FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, September 11, 1867.

The New York stock quotations received by Mr. F. R. Mertz, were as follows: Gold, 145¾; Eighty-one bonds, 112; Five Twenties, 1862, 111¾; Five Twenties, 1864 109¾; Five Twenties, 1865, 111¼; 5-20 Consols, 109¾; Seven Thirties, 107¾; Ten Forties, 103¾. Stocks—Erie Railroad, 71¾; Cleveland & Pittsburgh, 69¾; Chicago and Rock Island, 108; Chicago and Northwestern, 77; Chicago and Northwestern preferred, 77¾; Fort Wayne Railroad, 104¼; Michigan Southern Railroad, 85¾; New York Central, 106¾; Reading, 104¾; Western Union Telegraph Co., 44; Ohio and Mississippi Certificates, 29¾. Mining shares—Cardron, 1.90; Gregory, 5.00; Quartz Hill, 1.65; Smith & Parmalee, 8.45; Quicksilver, 37¾. Merchants Union Express Co., 19¾.

Gold opened at 144¾ and under heavy purchases for a rise advanced to 145¾ bid. The foreign exchange demand is on the increase, and 160 is now looked upon as the probable figure within a few days. Government bonds are steady, with no special demand.

The stock market is excited and much higher. New York Central has advanced since yesterday per cent. Reading 9 in two days. Erie 2. Cleveland & Pittsburgh 1½. North Western, common, 1¾; Preferred, 1¾. Rock Island, 1¾; Fort Wayne, ¾. Ohio and Mississippi Certificates, ¾. The old Express stocks have declined, and Merchants Union after being 2¾; is quoted at 19 offered. This undoubtedly is due mainly to the desire of covering short sales by bears, who are unable after the return of some prominent bull operators, to control the market, to the larger earnings of the trunk railroads, and the advance in gold or depreciation of currency. Money, however, is stiffening up, and the advance in stocks will soon be checked by the higher rates of interest.

Mining shares have improved; also, some of the better classes of oil stocks, such as Bennehan Run and United States.

Closing New York quotations received by James T. Brady & Co.:

Cash	144¾

—It is probable that the Secretary of the Treasury will go on with the funding as well as purchase of the second and third series of the seven-thirties without reference to their maturity. If the new five-twenties of 1867 should prove successfully introduced abroad, because they bear January and July coupons, in place of May and November, to which the English and Continental markets have been accustomed, and the preference should continue for the five-twenties of 1862 in the form (now that the 6's are nearly exhausted on this side) which is simply authority under the funding act of March 3, 1865, to increase the May and November issue. At the present market rates the Treasury would make 1¾@1¾ per cent. by this accommodation to foreign buyers, while facilitating the funding of the seven-thirties.

The accumulation of money in the New York market continues unsatisfactorily. The bank statement shows a large gain in deposits, but never these do not wholly represent the ease of money to the brokers in Wall street from private lenders, including a number of large houses connected with England and the Continent. The West is drawing considerable sums in national bank currency from New York, but the supply, thus far, has enabled the bank to meet the demand without entrenching materially upon their greenbacks. The exchanges have not slightly against New York at Chicago, &c., owing to the demand for drafts for railroad and mercantile account.

PETROLEUM—THE PRODUCTION—NEW DEVELOPMENTS—STOCK, SHIPMENTS, CONSUMPTION AND DEMAND FOR THE PRESENT YEAR.

It has occurred to us that an approximation to the correct data, as to exact of the above important points, may be arrived at by closely examining and comparing the statistics we have of 1866 and 1867 to September 1st, adding such information as to present stock and development in the producing regions, as seem most worthy of credit. A much disputed and difficult question to answer satisfactorily is the production. I estimate the product of the Pennsylvania Oil Regions at this date to be not less than a daily average of 13,000 barrels. This production is based upon information obtained from two different persons, neither of them having any interest in the matter except to give me as accurate a statement as it was possible for them to obtain by close personal examination; also, from the following figures, which will demonstrate that allowing for the ordinary wastage, and evaporation incidental to the management of oil wells, 13,00 barrels is not too large an estimate of the daily product.

