Court adjourned until nine a. m., to-morrow morning.

COURT OF OYER & TERMINER—Before Judges Mellon, Adams and Parke.

Friday, November 23d.—All of the forenoon was occupied in empaneling a jury to try the case of the Commonwealth vs. James Lewis, Richard Brown, James McKenna, Wilson Hamilton and James Lisly, indicted for rape, on oath of Mary Ann Finn. An effort was made by Mr. Marshall, for the defence, in the afternoon, to obtain a separate trial for Lewis, but the Court refused the motion, and the defendants were all arraigned together. On trial.

KILLED ON THE RAILROAD.—An unknown man was killed near Sewickley, Thursday afternoon, where the bridge crosses Sewickley creek, on the line of the P., Ft. W. & C. R. R. He was walking on the railroad track, when the express train going west came thundering along behind him. The engineer saw him some distance off, and endeavored to warn him of his peril, but without effect, until the locomotive was a few feet behind him, when he seemed to be aware, for the first time, of his dangerous situation. Just as he was stepping off he was struck a tremendous blow by the locomotive and fell under the wheels. Coroner Bostwick went down to Sewickley yesterday morning and held an inquest. The deceased seemed to be a man about 60 years of age, and was dressed as a laborer, having on a dark brown cassinet coat, lined with red flannel, cross-barred pantaloons, blue overalls and a pair of nearly new cowskin boots. He did not appear to have been intoxicated at the time of the accident. A verdict of "accidental death" was rendered by the jury.

INJURED.—As the western express train which left the Central depot at 1:30 yesterday morning was passing Rochester, 28 miles below this city, she came in collision with a freight car which was standing on the same track, having been pushed out, as it is supposed, by some malicious scoundrel, from the side track. The engineer of the train, a man name James Sample, did not see the car until the locomotive was within a few yards of it. Just as he was endeavoring to "check up" the collision came. The shock was an awful one. It threw him down on his back between the locomotive and the tender. The latter coming up with the sudden shock, it was only a wonder that he was not instantly crushed to death. As it was, he was severely injured about the spine, and badly bruised all over. He was brought up to the city in the noon train yesterday morning, and taken to the house of his father-in-law, on Beaver street, Allegheny. No damage was done to the train except giving a great jar throughout, and waking the alarmed passengers.

DENTISTRY.—We were forcibly reminded yesterday of the remarkable progress which has been made, through the aid of well directed science, in the art of dentistry, on examining some very beautiful and highly finished specimens of artificial teeth, at the rooms of Dr. Sill, No. 246 Penn street, in this city. In the specimens which came under our observation we discovered such a faithful imitation of nature in all its striking features as to excite our surprise as well as challenge our admiration. One of the sets was composed of the celebrated "Allen's Continuous Gum Teeth," and was mounted on a "vulcanite" base. The workmanship was really superb, the teeth being carved in an almost exact imitation of their original, while the gums were perfect in shape and color. Another set was composed of "vulcanite" teeth on a silver base, and a third of "mineral" teeth in a "gum" base. We really think that these three specimens are faultless, both in their design and execution.

REDUCTION IN RATES.—As will be seen by their advertisement, Messrs. Geo. R. White & Co. have, right in the midst of this panic and suspension of the banks, laid in a large and well assorted stock of Dry Goods, purchased at prices ruinous to the New York houses. The Velours Ottoman, French Poplins, Fancy Dress Silks and Embroideries are beautiful. The whole of their other stock has been reduced to a level with their present purchases. This offer of goods is a tempting one, for this house has, throughout the present monetary troubles, taken money at most liberal rates, and are not in the habit of shaving their customers at every little ripple that shows itself in the money market.

THE BANK OF COMMERCE.—The Erie *Gazette*, received Thursday, has the following in reference to this bank, which is alleged to be defunct:

"We learn that the Bank of Commerce, in this city, in consequence of the high prices of exchange and inability to procure coin, closed its doors yesterday (Wednesday) morning. We are somewhat surprised at this intelligence, we are yet satisfied that the parties engaged in its management have done their utmost to prevent the result. The suspension may probably prove only temporary; but, otherwise, we believe all accounts will be fully liquidated."

BOY DROWNED.—The body of an unknown boy, apparently about 14 years of age, was found yesterday morning floating near the shore of Brunot's Island, in the Ohio river, opposite Phillips' Oil Cloth Factory, below Manchester. The deceased was dressed in a dark cassimere roundabout, and pants of the same material, with a check shirt.

Coroner Bostwick held an inquest in the afternoon. A verdict of "found drowned" was rendered by the jury.

LECTURES.—As will be seen by an advertisement in another column, we are to have a lecture from Hon. Joshua Giddings, on Tuesday evening, in City Hall, on "John Quincy Adams—the Christian and the Heroic Statesman."

Bayard Taylor delivered a lecture last evening in Concert Hall, to a very large and fashionable audience. He has changed but little in appearance since we last saw him. He was frequently applauded.

