# DAILY POST.

PITTSBURGH, FRIDAY, AUGUST 4, 1843.

☞For business cards, &c., see first page.

"Cardillac, the Jeweller."—We will commence, to-morrow, the publication of a most interesting tale under this title, from the pen of Hoffman, a distinguished German writer, translated by Mrs. E. F. Ellet. To those who delight in such reading, the story of "Cardillac" will prove a rich treat. We have rarely met with a tale of more intense and absorbing interest.

Theatre.—It will be seen by an advertisement in to-day's paper, that the Theatre will be opened by Mr. Wm. P. Heastings. Mr. H. has had much experience as a Manager, and he assures the public that his company will be unsurpassed in talent and respectabilty.

Cheap Tin Ware.—See R. M. Dawson's advertisement.

"Philo Democrat" was received too late for to-day's paper.

Alexander Brackenridge, Esq.—We publish this morning the reasons given by "A Democrat," why he does not desire the nomination of Alexander Brackenridge for Congress. The reader will observe that the objections offered are not very forcible, but all who know Mr. B. must admit that they are the strongest that can be found in the course of his long and useful residence in Allegheny county. If Mr. B. should be nominated, we have no doubt but he would be a faithful, active member, and industriously serve the interests of his constituents.

Monongahela Improvement.—We copied an article yesterday from the Gazette on this subject—upon inquiry we regret to learn that no contract has been made for the completion of that work. It is true, that Messrs. Lothrop & Morehead made a proposition to complete the navigation to Brownsville, and make all necessary repairs, provided the tolls were secured to them until the amount of their contract would be paid in full; this the board were willing to do, but we e unable, as they have not means to pay the present liabilities of the company, and release the proceeds from incumbrance, consequently there is no contract entered into, and but little prospect of this very important work being completed.

We are pleased to learn, however, that the company have made some arrangements to secure the completion of the repairs at Dam No. 1.

Babbit's Anti-Attrition Metal.—We invite attention to the advertisement of this new and important article. The trials which have been made, sufficiently prove its superior usefulness in the department of the mechanic arts for which it is intended. The ordeal of the work of a locomotive engine is about as severe a one as could be desired; and the quality of the metal needs no endorsements, after having stood the friction necessarily incurred in running such an engine 30,000 miles.

The testimonials of practical and scientific men east of the mountains of the superiority of this metal, are, as will be seen by the advertisement, fully borne out by competent engineers, and by Mr. Lyon, in whose establishment it was introduced some weeks since.

We hope the enterprise of Mr. Fulton, who has introduced it here, will be amply rewarded

Devils.—Owston has something in his house called "Devils," which he keeps for the "accommodation of strangers and travellers." What are they good for?

☞Go and bathe! But where can we, (says the reader,) consistently with the *pursical* incapacity of the times? Why to the Croton Baths, corner of East Broadway and Catherine street, where the price is only *one shilling*.—*N. Y. Times.*

Alas! we people of Pittsburgh, of all others who most need ablutions of water, assisted by soap, have no place where a comfortable bath can be indulged in for that price,—except it be at the river, where it is free, if the boys wouldn't steal your clothes—a confoundedly disagreeable situation to be placed in. Will public baths be established?

☞A quarrel occured in Philadelphia, between three Italians on Saturday last, in which one of them received several severe wounds which caused his death in a few hours.

Has Beau Hickman arrived in town yet?—Who can tell?—*Chronicle.*

No, he has not. At the last accounts he was in Baltimore, "coming it" over the *monumentals*, where he will probably remain as long as he can employ his time usefully.

☞The late rain seems to have extended throughout the country. From all directions we hear of its revivifying influence.

A Savage Bear.—An English paper says that one of the most singular names ever met with is that of a gentlemen of fortune in Kent. His family name was *Bear*, and as he had maternal relatives of the name of *Savage*, his parents gave him the Christian (or rather unchristian) name of Savage. Hence he enjoyed the the pleasant and amiable name of *Savage Bear, Esq.*

MARRIED,

On the 13th ult., by the Rev. David R. Kerr, Mr. John M'Curdy to Miss Ellen Moody, eldest daughter of William Moody, Esq., of this city.

### Commissioner.

We are authorized to announce Mr. JAMES H. ROBB, of Upper St. Clair township, as a candidate for County Commissioner, subject to the action of the Democratic Convention. aug 3–tc

### *COUNTY TREASURER.*

JACOB TOMER, Esq. of Pitt township, well known to the Democracy of Allegheny county, as a staunch, uniform Republican of the Jackson school, will be a candidate for County Treasurer, subject to the decision of the Democratic County Convention.

aug 2—tc. An Old Democrat.

### COUNTY TREASURER.

At the solicitation of many radical democrats, Mr. SAMUEL McKEE, of Birmingham, has consented to become a candidate for the office of County Treasurer subject to the decision of the Democratic County Convention. Of Mr. McKee it may be truly said, to be *known* is to be *popular*.

*Many Frinds of Unassuming Worth.*

☞The Washington Examiner, Uniontown Genius of Liberty, Wheeling Argus, Brownsville News, and Waynesburgh Messenger, insert three times each, send paper to advertiser, and charge this office.

### PENN INSURANCE CO.

THE first election of Nine Directors of this Institution will be held at the Monongahela House on Thursday the 3d day of August, proximo, between the hours of 9 o'clock, A. M., and 4, P. M., by order,

R. MILLER, Jr., *Sec'y.*

jy 29 *To the Commissioners.*

### VALUABLE REAL ESTATE.

THE undersigned will offer at PUBLIC SALE, or Lease, *on Saturday, the 18th of November next*, at 10 o'clock, A. M., that valuable property, on the south side of the Monongahela river, opposite this city, lately laid off in lots, embracing between 20 and 30 acres of ground.