The stock on hand in the producing regions as taken by parties referred to about the middle of August last, was..... 600,000
The highest estimate of stock in manufacturing, January 1st, 1867, was..... 800,000

Deduct this, shows an increase to September 1, 1867, of..... 200,000
Our exports to August 31, 1867, (nearly all refined) was..... 996,261
Home consumption for the eight months ending August 31, 1867, estimated at half the total consumption of 1866, amounts to..... 577,781

Total is refined..... 2,373,942
Allow for evaporation and leakage in wells, refining and wastage until on board vessel, a yield of 80% gallons refined to 100 gallons crude—to reduce all to crude, we add..... 591,991

Total production, estimating stocks outside—oil regions, equal to that date of last year, (of which there is no doubt) or a daily average production of 13,000 bbls. exclusive of January 1st to Sept. 1, 1867, of..... 3,965,973

There are about two hundred new wells in progress of development; these are mostly on territory thoroughly tested, one half of them will in all probability, prove producing and will make up for any falling off in old wells, and add one to two thousand barrels to present product. The shipments from the oil regions to August 31st this year have been larger than to same date in 1866, to all points except Pittsburgh, where they have fallen off, according to the "Pittsburgh Commercial," reports—43,826 barrels; this is owing to the low stage of water in the Allegheny river for the past sixty days. To Cleveland, the increase has been from 40 to 60 per cent. To Philadelphia, at least 30 per cent. To New York, to September 4th inst., as per the New York "Shipping List" of that date, the arrivals are in excess of same period in 1866, 107,178 barrels. Our stocks at the principal distributing points in this country will not vary materially from what I place them below. The stock in Pittsburgh I arrive at as follows: About the first of January last a very careful stock was taken (in many cases refiners had just made up their accounts, and the figures were exact) the total of crude and refined reduced to crude was..... 382,409
The receipts exclusive of Smith's ferry and other minor points as per Pittsburgh Commercial, to August 31st, were..... 664,724

Total available stock held over and received to August 31st, 1867..... 1,047,133
Shipments to August 31st, assuming all as refined (a portion of which was crude) amounts per railroad manifests to..... 358,431
For year, some shipments may have been overlooked, we add for any possible omissions..... 40,429

Giving a total shipment of..... 412,860
Allowing a yield of 72 per cent. shows a depletion of..... 308,059

Leaving a stock on hand Sept. 1st reduced to crude of..... 417,378
Stock in the Pennsylvania oil regions..... 600,000
Stock in Cleveland as estimated September 1st reduced to crude..... 118,000
Stock in New York, including that held by refiners, not less than..... 100,000
Stock in Philadelphia, including refined in warehouses and crude and refined held by refiners, refined to crude amount to wit:..... 100,000

Total production, estimating stocks outside oil regions, equal to that date of last year, (of which there is no doubt) or a daily average production of 13,000 bbls. exclusive of January 1st to Sept. 1, 1867, of..... 3,965,973
Total..... 3,284,351
Total production, estimating stocks outside oil regions, equal to that date of last year, (of which there is no doubt) or a daily average production of 13,000 bbls. exclusive of January 1st to Sept. 1, 1867, of..... 3,965,973

There is no doubt but the production will equal 13,000 bbls. daily for the next six months, and if the demand for the product continues as it now promises, the production will be taxed to its utmost capacity. This will give our Pittsburgh refineries a constant supply of crude, regardless of low river or ice. With plenty of crude at low prices, the American refiners can compete in the markets of the world. CANNON.

• May well dispute my estimate of stocks in Pittsburgh, and the Oil Regions. Of the latter I am confident my figures are correct, any refineries claimed in Pittsburgh will not materially reduce the surplus.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, WEDNESDAY, September 11, 1867.

CRUDE—The market was more active to-day, under the influence of a stronger feeling of money, and as will be seen by the report of sales, buyers took hold pretty freely, the operations, in the aggregate, reaching over nine thousand barrels. There is no improvement in prices, however, though holders instead of being obliged to make concessions, as was generally expected from the aspect of matters on Tuesday, succeeded in selling without much difficulty, at prices prevailing on Monday, and the sales of the week are unusually large—larger than for some days past. The reported operations were as follows:

4000 bbls	spot, at	15¼c
1000 "	"	15¼c
2000 "	Until Dec. 1st, sellers option	15¼c
2000 "	March and April, seller option	15¼c
40 "	Sandy's Ferry "spot"	15¼c

REFINED—The market for bonded out was also fairly active to-day, the sales reaching eleven thousand barrels, in the aggregate, though prices have undergone no material change. Indeed, in the morning, the market was a little excited, but, in the afternoon, in the absence of advice from Antwerp, a kind of lull seemed to prevail, and neither "bulls" nor "bears" seemed inclined to do anything. The market was much better than many had been led to suppose on Tuesday, when things looked a little "blue," and while, as we have already intimated, no advance was established, there was a pretty good demand at former prices. The reported sales were as follows:

2000 bbls	last four months	23c
1500 "	last three months	23½c
500 "	Nov., Dec. and January	23½c
1000 "	September	23c
1500 "	last three months	23c
500 "	October and November	23½c

TUESDAY EVENING, September 10.