MIRACULOUS ESCAPE.—A Mr. J. M. Frecker and Mr. Bigler had a miraculous escape from death yesterday. While they were attempting to pass over the railroad crossing on Federal street a freight train of the Cleveland & Pittsburgh Railroad came along, the rear car striking the horses, the wagon was tilted forward and the whole concern was smashed to pieces. Fortunately, Mr. Frecker and Mr. Bigler were thrown to one side, and thus escaped with but little injury.

ACCIDENT.—Mr. Daniel Boyle, a resident of Allegheny, fell off one of the Manchester passenger cars on the Allegheny bridge last evening, and his head striking the cable, he received a severe wound on the temple, from the effects of which he for some time lay insensible. He recovered finally, and proceeded to his house, not much worse from the accident.

DR. MASON'S OPINION OF MASON & HAMLINS MELODEONS.—After having carefully examined the Melodeons of Mason & Hamlins, I am enabled to say, that in my opinion, they are decidedly superior to any others with which I am acquainted.

(Signed) LOWELL MASON.

Mr. John H. Mellor, the agent for these instruments has a splendid stock of them on hand, which he sells at manufacturers prices. See advertisement.

RELEASED.—John Martin, the man who was committed to jail by Alderman Miller, on the 11th of November, for attempting to fire his own house, on Ohio street, Allegheny, last year, to recover the insurance, was yesterday admitted to bail in $500, in the Court of Oyer and Terminer.

THE Court of Quarter Sessions was not in session yesterday, owing to the rape case which was on trial in the Court of Oyer and Terminer, but will meet this morning at ten o'clock, to sentence a number of criminals who have been convicted during the present week.

UNITED STATES SENATOR.

Messrs. Editors: I presume it is an admitted fact that no other county in this State, or perhaps in the Union, has done better for the Republican cause than Allegheny. Her 10,000 majority cannot be overlooked, and it entitles her to the proud distinction of the Banner County.

A United States Senator is to be elected this winter, and in my opinion Allegheny county should have the honor of furnishing the man. We have many Republicans in our ranks who would fill the place acceptably—doing credit to themselves and to our good old Commonwealth; but I am free to say that among them all, none, in my judgment, would be as unexceptionable as the Hon. THOMAS WILLIAMS. He has ever been a firm and unflinching foe to corruption in high places, and always ready and willing to battle against locofocoism. In the days of the old Whig party, none stood higher than Mr. Williams as an eloquent champion of Whig principles, and we all remember how gallantly he contended in debate against the chosen leaders of the locofoco party. We want a man of true courage to represent us in the Senate of the nation—a man of talent and ability, and one who will prove himself the peer of any member of that body. Such a man is Mr. Williams; and if the Republicans in the Legislature desire to reward one who has been faithful to every trust reposed in him, they will elect him to the Senate.

ALLEGHENY.

[For the Daily Pittsburgh Gazette.]

EDITORS GAZETTE:—The reports by telegraph this morning charge the people of Kansas, under the lead of Captain James Montgomery with having once more taken up arms, hanging men and contemplating other outrages against the government, &c. This may all be true, and, doubtless, is so; but would it not be well for the people here to withhold an opinion until such time as they hear both sides of the story.

As a citizen of that country, personally well acquainted not only with Captain Montgomery, but from a residence of five years in the midst of Kansas troubles, and to some extent posted up in relation thereto, I stand ready to endorse every thing that *has been* done under his direction, and from my knowledge of the man I would not be risking much to say all that *will be* done.

Before you condemn that man and his followers, call to mind the past history of that country as well as the present condition.

Only a few days since an appointee of this government, followed by U. S. troops, burned seventy-four houses, turning out upon the plains more than one hundred families, who are now dependent only upon the bushes along the creeks for shelter at this inclement season. The excuse for this outrageous conduct is that they were settled upon lands belonging to the Cherokee Indians. Granting this to be true, (which, however, is a disputed point,) still who will be base enough to justify such procedure without giving the settlers one moment's notice to leave the homes they had been laboring to develope, not only with the consent of the Indians themselves, but with the knowledge and implicit consent of their agent.

More than this. Kansas is at this time overrun by bands of kidnappers from the adjoining States, who pay no respect whatever to color, sex or condition. One of this class is reported to have been hung a few days since by Montgomery. No matter how many "abolitionists" are hung in Texas or lynched in other States; no matter how much bluster is made about disunion; no matter if the flag of our country is torn to shreds in a Southern port; no matter if a Dr. Doy be stolen away from his home in Kansas; no matter how many homes are burned in that country, nor how many outrages committed elsewhere, if their tendency be to add strength to slavery. It is all well enough; not a ripple is seen upon the surface of passing events. But let a little band of freemen attempt to do what our government failed to accomplish in the removal of one of the most desperate kidnappers in the whole country, and the nation's troops under the leadership of a Harney are immediately dispatched to "crush the insurgents."

