FINANCE AND TRADE.

WEDNESDAY, November 7, 1866.

The New York stock quotations to-day, as reported by Robinson, McClean & Co., were as follows:—Gold, 147¾; 1864s, 114¾; 5-20's, old, 110¾; 5-20s 1865, 107¾; 7-30s, 1st series, 108; second and third 108. Michigan Southern R. R., 93¾; Cleveland & Pittsburgh, 63¾; Pittsburgh, Fort Wayne & Chicago, 110¾; Erie R. R., 85¾; Union Telegraph Company, 69¾; Chicago & Rock Island, 110¾; Chicago & North Western, 58½.

In our local stock market there is but very little doing. There is some inquiry for bank stocks, mainly for investment, but the offerings of this class of securities are very light, and, besides, the extreme views of holders has a tendency to retard operations. Oil shares very dull—a small lot of "Marine" was disposed of at McIlwaine's auction sale last night at 9¼, which a decline. Columbia is quiet, and without quotable change, ranging from 16 to 17. There is a fair business doing in government bonds at about a quarter below New York quotations.

—The New York *Tribune* of Friday has the following on the policy of "hoarding gold" so energetically pursued at the present time by the Secretary of the Treasury:

Secretary McCulloch would seem to regard the payment of our National Debt not a "legitimate" disbursement of public money. We non-concur. That is the very object for which this surplus was, by stringent taxation created.

The Secretary might at once buy up and cancel at least $100,000,000 worth of our Public Debt, thereby reducing the annual interest payable out of the earnings of the people by at least $5,000,000—it might be by over $7,000,000. This redemption of the public debt would release at least $70,000,000 in gold, throughout its into the channels of trade, rendering gold abundant for every conceivable purpose, and increasing the real value of every "greenback" and Government bond in the country. The purchase and destruction of a twenty-fifth part of our National Debt could not fail to appreciate all of that debt which remained unsatisfied. The broad of the poor would be cheapened; and, while most products and property were declining in currency value, Government bonds would be rising steadily in value. If that would not produce a state of things highly favorable to the conversion of short time Treasury obligations into longer, what could?

But Mr. McCulloch, it seems, has determined "not to dispose of gold for the present." In other words, he has determined to keep the food and clothing and fuel of the poor as dear as possible. Whatever his motives be thereto, the giant weight of the Treasury must throw all the speculators in and monopolists of flour, coal, pork, &c., &c. He has this vast power so as to enrich these and scent the laborer's children hungry to bad. This is in glaring antagonism to the doctrine of his annual report and his Fort Wayne speech.

For whatever Congress has done or left undone the Secretary is now responsible. He was not clothed with the requisite power to resume specie payments; so he is not to blame for the failure thus far to resume. All we ask of him is, that he *use what power he has* on the side of useful industry against useless speculation. Let him pay the public debt as fast and so far as he can, thus making bonds scarcer and coin more abundant, and we will bless him for the good he does, and credit him with that he presumptively would have done, had he been enabled. But, so long as he hoards gold to the extent of $50,000,000, he plainly tends, through making coin scarce, to increase the premium borne by it, thus inflating all nominal values, and stimulating speculation to the utmost. If his power is to be that used, we cannot regret that it is restricted.

—Wm. Brough, Receiver of the assets of Culver, Penn & Co., has commenced a suit for trespass against P. B. Gray, Special Agent, and F. D. Kimmel, late President of the Venango Bank. The gist of the suit is simply a question of whether the property of the deposited bank, which passed into the hands of the Receiver for the benefit of all the creditors, prorata, or be sold for the benefit of one. The decision of the Court will be awaited with interest.

MARKETS BY TELEGRAPH.

New York Financial Matters.

NEW YORK, November 7.—Money more active at 5@6 per cent. Sterling dull at 109¼@109¾. Gold easier, opening at 148, and closing at 147¾. Government Stocks firm. Freights to Liverpool quiet.