1500 bbls	last three months	23c
500 "	September	23c

OIL SHIPPED EAST BY A. V. R. R.

J. Meyer & Co., 400 bbls refined to Waring, King & Co., Philadelphia.
Lockart & Frew, 100 do do to F. A. Dilworth & Co., Philadelphia.
H. W. G. Tweedie, 125 do do to Maser & Sons, Philadelphia.
Montgomery, Koehler & Co., 50 do do to Waring, King & Co., Philadelphia.

OIL SHIPPED EAST FROM SQUAKE DEPOT.

H. H. Lloyd & Co., 2 bbls refined, to Waring, King & Co., Philadelphia.
Hutchinson Oil Co., 122 do do to L. Wilson, Philadelphia.
J. Miller, 45 do do to Waring, King & Co., Philadelphia.

T. K. Petty, 45 do do to W. G. Warden, Philadelphia.

Cincinnati Markets.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, September 11.—Flour unchanged and firm with a good local and some shipping demand; family, $10@10.50, $9.50; white, $9.50@9.75. Corn unchanged and firm; No 1 old, 97@1.03. Oats in better demand and prices are higher, closing at 62c for No 1. Rye unchanged. Cotton dull; firm at $2.31; holders asking higher prices. Mess pork irregular but firm; sales of 700 bbls at $24.50@25. Bulk meats held firmly at 14@15c, but there was not much done. Bacon held at 16@17¾@18c for shoulders, sides, clear sides and clear rib. Lard advanced to 15¾@16c. Hams firm at 20@22c for sugar cured. Butter firm at 30@35c for fresh; the supply is light. Eggs firm at 19c for fresh. Sugar and Coffee firm and unchanged. Whiskey firm at full prices; 145 buying, and 15¾ selling. The money market is unchanged.

St. Louis Market.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, September 11.—Tobacco firm at $1.55@1.90 for common to choice unstemmed, $2.90@7.85 for choice dressed. Flour firm and fancy brands the highest; other grades unchanged. Wheat advanced $@10c; choice white, $2.30@2.37½, fair to choice red at $1.80@2.27. Corn firm but inactive; quotations are 62@63c for prime to choice. Barley and Rye unchanged. Mess Pork firm at $25. Bacon advanced to 16¾@16c for clear sides, 16@16¼c for shoulders. Lard firm and higher at 15¾@15¾c for tierces, 16@16¼c for kegs. Whiskey quiet at 93@95c. Receipts—Flour 1,845 bbls; wheat 1,717 sacks; corn 1,114 bushels; 1,928 bbls; rye 100 bus.

Louisville Market.

[By Telegraph to the Pittsburgh Gazette.]

LOUISVILLE, September 11.—Tobacco sales of 186 hhds of leaf, the market is dropping and 40@c lower; the demand is fair. Flour dull and lower; sales of 300 bbls. Corn scarce and higher for superfine; 10@15c for No. 1. Wheat scarce at $2@2.25. Corn shelled $1.15. Oats, Sugar firm. Mess Pork $25. Bacon, smoulders 15c; clear rib sides 16¼c; clear sides 16¾c; fancy hams 22½c, packed. Lard 15@15½c in tierces. Raw Whisky in bond $2.22. Cotton $40.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, September 11.—The Dry Goods business is somewhat quiet, but the prices are well sustained under the advance in gold. Still heavy Sheetings and 4-4 yard goods have a declining tendency in view of the heaviness in Cotton. Best unbleached Muslins steady at 17½, and seconds 16@17, while 4-4 yard Sheetings are selling at 19½@19. Brown Prints and Delaines active and steady.

New Orleans Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW ORLEANS, September 11.—Cotton dull and unsettled; sales of 250 bales low middling at 30c; receipts, 374 bales. Flour dull; sales of 500 bbls extra, $10.75; choice extra, $11.25. Corn dull and unchanged. Oats dull; sales of 2,000 bushels at 55@60c. Sugar firm; sales of 250 hhds at 11½@12½c. Molasses firm and in fair demand. Hops quiet and unchanged. Pork dull; sales of 500 bbls at $24.50@25. Bacon—shoulders, 15½c; clear sides, 16½@17c. Lard dull; tierces, 15½@16c. Sterling 9@20. New York Exchange 50 per premium.