With the hope of having an opportunity soon to answer, in a public meeting of the citizens of your city, the oft-repeated question, "Who is Capt. Montgomery?" I will not at this time trespass further upon your columns. Respectfully yours for justice,

Pittsburgh, Nov. 23, 1860. JOSEPH GARDNER.

DRS. STEBBINS and MUNSON'S Dental Mechanism.

IMPROVEMENT IN THE DENTAL ART.

Among the many new and healthful style of Artificial Teeth, for which our country takes precedence over all others, there are none which attain to such perfection as the Vulcanite Teeth—indeed the only objection which can be raised against them is, that they are artificial—not in appearance, however, for when properly constructed he must be a close observer who is able to detect them from the natural organs. The arrangements of these substitutes upon the toothless jaw in such a manner as to secure their usefulness and efficiency, in the mastication of food, as well as to preserve the natural expression, is certainly a most valuable improvement in modern dentistry. The universal adoption of this material for mounting Articial Teeth, is then a matter of course even Platinum and Gold, must fall into disuse, for the Vulcanite is not only a far superior substitute, but is vastly cheaper. The high price for which Artificial Teeth of the first order, have heretofore been held, has placed them beyond the reach of those of ordinary means. But this great discovery brings first class dentistry within the means of all. We speak on this subject from personal experience, having observed the operation of a set worn by a member of our establishment. We strongly suspect, however, that the well-known skill and experience of Drs. Stebbins and Munson, has a great deal to do with the success which has attended this new style of dental work in their hands. Their office is at 105 Fifth street, nearly opposite the *Gazette* office. Attention is directed to their advertisement in another column.

OUR BOOK TABLE.

"The Horse and his Diseases, by Jennings."

This is decidedly an American work, and one that is very much needed. We have several works on the horse, but most of them are written by British authors and contain very little information applicable to the horses on this side of the water. Mr. Jennings, who is connected with the veterinary college of Philadelphia, and was professor in the late agricultural college of Ohio, has prepared a book just suited to the wants of American communities. It is full of details and sufficiently well illustrated, so that it will most likely meet the expectations of all who purchase it. For sale by Hunt & Miner, Fifth street.

MORE OIL.—We understand from parties who have visited the property of Mr. D. M. Barbour, in Ross township, that the chances for oil are so apparent that great excitement has been caused in the neighborhood, and parties are already making preparations for boring.

THE WALLACE FUND.—The Mayor yesterday received $76 25 from Mr. Kierr, as a contribution of the 3d ward to the Wallace sufferers.

FALSTAFF MUSTERING HIS RECRUITS.—This magnificent engraving, together with the Cosmopolitan Art Journal for a year, a season ticket of admittance to the Gallery of Paintings, and a chance in the drawing for several hundred valuable paintings and works of art, for only three dollars; and for every two dollars additional paid by members of the Cosmopolitan Association entitles them to a beautiful $10 engraving, such as "Shakspeare and his Friends" or the "Village Blacksmith," an additional chance in the drawing and season ticket of admission to the gallery of paintings. Books are now open for subscriptions, at Hunt & Miner's.

SHINGLES.—The shingle market is very dull just now, and prices have a declining tendency. This decline is attributed by a great many to the supply being more than equal to the demand, but the real cause may be found in the fact that the demand is not so great as in former years, shingle roofs not being thought of when "Groggon's celebrated Asphalt Roofing Felt" can be obtained. The agent for this excellent material can be found at his office, Laughlin's building, Canal bank, near the city Water Works.

INFANTILE CORDIAL.—We would request particular attention to the advertisement of Messrs. CHURCH & DUPONT, addressed to "Mothers." The INFANTILE CORDIAL of DR. EATON, is a medicine of great celebrity, and the standing of its manufacturers will be a sufficient guarantee of the care taken in its preparation, and its unvarying purity. The "BLOOD FOOD" is for a class of diseases unfortunately very prevalent in this vicinity, and its high reputation should ensure a ready sale.—*Williamsville (Conn.) Journal.*

THE LATEST NEWS.

BY TELEGRAPH.

RECEIVED AT THE DAILY GAZETTE OFFICE.

Arrival of the Overland Mail.

Latest from California.

ST. JOSEPH, Nov. 23.—The Pony Express has arrived with California advices to and including Nov. 10th.

It was believed that the total vote of the State will not vary far from 115,000. So far Lincoln has 35,038, Douglas 33,836, Breckinridge 29,424, Bell 6,942; Lincoln's majority over Douglas 1,150. It will take the official returns to determine whether Lincoln or Douglas carried the State. Douglas will probably gain a few hundred votes in the remainder of the State, but the probabilities are now in favor of Lincoln.

