## FINANCE AND TRADE.

TUESDAY, June 12, 1866.

The impression that the Scotia would bring more favorable advices from England, and further orders for the purchase of five-Twenties, induced the bear clique in New York to go "short" on gold for cash relying on being able to borrow the same at currency rates; but the bulls took advantage of this state of affairs, and made quite a bear by locking it up. The premium was run up to-day to 1434, but closed weak, considerable amounts are yet needed for export, which keeps up a sufficient demand to sustain the market.

The abundance of money in New York, together with the fact that disbursements to the amount of ten millions of currency will be made on the 15th inst., will keep up a demand for government bonds. Short commercial paper of parties to good standing passes more readily than a few days since, and should there be no other opening for profitable investments, money can be loaned as usual at liberal rates.

The following are Mul P. R. Mertz's New York stock quotations for to-day: 1858, 110; 5-20's, 102¼@102¾; 10-40's, 96¾; 7-30's, 105¾@105¾; Cleveland & Pittsburgh Railroad, 53¾; Pittsburgh & Fort Wayne, 132¾; Erie, 81¾. Our local stock and money markets remain quiet and without material change.

—We make the following extracts from the London Times of 29th and 30th ult.:

"The Bank of England papers mention that, while all other stocks are dull, American Bonds are still well supported, as there are outstanding accounts to be closed by speculators, while the public continue to invest. These purchases, however, are to a great degree balanced by sales pressed on Berlin account, where the lamentable state of business excites realizations. Money in the Frankfort stock market is very easy, and considerably below bank rates. The foreign exchanges are unprecedentedly low; Bills on London seem abundant, as they come for remittance against bonds sold at New York and for May dividends, the regular sale for such bills in the trade for manufactured goods has produced being now very restricted."

"The discount demand at the Bank of England is still very large, but there have been symptoms of freedom to-day among lenders in the open market than at any time during the past fortnight. In the Stock Exchange the rate for advances on Government securities has been 6 to 10 per cent."

"The City of Paris, from New York, has brought £740,000 in gold, and the Palmyra £32,000. Other steamers, which sailed at the same date, will bring, it is said, about £200,000. These amounts, with those recently received by the Scotia, make a total of nearly two millions, although the news of the bankruptcy of Overend, Gurney & Co., had not yet arrived out. This event occurred on the 16th, and the City, due on Friday or Saturday, will bring advices of the effect created by it. The demand for gold for the present remittances had been met by free sales on the part of the Government at 128, but an option prevails that the next mail will quote a much higher rate of exchange."

"The tobacco impost is much excruciated at the expectation of the duty of 60 per cent. ad valorem to be inflicted upon the trade. With such a duty, what costs 8d and sells for 5 pence profit, will raise the cost to the consumer to 6d or more. Such taxation, if generally adopted, will, it is argued, absorb much more capital of the country, and fall with such weight upon the people that they will eventually throw off the burden by some convulsion."

—The 15th of June coupon on the second series of the Seven-Thirties currency bond will be payable on Friday next, and will draw out of the Treasury $10,500,000, or 3.65 per cent on $300,000,000. The temporary deposits in the Treasury are gradually declining in amount. The aggregate on hand at the New York office on the 31st ult. was nearly sixty-four and a half millions, and at the end of the first week in this month they were reduced over a million and a half. Of Certificates of indebtedness, within the same time $4,174,000 had been paid off, and the entire amount paid off in New York since the issuing of the notice of the cessation of interest, is fifteen millions.

—The import and export trade of the country just now possess considerable interest, though the gain in the imports of dry goods upon the last year's figures was not quite as large during last month as in the earlier part of the year, it is nevertheless amply sufficient to attract the attention of the trade. The total entered at New York, reckoning only the foreign gold value, freight and duty upon the five months of May, was over seven a quarter millions, against less than four millions for the same period of last year. We are surprised to notice the slight difference between the amount landed there and the value thrown upon the market, the totals being about even; whereas, usually, when the goods are crowded into the port so rapidly a large part of them go into the bonded warehouse. Part of the increase of last month, of course, is designed to supply some portions of the country which formerly received stock more directly from the foreign market. The imports for the five months since the 1st of January amount to $82,826,016, against $48,852,069 in same time last year. Since the beginning of the year, notwithstanding the large receipts, the total value landed at New York is only three millions larger than the amount thrown upon the market. The total imports of New York for the first eleven months of each fiscal year, beginning with July 1st, 1863:

| | |
|---|---|
| 1862-3 | $78,432,252 |
| 1864-5 | 44,411,571 |
| 1865-6 | 130,280,594 |