Stocks lower; Northwestern, 57¾; do. preferred, 77½; Toledo, 120; Rock Island, 110¾; Alton & Terre Haute, preferred, 76; Chicago & Alton, 111; Fort Wayne, 109¾; Toledo & Wabash, 39¾; Milwaukee & St. Paul, 61¾; do. preferred, 74¾; Western Union Telegraph, 31½; New York Central, 119¼; Erie, 85¾; do. preferred, 85¾; Five-Twenties, coupons 1862, 109¾; do.-new series 1865, 110; do. coupons 1864, 107¾; Ten-Forties, registered, 106¾; Treasury certificates, 100; Missouri 6's, 90¾; Ohio and Mississippi Certificates, 34.

The Post's money article says: The money market is active but easy at 5@6 per cent on call. Some of the banks have been attempting to put up their rates during the past two days, but there is less movement in this direction now. The Stock market in the opening was devoid of animation. Governments are firm, the 5-20s being stiffer, 7-30s are quiet. Railroad shares are regular, early in the session there was a perturbed feverish feeling which towards the close gave place to an activity which caused some improvement in quotations. After the regular board quotations were: N. Y. Central, 119¼; Erie, 85¾; Hudson, 123; Reading, 104½; M. S., 92¾; Illinois Central, 128; Reading, 105½; N. W., 58¼; do. preferred, 79¾; Toledo, 120; R. I., 110¾; Ft. W., 109¾.

The *Commercial's* money article says: The Stock market shows a general improvement after the dullness attending the elections. The transactions in railways were not large, but prices were generally firm, the chief exception being in the case of New York Central, which fell off 1¾. The advance of 1 per cent in the case of interest has had no effect upon the spirit of speculation. The Money market continues easy at 5 per cent for demand loans on stock collaterals, and 4 per cent on government securities. There is less demand from stock brokers, but the requirements for discounts are heavier. The rates of Foreign Exchange nominal, as usual on steamer day; prime sixty days bankers' sterling are quoted at 108@109¼.

LATEST.

There is a fair demand for money, and a general disposition on the part of money lenders to raise the rate on the loans to six per cent. The business to-day was at 5@5½ per cent, but the supply continues ample, and there is no lack of capital. The discount market is firmer and prime paper passes at 6@7 per cent. The Gold market was weaker towards the close and fell off to 147. The market for Foreign Exchange is firm, and private bankers bill are held at 109@109¾, but there are no buyers over 109¾. The supply of Cotton bills is steady.

The government securities were quiet and steady this afternoon at our quotations. Reg. 1881s, 114¾@114¾; coupons of '81, 114¾@114¾; 5-20's, reg., of '62, 109¾@109¾; do coupons of '62, 109¾@109¾; do coupons of '64, 107¾@107¾; do coupons of '65, 109¾@109¾; 10-40's reg., 109¾@109¾; do coupons, 109¾@109¾. August, 109¾@109¾; July do, 109¾@109¾; June do, 109¾@109¾; July do, 109¾@109¾; August do, 109¾@109¾; October do, 109¾@109¾; December do, 109¾@109¾; May do, 109¾@109¾; August do, 109¾@109¾; September do, 109¾@109¾; October do, 109¾@110.

In the oil shares there has been active business in Cumberland, at 70@71, and in Westmoreland, at 75@76. The excitement in Wilkesbarre, and the increased demand for the stock, is due to the very general reports that the company have completed active arrangements with the Erie Road, which gives it facilities for transportation equal to the most favored companies. There was a pressure to sell stocks at the last open board, and a general decline took place. After the call there was a firmer feeling, and a rally from the lowest point.