Chicago Market.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, September 11.—Weather clear and cool. Flour steady and unchanged. Corn quiet and lower for heavy brands of spring corns. Wheat opened lower on account of the receipts, but rallied and closed at $1.85@1.90 for No. 1 and $1.70@1.75 for No. 2. Corn active and lower; $1.03@1.04½ for No. 1 and 1.01@1.02½ for No. 2. Oats steady at 40@40½ for No. 1 and $1.01½ for No. 2. Oats firm at 31@31½ for No. 1 and $1@1½ for No. 2. Rye dull at $1.15@1.18 for No. 1. Barley nominally at $1.15@1.18. Mess pork firm at $24.50@25. Lard 15@15½c. Receipts—19,000 bbls. flour, 146,000 bus. Wheat, 51,000 bus. corn, 43,000 bus. oats. Shipments—10,000 bbls. flour, 190,000 bus. Wheat, 17,000 bus. corn and 2,000 bus. oats. Freights active and 1 cent higher; 15c for corn and 16c for wheat.

Cleveland Market.

[By Telegraph to the Pittsburgh Gazette.]

CLEVELAND, September 11.—Flour is very firm, at an advance of 25c per barrel; double extra red winter, $10.75@11; double extra amber, $11.75@12; double extra white, $12@12.50. Wheat firm and active; sales of white at $2.30@2.35; amber No 1, $2.25; No 2, $2.15@2.17; No 1 white Mediterranean, $2.30; amber, $2.25. Corn firm and good demand; sales of 1,000 bushels at 97c; No 1 mixed at 91@92c; inferior in no inquiry for No 2. Oats is in good demand and firm; sales of 1,000 bushels at 60c; No 1 in store, Rye is scarce and firm; sales of 500 bushels at $2.05@2.10. Barley is steady and unchanged; sales of 1,000 bushels at $1.60@1.70 for No 1. The Petroleum market is dull and lower; sales of 1,000 bbls at 17@18c for prime; light straw to white, and 14@20c for standard white.

Toledo Market.

[By Telegraph to the Pittsburgh Gazette]

TOLEDO, September 11.—Flour receipts quiet; sales of 1,200 bbls. Wheat receipts sales of 32,700 bushels—30 lower; amber sales of white Michigan at $2.35. Amber opened at $2.27, and closed at $2.28; sales of all sorts at 25,000@22. Corn receipts; sales of 16,007 bushels at 1c lower; sales of No. 1 at $1.12@1.13 for No. 2 do, $1.11. Oats receipts; sales of No. 1 at 1c lower; sales of No. 1 $1@1½c for all the month at 80c. Rye $1.02 for No. 2. Barley $1.10 for No. 2. Freights dull and nominal at 6c on Corn to Oswego, 7c on Oswego Rye Corn, and 4c on Wheat by steamer to Buffalo.

Milwaukee Market.

[By Telegraph to the Pittsburgh Gazette.]

MILWAUKEE, September 11.—Flour dull and firm; City Mills extra at $9.75@10; country do $9@9.25; extra $8.50@8.75. Wheat unsettled and lower; sales at $1.85 for No. 1, $1.76½ for No. 2, and $1.67 for No. 3. Corn firm at 70c for No. 1. Oats firm at 40c. Corn dull and lower at $1.03 for No. 1 old. Oats firm at 38c for No. 1. Barley dull and lower; Receipts—2,000 bbls flour, 3,000 bushels wheat, 7,000 bush corn, 10,000 bush oats. Shipments—8,000 bbls flour, 24,000 bush wheat, 17,000 bush oats.

Financial Matters in New York,
Gold Closed at 145¾@145¾.

[By Telegraph to the Pittsburgh Gazette.]
NEW YORK, September 11, 1867.

MEDICAL.

CONSUMPTION!

