FINANCE AND TRADE.

WEDNESDAY, March 14, 1866.

Gold is reported a shade firmer in New York to-day, being quoted at 131¼, against 129¾@130 on Tuesday. Railway stocks better, with sales of Pittsburgh, Fort Wayne & Chicago at 99¼. In our local stocks there is nothing doing worthy of notice, and there seems to be no demand for any of them, with the exception of bank shares.

—Six additional national banks, mainly in Southern States, were authorized during last week, with an aggregate capital of $750,000—one of these, at least, organized without circulation, and the largest one gets circulation on but one-third of its capital. Number of national banks authorized during the week, 7; previously, 1836; total number, 1843. Circulation issued to national banks during the week, $2,133,995; previously, $260,556,750; total, $262,690,710.

—The later accounts from Europe (says the New York *Times* of Tuesday) by the steamer last night, to March 1, are the best in respect to the American funds in London and Frankfort we have yet received since July of last year. The private banking letters speak even more decidedly than the newspaper quotations. The 5-20s of 1862 are in active request at the advanced and advancing quotations in both capitals, and some of the writers say that the market, partially to the United States Credits over other Public Securities, almost certainly foreshadows a further considerable advance, without reference to the then latest quotations for gold and exchange in New York. The news of 157 for gold had not arrived out, so that 5-20s, on the basis of 128@130¼, were selling 4@5 per cent higher than in New York. The subsequent fall of gold to 133 per cent of course more than equalizes the quotations, and orders by this mail, limited at a given cost when laid down on the other side, can barely be executed at 103@103¼ per cent. Some discretionary purchases were made this morning at 103¾ per cent.

—It is asserted that the Secretary of the Treasury has not sold any gold for several days, and none under 37¼. On the strength of this fact, if it be one, an advance in the gold premium is confidently predicted as the consequence of the demand for coin to pay duties on imports, which still continue very heavy. In the event of the floating supply of coin being inadequate to meet the customs duties it would be desirable that the Government should be a seller for that purpose. Should imports continue heavy, and the Secretary determined to keep out his market as a seller until he can realize 137 for his coin, gold is probably at its lowest point until the payment of the May coupons is commenced.

—The statement of Treasurer Spinner for the month of February exhibits the total amount standing to his credit in the Treasury and with the several Assistant Treasurers and designated depositories to be as follows: Amount on deposit in coin, $75,870,878 18; total amount on deposit, $165,378,237 09; drafts drawn and payable, but not yet reported paid, $5,386,577 77; balance subject to draft, $156,897,659 32.—The statement also shows that the receipts of the government from all sources during the month of February were $23,038,994 50, while the disbursements amounted to $32,132,773 19—leaving an available balance over and above expenditures of $16,265,322 31. The statement also gives the amount of gold and currency available to the Treasury at $138,129,860 84; the national debt statement gives the currency and gold at $116,018,950—difference $22,110,910 84, which is the amount on deposit in national banks and United States depositories on February 28th, and included only in the Treasurer's statement of available cash.

—Advices from Frankfort state that the demand for United States 5-20 bonds is continuing for investment among the people of Central Europe, more especially in Southern Germany, and that they are buying them in preference to their own securities; and many are also selling their Austrian and other bonds to invest the proceeds in those of the United States. Most the German bankers have been remitting for some time past 5-20 bonds regularly by every steamer, as they were unable to dispose of their bills, under the conviction that there was less risk in shaving against government bonds than promiscuous cotton or produce bills. The downward movement of gold in this country will, undoubtedly, strengthen confidence in Europe, and promote the sale of United States 5-20 bonds for investment there.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, March 14, 1866.

The produce markets continue quiet and dull, the demand for the leading articles being restricted to supplying the immediate wants of the retail trade, and while we have no round lot operations to report, prices remain nominally unchanged.

GRAIN.—Nothing doing in Wheat. Barley is dull, with nothing offering. Corn is dull at 75 for Ear and 70 for Shelled. Oats sale of 1 car, on track, at 41; 300 brush at 42; and small sales at 42@43. Corn is dull with a drooping tendency; sale of 1 car prime Ear at 62. Rye is quoted at 78@75 for prime Penna.

FLOUR.—Is firm but quiet and unchanged. Small sales from store at 8½ for good Spring Wheat; 9@9½ for half Spring and half Winter, and $10@10½ for all Winter Wheat brands. Sale of 50 bbls Spring at 9½, and 100 bbls Winter at $10¼. Rye Flour is dull at $5½@6; and small sales of Cornmeal at 75 cents per bush.