As near as can be ascertained, the members of the Legislature elected stand as follows: Senate—9 Douglas Democrats, 5 Breckinridge and 4 Republicans; House—40 Douglas, 21 Breckinridge and 19 Republicans. Of the 17 Senators who hold over from last year, 11 are understood to be Douglas, 2 Republicans and 4 Breckinridge. Under the circumstances, there are already numerous Douglas democrats aspiring for Dr. Gwin's place in the U. S. Senate; among them are Gov. Downey, Gen. Denver, James A. McDougall and S. W. Inge.

The contributions to the Washington Monument fund, on election day, at San Francisco, Sacramento and Marysville exceeded $1300.

Returns from the balance of the State have not been received. More than $100,000 was wagered on the result of the State election in San Francisco alone, and some parties are suspicious that the election returns may have been falsified, in some instances, by parties interested in bets. The total vote cast in San Francisco was 14,415, more than 3000 excess over last year's vote. This satisfies the people that the census just completed, making the population of the city but 60,000, is far short of the real population.

The People's Reform ticket for municipal officers in San Francisco was elected entire by majorities ranging from 600 to 4000.

Arrival of the Steamship Africa.

SANDY HOOK, Nov. 23.—The royal mail steamship, Africa, from Liverpool on Saturday, the 10th inst, via Queenstown on the 11th, passed this point. She will arrive up at New York at 2 o'clock this evening.

The King of Sardinia has formally accepted the Sovereignty of Naples. Garibaldi resigned the Dictatorship, and retired to his island home.

Liverpool, Friday.—Flour dull, 6d lower. Wheat dull, 2d@4d lower on the week. Corn declining, and holders are pressing on the market; the prices are 6d@1s lower. Provisions steady.

State of Trade.—The Manchester advices are favorable. The market for yarns is firm, while that for cloths is quiet.

Corn, mixed 38s 6d@40s. Beef dull. Pork steady. Bacon quiet and nominal. Lard firm at 63@64. Tallow slightly advanced. Produce—Ashes, pots, steady. Pearls steady. Sugar firm and slightly advanced. Coffee firm. Rice firm with a large speculative inquiry, and prices have advanced 2d. Rosin dull at 5s 4d@5s 5d and 6s 2d to arrive. Turpentine spirits dull at 34s 6d.

Turpentine spirits dull at 34@35s 6d. Tallow quiet at 60s 7d@61s 6d.

London Markets.—Baring Bros. report breadstuffs quiet. Iron Welsh Rails steady; Bars steady at £5 5s@£5 15s. Sugar firm. Rice firm. Coffee steady. Tea quiet.

London Money Market.—Consols 93¼@93½ for money and account. The bullion in the banks has decreased 230,000 pounds during the week. Saturdays news has not yet been received.

American Stocks.—Baring & Bros report that state stocks and Panama Railroad shares have considerably declined; Illinois Central 29@31 per cent discount; N. Y. Central 75@78; Erie Railroad stocks 29@31.

NEW YORK, Nov. 23.—The steamship Africa has arrived up. The news is unimportant. The steamship Arabia arrived at Queenstown on Sunday.

The investigation of Gaeta on the land side was continued and the departure of Francis II. was considered imminent.

It was reported that the commander of Gaeta had commenced negotiations with Gen. Fante for the evacuation of the fortress.

At the Lord Mayor's banquet at London, the only European Ambassadors present were those of France and Sardinia.

Count Persigny spoke for the Diplomatic Corps in a cordial and friendly spirit.

The projected Cotton Company in Manchester has assumed a definite shape. A strong Board of Directors has been formed and the capital fixed at £100,000 sterling. The development of the Dharwar cotton fields in India is the principal object.

LATEST.—*Commercial.*—Cotton; the sales on Saturday were 12,000 bales. Breadstuffs very quiet. Provisions dull.

London.—Consols 93¼@93⅜.

WARSAW, Mo., Nov. 23.—Judge Williams, U. S. District Judge of Southern Kansas, arrived in town to-night. A meeting of the citizens was immediately called, and Judge Williams delivered a calm and cool statement of affairs in the territory. He has been for 26 years a presiding Judge on the borders of civilization; he is an old man, with snow-white hair and fine appearance, formerly of Pennsylvania, and Attorney General Black was his law student. Judge Williams said that since Saturday night he has been in the saddle; he came to warn Missourians of the approaching danger. Southern Kansas had been delivered over to abolition outrages under Montgomery and others; for three and a half years he had been presiding Judge there, and endeavoring to maintain the supremacy of the laws, and to what end he had used his efforts on and off the bench faithfully, notwithstanding the evidence of marauders and lawless men who were there for that purpose. Only he has disorganized and held courts in all the counties of this district. These marauders and murderers are sustained by men who procure means from the States under the pretence of aiding the sufferers in Kansas, but appropriate them to carry out their designs of rebellion against the law. They are the same men who procured the passage of the amnesty and other indulgencies by their promise that they would maintain the laws and preserve order in Southern Kansas, but this has only proved a respite to enable them more effectually to prepare for the accomplishment of their designs. A messenger of undoubted veracity arrived, stating that on yesterday near one hundred men had entered Missouri armed; they passed down the Osage to Balls Mills, 20 miles over the line, with four negroes proceeding in advance with coils of rope, &c., all armed. The Judge then made the same statement as has already been telegraphed, and closed by urging the people not to go into Kansas, but to protect themselves within their own line and to send aid to the border counties at once, as they are at the mercy of these outlaws.