NEW YORK, Nov. 7.—At the 4 o'clock open board the following were the principal sales: Cumberland coal, 70¾; Quicksilver, 52; Western Union Telegraph, 30¾; Mariposa offered 30; New York Central 119; Erie, 85¾; do preferred, 85; Pittsburgh, 116; U. S. 9¾; Illinois Central, 128; Pittsburgh, 52¾; Toledo, 120; Rock Island, 110; North Western, 57¾; N. W. preferred, 79; Fort Wayne, 109; Michigan Central, 84, preferred, 91.

Whiskey nominal. No demand for bond, at $2.25. Wheat dull, and 1@2c lower, at $2.28@2.33 for No. 2 Chicago and Milwaukee. Barley in fair request from export and home use, but without decided change in prices, at $1.06@1.10 for Canada West in bond; $1.20 for free; and $1.21@1.22 for choice West State. Rye dull and lower, at $1.15@1.17 for Western. Oats dull and 1@2c lower, at 72@73c for Chicago and Milwaukee. Petroleum easier, at 22½@23c for crude, and 39@40c for refined in bond; also 1,500 bbls refined in bond, for December, buyers option, at 36½c. Pork dull and heavy, at $28.50@29, regular, and cash for new mess; closing at $28½, cash, and $28.62½@29 for prime. Beef quiet, at $12.50@18.50 for new plain mess, and $18.50@22.50 for new extra mess. Beef Hams heavy, at 37@38c. Bacon dull and heavy. Cut Meats unchanged, at 14@14½c for shoulders, and 16@16½c for hams. Dressed Hogs quiet, at 10½@11½c for western. Lard quiet but firm for prime, at 14@15½c. Butter steady at 39@38c for Ohio, and 35@40c for State.

New York Dry Goods Market.

NEW YORK, November 7.—The dry goods market for the past three days has been unusually depressed and quiet. The market for prints and cloths is dull from the lower price of prints up, and there has been but few transactions the past three days. The market for prints has been quiet but firm, and very large stocks of the leading styles on the market. These goods are very steady in price and moderately active for export. In the market, ticks and stripes, and heavy goods in general of this class, there has been some slight concessions in prices, and it is probable that prices will be fixed at those of September. There is only a light trade, but goods are in good styles, and a renewed confidence is felt on the part of holders. The market for wool is still depressed. Coburgs of prices are as follows: Brown Sheetings—Indian Head, 32c; Beatie, 28; do 5-4, 32½c. Bleached Sheetings—Beatie, 35; do 5-4, 45; Blackstone, 28. Tide-Water Receipts.

The quantity of flour, wheat, corn and barley left at tide water during the last week in October, in the years 1866 and 1865, was as follows:

	Flour.	Wheat.	Corn.	Barley.
1865	17,500	256,700	1,000,700	2,300
1866	37,000	611,800	441,200	196,000
Dec.	9,500	Dec. 355,300	Dec. 559,500	Inc. 193,700

The aggregate quantity of the same articles left at tidewater from the commencement of navigation to the 31st of October, inclusive, during the years 1865 and 1866, was as follows:

	Flour.	Wheat.	Corn.	Barley.
1865	632,700	6,707,300	14,207,200	2,8 1,500
1866	212,700	3,933,900	24,13 ,000	3,210,600
Dec.	417,000	Dec. 2,812,500	In 7,738,700	Inc. 315,700

By reducing the wheat to flour, the quantity of the latter left at tide-water this year, compared with the corresponding period last year, shows a deficiency equal to 999,700 bbls of flour.

Chicago Cattle Market.

CHICAGO, November 6.—The fresh receipts of beef cattle to-day at the Union Stock Yards are 201 head. Entered sales 227 head. There is scarcely anything doing in the cattle business to-day. Only two lots, consisting of ice packing steers were sold to Culbertson, Blair & Co. The receipts are light and buyers are holding off for a lower range of prices. There is no choice stock in the yards and what is now in the market consists of common mixed cows and oxen, for which there is no demand.

The "combination" is getting sick of their bargain, and seemingly desire to effect a compromise, but we do not wish to have anything to do with the unholy alliance, and still continue to report the market to suit ourselves and the stock growers.—*Journal.*

THE NEW

Spring and Summer Medicine.