PROVISIONS.—Bacon is dull and a shade lower; sales of 7000 lbs Shoulders at 14; 6000 lbs Sugar Cured Hams at 22; and 3000 lbs Ribbed Sides at 16½. Lard is dull—sale of 10 bbls reported at 18—may be quoted at 18@18½. Mess Pork is dull and nominal at $28@29.

SEEDS.—Sale of 10 bushels Timothy Seed at $3½. Flaxseed is in demand and sells readily at $3.75@3.80. Cloverseed is dull and nominal at $6@6½.

HIDES.—There is some inquiry for shipment, and while the market is a shade firmer, prices are unchanged; sales of 18 bbls at 23, and 18 bbls at 22½.

BUTTER.—Prime Roll is scarce, and in demand, and may be quoted firm at 40 to 42, in small packages.

CHEESE.—Is quiet and unchanged. Sales of Common Ohio at 20@21, and Goshen at 24@25.

HAY.—Is dull with a supply largely in excess of the demand. Sale of 1 car common baled at $18; and 1 car good do at $23.

POTATOES.—Are coming in pretty freely, but the market is steady, with regular sales from store at $150 per bush, and 8½ per bbl.

DRIED FRUIT.—Apples in fair demand at 14@15—the latter figure for prime York State. Peaches may be quoted at 18 to 20 for quarters and halves.

OIL—Sales of 95 bbls No. 1 Lard at $1.75.

BEANS—The arrivals have been large for some days or three days past, and the market is a little dull—small sales from store at $1.75@2 per bush.

ASHES—Quiet but firm, the stocks being very light; sales at 9c for common Soda, and 10c for Pearls.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, March 14, 1866.

CRUDE.—The Crude market continues unsettled and irregular, and with buyers and sellers apart in their views, business is somewhat restricted, and we have put comparatively few transactions, taking everything into consideration, to report. Some few of our speculators mustered courage enough to buy several hundred barrels to put in tank, but our reliance, as a general thing, are still holding off, being afraid to buy, for fear the bottom has not yet been touched; and they argue with great force, and it must be confessed, with some degree of reason, that the supply of both Crude and Refined is largely in excess of both the home and foreign demand, and that, as an inevitable result, prices must still go lower. Be this as it may, there is no disguising the fact that the trade is in a very unsettled condition at present, and it is difficult to conjecture which way it will turn within the next sixty days. We have sales reported of 120 bbls, in bulk, (40 to 43 gravity) at 19, 200 (45 gravity) at 19½; 1000 (40 to 45 gravity) for future delivery, of 135's, and 200 bbls (35 gravity) at 19½, bbls returned.

REFINED.—The transactions in bonded oil were unusually large to-day, the reported sales amounting in the aggregate to five thousand barrels, all for future delivery, but there is no improvement in prices—in fact, the reverse is the case. Sale of of 1000 bbls, for May, sellers option, at 35, free on board cars here; 500 for same delivery, buyers option, at 34; 500 for April, sellers option, at 34; 1000 for June, buyers option, delivered in Philadelphia, at 40; 1000 for July, buyers option, at 44, and 1000 more, for same delivery, same option and price. In addition to the above, there were other sales made, but the parties interested refused to make them public, at 41 for April, 43½ for June, and at 44½ for July—delivered in Philadelphia. Free Oil is dull and nominally unchanged.

NAPTHA AND RESIDUUM.—There is no demand whatever for either Naphta or Residuum, and, in the absence of sales, we omit quotations.

ARRIVALS.—The arrivals continue light, as yet, but they will doubtless be heavy within the next ten days. Fisher & Bro. received 174; C. Shoen, 68, and W. P. Logan, 461—total, 699 barrels.

MARKETS BY TELEGRAPH.

Finance and Trade in New York.

STOCKS.

NEW YORK, March 14.—Stock market very irregular. The following were the closing prices at 4:30 p. m.: Canton Company, 44½; New York Central, 92½; Erie, 88¾; Hudson River, 104½; Reading, 103¾; Michigan Central, 101¾; Michigan Southern, 80¾; Illinois Central, 119; Cleveland and Pittsburgh, 79¾; Chicago and Northwestern, 37½; do. preferred, 54½; Cleveland and Toledo, 107¾; Chicago and Rock Island, 108½; Pittsburgh, Fort Wayne and Chicago, 99¼.