The above is in dry goods alone. When the imports of general merchandise come to be added, the total will be swelled beyond all precedent. A very considerable part of this large amount has been balanced by the increased value given to the exports of cotton; and if the high price of this staple can be maintained, even with the smallest crop that has been produced, we shall not be required to pay for much of next year's imports in specie.

### New York Money and Stock Market.

NEW YORK, June 12.—Gold has been feverish to-day in consequence of the news from Europe, which is interpreted to indicate that the probabilities are less of a pacific solution of the political difficulties on the continent. Private advices are said to be even less favorable than those published. The price advanced from 134¾, the lowest point, to 143. The shipment to-morrow is generally estimated at about two millions. The Money market is again easier. The Government bankers have money in large amounts at four per cent. Prime discounts are current at 4@5 per cent.

The Government securities are quiet and steady this afternoon. We did not hear of any considerable amount of bonds coming back by the Scotia.

The following were the closing prices: Coupons, 1881, 110; 5-20 Coupons, 1862, 109¾; 10-40 Coupons, 96¾; July 7-30's, 102¼@102¾.

The railway speculation gained strength this afternoon, and there was rather more activity at the second regular and last open board, at improving prices. The "bear" was most marked on Fort Wayne and Erie. There was considerable excitement and activity at the afternoon sessions, and it is clear there was a near approach to the times when speculation was rampant in the Petroleum and Mining shares. There was a general advance in prices, and United States and Consolidated Gregory took the lead in the upward turn.

The *Commercial's* money article says the stock market continues extremely dull. There is a falling off in the orders from outside parties. Erie is unsettled, and the street is bogged as to the movements of the leading operators. The brokers of the speculative directory are offering to sell any part of 5,000 shares at 60@60¼, sellers 60, but without success. Governments are not affected by the lower quotations of 5-20s at London. Sixes of 1881 are ¼ better, closing at 110¾, Seven-Thirties are ¼ lower. The demand for money is light. The brokers are readily supplied at 4 per cent. on Governments. Round amounts may be borrowed at 4 per cent. Discounts are moderately active at 5@7 per cent. for prime paper.

Gold has taken another sharp upward turn. The Bulls have availed themselves of the demand for exports to run up the premium. The price opened at 143¾, but subsequently declined slightly.

The shipments by to-morrow's steamers are likely to reach a million and a half to two millions. Judging from the tone of private advices by the Scotia, shipments may be expected to fall off to merely a nominal amount after this week. Foreign bankers are beginning to calculate the probabilities of the return of much of the specie sent out last month at no distant day. We find no indications that any Five-Twenties have been returned by the Scotia.

Foreign Exchange rather firmer. There is more demand for sight bills than was expected—importers offering remittance as much as possible.

The closing prices of Stocks were—Ohio Certificates, 28¾; Western Union Telegraph, 35¾; New York Central, 97¾; Reading, 105¾; Erie, 60¾; Illinois Central, 126; Pittsburgh, 65¾; Toledo, 101¾; Northwestern, 30; Fort Wayne, 87¾.

The *Post's* money article says there is so much idle capital, and so little demand for it, that the loan market is very dull and inclines to accept the lowest rates for call loans. The current rate is 5@6 per cent. Commercial paper of the best grades is scarce at 6@7 per cent.

Government stocks are well sustained, other stock dull and drooping.

After the board, Erie sold at 60¾; Northwestern, 40¾; do. preferred, 60; Fort Wayne and Chicago, 85¾.