MOVEMENTS OF THE BANKS.

AUGUSTA, GA., Nov. 23.—It is rumored in bank circles to-day that Gov. Brown will vote any law sanctioning the legality of the suspension of our banks, unless the state secedes. It is also reported that one or more of the Charleston banks have suspended; also a large cotton house, names not given; but this needs confirmation.

Cotton depressed, and only a few hundred bales sold to-day.

BOSTON, Nov. 23.—The Clearing House committee recommended that the banks discount their entire receipts, and adopt a system similar to that prevailing in New York.

A meeting of the bank officers is now in progress in relation to the financial pressure.

TRENTON, N. J., Nov. 23.—Both banks in Trenton have suspended specie payments. They will pay out only small amounts to business men in the city.

POTTSTOWN, PA., Nov. 23.—The bank of Pottstown has suspended specie payment. Its notes will be redeemed in Philadelphia.

AUGUSTA, GA., Nov. 23.—There is but little of that sentiment regarded at the North as conservative, prevailing in the South here. Conservatism is expressed in resolutions offered in the Georgia Legislature by Mr. Barclay:

Resolved, That the interest and honor of Georgia demand the repeal, by the Northern States, of the laws obstructing the rendition of fugitives, because the laws are unconstitutional, as declared by the decision of the Supreme Court.

Resolved, That the interest and honor of Georgia demand the enactment, by Congress, of laws removing the obstructions to the introduction and providing for protection in the territories of all property recognized by the Constitution and the decisions of the Supreme Court.

Resolved, That the repeal of the laws contemplated in the first resolution and the enactments contemplated in the second are the only conditions on which Georgia can remain, consistent with her right and self respect, in the Union.

SAVANNAH, Nov. 23.—It has been rumored for several days, but disregarded, that six free negro seamen were forcibly taken on the night of the 17th from the bark N. W. Bridge, off Cumberland Island, and not afterwards heard of. Also, that three free negro sailors and a portion of the crew of the brig Wingold, were taken from the Fernandina jail and removed to parts unknown. The Fernandina East Floridian of the 21st, asserts the truthfulness of the reports, but attributes the cause to retaliatory measures, and condemns the proceeding of Judge Pensam in his charge to the grand jury, denouncing these acts. The editor says that it is probable that the Legislature will pass an act preventing Northern vessels from bringing such crews into Florida ports.

NEBRASKA CITY, Nov. 23.—Alexander Majors has freighted from Nebraska City since April 25th to Denver City as follows: Pounds transported, 27,822,582; oxen used 5687; wagons 515; mules 72; men employed 602. The men, wagons, mules and cattle used about the outfit and on the two farms are not included, the above being the actual amount used in the trains.

The weather is cold; it is snowing very hard, about three inches having fallen already.

ST. LOUIS, Nov. 23.—Gov Stewart ordered Brigadier General Frost to hold his brigade, consisting of the first regiment of Missouri Militia, Engineer corps and company of artillery in readiness to repair to the south west border and repel invasion of the state by Montgomery's band of outlaws. Gen Harney will start for fort Leavenworth in the afternoon.

PHILADELPHIA, Nov. 23.—A fire broke out this morning in the foundry attached to the iron works of Sanson, Farrand & Co, on Twelfth and William streets, in the Fourteenth ward. Loss of Sanson, Farrand & Co., $5000; Dehring & Co. $3000; Bowen & Brothers $3000; all insured.

LOWELL, Nov. 13.—A fire broke out in Whipple's mills last night destroying property to the amount of $10,000 to $12,000. Eighty persons were thrown out of employment by the calamity.

BALTIMORE, Nov. 23.—Samuel Harris & Sons, bankers, have suspended. It is understood that it will be only temporary.

CHARLESTON, S. C., Nov. 23.—Cotton sales to-day, eighty of the week, 4,000 bales at nominal prices. The receipts of the week 21,000 bales.

MONETARY AND COMMERCIAL.