GOLD

is quoted this afternoon at 130¾.

MONEY.

The market is well supplied with surplus capital at six per cent, and accommodation is offered by first class houses on undoubted securities, at five per cent.

The *Commercial's* financial article, to-day, contains the following: The growing ease in money has stimulated the speculation in stocks, and we have at the present moment the anomaly of a comparative stagnation in the markets for produce and merchandise, concurrently with a strong advance in the stocks of roads which opened the activity of commerce. Leading operators in stocks appear to be sorting themselves off into cliques, for the manipulation of almost every Railroad stock upon the list and invariably for a rise in prices. The speculative movement in gold and oil stocks continues. In gold stocks there was a slight reaction from the rise of yesterday, except upon Renton which rose to 2.50. The effect of the assessment of 25 cents per share by increasing the amount in the treasury to about $100,000, has the effect of strengthening the stock. Bates & Baxter is less active, but firm at $4.00@4.75; Consolidated Gregory sold at 52@53.25; Gunnel, at $1.40. Government securities remain very steady; the demand for 7-30s remain very active, whether the demand is mainly from private investors or partially also from Treasury agents is a question upon which there is some diversity of opinion. 5-20s of '62 rose 1¼; 10-40s ¼; 7-30s, second series, ¼. Money is again easier; the banks are lending mostly at 6 per cent, in preference to discounting any large amount at 7 per cent, private bankers are lending on call at 5@6 per cent, and discounting prime paper at 7@7½ per cent; there is more activity in discounts outside of the banks. Gold is about steady, or apparently, chiefly under the active purchases to cover short sales; the demand for customs is moderate. Foreign Exchange is nominal as usual on Wednesday.

DRY GOODS.

There is no particular change in the market to-day, and it may be said that prices are a little more settled; still, buyers do not yet take hold with any degree of confidence. Many still incline to the opinion that goods must yet decline. Brown Sheetings—Stark, A, 36c; Stark, M, 32c. Bleached Sheetings—Bates, 30c; Bates, B B, 30c; Blackstone, 30c. Prints—Spring Vale, 20c; Allen's fancy, 20c; Merrimac, 20c; Indigo Blues—Hamilton, 23½; Hamilton Manufacturing Company, 20c. Ginghams—Lancaster, 36; Glasgow, 32. Cotton Flannels—Slatersville, 25. RIVER, WEATHER, ETC.

The river was rising steadily at this point last evening, with eleven feet full in the channel by the Allegheny pier marks, and telegrams from Oil City report the Allegheny rising. The weather continues sultry and cloudy, with every appearance of more rain.

The Armadillo from St. Louis, is the only transient arrival we have to record. She had a moderate trip, including one hundred tons of metal. The Nora, from Cincinnati, is among the first boats due, and the importer, from St. Louis, ought to reach here before many days.

The Leonidas cleared for St. Louis last evening with an excellent trip, including a fair number of passengers. The Allegheny river packets—Echo, Leclaire and Belle—left for Oil City during the afternoon.

The Petrolia No. 2 arrived from Oil City, and after discharging her freight went down to the dock, and have some repairs made, the ice having broke some of her timbers.

The Bayard, from Parkersburg, was due here last night, and will doubtless be found in port this morning. She returns again to-day at 11 a. m.

The old steamer Rocket has made her appearance at the wharf again, after a considerable absence, during which time she has been engaged in towing between here and St. Louis.

The Savanna, Capt. Jolly, is filling up steadily for all points on the Upper Mississippi, and will soon be ready to take her departure.

The Camelia, Capt. Lytle, for Nashville, and the America, Capt. Golding, for New Orleans, are filling up steadily and will soon be ready to take their departures.

The low boat Little Giant arrived at Louisville on Saturday, with two barges laden with railroad iron, destined for St. Louis; and the Arminia, bound from Pittsburgh to New Orleans, descended the Falls on Saturday.

The Cincinnati *Commercial*, of Tuesday says: Captain Maratta's new steamer Emma No. 3 passed down from Pittsburgh, for St. Louis, with a full cargo, one of the best trips of the season. She was full of cabin passengers—140 grown persons and 55 children—and 30 deckers, together with 20 mules and horses.

The Importer left Cincinnati for this port on Monday evening.

The Nora was to have left Cincinnati for this port last night.

The river rose fifteen feet in twenty-four hours, ending on Tuesday evening, at Cincinnati.

The Madison, recently sunk at the head of the canal, has been raised.
