The Pittsburgh Gazette
FINANCE AND TRADE.
OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, July 8, 1867.
The New York stock quotations to-day, as received by Mr. P. R. Mertz, were as follows: Gold, 139¼; Eighty-one bonds, 109¾; Five Twenties, 1862, 111¾; Five Twenties, 1864 108¼; Five Twenties, 1865, 108¾; 1865 dittos new, 107¾; 5 ves Tairties, 107¼@107½; Ten Forties, 112¾. Stocks—New York Central Railroad 104¾; Erie Railroad, 65¾; Reading Railroad, 104¾; Old South ern Railroad, 54; Cleveland & Pittsburgh, 87¼; Chicago and Rock Island, 93¼; Chicago and Northwestern, 4 ¾; Chicago and Northwestern preferred 67¾; Fort Wayne Railroad, 100¾. Mining Stocks Gregory, 5.50; Cerro de Sal, 5.00; Quartz Hill, 1.85.
Gold is rather lower to-day, the extremes were 139¾@139¼. The effects of the Government disbursements are beginning to be felt in the gold room, and a more bearish feeling is prevalent. The total payments on account of the July coupons are a little over five millions: the balance is in favor of prior coupons. Government securities are firmer to-day, especially those of 1862, 1864 and 1865, where there is advanced interest. Seven Thirties are firm, and Ten Forties steady, with a light demand. Railroad shares are lower for we t of outside support. Nothing but an abundance of idle capital in Wall street keeps up the market; a pressing demand for legitimate business purposes would greatly reduce the values of Railroad shares until there was a sufficient increase in their net earnings.
Mining shares better, without any advance, and unless mining companies practice the same economy as private individuals do shares representing investments will keep very low. High rates of interest is now paid by parties of good standing who looked to the banks for accommodation, but who now have to resort to the street to meet money.
There is much idle capital seeking employment, but parties prefer to keep greenbacks instead of investing in business, and banks almost too high to be a profitable investment.

The recent failure have occasioned considerable gossip in commercial circles, and it is to be hoped that they will not turn out as bad as many have been led to believe; but, as a wave is the case, these suspensions have produced a panicky feeling which will take considerable time to overcome. In regard to the liabilities and assets, we have nothing but the wildest kind of rumors, and we earn of the opinion that, outside of the parties who are interested and who have a right to know, there is nothing known definitely, and this, probably, is as it should be.
Rumors were current, to-day that a prominent oil man has been "forced to the wall." We have no particulars, and give the rumor for what it is worth, not pretending to vouch for its correctness. There were also reports of another failure.
We (ote be there, as to other cases in patent-ty ( ) ure, because they are spoken of freely in business circ ( ) es; the popular versions of the facts are so conflicting that we are not in a ( ) ition to say that the several parties may be ( ) ashed to effect satisfactory arrangements, and thus ever impending disaster to themselves and others.
—It is stated in the June report of the Agricultural Department that in some parts of the South there have been complaints of rust in the wheat, but it has been totally confined to the leaf, while the grain was so nearly ripe as to be little liable to attack. The harvest has been gathered in Georgia and the other Gulf States with a very gratifying result. The winter wheat is as large in a majority of the States as last year, though it is seen in a few of wheat growing States. Texas, Kansas, Ohio and Indiana report a diminished average, and Virginia, Upright, Arkansas and Tennessee a largely increased breadth. The New England States show a slight increase The Middle States a similar advance not exceeding six per cent. The Southern wheat growing States show an average increase of twenty per cent. If the conditions continue favorable at least two hundred millions of bushels may be expected in all the States and Territories. Other cereals are represented as in good condition.
—There is considerable demand among the outside public for some of the leading railroad shares, induced in part on the ease in money, in part on the anticipation of good crops, but chiefly on the conviction that while the leading lines of road were built in advance of the public demand, the country is being enriched and developed by them, have thrown gradually up to them, and will soon render the best situated lines remunerative. Such arguments as these are very freely canvassed in Wall street, and to them, apparently largely due the increased demand which has recently sprung up for railroad securities. These positive movement has also received a impulse from similar causes, and it is especially stimulated by the fact that the shares of a number of the best railroads which were formerly on the speculative list are no longer floating in the market, but have been taken out of the street, and are firmly held by investors. The volume of share available for the ordinary operations of speculators is thus quantity lessened. Hence the effect of such manipulations of these persons being concentrated on fewer stocks, it is all the more effective there.—*New York Post.*
—The Cincinnati *Gazette* says: "The stockholders of the Ohio National Bank, by a unanimous vote, accepted the proposition to consolidate with the Merchants' National Bank. The latter will then have a capital of $1,000,000. The name of the bank and officers will undergo no change, the Merchants' simply assuming the Ohio. The Merchants' National has declared a semi-annual dividend of per cent., payable on demand, and an extra Dividend of 4 per cent., payable August 1st."
