREES for this fall.

My stocks of apple, pear, peach (standard and dwarf), Peach and Cherry far exceeds anything I have ever raised. All of the most approved varieties, wrought by persons having a full knowledge of the business, and every care taken to have every kind true to name.

Of Apple Trees alone we have 150,000—50,000 of which are three-year olds, from 6 to 8 feet. To such as want EVERGREENS, from 2 to 8 feet, by the 100 or 1000, large discount will be given. Extra large Maple, for shade, per 100, $25. Extra large American and English Larch, per 100, $25, &c. Tree Planters, please give us a call. Catalogues sent free on application.

Sole Proprietor of the celebrated
PATENT GAS BURNING AND SMOKE CONSUMING ARRANGEMENTS,
(as applied to our COOK STOVES,) the advantages of which are:
1st, A great saving of Fuel.
2d, A much quicker and hotter oven, from the same fire.
3d, The proper action of the centre place.
4th, Cleanliness, as there is no smoke issues, if already attached. And as it acts directly and persistently upon the biliary system, arousing the liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any obstruction to the queued following upon change of climate