This is well known to be the most advantageous location for manufacturing purposes in the vicinity of our great manufacturing city, having an extensive front on the river, and extending back to Coal Hill, celebrated for the quality of its coal over any other, and in which immediate vicinity and extending back are inexhaustible mines; railways from which can be run directly into works on this property, as is now done in the neighborhood. There are also several strata of coal beneath the surface on this property, which will be valuable in time, by the use of shafts, one of which is ascertained to be 12 to 15 feet in thickness.

A portion of the property being elevated above the proper level, and the clay being of the best quality for brick making, can be used very advantageously in improvements.

Its advantageous location for Manufacturing and Building, the Slack Water Navigation of the Monongahela, its being nearly opposite the mouth of the Pennsylvania Canal, and affording every facility for the reception of materials by river, at all seasons when navigable at any other point in the vicinity of the city, its proximity and connexion with which, as will be the case by a bridge so soon it becomes occupied, altogether render it in every point of view, one of the most desirable locations for investment and improvement.

Notwithstanding the number of extensive Works which have been erected within the past few years, manufactures have never flourished more successfully than at present, the yearly increasing extent of our city, the immense emigration to the West, and its unequalled rapid settlement, which our city must ever, as it now does, most advantageously supply with manufactures, will yearly increase the demand, and great as is our character as a manufacturing place, when we review the great increase in number and extent of our manufactures within the past few years, we must consider it in its infancy, as the great manufacturing and commercial point it is destined to become.

In addition to the manufacturing of Iron, Nails, Glass, Engines and Machinery, Cotton Yarns, &c. which are operated advantageously here, we require in this region manufactories of Cotton Goods, as the immense quantities of these articles yearly brought from the East for this, and Western and Southern maskets evince, the profits to the different hands generally through which they pass between the manufacturer and the western merchant, would satisfy a manufacturer; in addition there is the carriage west to east of the materials, and east to west of the manufactured articles, besides insurance, time, &c., offering every inducement to companies of our own or Eastern Capitalists beyond competition.

Applications have been made for a number of years past for locations on this property for Manufacturing and Building purposes, and it has been laid off into lots containing nearly an acre on the river, for the former, and 24 by 100 feet for the latter purpose, fronting on 50 feet streets, and 20 feet alleys.

It will be sold in a body, (exclusive of a few lots) or portions will be sold together: to suit the views of individuals or companies wishing to purchase, or otherwise separately in lots. Some lots may be exchanged for buildings on this property, or for a farm.

The terms will be made perfectly easy, only a small portion required down, and the remainder in a term of years, payable annually or otherwise.

It is not desired to dispose of the property under the late and still existing depression of real estate, except for its fair value, but from the frequent applications for its purchase, and the inducements offered at present for improvements, every article and expense connected therewith being so low, it is considered the present possession for these purposes by persons or companies of wealth, would be so advantageous to them, together with the terms on which it is offered, that induces the offer of sale at this time. NEVILLE B. CRAIG.

Committee of Mrs. Sidney Gregg.

PURSUANT to a decretal order of the Circuit Superior Court of Law and Chancery, for Mason county, pronounced the 19th day of April, 1843, in the cause depending therein of Henry Strider, Plt., against James W. Barkenridge and others. Def'ts the undersigned special commissioner, will sell at public auction to the highest bidder, at the court house in Mason county, on the 16th day of September, 1843, (being the first day of the Cir Sup'r Court of said county,) that well known body of land commonly called "Graham's Station," lying in Mason county, Va., on the Ohio river, containing by survey four thousand one hundred and twenty-three acres, in two adjoining parcels, a large proportion of which is river bottom land. The above lands previous to the day of sale will be laid off by the surveyor of the county in lots of convenient size for farms, and plats furnished, and so many thereof will be sold as may be necessary to produce the sum of money required by said decretal order.—The sales will be made on a credit of nine months for one-third part of the purchase money, of twelve months for another third part, and of eighteen months for the residue, the purchaser or purchasers giving bonds with good security for the payment of the different instruments, bearing interest from the day of sale, the legal title to be retained as further security for the payment of the purchase money, and liable to resale at the risk of the purchaser or purchasers failing to make punctual payments.

### Remedy for the Influenza.

THE Influenza, which is now in almost a universal epidemic, is exciting the inventors of patent medicines to increased exertions in the puffing line, but owing to the general distrust entertained for the generality of such drugs, people fear taking them.—The following, however, from a distinguished physician in New York, Dr. Nelson, we think may be relied on:

"The object of the present communication is to recommend a single remedy, cheap and of easy access to the poor, and to caution them against an injurious one in this disease, namely, bleeding, either general or by leeches. In all those cases in which the first class of symptoms prevail, let the patient smell frequently at a common salts bottle, (*Sims' Aromatic Volatile Salts* are preferred) and by putting the vial to the mouth to draw a few deep inspirations of volatile matter into the lungs. Let this process be repeated two or three times in an hour, and it will give more speedy and greater relief, in all slight cases of the first class than any other remedy, and will be sufficient for a cure. It will also be essentially useful in the severe cases; and those of the class of prostration, a few drops of amonia, or hartshorn, ought to taken internally. A neat way of doing so is to take an old fashioned mixture called lac ammoniaci. However, it is as a local remedy, to act on the disordered surface, that its use is advised. The principles will be recognized by all physicians versed in molecular organization, and those who are deficient in that knowledge may do in that instance as they do in all others—act upon the faith they imbibe." These salts are for sale and within the reach of all classes, at WM. THORN'S, 53 Market street, Pittsburgh. jy 17.