The arrangements entered into by the New York Banks has the effect to make money easier. The *Times* of the 22d says:

The liberal amounts discounted by the Banks yesterday and to-day, although by no means equal to the heavy applications which usually attend a season of pressure and alarm, together with the freer business done in foreign exchange for the PERSIA, created a most sensible relief in the market for Money to-day. The signs of this were unmistakable, although continued complaints were still made by the Grain trade, and one or more additional features are reported in the Corn Exchange. The complication existing between seller and exporter, as explained yesterday, when the financial storm put a stop to the negotiation of Exchange, were so numerous, and were so much aggravated by the subsequent suspension of payments by some of the weaker parties that it will require some days yet, with all the legitimate relief of the Banks and Brokers can afford, to set matters right. In other quarters, the complaints in regard to Money and Exchange are less frequent than at any time since Thursday last; and we hope the worst has been passed here, at the centre of commerce, come what may from the neighboring quarters. It is for the public to make good this consummation by a reasonable confidence in the means which have been adopted to encourage it. There was more currency for strictly prime paper outside of Banks at the close of the day, and Exchange moves steadier, though at low rates, say at 100 to 103 ꝑ cent for Merchant and transient Bank bills, and 103 to 105 for Bankers'. The Bank Committee on Exchange have made but partial purchases, the competition from private buyers, now that the market moves again, being in advance of their own bids for good bills. But the fact remains that they are ready to relieve the market of the full amount authorized by the 16 Banks that commissioned them.

MEETING OF THE BANK OFFICERS.—The meeting of Bank Officers to which allusion was made yesterday, remained in session until a late hour in the afternoon. The plan of relief adopted is developed in the annexed official record of the proceedings:

At a meeting of the officers of the Banks of the City of New York, at the Merchant's Bank, on Wednesday, Nov. 21, 1860, the following proceedings were unanimously adopted, viz.:

In order to enable the banks of the city of New York to expand their loans and discounts, and also for the purpose of facilitating the settlement of the exchanges between the banks, it is proposed that any bank in the Clearing House Association, may, at its option, deposit with a committee of five persons—to be appointed for that purpose—an amount of its bill receivable; United States stocks, Treasury notes or stocks of the State of New York, to be approved by said committee, who shall be authorized to issue thereupon to said depositing bank certificates of deposit bearing interest at 7 ꝑ cent ꝑ annum, in denominations of $5,000 and $10,000 each, as may be desired, to an amount equal to 75 ꝑ cent of such deposit.

These certificates may be use in settlement of balances at the Clearing House, for a period of 30 days from the date hereof, and they shall be received by creditor banks, during that period daily, in the same proportion as they bear to the aggregate amount of the debtor balance paid at the clearing house. The interest which may accrue upon these certificates shall, at the expiration of 30 days, be apportioned among the banks which shall have held them during that time.

The securities deposited with said committee as above named, shall be held by them in trust as a special deposit, pledged for the redemption of the certificates issued thereupon.

The committee shall be authorized to exchange any portion of said securities for an equal amount of others, to be approved by them at the request of the depositing bank, and shall have power to demand additional security, either by an exchange or an increased amount at their discretion.

The amount of certificates which this committee may issue as above shall not exceed five millions dollars.

This agreement shall be binding upon the Clearing House Association when assented to by three-fourths of its members.

Resolved, That in order to accomplish the purposes set forth in this agreement, the specie belonging to the associated Banks, shall be considered and treated as a common fund for mutual aid and protection, and the committee shall have the power to equalize the same by assessment or otherwise.

For this purpose statements shall be made to the committee of the condition of each bank, on the morning of every day before commencement of business, which shall be sent with the exchanges to the Manager of the Clearing House, specifying the following items:

1. Loans and discounts.
2. Deposits.
3. Loan certificates.
4. Specie.

Resolved, That after the 1st of February next every bank in the Clearing House Association shall have on hand at all times, in specie an amount equal to one-fourth of its net liabilities; and that any bank whose specie shall fall below that proportion shall not make loans or discounts until their position is re-established; and we, as members of the Clearing House Association, agree that we will not continue to exchange with any bank which shall show by its two successive weekly statements that it has violated this agreement.

The Chairman appointed the following gentlemen as the Committee:

Moses Taylor, of the City Bank.
James Punnett, of the Bank of America.
R. W. Howes, of the Park Bank.
A. S. Frazer, of the Seventh Ward Bank.
Charles P. Leverich, of the Bank of New York.
Adjourned. JOHN A. STEVENS, Chairman.
W. J. HOOKER, Secretary.

RIVER NEWS.

The river was about stationary at this point yesterday and last evening the stage of water by the pier mark was 5 feet 8 inches. The weather was exceedingly disagreeable. A drizzling rain fell unceasingly the entire day, rendering the transaction of out-door business almost out of the question.

The only arrivals were the Moses McLellan from Cincinnati and C Baker from Wheeling, while the latter boat for Wheeling and Anglo Saxon for St Louis constituted the departures.

The staunch steamer HASTINGS with her popular commander Capt. R. Robison is announced for Cincinnati and Louisville on Tuesday next. The courteous and efficient clerk, Mr. Beers, is a gentleman in every way qualified to discharge the duties of his office.

The MINNESOTA will positively leave for New Orleans to-day. Of Capt Jno. T. McCombs it is unnecessary to speak, while the clerk, Mr. C. F. Lorenz, will be happy to furnish passengers with rooms and see that all their wants are promptly attended.