FLUID EXTRACT SARSAPARILLA,

COMBINED WITH

Iodide of Lime,

PREPARED FOR

G. W. PETTES, BOSTON,

BY

James R. Nichols & Co

MANUFACTURING CHEMISTS,

MANUFACTURERS OF THE

ELIXIR PERUVIAN BARK

WITH

Protoxide of Iron,

Which has become so favorably known as a

Tonic and Restorative,

By Physicians and Invalids in all parts of the country.

THE NEW REMEDIES, "SARSAPARILLA IN A COMBINATION WITH IODIDE OF LIME," presents one of the most prompt alterative agents in a form capable of exerting full action upon the blood and system in the most effective manner. It is conceded that the alterative, resolvent, or tonic effects of Iodine, are exerted most decidedly when associated with other alteratives, in combination; and as Sarsaparilla seems to fulfil perfectly all the favorable requisitions.

The first effect usually observed when "SARSAPARILLA WITH IODIDE OF LIME" is taken, is an increase of appetite, showing that it has tonic properties of a marked character. Its alterative effects are manifest in its ready combination with the blood and secretions. Hale, scrofulous women and children improve rapidly under its use, and the vital functions assume a healthy condition.

Its simplicity, as applied to a large number of chronic or acute affections peculiar to children, it is suited to them, both by the mildness and efficiency of Medicinal effect and the pleasant, attractive form of its preparation. It may be given for a long period where constitutional alterations are desired, and no repugnance, or dislike, will be felt to take the syrup, encountered. In White-swellings, Hip-Joint Disease, and Spinal Affections, it has been given persistently, in moderate doses, until relief is obtained.

In the Spring of the Year, and during the Warm Weather,

The accumulation of morbid matters in the system seems to become manifest and very troublesome. Lassitude, Headache, Boils, Costiveness, Loss of Appetite, Pains in the Bones, Joints, Loins, etc., are very common. Nothing ever devised is better adapted to exterminate or drive off these affections than this new combination of SARSAPARILLA WITH IODIDE OF LIME.

No preparation like it, or which approximates to it in cure has ever before been placed within the reach of invalids. Indeed, it is an entirely NEW and SCIENTIFIC combination of the two most powerful remedies known in the materia medica, viz: Sarsaparilla and Iodine, both of which are recognized by all medical men concerning it, the description of its chemical character, therapeutic effects, mode of use, etc., are given in a circular, which can be had of Druggists, or sent free to any address by the Proprietors.

PITTSBURGH BAROMETER.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, November 7, 1866.

The produce markets are steady and moderately active, though devoid of excitement; while, so far as values are concerned, there has been no changes worthy of special notice. Flour is very firm, notwithstanding it is "easy" a little in Chicago, in consequence of an advance in freights, and dealers are very stiff; indeed, we might say, tenacious. There is but very little inquiry for Provisions, and as the impression prevails that the Hog product will pale lower during the coming season than it has for several years past, there are no large buyers, and the market is weak and drooping.

GRAIN—Wheat is quiet but firm; sale of 3 cars No. 1 Iowa Spring at $2.20, and 1 car on private terms. Oats in fair demand and firm, with sales at 51 to 53c, on track and in elevator, and 55 to 60, in store. Corn is held at $1.10 to $1.15 for prime old shelled—small sales at $1.20. Sale of 200 bush Rye at $1.25. Barley is selling at a variety of prices, as there is a great difference in the quality. Spring may be quoted at $1.12 to $1.25.

FLOUR—Is firm, with a moderate jobbing demand but unchanged. We continue to quote at $12.50 to $13 for Spring Wheat, and $13.50 to $14 for Winter Wheat brands. Sales of 50 bbls "Dermont" at $12.75; 50 bbls "Olive Branch" at $13.5, and 100 bbls "Globe Mills" at $13.25—to arrive. Rye Flour is quoted at $7.50 to $8—sales of Buckwheat Flour, in store, at $7 to $7.50 per cwt.