—The closer vigilance observed by the Government in protecting the honest tax payers, by hunting out those who defraud the Government by criminals, evading their tax, is beginning to show the fine practical results. A little Cattle in has just been convicted and sentenced to the Albany Penitentiary for two years. He was considered the chief scene of traffic in illicit whisky, and a determination is manifested to vacilitate doings similar to those of the first offender who has been brought before the Court of the United States in New York or Brooklyn, for sentence under the statute providing penalties for violating the Internal Revenue Law, and as he received the severe penalty of the law, in imprisonment and fine, it would seem that henceforth the sentence is to be more dangerous than it has been in the past. Judge Benedict, in sentencing the prisoner, remarked that it seemed to have been and retained at the revenue laws as here been and retained at the revenue laws as be violated with impunity, "but," said he, "this must be understood otherwise." The warning is a salutary one, and we have no doubt will have its effect, especially if it comes to be understood that it will be followed up in other like cases.—*Phila. Ledger.*

PITTSBURGH MARKETS.
OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, July 8, 1867.
The general markets were very dull to-day, and there are no indications at present of any immediate improvement. The demand for most of the leading commodities is restricted almost entirely to supplying immediate wants, and, consequently, we have but few round lot operations to record. In prices, there are no changes worthy of special notice.
GRAIN—Wheat is quiet—none in market. Oats firm, in good demand and higher; we now quote at 70@72c, on track, and 75c, in store. Corn is dull and unchanged; we continue to quote at 90@92c. Rye is dull and nominal at 1,70@1,75. No enough doing in Barley to establish quotations.
FLOUR—There is a very good local demand, but the market is a little weak not withstanding, and, if anything, prices tend downward; We quote at $11@11,50 for fair to good Spring Wheat, and $11,25@11,50 for choice; $12@12,50 for Winter Wheat, and $13,75@14 for fancy brands. Rye Flour is dull at $8,50. Sales of "White Star" at $12, and "City Mills of Springfield" at $12,75.
PROVISIONS—Bacon is firm with a steady jobbing demand, and Shoulders and Hams are a fraction higher. We quote at 10c for Shoulders 11¾c for Ribbed and 13¼@13½c for Clear Sides, and 18½c for Sugar Cured Hams. Lard is dull at 15¾c; Mess Pork, $22,00, and Dried Beef, 20¾@21c.
POTATOES—There is quite an active demand for New Potatoes, and we can report regular sales at $4,50 per bbl. Peach Blows $1,75 per bushel.
GREEN APPLES—There is an active demand, and with light arrivals, prices may be quoted firm at $4@5 per bbl.
CHEESE—Is steady, with regular sales at 18@19c, according to quality.
EGGS—Steady with regular sales of fresh packed at 18c.
BUTTER—Is dull but unchanged—not much good Butter offering. We continue quote prime at 18@19c.
Oil—Lard Oil is still quoted by manufacturers at $2@93 for No. 2, and $1,04@1,05 for No. 1.

PITTSBURGH PETROLEUM MARKET
OFFICE OF THE PITTSBURGH GAZETTE, MONDAY, July 8, 1867.
CRUDE—The market was again very quiet to-day, and while there is no urgent inquiry, yet there is but little oil offering, and holders are firm at last week's quotations. There was a sale on Saturday of 3000 obls to be delivered after September, at 8. Spot oil may be quoted at 19¾@20c, and the same figures will do for first water. A private telegram from Oil City quoted at 21,30, which is about the same as Saturday. The eastern markets are steady and moderately active, but unchanged.
REFINED—The market for bonded oil was quite active to-day, the reported sales Saturday evening and to-day reaching 1,000 barrels, and five hundred barrels; prices have undergone but little change. The sales were: 2000 obls to be delivered between July 15th and 31st, seller's option, at 39¾c; 500 for July, buyer's option, at 39¾c; 500 for August, same option, at 39¾; 1000 for July, same option, at 40; 1000 for all the year, same option, (remainder of contract) at 40 cash for July and August, at 39¾; 400 for July, at 39; 1000 for July, seller's option, at 39; and two lots of 1000 each, for August, at 39; and last half of July, 30 days, at 39¾, and buyer's option, at 39, on cars here; and 1000 bbls prime light straw to white, at 37 delivered in Philadelphia. The eastern markets were quite active to-day, and this afternoon, but this has been the case for several days past, and, consequently, seem to have no effect.

RIVER NEWS.
The river was about at a stand last evening with twenty-five inches in the channel, according to the new metal mark. We had considerable rain during Monday night and Tuesday forenoon, and it looked favorable for more last evening.
The DELAWARE has arrived from Glass House since the date of our last report, and the Lehigh left for Parkersburg yesterday on time. The Monongahela river packets continue to make regular trips to and from Brownsville.