The Iowa, Capt. W. A. Moore, is filling up rapidly and will get off for New Orleans on Monday or Tuesday.

Telegraphic Markets.

PHILADELPHIA, Nov. 23.—Flour sells at 5 00@5 25 for common to superfine; $5 31@5 50 for extra; $5 62½@5 87½ for extra family, and $6 00@6 50 for fancy. The inspection for the week amount to 27,974 bbls. Wheat firmer; sales of red at $1 15@1 20 and white at $1 35. Corn in limited demand; sales old yellow at 65@66, and new at 50@53. Provisions quiet. Whisky at 20.

BALTIMORE, Nov. 23.—Flour firm, with no sales. Wheat is firm at $1 10@1 20 for red, and $1 25@1 60 for white. Corn steady at 6 @63 for white and yellow. Provisions dull; Pork $18 per bbl; Lard 12c per lb. Coffee steady at 14@14¾. Whisky firmer at 2 @20½.

NEW YORK, Nov 23.—Flour quiet; 11,000 bbls sold: Southern heavy at $5 20@5 50. Wheat advanced 1c; 60,000 bush sold. Corn less firm; mixed unchanged; white Southern at 78c, and yellow at 66½c. Pork firm; Mess at $17. Lard heavy. Whisky steady at 19½@20c.

CINCINNATI, Nov. 23.—The market is very much unsettled for eastern exchange, and buyers are supplying their customers sparingly at one per cent premium and paying ½ for New York and Boston checks, but are not buying Philadelphia or Baltimore paper or suspended Pennsylvania banks. The rates are 3 to 5 per cent for Pittsburgh and Philadelphia, and 10 per cent for interior banks. Money is very tight, though the demand for it is limited. The news from New York makes things look more hopeful, but that from Philadelphia and Baltimore counteracts it to a great extent.

The market for all kinds of Produce is stagnant, and very little is doing in any department. Hogs are dull, and few are willing to pay over $5 75 for them. Nothing was done in Provisions worth naming, so that the prices are nominal. Hogs are offered freely at $6.

POLICY OF THE PRESIDENT ELECT.—In laying before our readers the speech delivered by Senator Trumbull, at the celebration in Springfield—the home of Mr. Lincoln—we have to remark that too much significance cannot be attached to it. Private dispatches state that it was prepared at the suggestion of the President elect, and received his full approval, before it was spoken. However this may be, it is evident that Judge Trumbull, in undertaking to foreshadow the policy of the incoming administration, would advance nothing which he had not full warrant for advancing. His very intimate relations with Mr. Lincoln, abundantly qualify him for doing that which Mr. Lincoln himself is precluded from doing prior to his inauguration.

We trust this comprehensive, patriotic manifesto will have the effect of quelling, or at least subduing that crazy agitation, of which the cotton States are the voluntary and deluded victims. It has been called forth by considerations of public duty and responsibility, and if it does not fall like oil on the troubled waters, the Secession faction may justly be pronounced incorrigible. We think it a good omen that Judge Trumbull has been selected as the medium for laying Mr. Lincoln's views before the public, for as our readers well know, he is a State's-rights Republican, pure and simple, who supports the Constitution, the Union, and the enforcement of the laws with unfaltering fidelity.

It is unnecessary to direct attention to any part of a document which will be so closely scrutinized; but the positions laid down in relation to the vexed questions, prove conclusively that Lincoln is the conservative statesman we have always represented him to be. We can fancy the chagrin of the Disunionists when this speech is telegraphed all over the South. The news will fall on their incendiary projects like a water-spout, and we are much mistaken if the budding traitors will not find their occupation gone by the time the proposed revolutionary conventions meet.—*St. Louis Democrat*

POTTER'S MAJORITY.—The strong hold possessed by John F. Potter on the respect and affection of the people of this Congressional District, and their appreciation of his ability, his unsullied character and faithful services in Congress, are exemplified in the large majority by which he has been re-elected. With one of the most able, active and popular Democrats in the District pitted against him, in a canvass unprecedented for the efforts made by the Sham Democracy, with comparatively nothing done by himself or his friends to secure his election, he has carried the District by a majority of 2,693

An offer from New York of a club of fifty-seven young men is made to Governor Gist of South Carolina, if their services are needed. The writer concludes as follows:

Sir, honorable patriotism must have its reward. Some will be satisfied with honor, others with pecuniary acquisition; but sir, I want to serve that sturdy republic which shall be founded on "right, justice and equity;" and in order so to do I respectfully submit my claim on the generosity of your excellency by asking the appointment of consul for this port.

ANOTHER CERTIFICATE.

ZANESVILLE, Ohio, March 31, 1860.

