Report of the Committee of Cases submitted to the Medicated Vapor Bath, in Washington City,

THE Committee appointed to superintend the use of the Bath in this city conceive that the time is arrived when they ought to report more fully to the public what they have now learned from experience and observation of the real use and efficacy of the Bath. They will detail nothing but facts which have came within their own knowledge. Since the bath was opened it has been used by all ages from 7 years to 70 and we believe in all cases it has been useful but the most numerous class of cases in which it has afforded almost immediate relief and in some complete cure, are those of recent colds, rheumatism, inflamed eyes, eruptions of the skin, scrofulous swellings, and general debility. A considerable number of patients whose eyes were so diseased that they had been compelled to abandon their usual avocations for many weeks and who had been subjected to every other mode of treatment without receiving any relief have been effectually cured by the bath in some cases by three times using it and in others six or eight times.—It has a remarkable effect of clearing the skin from troublesome eruptions and gives it a softness and freshness that is a striking indication of improved health. Transportation Lines.

AMERICAN PORTABLE BOAT LINE,
For the transportation of
MERCHANDIZE AND PRODUCE
BETWEEN
PITTSBURGH AND PHILADELPHIA, PITTSBURGH AND BALTIMORE,
AND
NEW YORK AND BOSTON.

THE PROPRIETORS RESPECTFULLY inform their friends and shippers generally, that they have changed the name of their Transportation Line, from the United States Portable Boat Line, to the American Portable Boat Line.

This line is composed of twenty-five new Four Section Portable Boats, one of which will depart daily from Pittsburgh, Philadelphia and Baltimore.

The superiority and advantages of the Portable Boat over every other mode of transportation are too well known to shippers generally to require comment: suffice it to say, that the detention, loss, separation and damage to Goods, invariably attending three: rail shipments between Pittsburgh and Philadelphia, are by the Portable Boats most effectually removed.

To give undoubted security to owners and shippers, all goods and produce shipped by this line will be insured in a responsible office in Philadelphia, without any additional charge to the owners.

Merchandise shipped by this line in any of the eastern cities, and consigned to H Devine & Co, will be forwarded immediately on arrival at Pittsburgh to any part of the west, free of commissions.

H. Devine will receive produce consigned to him, pay steamboat freight and charges, and forward the same to any of the eastern cities, and charge no commissions for storage, advancing or forwarding. Any communications or goods directed to the care of the undersigned Agents will be promptly attended to.

C. A. McANULTY'S
UNITED STATES
PORTABLE BOAT LINE

For the transportation of Merchandize to and from PITTSBURGH, BALTIMORE, PHILADELPHIA, NEW YORK AND BOSTON.

THE success this line has met with, since it was first established on the "Individual Enterprise" system, has induced the proprietors to increase the number of Boats during the winter to twenty-five, one of which will leave Pittsburgh, Philadelphia and Baltimore every day (except Sundays) during the season, and make the trip through in six days.

The superiority and advantages of the Portable Boat System over every other mode of transportation (when canals intersect with rail roads) are too well known to shippers by this route generally to require any comment.

Shippers can rely on having their produce, merchandize, or goods of any kind that may be consigned to the Agents of this Line, forwarded with dispatch and at the very lowest rate of freight charged by other Lines, without any additional charge made for receiving or advancing charges, &c