PROVISIONS—Bacon is dull but not quotably lower—small sales at 16½c for Rib and Sides, and 17 to 17½c for Ribbed Sides, and 18 to 18½c for Sugar Cured Hams. Lard has still further declined, and cannot fairly be quoted above 19 to 19½. No movement in Mess Pork.

LARD OIL—Is lower in consequence of the decline in Lard. We now quote at $1.45 to $1.47 for No. 1, and $1.22 for No. 2—demand fair.

APPLES—Quiet but steady, with a demand almost equal to the supply—especially for prime to choice. We continue to quote at $2½ to $2¾ per bbl—sale of 25 bbls prime at $2½, and 25 bbls choice at $2¾.

POTATOES—We can report a sale of 40 bbls prime Peach Blows at $2½ per bbl. Jersey Sweets are quoted at $4@5.

BUTTER—There is a continued fair demand for prime Roll, but there seems to be no inquiry for common packed, in consequence of the dullness east. Sales of prime Roll at 29 to 32.

EGGS—In steady demand, and fresh packed sell readily at 30.

CHEESE—Continue dull with a supply considerable in excess of the demand; we quote 14 to 15 for Western Reserve; 17 to 18 for Hamburg, and 13 to 20 for Factory and Goshen.

CRANBERRIES—Steady with regular sales at $18 for common and $20 for cultivated.

SEEDS—Flaxseed is wanted at $3. Nothing doing in Clover or Timothy.

APPLE BUTTER—Sales of 20 kgs at 70.

HAY—Prime baled $22 to $25.

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, November 7, 1866.

CRUDE—There was quite a spirited demand for Crude to-day, notwithstanding the advices from the east were discouraging, though prices have undergone no quotable change—11 to 11¼ bbls returned and in bulk, and 10 to 10½ bbls included. The reported sales in the aggregate reach 12,000 barrels, as follows: 300, 2000 and 2000, all at 11c; 250 at 11¼; bbls returned; 500 at 10¾; bbls included; and 1000 for December delivery, at 11¼. The arrivals continue large, and the receipts on the recent rise will be considerably larger than was generally predicted. It was suggested by many that 30,000 bbls would be all that would reach here, but already we have over 20,000 barrels reported, and "still it comes." That the sales during the past week have been large is well known, but the supply nevertheless is fully up, and at present, somewhat in excess of the demand.

REFINED—There is no large venture to note in the demand for bonded oil, and the market is dull and weak, under the influence of adverse reports from the east. Yesterday and the day before, there were sales at 37, delivered in Philadelphia, while to-day, 35 to 35¾ were the best offers that could be obtained—but firm, we believe, half quotations at 35½ to 36. We can report a sale of 500 bbls standard white, at 38½c, for immediate delivery in Philadelphia, and we are cognizant of a broker being buying purchases 500 bbls in Philadelphia, for all November, to cover a contract, at 35. Free oil is dull, and standard brands cannot be quoted above 50 to 54.

ARRIVALS—The following arrivals of oil were reported today:

RIVER NEWS.

The river continues to recede steadily at this point with four feet ten inches in the channel, by the marks last evening. A very heavy cloud of smoke and fog enveloped the city until near noon, when it cleared away, and in the afternoon the sun shone with all his splendor.

There has not been a single transient arrival or departure since our last report, and business at the wharf was exceedingly dull, yesterday. The Bayard, from Parkersburg, is due here this morning, and the Quickstep, from Cincinnati, will doubtless reach here to-day.

At the Allegheny wharf, business is almost completely suspended again, so far as steamboat matters are concerned. All the boats are laid up, with the exception of the Urtiba, and she will follow suit after her arrival. The Allegheny Packet Company, having more boats than is required for