John Shafer, late United States Inspector of Boilers at St. Louis, is now chief engineer of the Great Republic.
Capt. Donaldson telegraphed to the Cincinnati *Commercial* on Friday, that the Great Republic would leave for New Orleans that night with two thousand two hundred tons, and engagements below to fill out.
Wages are very generally offered in Memphis that the Great Republic can and will beat the famous run of the J. M. White, which was accomplished in three days and twenty-three hours from New Orleans to St. Louis.
The Spray arrived at Evansville Tuesday night from Cumberland river, with a full cargo of tobacco for that port. Her officers report the Pike Grove and Tyrone high and dry aground, and the Havana unable to go up.
With regard to the Richmond, the Memphis *Bulletin* says it never did see anything about her that was lovely, and so states when she first appeared at that level, claiming that Louisville never did turn out a steamer that was not "puffed" and overrated to an extent that made her appear simply ridiculous. We saw nothing in the Richmond to admire then, much less do we see it now, and we have ever been ready to stake our pile against her on either the Ruhr or Great Republic.
Capt. L. B. Dunham, says the Louisville *Journal*, who has commanded a score of steamers on the Ohio and Mississippi rivers, has sold on his boat store establishment in this city, and contemplates going back on the river. He will proceed to St. Louis next week to look after a steamer suitable to the Louisville and New Orleans trade.
The H. D. Lee has laid up at Mound City, Illinois, to be repaired and repainted for the fall season. She will have her shafts raised, which will probably increase her speed a mile an hour.
The Louisville *Courier* is very unnecessary to say the least, in regard to the recent run of the Republic, which it pronounces a failure. We believe justice should be done on all occasions, although it may be in conflict with designs. It is a selfish course to pursue to damn a boat because she was not built at Louisville. —*Cincinnati Gazette.*
The Great Republic arrived here on Sunday, bringing a saloon upper her arrival, and her fine band striking up a grand national air, she left New Orleans on Thursday, making this port in five days, sixteen hours and twenty-three minutes, beating the time of the Ruhr and Richmond—that of the former being two days, seventeen hours and eleven minutes, while that of the latter was two days, ninteen hours and thirty-nine minutes. Although simply a business trip, this speed shows conclusively that the Great Republic is fully realizing the expectations of her friends.
In fact, there is little doubt that she will eclipse the speed of any boat between the Crescent City and St. Louis, since the M. M. White, if she does not rival that famous steamer. Taking her gorgeous appointments and unsurpassed accommodations, the experience of her admirable officers, and their great care and prudence, combined with her new acknowledged speed, the Great Republic may be regarded of the highest rank among steamers, and beyond cavil is proud to be ranked as the best steamer afloat, unless the Lee may take precedence.—*Memphis Avalanche.*
We extract the following items from the Cincinnati *Commercial*, of Saturday:
The funeral of the late Geo. Shield took place yesterday morning. The remains were interred in Spring Grove. We are pained to announce the death of the accomplished wife of Captain Geo. D. Hoople, Superintendent of the Memphis and Cincinnati Packet Company. The late Vernon and Kate Fulton, left from St. Louis for Pittsburgh, will be here until there is a rise above 4 feet. The Lewis, Capt. Greenlee, dropped down to the levee yesterday, and is now loading for New Orleans. The Messenger, Capt. Jesse Brain, is now loading for New Orleans. The Tom Greer, 2 left for New Orleans, drawing only four feet, with her hatch tarred to keep out water. John Gray and Jos. Camile. The New York departed for St. Louis, drawing only four feet, and the baby three feet. Pilots—Wm. Smith and Geo. Hancock. Capt. Hugh Campbell and Mr. Geo. O. Hart, clerk of the fast New Orleans packet St. Charles, are at the Burnet House. The St. Charles has laid up for Portland, but will resume her trips shortly, or as soon as business revives.
We were startled while walking down Locust street yesterday by a hale from a well known friend and welcome visitor, with his rich Irish brogue, of our excellent and highly esteemed old friend, Capt. P. G. Tilley, who arrived from New Orleans yesterday. He left New Orleans at half past 4 o'clock Thursday evening, on the street Republic, and arrived at Cairo at 9½ on Monday morning, just three days and eleven hours, having been delayed twelve hours by fog, and stopping and landing, when answered every hail; actual running time three days and four hours. We regret to be obliged to state in his admiration of the Great Republic, and thinks her the greatest and most perfect steamer ever built. Her outfit, her trim, and the gentlemanly bearing of her officers he thinks are unsurpassed, and he believes she will prove herself unequalled in speed. This enthusiastic eulogium from the source it does, we know that Capt. P. O'Riley does not know about a steamboat is not worth knowing.—*Louisville Journal.*