We report one cargo of Three thousand barrels having changed hands, principally in bulk, and all strictly prime at 20¼. Recently, there was a good demand, and whatever was offered at that present, and our refiners are not buying very freely, which would suggest to us that the quarters that prices will go still lower. It is but fair to state, however, that some dealers are pretty firm at 19¾, and we have no hesitation in saying that at present no amount of any consequence could be purchased below this figure. The arrivals continue large, but as the river is again rising, we expect to see the figures of production affected. Sales of the week at the following prices, viz:

### ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, June 12, 1866.

CATTLE—The supply of cattle was unusually light this week, not exceeding six hundred head, but as the demand was very much restricted, the market ruled dull and heavy, and prices were barely sustained. Of the whole number offered, fully two hundred were wholesaled, with the balance left over by butchers, with the exception of a few that were left over. Of these 300 sold, Barney Grey purchased 102 head of the best, at prices ranging from $7@8.50, gross and We. Hines did a fair amount of buying very good stock, took some of the medium, and paid way good for extra. Mt steers sold from 8 to 9 cents—mostly at 8@8½. The butchers and drovers are complaining bitterly about the present high prices of Beef cattle, alleging that it is with the greatest difficulty that they can hold their own.

SHEEP AND LAMBS—The supply of sheep was not quite as large as last week, but there was also a slight falling off in the demand, and the market was rather hard, and for some grades prices ruled a shade lower. We quote at 4@5 cents for common to fair, and 5½ to 5¾ for prime fat mutton sheep. Lambs have not changed, ranging from $3.50 to $4 per head.

HOGS—Continue dull, and nominally unchanged. Sales in a retail way at 7 to 10c, gross, for fair to good averages.

### RIVER NEWS.

The river has commenced to recede slowly, having fallen fully six inches during the twenty-four hours ending last evening, at which time the Monongahela pier marks indicated four feet six inches. We have no advices from Oil City to-day, but it is reasonable to suppose that the Allegheny is falling there, as there was but a trifling rise during the last week. The weather yesterday was clear and oppressively hot.

There has not been a single arrival since our last report, aside from the regular packets, which have passed up the Ohio, and the Cincinnati, and the Louisville, are about due, and may arrive during the ensuing twenty-four hours.

### RIVER RANKINGS.

The river has commenced to recede slowly, having fallen fully six inches during the twenty-four hours ending last evening, at which time the Monongahela pier marks indicated four feet six inches. We have no advices from Oil City to-day, but it is reasonable to suppose that the Allegheny is falling there, as there was but a trifling rise during the last week. The weather yesterday was clear and oppressively hot.

There has not been a single arrival since our last report, aside from the regular packets, which have passed up the Ohio, and the Cincinnati, and the Louisville, are about due, and may arrive during the ensuing twenty-four hours.

The Lorenzo left for St. Louis last evening, with an excellent freight trip, having nearly her full complement of freight. The Emma went out in command, with Captain Charles Wilkins in the office. The Lucy arrived from her second trip up the Kanawha, and left for St. Louis, from the same point, in the afternoon.

The Grey Eagle arrived and departed for Brownsville and Geneva, with good trips each way. Capt. Thomas Shuman came down as passenger on the Chippewa. Jim Boucher, Kanawha, is being repainted and repaired.

The fine packet Telaska, Capt. Phillips, left for Louisville, on Tuesday, with all the coal they could take stowed on deck. The Leader and Emma stuck on Glass House, but the former took, we understand, without much effort, off. The Venture and Painter were regularly towed up, and succeeded in getting off. The Venture flipped, but the latter boat, we understand, succeeded in getting off "all right." The above mentioned are destined for Cincinnati, with the exception of the Ella, which boat goes to Louisville.

Capt. Wm. Anderson's new boat, the R. C. Grey, is rapidly approaching completion, and will soon be ready for business. It is a fine, substantial boat, and Capt. Grey, after who the boat was named, contemplates presenting her with a fine set of colors. Although accused of sympathizing with the Finians, we presume, Capt. Grey will not object to the stripes and stripes.

The Kate, Capt. H. H. Devinney, is filling up steadily for Cincinnati and Louisville, and will probably be ready to take her departure this evening or early to-morrow morning. The lightner is also loading for the same points.

The Iron City, Capt. Frank Marratta, is next in the list for St. Louis, and as the river is fairly at a point to allow her to ship, on her schedule hurry down from Wheeling.

The Fine Bluff, Capt. Taylor, is announced for Arkansas River, and all intermediate points, leaving on Thursday, and passengers and shippers should bear this in mind.