It would take a man a lifetime to read the treatises that have been written upon this important subject, and if a sick man were to attempt it he would make himself worse by the reading, and die before he got half through. The symptoms of the disease are, hacking cough, expectoration of matter or pus, pain in one or both lungs, chilliness, burning in the palms of the hands and soles of the feet, exhausting day or night sweats, hectic fever, wasting of flesh or marasmus, sometimes expectoration of blood. These are the usual outward symptoms, apparent not only to the observing physician, but to the patient's friends. There are, however, more important symptoms than these, which are only made manifest by auscultation and percussion, terms which mean, in a medical sense, thumping and listening and they are employed outwardly in order to ascertain what is going on inside of the cavity of the chest. The signs of symptoms alluded in this way are almost surely demonstrate the true and exact condition of the respiratory organs. A perfect auscultator can not fail in ascertaining whether the Lungs are acting naturally or not. Hence it is the best method of examining the lungs. Their actual condition once discovered, the appropriate treatment is more rapidly arrived at, and every diseased part more completely under the influence of appropriate remedies. We have long been of the opinion that consumption or decay, or wasting of the bodily strength, was dependent on a depraved state of the blood, which carries, in its course, tuberculous matter, and deposits it in the lungs, or elsewhere in the body, just as calcareous stone is deposited in the bladder, a small particle of which attracts other particles, until it becomes of such offense to the natural functions as to bring on inflammatory action, which abates, if it could, would carry it out of the system, and which could have been easily done in the beginning of such disease. DR. KEYSER'S PECTORAL SYRUP is a complete and perfect cure in the forming stage of lung disease. It acts on the very principle we have stated above, by enabling the securing or carrying off organs to do a double share of work. Waste and repair are easily comprehended. If the worn out material be carried off, and renewing material a proper character, the cure is health and ease, the contrary of sickness and dis-ease. In many cases of consumption which have become settled, Dr. Keyser's Pectoral Syrup fails to cure, although it will do good in nearly all. He prepares a medicine called LUNG CURE or PULMONARY RESTORATIVE, which is a great tonic, and strengthens and restores the parts to be renewed, while it dissolves and carries out from the body those particles of worn out or extraneous matter, which only tend to clog or destroy it, by their being the renewed material being deposited in proper place.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No. 18 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my night and gradually undermining my health. During this attack pleurisy I had several physicians of the highest reputation in the city. After I had partially recover d from the pleurisy, I was advised to go into the country, which I did, and when there called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I listened on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, as having heard of cures made by DR. KEYSER, and seeing his advertisements in the newspapers, I was induced in October last to call on the Doctor at his office, 180 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper one of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicine, I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and got to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and attended faithfully until the present time. My cough and medicine helped me from the very start, and I could gradually feel myself recline strength and my cough and expectoration decrease. I have gained greatly in flesh, and consider myself well; still the raising of my lungs not ceased. Of my general health is every way improved. My relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE, which I took in connection with the Pectoral Syrup. GEORGE FORD.

PITTSBURGH, March 27, 1867.

ANOTHER CURE OF CONSUMPTION.

STATEMENT OF JOHN G. WIGHAM, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army January, 1866, on account of a wound in the head, from a shell, and a disease of the lungs, from which physicians pronounced CONSUMPTION. I was a cripple, and so full away in strength as to be unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, after waiting, to another in Pittsburgh, both of whom, whose remedies I used faithfully for five or more weeks, without any benefit whatever; but rather a decided injury to me. I was growing weaker every day. In August, 1866, my mother took me to DOCTOR KEYSER, of the Penn street, whose bill is such cases like mine had been cured by the use of and put myself under his treatment. He Doc. examined my lungs very carefully with his LUNG SOUND, and told me I was very low and long was badly diseased at the upper part, but if I was careful to follow his directions and by following his directions closely, which I do now that day to this. I gradually improved under Dr. Keyser's medicines from the time I commenced to take them, and my general health has improved, and my chest, where it was sunk in away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.

JOHN G. WIGHAM, Turtle Creek.
PITTSBURGH, April 11th, 1867.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP:

DR. KEYSER—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this TORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that need the medicine my ill taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman, Fifth Ward.

Our son, JAMES PAINTER, some three years ago was afflicted with consumption of the lungs, for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to Dr. KEYSER, 180 Wood street, (now 180 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in his manner can likewise be cured.

JAMES PAINTER.
MARY ANN PAINTER.
Temperanceville, Sept. 4th, 1866.

DR. KEYSER'S PECTORAL SYRUP AND KEYSER'S LUNG CURE.

Can be had at his GREAT MEDICINE STORE, 180 WOOD STREET. Consultation room, No. 180 Penn street, 120 PENN STREET, from 10 A.M. until 4 P. M.