DR. KEYSER:—I write these lines to inform you that I was in Pittsburgh on February 16th, and bought a bottle of Dr. Schenck's Seaweed Tonic, and when I arrived in Zanesville I commenced using the medicine according to directions, and it has improved my health more than I expected it would in so short a time. I am so well pleased with the "Seaweed Tonic" and "Pulmonic Syrup," that I want you to send me two bottles of "Seaweed Tonic," and one bottle of "Pulmonic Syrup" by express, and I will settle for the carriage of it at the office in Zanesville.

ANOTHER CURE BY DR. SCHENCK.

I took last August—now nearly a year ago—a violent attack of cold, which I contracted by lying on the damp ground on a hunting excursion. I had a dreadful cough and constant pain in my breast, and I expectorated a great deal of tough matter from my lungs and bronchial tubes. I thought I had consumption. I judged it the disease from the fact that I had such a hard cough and night-sweats very bad. I suffered a great deal with pain and tightness in my breast. I called on Dr. Schenck in October last, and he examined my lungs with his respirometer. He told me my bronchial tubes were very much affected, and he prescribed for me his Mandrake Pills, Pulmonic Syrup and Seaweed Tonic. I took one box of the Pills and two of the Tonic, and four bottles of the Pulmonic Syrup. At this time I am entirely well, and weigh more and am stronger than I was before I took the disease.

ANOTHER GREAT CURE—CASE OF NICHOLAS RITZ OF ALLEGHENY CITY.

On the 5th day of last July I took sick with spitting blood and a bad cough; I did not mind it till I spit two or three times; I spit about a teacup full of blood. A week afterwards it returned and I got alarmed, and went to my physician and got medicine from him, which did not do me any good. I then went to another, who told me my lung was ulcerated, but did not give me much satisfaction about the spitting blood. I heard of Dr. Schenck being in the city on the 23d of July, and was advised to call on him; I called on him at Dr. Keyser's drug store, and he examined my lungs and told me that my right lung was affected, and that the bleeding or spitting of blood came from the lower part of the right lung. Dr Schenck told me to take his Pulmonic Syrup and Mandrake Pills, which I did until I had taken seven bottles of Pulmonic Syrup and one box of Mandrake Pills. I am now well and can attend to my regular business, trunk making. I work at 104 Wood street, and live on East street, between First and Ohio streets, Allegheny City. I give this certificate in order that other persons afflicted may receive the same benefit that I have. You may publish this if you wish. NICHOLAS RITZ.

Pittsburgh, August 28th, 1860.

Such has been the demand for my Syrup, that I have been compelled to resort to the most perfect steam machinery for the displacing of the herbs and boiling down the syrup, by which the substance can be more readily and perfectly extracted. This process gives a different color to it, rendering it lighter, but stronger in substance. The difference in color may cause many to doubt its genuineness; but my signature always accompanies each bottle, and my agents are publicly announced which renders imposition impossible.

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves and

Relief and Health to your Infants.

We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after ten years' experience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

(MRS. WINSLOW'S SOOTHING SYRUP.)

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS in

THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels and Wind Colic,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST AND SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between you and your suffering child, and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

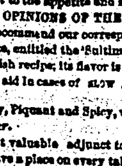
Soyer's Sultana Sauce,

FOR HOT AND COLD DISHES OF ALL KINDS.



This most delicious and appetising Sauce, invented by the renowned "SOYER," for the London Reform Club, is, since his decease, manufactured by the well known house of CROSSE & BLACKWELL, London, from the original recipe. It is the favorite Sauce in England, and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulent to the appetite and aid to digestion.

OPINIONS OF THE LONDON PRESS.

"We recommend our correspondent to try Mons. SOYER'S new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet.*

"Savory, Piquant and Spicy, worthy the genius of Soyer."—*Observer.*

"A most valuable adjunct to Fish, Flesh and Fowl, and should have a place on every table."—*Atlas.*

MOFFATT'S LIFE PILLS.—THE HIGH AND ENVIED CELEBRITY which this pre-eminent medicine has acquired for its invariable efficacy in all the diseases which it professes to cure, has rendered the usual practice of ostentatious puffing not only unnecessary but unworthy of them. They are known by their fruits; their good works testify for them, and they thrive not by the faith of the credulous. In all cases of Costiveness, Dyspepsia, Billious and Liver Affections, Piles, Rheumatism, Fevers and Agues, obstinate Head Aches, and all General Derangements of Health, these Pills have invariably proved a certain and speedy remedy. A single trial will place the Life Pills beyond the reach of competition in the estimation of every patient.

Dr. MOFFATT'S PHŒNIX BITTERS will be found equally efficacious in all cases of Nervous Debility, Dyspepsia, Head Ache, the Sickness incident to Females in Delicate Health, and every kind of Weakness of the Digestive Organs.

MOTHERS! MOTHERS!! MOTHERS!!!

Don't fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on earth. It greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful female Physicians in New England, and has been used with never-failing success in millions of cases.

We believe it the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in Children, whether it arises from teething or from any other cause.

If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well-tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper.

Sold by Druggists throughout the world.
